THE FINISH LINE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. Summary of Significant Accounting Policies

Basis of Presentation. The accompanying unaudited consolidated financial statements of The Finish Line, Inc., along with its consolidated subsidiaries (individually and collectively referred to as the “Company”), have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by GAAP for complete financial statements. Preparation of the financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair presentation, have been included. All intercompany transactions and balances have been eliminated.

The Company has experienced, and expects to continue to experience, significant variability in sales, net income, and merchandise inventories from reporting period to reporting period. Therefore, the results of the interim periods presented herein are not necessarily indicative of the results to be expected for any other interim period or the full year.

These financial statements should be read in conjunction with the financial statements and notes thereto contained in the Company’s Annual Report on Form 10-K for the year ended February 28, 2015 (“fiscal 2015”), as filed with the Securities and Exchange Commission (“SEC”) on April 29, 2015.

Segment Information. The Company is a premium retailer of athletic shoes, apparel, and accessories for men, women, and kids, throughout the United States and Puerto Rico, through multiple operating segments. The Company’s operating segments have similar economic characteristics, which include a similar nature of products sold, type of customer, and method of distribution. As such, the Company’s operating segments are aggregated into one reportable segment. The following table sets forth net sales of the Company by major category for each of the following periods (in thousands):

Category	Thirteen Weeks Ended

Recent Accounting Pronouncements. In April 2015, the Financial Accounting Standards Board (“FASB”) issued guidance on accounting for fees paid in cloud computing arrangements, which provides guidance to assist entities in determining whether a cloud computing arrangement contains a software license. The guidance states that if a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract and account for related costs in accordance with existing applicable U.S. GAAP. This guidance is effective for annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2015. Early adoption is permitted. The Company is currently evaluating the impact of this guidance on its consolidated financial position, results of operations, and cash flows.

In May 2014, the FASB issued guidance on revenue from contracts with customers. The guidance outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The guidance requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration the entity expects to be entitled to in exchange for those goods or services. In July 2015, the FASB approved a one year deferral of the effective date, to make it effective for annual or interim reporting periods beginning after December 15, 2017. The guidance allows for either a full retrospective or a modified retrospective transition method. The Company is currently assessing the new guidance and its potential impact to its consolidated results of operations, financial position, and cash flows.

In July 2015, the FASB issued guidance on simplifying the measurement of inventory. The guidance, which applies to inventory that is measured using any method other than the last-in, first-out (LIFO) or retail inventory method, requires that entities measure inventory at the lower of cost or net realizable value. The guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016 and should be applied on a prospective basis. The Company is currently assessing the potential impact of adopting this guidance, but does not, at this time, anticipate a material impact to its consolidated results of operations, financial position, or cash flows.

Other recently issued accounting guidance did not, or are not believed by management to have a material effect on the Company's present or future consolidated results of operations, financial position, or cash flows.

2. Acquisitions and Goodwill

During the twenty-six weeks ended August 29, 2015, the Company completed one immaterial acquisition of assets for total consideration of \$8.9 million. The entity from which the assets were acquired operated four specialty running stores in New York. In connection with this acquisition, the Company recorded goodwill of \$9.1 million. Goodwill is deductible for U.S. federal income tax purposes.

The Company allocated the aggregated preliminary purchase price for the acquisition based upon the tangible and intangible assets acquired, net of liabilities. The allocation of the preliminary purchase price is detailed below (in thousands):

	Allocation of Preliminary Purchase Price
Goodwill	\$9,136
Tangible assets, net of liabilities	(205)
Total purchase price	\$8,931

During fiscal 2015, the Company completed seven individually immaterial acquisitions of assets for total consideration of \$11.4 million, net of cash acquired. A component of the consideration for two of the transactions included contingent consideration with an estimated fair value of \$0.7 million, which was included within other liabilities and accrued expenses on the consolidated balance sheets. The Company determined the estimated fair values based on discounted cash flow analyses and estimates made by management. The entities from which the assets were acquired operated 20 specialty running stores in Colorado, Indiana, Kansas, Michigan, Missouri, North Carolina, and Utah. In connection with these acquisitions, the Company recorded goodwill of \$9.7 million.

During the twenty-six weeks ended August 29, 2015, the Company made the final working capital payments for two of the fiscal 2015 acquisitions, which did not have a material effect on the preliminary purchase price allocation. The Company allocated the aggregated preliminary purchase prices based upon the tangible and intangible assets acquired, net of liabilities. The allocation of the preliminary purchase prices for the fiscal 2015 acquisitions is detailed below (in thousands):

	Allocation of Purchase Price
Goodwill	\$9,719
Tangible assets, net of liabilities	1,699
Total purchase price	\$11,418

A reconciliation of goodwill is detailed below (in thousands):

	Goodwill
Balance as of March 1, 2014	\$25,608
Acquisitions	9,067
Other	44
Balance as of February 28, 2015	34,719
Acquisitions	9,136
Other	652
Balance as of August 29, 2015	\$44,507

3. Fair Value Measurements

Fair value measurements are determined based upon the exit price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants exclusive of any transaction costs. The Company utilizes a fair value hierarchy based upon the observability of inputs used in valuation techniques as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs in which there is little or no market data, which require the Company to develop its own assumptions.

The following table provides a summary of the recognized assets and liabilities that are measured at fair value on a recurring basis (in thousands):

	August 29, 2015			August 30, 2014			February 28, 2015		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Assets:									
Non-qualified deferred compensation plan	\$6,102	\$—	\$—	\$6,279	\$—	\$—	\$6,424	\$—	\$—
Liabilities:									
Contingent consideration liabilities	\$—	\$—	\$420	\$—	\$—	\$800	\$—	\$—	\$650

Included in Level 1 assets are mutual fund investments under a non-qualified deferred compensation plan. The Company estimates the fair value of these investments on a recurring basis using readily available market prices. Included in Level 3 liabilities are the contingent consideration liabilities related to the Company's acquisitions. The liabilities are adjusted to fair value each reporting period. The categorization of the framework used to price the

liabilities is considered Level 3, due to the subjective nature of the unobservable inputs used to determine the fair value.

8

There were no transfers into or out of Level 1, Level 2, or Level 3 assets or liabilities for any of the periods presented.

Level 3 Valuation Techniques

Financial assets and liabilities are considered Level 3 when their fair values are determined using pricing models, discounted cash flow methodologies, or similar techniques and at least one significant model assumption or input is unobservable.

The following table provides a reconciliation of the Company's Level 3 contingent consideration liabilities during the twenty-six weeks ended August 29, 2015 (in thousands):

	Level 3 Liabilities
Balance as of February 28, 2015	\$650
Contingent consideration from acquisition	120
Settlement of contingent consideration	(350)
Balance as of August 29, 2015	\$420

The Company has certain assets that are measured at fair value on a non-recurring basis and are adjusted to fair value under certain circumstances that include those described in Note 7, Impairment Charges and Store Closing Costs. The categorization used to price the assets is considered a Level 3 measurement due to the subjective nature of the unobservable inputs used to determine the fair value.

Additionally, in connection with the acquisitions and purchase price allocations that are described in Note 2, Acquisitions and Goodwill, the Company recognized the acquired assets and liabilities at fair value. All amounts are recognized as Level 3 measurements due to the subjective nature of the unobservable inputs used to determine the fair values.

4. Debt Agreement

On November 30, 2012, the Company entered into an unsecured \$100 million Amended and Restated Revolving Credit Facility Credit Agreement (the "Amended Credit Agreement") with certain Lenders, which expires on November 30, 2017. The Amended Credit Agreement provides that, under certain circumstances, the Company may increase the maximum amount of the credit facility in an aggregate principal amount not to exceed \$200 million. The Amended Credit Agreement is used by the Company, among other things, to issue letters of credit, support working capital needs, fund capital expenditures, and for other general corporate purposes.

Approximately \$1.6 million in stand-by letters of credit were outstanding as of August 29, 2015 under the Amended Credit Agreement. No advances were outstanding under the Amended Credit Agreement as of August 29, 2015. Accordingly, the total revolving credit availability under the Amended Credit Agreement was \$98.4 million as of August 29, 2015.

The Company's ability to borrow monies in the future under the Amended Credit Agreement is subject to certain conditions, including compliance with certain covenants and making certain representations and warranties. The Amended Credit Agreement contains restrictive covenants that limit, among other things, mergers and acquisitions. In addition, the Company must maintain a maximum leverage ratio (as defined in the Amended Credit Agreement) and minimum consolidated tangible net worth (as defined in the Amended Credit Agreement). The Company was in compliance with all such covenants as of August 29, 2015.

The Amended Credit Agreement pricing grid is adjusted quarterly and is based on the Company's leverage ratio (as defined in the Amended Credit Agreement). The minimum pricing is LIBOR plus 0.90% or Base Rate (as defined in the Amended Credit Agreement) and the maximum pricing is LIBOR plus 1.75% or Base Rate plus 0.75%. The Company is subject to an unused commitment fee based on the Company's leverage ratio with minimum pricing of 0.10% and maximum pricing of 0.25%. In addition, the Company is subject to a letter of credit fee based on the Company's leverage ratio with minimum pricing of 0.40% and maximum pricing of 1.25%.

5. Earnings Per Share

Basic earnings per share attributable to The Finish Line, Inc. shareholders is calculated by dividing net income attributable to The Finish Line, Inc. associated with common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share attributable to The Finish Line, Inc.

shareholders assumes the issuance of additional shares of common stock by the Company upon exercise of all outstanding stock options and contingently

9

issuable securities if the effect is dilutive, in accordance with the treasury stock method or two-class method (whichever is more dilutive) discussed in Accounting Standards Codification (“ASC”) 260-10, Earnings Per Share. ASC 260-10 requires the inclusion of restricted stock as participating securities, since they have the right to share in dividends, if declared, equally with common shares. During periods of net income, participating securities are allocated a proportional share of net income attributable to The Finish Line, Inc. determined by dividing total weighted average participating securities by the sum of total weighted average common shares and participating securities (“the two-class method”). During periods of net loss, no effect is given to participating securities since they do not share in the losses of the Company. Participating securities have the effect of diluting both basic and diluted earnings per share during periods of net income.

The following is a reconciliation of the numerators and denominators used in computing earnings per share (in thousands, except per share amounts):

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	August 29, 2015	August 30, 2014	August 29, 2015	August 30, 2014
Net income attributable to The Finish Line, Inc.	\$25,902	\$26,157	\$39,691	\$38,592
Net income attributable to The Finish Line, Inc. attributable to participating securities	311	317	476	466
Net income attributable to The Finish Line, Inc. available to common shareholders	\$25,591	\$25,840	\$39,215	\$38,126
Basic earnings per share attributable to The Finish Line, Inc. shareholders:				
Weighted-average number of common shares outstanding	44,866	47,789	45,151	47,859
Basic earnings per share attributable to The Finish Line, Inc. shareholders	\$0.57	\$0.54	\$0.87	\$0.80
Diluted earnings per share attributable to The Finish Line, Inc. shareholders:				
Weighted-average number of common shares outstanding	44,866	47,789	45,151	47,859
Dilutive effect of potential common shares(a)	341	413	312	422
Diluted weighted-average number of common shares outstanding	45,207	48,202	45,463	48,281
Diluted earnings per share attributable to The Finish Line, Inc. shareholders	\$0.57	\$0.54	\$0.86	\$0.79

The computation of diluted earnings per share attributable to The Finish Line, Inc. shareholders excludes options to purchase approximately 1.3 million and 0.7 million shares of common stock in the thirteen weeks ended August 29, (a)2015 and August 30, 2014, respectively, and 1.3 million and 0.6 million shares of common stock in the twenty-six weeks ended August 29, 2015 and August 30, 2014, respectively, because the impact of such options would have been anti-dilutive.

6. Common Stock

On July 21, 2011, the Company’s Board of Directors authorized a share repurchase program (the “2011 Share Repurchase Program”) to repurchase up to 5,000,000 shares of the Company’s common stock outstanding through December 31, 2014. On January 3, 2013, the Company’s Board of Directors amended the 2011 Share Repurchase Program (the “2013 Amended Program”) and authorized the repurchase of an additional 5,000,000 shares of the Company’s common stock, which authorization shall expire on December 31, 2017. On March 26, 2015, the Company’s Board of Directors amended the 2013 Amended Program (the “2015 Amended Program”) and authorized the repurchase of an additional 5,000,000 shares of the Company’s common stock, which authorization shall expire on December 31, 2018.

The Company purchased 1,416,667 shares at an average price of \$25.36 per share for an aggregate amount of \$35.9 million during the twenty-six weeks ended August 29, 2015. As of August 29, 2015, there were 4,787,836 shares remaining available to repurchase under the 2015 Amended Program.

As of August 29, 2015, the Company held 14,912,977 shares of its common stock as treasury shares at an average price of \$20.50 per share for an aggregate carrying amount of \$305.7 million. The Company's treasury shares may be issued upon the exercise of employee stock options, under the Employee Stock Purchase Plan, in the form of restricted stock, or for other corporate purposes. The number of shares of common stock reserved to be issued upon the exercise of options, restricted stock, or other awards is limited as defined in the 2002 Stock Incentive Plan of The Finish Line, Inc. (the "2002 Incentive Plan") and The Finish Line, Inc. Amended and Restated 2009 Incentive Plan (the "Amended 2009 Incentive Plan"). Further purchases will occur from time to time as market conditions warrant and as the Company deems appropriate when judged against other alternative uses of cash.

On July 16, 2015, the Company announced a quarterly cash dividend of \$0.09 per share of the Company's common stock. The Company declared dividends of \$8.2 million during the twenty-six weeks ended August 29, 2015, of which \$4.1 million was included in other liabilities and accrued expenses on the Company's consolidated balance sheet as of August 29, 2015. Further declarations of dividends remain at the discretion of the Company's Board of Directors.

7. Impairment Charges and Store Closing Costs

During the twenty-six weeks ended August 29, 2015, the Company recorded \$0.3 million in store closing costs, which represents the non-cash write-off of fixtures and equipment upon a store or shop within a department store closing. The \$2.7 million in impairment charges and store closing costs that were recorded during the twenty-six weeks ended August 30, 2014 were primarily the result of a \$2.1 million charge for the write-off of tangible and indefinite-lived intangible assets related to one of the Company's websites, as the Company determined that the website was no longer going to be used for its originally intended purpose. The asset impairment charges were calculated as the difference between the carrying amount of the impaired assets and their estimated future discounted cash flows. Additionally, the Company recorded \$0.4 million in store closing costs during the twenty-six weeks ended August 30, 2014.

8. Commitments and Contingencies

The Company is subject, from time to time, to certain legal proceedings and claims in the ordinary course of conducting its business. The Company establishes a liability related to its legal proceedings and claims when it has determined that it is probable that the Company has incurred a liability and the related amount can be reasonably estimated. If the Company determines that an obligation is reasonably possible, the Company will, if material, disclose the nature of the loss contingency and the estimated range of possible loss, or include a statement that no estimate of loss can be made. The Company believes there are no pending legal proceedings in which the Company is currently involved which will have a material adverse effect on the Company's financial position, results of operations, or cash flows.

9. Equity Compensation

General

Total share-based compensation expense for both the twenty-six weeks ended August 29, 2015 and August 30, 2014 was \$4.2 million.

Stock Option Activity

Stock options have been granted to non-employee directors, officers, and other key employees. Generally, options outstanding under the 2002 and Amended 2009 Incentive Plans are exercisable at a price equal to the fair market value on the date of grant, vest over four years, and expire ten years after the date of grant. During the twenty-six weeks ended August 29, 2015 and August 30, 2014, the Company granted approximately 762,000 and 684,000 options, respectively. The estimated weighted-average fair value of the individual options granted during the twenty-six weeks ended August 29, 2015 and August 30, 2014, was \$6.57 and \$8.58, respectively, on the date of the grant. The fair values for all options were determined using a Black-Scholes option-pricing model with the following weighted average assumptions:

	Twenty-Six Weeks Ended		
	August 29, 2015	August 30, 2014	
Dividend yield	1.5	% 1.2	%
Volatility	33.4	% 36.9	%
Risk-free interest rate	1.4	% 1.7	%
Expected life	5.0 years	5.0 years	

The dividend yield assumption is based on the Company's history and expectation of dividend payouts. The expected volatility assumption is based on the Company's analysis of historical volatility. The risk-free interest rate assumption is based upon the average daily closing rates during the period for U.S. treasury notes that have a life which approximates the expected life of the option. The expected life of employee stock options represents the weighted-average period the stock options are expected to remain outstanding based on historical exercise experience. As of August 29, 2015, there was \$9.0 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested options. That expense is expected to be recognized over a weighted average period of 1.8 years.

Restricted Stock Activity

The Company has granted to non-employee directors, officers, and other key employees shares of the Company's common stock that are subject to restrictions. The restricted stock granted to employees under the 2002 and Amended 2009 Incentive Plans either vest upon the achievement of specified levels of profitability growth over a three-year period or cliff-vest after a three-year period. For performance-based awards, should the profitability criteria not be met over the three-year period, the shares will be forfeited. All restricted stock awards issued to non-employee directors cliff-vest after a one-year period from the grant date. During the twenty-six weeks ended August 29, 2015 and August 30, 2014, the Company granted approximately 208,000 and 208,000 restricted shares, respectively. As of August 29, 2015, there was \$7.8 million of total unrecognized compensation expense, net of estimated forfeitures, related to nonvested restricted stock. That expense is expected to be recognized over a weighted average period of 1.9 years.

10. Redeemable Noncontrolling Interest

On March 29, 2012, GCPI SR LLC ("GCPI") made a \$10.0 million strategic investment in Running Specialty, though the Company remained the majority owner. GCPI had the right to "put" and the Company had the right to "call" after March 4, 2017, under certain circumstances, GCPI's interest in Running Specialty at an agreed upon price approximating fair value. Also, as part of the transaction, GCPI issued to the Company a \$4.0 million related-party promissory note (the "Promissory Note"), which was collateralized with GCPI's interest in Running Specialty, due March 31, 2021 or earlier depending on certain stipulated events in the control of GCPI.

On April 25, 2014, the Company entered into a Membership Interest Purchase Agreement ("Membership Agreement") with GCPI to increase the Company's ownership in Running Specialty for a purchase price of \$10.5 million. The Company paid GCPI \$9.0 million of the purchase price in cash at closing after deducting the \$4.1 million balance of the Promissory Note that was due from GCPI to the Company. The remaining \$1.5 million purchase price is due to GCPI upon the earlier of April 30, 2017 or the date of liquidation or consummation of a sale of Running Specialty. The balance of the \$1.5 million liability is included in other long-term liabilities on the consolidated balance sheets. In addition, the Membership Agreement provided an additional "put" to GCPI and "call" to the Company of GCPI's interest

in Running Specialty for \$1.0 million commencing on April 25, 2015 and ending on June 30, 2015, which was exercised by GCPI on June 29, 2015 and closed on July 31, 2015. After the closing of the purchase on July 31, 2015, Running Specialty is now wholly owned by the Company.

The redeemable noncontrolling interest was classified as mezzanine equity and measured at the greater of estimated fair value at the end of each reporting period or the historical cost basis of the redeemable noncontrolling interest, net of the Promissory Note and related accrued interest and adjusted for cumulative earnings or loss allocations. The resulting increases or decreases in the estimated redemption amount were affected by corresponding charges against retained earnings, or in the absence of retained earnings, additional paid-in capital. The redeemable noncontrolling interest was always measured at historical cost basis.

A rollforward of redeemable noncontrolling interest, net, is detailed below (in thousands):

Finish Line comparable store sales increase	1.5	%	1.5	%	3.4	%	3.1	%
Running Specialty comparable store sales decrease	(4.0)%	N/A		(3.7)%	N/A	

Net sales increased 3.5% for the thirteen weeks ended August 29, 2015 compared to the thirteen weeks ended August 30, 2014. The increase was attributable to a Finish Line comparable store sales increase of 1.5%, an increase in shops within department stores sales of 21.6%, primarily due to increased shop count, and an increase in Running Specialty sales of 27.0%, primarily due to increased store count, offset partially by a decrease in net sales resulting from a net decrease in Finish Line store count for the thirteen weeks ended August 29, 2015 compared to the thirteen weeks ended August 30, 2014. The Finish Line comparable store sales increase of 1.5% was due to an increase in average dollar per transaction and digital traffic, partially offset by a decrease in store conversion, store traffic, and digital conversion.

Consolidated footwear sales increased 3.5% for the thirteen weeks ended August 29, 2015 compared to the thirteen weeks ended August 30, 2014, which was primarily driven by percentage increases in the low single digits in men's, mid teens in women's, and mid single digits in kids' footwear sales. Consolidated softgoods sales increased 3.6% for the thirteen weeks ended August 29, 2015 compared to the thirteen weeks ended August 30, 2014.

Net sales increased 6.1% for the twenty-six weeks ended August 29, 2015 compared to the twenty-six weeks ended August 30, 2014. The increase was attributable to a Finish Line comparable store sales increase of 3.4%, an increase in shops within department stores sales of 28.2%, primarily due to increased shop count, and an increase in Running Specialty sales of 32.5%, primarily due to increased store count, offset partially by a decrease in net sales resulting from a net decrease in Finish Line store count for the twenty-six weeks ended August 29, 2015 compared to the twenty-six weeks ended August 30, 2014. The Finish Line comparable store sales increase of 3.4% was due to an increase in average dollar per transaction, digital traffic, and digital conversion, partially offset by a decrease in store conversion and store traffic.

Consolidated footwear sales increased 6.0% for the twenty-six weeks ended August 29, 2015 compared to the twenty-six weeks ended August 30, 2014, which was primarily driven by percentage increases in the mid single digits in men's, high teens in women's, and mid single digits in kids' footwear sales. Consolidated softgoods sales increased 6.5% for the twenty-six weeks ended August 29, 2015 compared to the twenty-six weeks ended August 30, 2014.

Gross profit as a percentage of net sales	33.0	% 33.2	% 32.2	% 32.5	%

The 0.2% decrease in gross profit, as a percentage of net sales, for the thirteen weeks ended August 29, 2015 as compared to the thirteen weeks ended August 30, 2014, was primarily due to a 0.3% increase in occupancy costs, as a percentage of net sales, partially offset by a 0.1% increase in product margin. The 0.3% increase in occupancy costs, as a percentage of net sales, was primarily due to deleveraging against the comparable store sales increase. The 0.1% increase in product margin, net of shrink, as a percentage of net sales, was primarily the result of being slightly less promotional, partially offset by higher shrink in the thirteen weeks ended August 29, 2015 compared to the thirteen weeks ended August 30, 2014.

The 0.3% decrease in gross profit, as a percentage of net sales, for the twenty-six weeks ended August 29, 2015 as compared to the twenty-six weeks ended August 30, 2014, was primarily due to a 0.3% increase in occupancy costs, as a percentage of net sales. The 0.3% increase in occupancy costs, as a percentage of net sales, was primarily due to deleveraging against the comparable store sales increase.

Selling, General, and Administrative Expenses

Diluted earnings per share attributable to The Finish Line, Inc. shareholders	\$0.57	\$0.54	\$0.86	\$0.79	

The \$0.3 million decrease in net income attributable to The Finish Line, Inc. for the thirteen weeks ended August 29, 2015 compared to the thirteen weeks ended August 30, 2014 was primarily due to a decrease in gross profit as a percentage of net sales and the increase in selling, general, and administrative expenses to support the increase in sales and shops within department stores and Running Specialty in the current year, partially offset by the increase in net sales and the decrease in impairment charges.

The \$1.1 million increase in net income attributable to The Finish Line, Inc. for the twenty-six weeks ended August 29, 2015 compared to the twenty-six weeks ended August 30, 2014 was primarily due to the increase in net sales and the decrease in impairment charges, which were partially offset by a decrease in gross profit as a percentage of net sales and the increase in selling, general, and administrative expenses to support the increase in sales in shops within department stores and Running Specialty in the current year.

Liquidity and Capital Resources

The Company's primary source of working capital is cash-on-hand and cash flows from operations. The following table sets forth material balance sheet and liquidity measures of the Company (in thousands):

	August 29, 2015	August 30, 2014	February 28, 2015
Cash and cash equivalents	\$100,234	\$190,583	\$149,569

Interest-bearing debt	\$—	\$—	\$—
Working capital	\$322,449	\$361,329	\$333,160

Operating Activities

Net cash provided by operating activities for the twenty-six weeks ended August 29, 2015 was \$37.2 million compared to net cash provided by operating activities of \$38.8 million for the twenty-six weeks ended August 30, 2014. The decrease was primarily the result of a decrease in deferred income taxes, impairment charges and store closing costs, and an increase in cash outflow in working capital balances, partially offset by an increase in net income

for the twenty-six weeks ended August 29, 2015 compared to the twenty-six weeks ended August 30, 2014.

20

At August 29, 2015, the Company had cash and cash equivalents of \$100.2 million. Cash and cash equivalents consist primarily of cash on hand and highly liquid instruments with a maturity of three months or less at the date of purchase. At August 29, 2015, substantially all of the Company's cash was invested in deposit accounts at banks.

Merchandise inventories, net, increased 11.0% at August 29, 2015 compared to August 30, 2014, and increased 6.7% from February 28, 2015. The increase in merchandise inventories, net over the prior year quarter is primarily related to a seasonable build due to a later Labor Day which shifted some back to school sales into the third quarter. The increase in merchandise inventories from February 28, 2015 is due to seasonality as the Company increased inventories for the back to school selling season.

Investing Activities

Net cash used in investing activities for the twenty-six weeks ended August 29, 2015 was \$43.3 million compared to \$49.4 million for the twenty-six weeks ended August 30, 2014. The decrease in cash used in investing activities was primarily the result of a \$3.6 million increase in Running Specialty acquisitions, partially offset by an \$8.9 million decrease in capital expenditures in the current year.

The Company intends to invest approximately \$60 million in capital expenditures during the Company's fiscal year 2016. Of this amount, approximately \$25 million is intended for the construction of new brick and mortar stores and the remodeling or repositioning of 65-80 existing brick and mortar stores, including additional brand shops such as Finish Line's Nike Track Club and Brand Jordan, as well as other key brand partnerships for "store-within-store" models. In addition, approximately \$5-8 million is expected to be spent to reposition and expand 75-100 shops within department stores. The remaining \$27-\$30 million to be invested is related primarily to projected capital expenditures for technology investments to support new warehouse management, order management, and Macy's merchandise systems, an upgrade of our digital platform, and enhancements to our customer data and analytics systems. The Company anticipates satisfying all of these capital expenditures through the use of cash-on-hand and operating cash flows.

Financing Activities

Net cash used in financing activities for the twenty-six weeks ended August 29, 2015 was \$43.3 million compared to \$27.9 million for the twenty-six weeks ended August 30, 2014. The \$15.4 million increase in cash used in financing activities was primarily due to a \$13.7 million increase in stock repurchases, \$4.1 million of proceeds from the repayment of a related-party promissory note in the prior year, a \$4.0 million decrease in proceeds from the issuance of common stock, a \$1.4 million decrease in excess tax benefits from share-based compensation, the purchase of redeemable noncontrolling interest of \$1.0 million, and a \$0.5 million increase in dividends paid to shareholders, offset partially by the purchase of redeemable noncontrolling interest of \$9.0 million during the twenty-six weeks ended August 30, 2014.

Share Repurchase Program

On July 21, 2011, the Company's Board of Directors authorized a share repurchase program (the "2011 Share Repurchase Program") to repurchase up to 5,000,000 shares of the Company's common stock outstanding through December 31, 2014. On January 3, 2013, the Company's Board of Directors amended the 2011 Share Repurchase Program (the "2013 Amended Program") and authorized the repurchase of an additional 5,000,000 shares of the Company's common stock, which authorization shall expire on December 31, 2017. On March 26, 2015, the Company's Board of Directors amended the 2013 Amended Program (the "2015 Amended Program") and authorized the repurchase of an additional 5,000,000 shares of the Company's common stock, which authorization shall expire on December 31, 2018.

The Company purchased 1,416,667 shares at an average price of \$25.36 per share for an aggregate amount of \$35.9 million during the twenty-six weeks ended August 29, 2015. As of August 29, 2015, there were 4,787,836 shares remaining available to repurchase under the 2015 Amended Program.

As of August 29, 2015, the Company held 14,912,977 shares of its common stock as treasury shares at an average price of \$20.50 per share for an aggregate carrying amount of \$305.7 million. The Company's treasury shares may be issued upon the exercise of employee stock options, under the Employee Stock Purchase Plan, in the form of restricted stock, or for other corporate purposes. The number of shares of common stock reserved to be issued upon the exercise of options, restricted stock, or other awards is limited as defined in the 2002 Stock Incentive Plan of The Finish Line,

Inc. and The Finish Line, Inc. Amended and Restated 2009 Incentive Plans. Further purchases will occur from time to time as market conditions warrant and as the Company deems appropriate when judged against other alternative uses of cash.

Dividends

On July 16, 2015, the Company announced a quarterly cash dividend of \$0.09 per share of the Company's common stock. The Company declared dividends of \$8.2 million during the twenty-six weeks ended August 29, 2015, of which \$4.1 million was included in other liabilities and accrued expenses on the Company's consolidated balance sheet as of August 29, 2015 and was paid on September 14, 2015 to shareholders of record on August 28, 2015. Further declarations of dividends remain at the discretion of the Company's Board of Directors.

Contractual Obligations

The Company's contractual obligations primarily consist of operating leases and open purchase orders for merchandise inventory. For the twenty-six weeks ended August 29, 2015, there were no significant changes to the Company's contractual obligations from those identified in the Company's Annual Report on Form 10-K for the year ended February 28, 2015, other than those which occur in the ordinary course of business (primarily changes in the Company's merchandise inventory related to purchase obligations, which fluctuate throughout the year as a result of the seasonal nature of the Company's operations, and changes to operating leases due to store openings and closings).

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to adopt accounting policies related to estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, as well as the related disclosure of contingent assets and liabilities at the date of the financial statements. On an ongoing basis, management evaluates the Company's accounting policies, estimates, and judgments, including those related to inventories, long-lived assets, and contingencies. Management bases its estimates and judgments on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Item 3. Quantitative and Qualitative Disclosures About Market Risks

For a discussion of the Company's market risk associated with interest rates as of February 28, 2015, see "Quantitative and Qualitative Disclosures about Market Risks" in Item 7A of Part II of the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2015. For the twenty-six weeks ended August 29, 2015, there has been no significant change in related market risk factors.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. With the participation of our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this Report. Based upon such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures were effective in ensuring that (i) information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported, within the time periods specified in the Securities Exchange Commission's rules and forms and (ii) information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting. There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this Report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject, from time to time, to certain legal proceedings and claims in the ordinary course of conducting its business. Although it is not possible to predict with certainty the eventual outcome of any litigation, in the opinion of management, the Company's legal proceedings are not expected to have a material adverse effect on its financial position, results of operations, or cash flows.

Item 1A. Risk Factors

Risk factors that affect the Company's business and financial results are discussed in "Risk Factors" in Item 1A of Part I of the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2015. There has been no significant change to identified risk factors for the twenty-six weeks ended August 29, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On July 21, 2011, the Company's Board of Directors authorized a share repurchase program (the "2011 Share Repurchase Program") to repurchase up to 5,000,000 shares of the Company's common stock outstanding through December 31, 2014. On January 3, 2013, the Company's Board of Directors amended the 2011 Share Repurchase Program (the "2013 Amended Program") and authorized the repurchase of an additional 5,000,000 shares of the Company's common stock, which authorization shall expire on December 31, 2017. On March 26, 2015, the Company's Board of Directors amended the 2013 Amended Program (the "2015 Amended Program") and authorized the repurchase of an additional 5,000,000 shares of the Company's common stock, which authorization shall expire on December 31, 2018.

Details on the shares repurchased under the 2015 Amended Program during the thirteen weeks ended August 29, 2015 are as follows:
