CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities Offered	Maximum Aggregate Offering Price	Amount of Registration Fee(1)
Varian Medical Knock-in REX	\$2,500,000	\$76.75

(1) Pursuant to Rule 457(p) under the Securities Act of 1933, filing fees of \$94,671.00 have already been paid with respect to unsold securities that were previously registered pursuant to a Registration Statement on Form F-3 (No. 333-89136) of ABN AMRO Bank N.V. (the "Prior Registration Statement"), which was initially filed on May 24, 2002 and for which a post-effective amendment was filed on September 17, 2003 and have been carried forward. The \$76.75 fee with respect to the \$2,500,000 Knock-in Reverse Exchangeable Securities linked to common stock of Varian Medical Systems Inc. due December 7, 2007 sold pursuant to this registration statement is offset against those filing fees, and \$57,821.67 remains available for future registration fees. No additional fee has been paid with respect to this offering.

 10.00% (ANNUALIZED) KNOCK-IN REVERSE EXCHANGEABLE (SM) SECURITIES
 DUE DECEMBER 7, 2007
 LINKED TO COMMON STOCK OF VARIAN MEDICAL SYSTEMS, INC.

The Securities do not guarantee any return of principal at maturity. Instead, the payout at maturity will be based on the performance of the shares of common stock of Varian Medical Systems, Inc., which we refer to as the Underlying Shares, during the life of the Securities, and in certain circumstances described below, we will exchange each Security at maturity for a predetermined number of the Underlying Shares rather than the principal amount of the Securities. THE MARKET VALUE OF THOSE UNDERLYING SHARES WILL BE LESS THAN THE PRINCIPAL AMOUNT OF EACH SECURITY AND COULD BE ZERO.

SECURITIES	10.00% (Annualized) Knock-in Reverse Exchangeable(SM) Securities due December 7, 2007.
PRINCIPAL AMOUNT	\$2,500,000
UNDERLYING SHARES	Common Stock, \$1.00 par value per share, of Varian Medical Systems, Inc.

Edgar Filing: ABN AMRO BANK NV - Form 424B2

INTEREST RATE 10.00% per annum, payable monthly in arrears on the 8th day of each month commencing on July 8, 2007 and ending on the Maturity Date.

ISSUE PRICE 100%

ORIGINAL ISSUE DATE June 8, 2007

PRICING DATE June 5, 2007

MATURITY DATE December 7, 2007

INITIAL PRICE \$41.23 (the initial price is subject to adjustment for certain corporate events affecting the Underlying Shares, which we describe in "Description of Securities -- Adjustment Events").

KNOCK-IN LEVEL \$32.98, which is 80% of the initial price.

STOCK REDEMPTION AMOUNT 24.254 Underlying Shares for each \$1,000 principal amount of the Securities, which is equal to \$1,000 divided by the initial price.

DETERMINATION DATE The third trading day prior to the maturity date, subject to adjustment in certain circumstances which we describe in "Description of the Securities -- Determination Date."

PAYMENT AT MATURITY The payment at maturity is based on the performance of the Underlying Shares:

- o If the closing price of the Underlying Shares on the primary U.S. exchange or market for the Underlying Shares has not fallen below the knock-in level on any trading day from but not including the pricing date to and including the determination date, we will pay you the principal amount of each Security in cash.
- o If the closing price of the Underlying Shares on the primary U.S. exchange or market for the Underlying Shares falls below the knock-in level on any trading day from but not including the pricing date to and including the determination date:
 - we will deliver to you a number of Underlying Shares equal to the stock redemption amount, in the event that the closing price of the Underlying Shares on the determination date is below the initial price; or
 - we will pay you the principal amount of each Security in cash, in the event that the closing price of the Underlying Shares on the determination date is at or above the initial price.
- o You will receive cash in lieu of fractional

PS-2

SUMMARY

THE FOLLOWING SUMMARY ANSWERS SOME QUESTIONS THAT YOU MIGHT HAVE REGARDING THE SECURITIES IN GENERAL TERMS ONLY. IT DOES NOT CONTAIN ALL THE INFORMATION THAT MAY BE IMPORTANT TO YOU. YOU SHOULD READ THE SUMMARY TOGETHER WITH THE MORE DETAILED INFORMATION THAT IS CONTAINED IN THE REST OF THIS PRICING SUPPLEMENT AND IN THE ACCOMPANYING PROSPECTUS AND PROSPECTUS SUPPLEMENT. YOU SHOULD CAREFULLY CONSIDER, AMONG OTHER THINGS, THE MATTERS SET FORTH IN "RISK FACTORS." IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

WHAT ARE THE SECURITIES?

The Securities are interest paying, non-principal protected securities issued by us, ABN AMRO Bank N.V., and are fully and unconditionally guaranteed by our parent company, ABN AMRO Holding N.V. The Securities are senior notes of ABN AMRO Bank N.V. and have a maturity of six months. These Securities combine certain features of debt and equity by offering a fixed interest rate on the principal amount while the payment at maturity is determined based on the performance of the Underlying Shares. Therefore your principal is at risk.

The Securities have certain features that make them what we refer to as "Knock-in Reverse Exchangeable Securities." This means that if the closing price of the Underlying Shares on the primary U.S. organized exchange or market for the Underlying Shares, which we refer to as the relevant exchange, never falls below a certain price level, which we call the knock-in level, on any trading day from but not including the pricing date to and including the determination date (such period, the "Knock-in Period"), then we will pay you in cash the principal amount of each Security at maturity. On the other hand, if the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, then the payment at maturity will depend on the closing price of the Underlying Shares on the determination date. In this latter case, if the closing price of the Underlying Shares on the determination date is equal to or greater than the initial price, we will pay you in cash the principal amount of each Security you hold; if the closing price of the Underlying Shares on the determination date is less than the initial price, we will deliver to you, in exchange for each \$1,000 principal amount of Securities, a number of Underlying Shares equal to the stock redemption amount.

Edgar Filing: ABN AMRO BANK NV - Form 424B2

WHY IS THE INTEREST RATE ON THE SECURITIES HIGHER THAN THE INTEREST RATE PAYABLE ON YOUR CONVENTIONAL DEBT SECURITIES WITH THE SAME MATURITY?

The Securities offer a higher interest rate than the yield that would be payable on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating. This is because you, the investor in the Securities, indirectly sell a put option to us on the Underlying Shares. The premium due to you for this put option is combined with a market interest rate on our senior debt to produce the higher interest rate on the Securities.

WHAT ARE THE CONSEQUENCES OF THE INDIRECT PUT OPTION THAT I HAVE SOLD YOU?

The put option you indirectly sell to us creates the feature of exchangeability. If the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, and on the determination date the closing price per Underlying Share is less than the initial price, you will receive a fixed number of Underlying Shares for each Security you hold, which we call the stock redemption amount. On the other hand, if the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level, and on the determination date the closing price per Underlying Share is equal to or greater than the initial price, you will receive \$1,000 for each Security you hold. Because of the exchangeability of the Securities, and because we will determine whether you will receive cash or Underlying Shares by reference to the closing price of the Underlying Shares on the determination date, such securities are generally referred to as "reverse exchangeable securities." However, because this feature of exchangeability is created only if the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, we call the Securities "Knock-in Reverse Exchangeable Securities."

WHAT WILL I RECEIVE AT MATURITY OF THE SECURITIES?

The payment at maturity of the Securities will depend on (i) whether or not the closing price of the Underlying Shares fell below the knock-in level on any trading day during the Knock-in Period, and if so, (ii) the closing price of the Underlying Shares on

PS-3

the determination date. To determine closing prices, we look at the prices quoted by the relevant exchange.

- o If the closing price per Underlying Share on the relevant exchange has not fallen below the knock-in level on any trading day during the Knock-in Period, we will pay you the principal amount of each Security in cash.
- o If the closing price per Underlying Share on the relevant exchange has fallen below the knock-in level on any trading day during the Knock-in Period, we will either:
 - o deliver to you the stock redemption amount, in exchange for each Security, in the event that the closing price of the Underlying Shares is below the initial price on the determination date; or
 - o pay you the principal amount of each Security in cash, in the event that the closing price of the Underlying Shares is at or above the initial price on the determination date.

Edgar Filing: ABN AMRO BANK NV - Form 424B2

The payment at maturity is subject to adjustment in certain circumstances, which we describe in "Description of Securities -- Adjustment Events."

HOW ARE THE STOCK REDEMPTION AMOUNT AND KNOCK-IN LEVEL DETERMINED?

The stock redemption amount for each \$1,000 principal amount of the Securities is equal to \$1,000 divided by the initial price. The value of any fractional shares you are entitled to receive, after aggregating your total holdings of the Securities, will be paid in cash based on the closing price of the Underlying Shares on the determination date.

The knock-in level is 85% of the initial price.

The initial price and consequently the stock redemption amount and knock-in level are subject to adjustment for certain corporate events affecting the Underlying Shares, which we describe in "Description of Securities -- Adjustment Events."

WHAT INTEREST PAYMENTS CAN I EXPECT ON THE SECURITIES?

The Securities pay interest at a rate of 10.00% per annum. The interest rate is fixed at issue and is payable monthly in arrears. This means that irrespective of whether the Securities are exchanged at maturity for cash or the stock redemption amount, you will be entitled to monthly interest payments on the full principal amount of the Securities you hold, payable in cash.

CAN YOU GIVE ME AN EXAMPLE OF THE PAYMENT AT MATURITY?

If, for example, in a hypothetical offering, the interest rate was 10% per annum, the initial price of a share of underlying stock was \$45.00 and the knock-in level for such offering was 85%, then the stock redemption amount would be 22.222 shares of underlying stock, or \$1,000 divided by \$45.00, and the knock-in level would be \$36.00, or 85% of the initial price.

If the closing price of that hypothetical underlying stock fell below the knock-in level of \$36.00 on any trading day during the Knock-in Period, then the payment at maturity would depend on the closing price of the underlying stock on the determination date. In this case, if the closing price of the underlying stock on the determination date is \$30.00 per share at maturity, which is below the initial price level, you would receive 22.222 shares of underlying stock for each \$1,000 principal amount of the securities. (In actuality, because we cannot deliver fractions of a share, you would receive on the maturity date for each \$1,000 principal amount of the securities 22 shares of underlying stock plus \$6.66 cash in lieu of 0.222 fractional shares, determined by multiplying 0.222 by \$30.00, the closing price per shares of underlying stock on the determination date.) In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum. IN THIS HYPOTHETICAL EXAMPLE, THE MARKET VALUE OF THOSE 22 SHARES OF UNDERLYING STOCK (INCLUDING THE CASH PAID IN LIEU OF FRACTIONAL SHARES) THAT WE WOULD DELIVER TO YOU AT MATURITY FOR EACH \$1,000 PRINCIPAL AMOUNT OF SECURITY WOULD BE \$666.66, WHICH IS LESS THAN THE PRINCIPAL AMOUNT OF \$1,000, AND YOU WOULD HAVE LOST A PORTION OF YOUR INITIAL INVESTMENT. If, on the other hand, the closing price of the underlying stock on the determination date is \$50.00 per share, which is above the initial price level, you will receive \$1,000 in cash for each \$1,000 principal amount of the securities regardless of the knock-in level having been breached. In addition, over the life of the Securities you would have received interest payments at a rate of 10% per annum.

Alternatively, if the closing price of the underlying stock never falls below \$36.00, which is

Edgar Filing: ABN AMRO BANK NV - Form 424B2

PS-4

the knock-in level, on any trading day during the Knock-in Period, at maturity you will receive \$1,000 in cash for each security you hold regardless of the closing price of the underlying stock on the determination date. In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum.

THIS EXAMPLE IS FOR ILLUSTRATIVE PURPOSES ONLY AND IS BASED ON A HYPOTHETICAL OFFERING. FOR EACH OFFERING OF SECURITIES, WE WILL SET THE INITIAL PRICE, KNOCK-IN LEVEL AND STOCK REDEMPTION AMOUNT (SUBJECT TO ADJUSTMENT FOR CERTAIN CORPORATE EVENTS AFFECTING THE APPLICABLE UNDERLYING SHARES) ON THE DATE WE PRICE THE SECURITIES, WHICH WE REFER TO AS THE PRICING DATE. IT IS NOT POSSIBLE, HOWEVER, TO PREDICT THE CLOSING PRICE OF ANY OF THE UNDERLYING SHARES ON THE DETERMINATION DATE OR AT ANY TIME DURING THE LIFE OF THE SECURITIES.

In this Pricing Supplement, we have provided under the heading "Hypothetical Sensitivity Analysis of Total Return of the Securities at Maturity" the total return of owning the Securities through maturity for various hypothetical closing prices of the Underlying Shares on the determination date in the case where the knock-in level has been breached and in the case where the knock-in level has not been breached.

DO I GET ALL MY PRINCIPAL BACK AT MATURITY?

You are not guaranteed to receive any return of principal at maturity. If the closing price of Underlying Shares falls below the knock-in level on any trading day during the Knock-in Period, and the closing price of the Underlying Shares is below the initial price on the determination date, we will deliver to you Underlying Shares. The market value of the Underlying Shares at the time you receive those shares will be less than the principal amount of the Securities and could be zero.

IS THERE A LIMIT TO HOW MUCH I CAN EARN OVER THE LIFE OF THE SECURITIES?

Yes. The amount payable under the terms of the Securities will never exceed the principal amount of the Securities payable at maturity plus interest payments you earn over the life of the Securities.

DO I BENEFIT FROM ANY APPRECIATION IN THE UNDERLYING SHARES OVER THE LIFE OF THE SECURITIES?

No. The amount paid at maturity for each \$1,000 principal amount of the Securities will not exceed \$1,000. As a result, if the Underlying Shares have appreciated above their price level on the pricing date, the payment you receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE SECURITIES THAT YOU HOLD AT THAT TIME.

WHAT IS THE MINIMUM REQUIRED PURCHASE?

You can purchase Securities in \$1,000 denominations or in integral multiples thereof.

IS THERE A SECONDARY MARKET FOR THE SECURITIES?

We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and, as such, information regarding independent market pricing for the Securities may

Edgar Filing: ABN AMRO BANK NV - Form 424B2

be limited. You should be willing to hold your Securities until the maturity date.

Although it is not required to do so, we have been informed by our affiliate that when this offering is complete, it intends to make purchases and sales of the Securities from time to time in off-exchange transactions. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In connection with any secondary market activity in the Securities, our affiliate may post indicative prices for the Securities on a designated website or via Bloomberg. However, our affiliate is not required to post such indicative prices and may stop doing so at any time. INVESTORS ARE ADVISED THAT ANY PRICES SHOWN ON ANY WEBSITE OR BLOOMBERG PAGE ARE INDICATIVE PRICES ONLY AND, AS SUCH, THERE CAN BE NO ASSURANCE THAT ANY TRADE COULD BE EXECUTED AT SUCH PRICES. Investors should contact their brokerage firm for further information.

In addition, the issue price of the Securities includes the selling agents' commissions paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the profit component that our affiliate has charged in consideration for assuming the risks inherent in managing the hedging the transactions. The fact that the issue price of the Securities includes these commissions and hedging costs is expected to adversely affect the secondary market prices of the Securities. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Use of Proceeds."

TELL ME MORE ABOUT ABN AMRO BANK N.V. AND ABN AMRO HOLDING N.V.

We are a prominent international banking group offering a wide range of banking products and financial services on a global basis through our network of 4,532 offices and branches in 56 countries and territories as of year-end 2006. We are one of the largest banking groups in the world, with total consolidated assets of (euro)987.1 billion at December 31, 2006. We are the largest banking group in the Netherlands and we have a substantial presence in Brazil and the Midwestern United States. We are one of the largest foreign banking groups in the United States, based on total assets held as of December 31, 2006. We are listed on Euronext and the New York Stock Exchange. ABN AMRO Bank N.V. is rated AA- by Standard & Poor's and Aa2 by Moody's.

ABN AMRO Holding N.V. is the parent company of ABN AMRO Bank N.V. Holding's main purpose is to own the Bank and its subsidiaries. All of the Securities issued by the Bank hereunder are fully and unconditionally guaranteed by Holding.

On April 23, 2007, ABN AMRO Holding N.V. and Barclays PLC ("Barclays") jointly announced that agreement has been reached on the combination of ABN AMRO Holding N.V. and Barclays. Separately, ABN AMRO Holding N.V. also announced the sale of ABN AMRO North America Holding Company, which principally consists of the retail and commercial banking activities of LaSalle Bank Corporation, to Bank of America for USD 21 billion in cash. Both transactions are scheduled to be completed late 2007 and are subject to regulatory approvals and other closing conditions.

WHERE CAN I FIND OUT MORE ABOUT VARIAN?

Because the Underlying Shares are registered under the Securities Exchange Act of 1934, as amended, Varian is required to file periodically certain

Edgar Filing: ABN AMRO BANK NV - Form 424B2

financial and other information specified by the Commission which is available to the public. You should read "Public Information Regarding the Underlying Shares" in this Pricing Supplement to learn how to obtain public information regarding the Underlying Shares and other important information. The historical highest closing price, lowest closing price and last day closing price of the Underlying Shares for each quarter since 2003 are set forth under the heading "Public Information Regarding the Underlying Shares" in this Pricing Supplement.

WHO WILL DETERMINE WHETHER THE CLOSING PRICE OF THE UNDERLYING SHARES HAS FALLEN BELOW THE KNOCK-IN LEVEL, THE CLOSING PRICE OF THE UNDERLYING SHARES ON THE DETERMINATION DATE, THE STOCK REDEMPTION AMOUNT AND THE INITIAL PRICE?

We have appointed ABN AMRO Incorporated, which we refer to as AAI, to act as calculation agent for Wilmington Trust Company, the trustee for the Securities and Citibank, N.A., the securities administrator. As calculation agent, AAI will determine whether the closing price of the Underlying Shares has fallen below the knock-in level, the closing price of the Underlying Shares on the determination date, the stock redemption amount and the initial price. The calculation agent may adjust the initial price of the Underlying Shares and consequently the stock redemption amount and knock-in level, which we describe in the section called "Description of Securities -- Adjustment Events."

WHO INVESTS IN THE SECURITIES?

The Securities are not suitable for all investors. The Securities might be considered by investors who:

- o seek a higher interest rate than the current dividend yield on the Underlying Shares or the yield on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating;
- o are willing to accept the risk of owning equity in general and the Underlying Shares in particular and the risk that they could lose their entire investment;
- o do not expect to participate in any appreciation in the price of the Underlying Shares; and
- o and are willing to hold the Securities until maturity.

You should carefully consider whether the Securities are suited to your particular circumstances before you decide to purchase them. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Securities.

WHAT ARE SOME OF THE RISKS IN OWNING THE SECURITIES?

Investing in the Securities involves a number of risks. We have described the most significant risks relating to the Securities under the heading "Risk Factors" in this Pricing Supplement which you

PS-6

should read before making an investment in the Securities.

Some selected risk considerations include:

- o CREDIT RISK. Because you are purchasing a security from us, you are assuming our credit risk. In addition, because the Securities are fully and

Edgar Filing: ABN AMRO BANK NV - Form 424B2

unconditionally guaranteed by Holding, you are assuming the credit risk of Holding in the event that we fail to make any payment or delivery required by the terms of the Securities.

- o PRINCIPAL RISK. The Securities are not principal protected, which means there is no guaranteed return of principal. If the closing price of the Underlying Shares falls below the knock-in level on any trading day during the life of the Securities and the closing price on the determination date is less than the initial price, we will deliver to you a fixed number of Underlying Shares with a market value less than the principal amount of the Securities, which value may be zero.
- o LIQUIDITY AND MARKET RISK. We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. The value of the Securities in the secondary market, if any, will be subject to many unpredictable factors, including then prevailing market conditions.

WHAT IF I HAVE MORE QUESTIONS?

You should read the "Description of Securities" in this Pricing Supplement for a detailed description of the terms of the Securities. The Securities are senior notes issued as part of our ABN NotesSM program and guaranteed by Holding. The Securities offered by the Bank will constitute the Bank's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all our other present and future unsecured and unsubordinated obligations. The guarantee of Holding will constitute Holding's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all Holding's other present and future unsecured and unsubordinated obligations. You can find a general description of our ABN NotesSM program in the accompanying Prospectus Supplement. We also describe the basic features of this type of note in the sections called "Description of Notes" and "Notes Linked to Commodity Prices, Single Securities, Baskets of Securities or Indices".

PS-7

RISK FACTORS

This section describes the most significant risks relating to the Securities. For a discussion of certain general risks associated with your investment in the Securities, please refer to the section entitled "Risk Factors" beginning on page S-3 of the accompanying prospectus supplement. YOU SHOULD CAREFULLY CONSIDER WHETHER THE SECURITIES ARE SUITED TO YOUR PARTICULAR CIRCUMSTANCES BEFORE YOU DECIDE TO PURCHASE THEM. IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

THE SECURITIES ARE NOT ORDINARY SENIOR NOTES; THERE IS NO GUARANTEED RETURN OF PRINCIPAL

The Securities combine limited features of debt and equity. The terms of the Securities differ from those of ordinary debt securities in that we will not pay you a fixed principal amount in cash at maturity if the closing price of the Underlying Shares has fallen below the knock-in level on any trading day during

Edgar Filing: ABN AMRO BANK NV - Form 424B2

the Knock-in Period and, in addition, the closing price of the Underlying Shares is below the initial price on the determination date. In such event, we will exchange each Security you hold for a number of Underlying Shares equal to the stock redemption amount. Such shares will have a market value of less than the principal amount of the Securities, and such value may be zero. You cannot predict the future performance of the Underlying Shares based on their historical performance. ACCORDINGLY, YOU COULD LOSE SOME OR ALL OF THE AMOUNT YOU INVEST IN THE SECURITIES.

THE SECURITIES WILL NOT PAY MORE THAN THE STATED PRINCIPAL AMOUNT AT MATURITY

The amount paid at maturity of the Securities in cash or Underlying Shares will not exceed the principal amount of the Securities. If the closing price of the Underlying Shares on the determination date is equal to or exceeds the initial price (regardless of whether the knock-in level has been previously breached), you will receive the principal amount of the Securities irrespective of any appreciation in the share price. You will not receive Underlying Shares or any other asset equal to the value of the Underlying Shares. As a result, if the Underlying Shares have appreciated above their closing price level on the pricing date, the payment you receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE SECURITIES THAT YOU HOLD AT THAT TIME.

WE DO NOT INTEND TO LIST THE SECURITIES ON ANY SECURITIES EXCHANGE; SECONDARY TRADING MAY BE LIMITED

You should be willing to hold your Securities until the maturity date. We do not intend to list the Securities on any securities exchange; accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Securities easily. Upon completion of the offering, our affiliate has informed us that it intends to purchase and sell the Securities from time to time in off-exchange transactions, but it is not required to do so. If our affiliate does make such a market in the Securities, it may stop doing so at any time. In addition, the total principal amount of the Securities being offered is not being purchased by investors in the offering, and one or more of our affiliates has agreed to purchase the unsold portion. Such affiliate or affiliates intend to hold the Securities for investment purposes, which may affect the supply of Securities available for secondary trading and therefore adversely affect the price of the Securities in any secondary trading. If a substantial portion of any Securities held by our affiliates were to be offered for sale following this offering, the market price of such Securities could fall, especially if secondary trading in such Securities is limited or illiquid.

MARKET PRICE OF THE SECURITIES INFLUENCED BY MANY UNPREDICTABLE FACTORS

The value of the Securities may move up and down between the date you purchase them and the determination date when the calculation agent determines the amount to be paid to the holders of the Securities on the maturity date.

Several factors, many of which are beyond our control, will influence the value of the Securities, including:

- o the market price of the Underlying Shares, in particular, whether the market price of the Underlying Shares has fallen below the knock-in level;

Edgar Filing: ABN AMRO BANK NV - Form 424B2

- o the volatility (frequency and magnitude of changes) in the price of the Underlying Shares;
- o the dividend rate on the Underlying Shares. While dividend payments on the Underlying Shares, if any, are not paid to holders of the Securities, such payments may have an influence on the market price of the Underlying Shares and therefore on the Securities;
- o interest and yield rates in the market;
- o economic, financial, political and regulatory or judicial events that affect the stock markets generally and which may affect the closing price of the Underlying Shares and/or the Securities;
- o the time remaining to the maturity of the Securities; and
- o the creditworthiness of the Bank as issuer of the Securities and Holding as the guarantor of the Bank's obligations under the Securities. Any person who purchases the Securities is relying upon the creditworthiness of the Bank and Holding and has no rights against any other person. The Securities constitute the general, unsecured and unsubordinated contractual obligations of the Bank and Holding.

Some or all of these factors will influence the price that you will receive if you sell your Securities in the secondary market, if any, prior to maturity. For example, you may have to sell your Securities at a substantial discount from the principal amount if at the time of sale the market price of the Underlying Shares is at, below, or not sufficiently above the knock-in level. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices."

THE INCLUSION OF COMMISSIONS AND COST OF HEDGING IN THE ISSUE PRICE IS LIKELY TO ADVERSELY AFFECT SECONDARY MARKET PRICES

Assuming no change in market conditions or any other relevant factors, the price, if any, at which the selling agents are willing to purchase Securities in secondary market transactions will likely be lower than the issue price, since the issue price included, and secondary market prices are likely to exclude, commissions paid with respect to the Securities, as well as the profit component included in the cost of hedging our obligations under the Securities. In addition, any such prices may differ from values determined by pricing models used by the selling agents, as a result of dealer discounts, mark-ups or other transaction costs.

AN INCREASE IN THE VALUE OF THE UNDERLYING SHARES WILL NOT INCREASE THE RETURN ON YOUR INVESTMENT

Owning the Securities is not the same as owning the Underlying Shares. Accordingly, the market value of your Securities may not have a direct relationship with the market price of the Underlying Shares, and changes in the market price of the Underlying Shares may not result in a comparable change in the market value of your Securities. If the price per Underlying Share increases above the initial price, the market value of the Securities may not increase. It is also possible for the price of the Underlying Shares to increase while the market price of the Securities declines.

POTENTIAL CONFLICTS OF INTEREST; NO SECURITY INTEREST IN THE UNDERLYING SHARES HELD BY US

We and our affiliates may carry out hedging activities that minimize our risks related to the Securities, including trading in the Underlying Shares. In

Edgar Filing: ABN AMRO BANK NV - Form 424B2

particular, on or prior to the date of this Pricing Supplement, we, through our affiliates, hedged our anticipated exposure in connection with the Securities by taking positions in the Underlying Shares, options contracts on Underlying Shares listed on major securities markets, and/or other instruments that we deemed appropriate in connection with such hedging. Such hedging is carried out in a manner designed to minimize any impact on the price of the Underlying Shares. Our purchase activity, however, could potentially have increased the initial price of the Underlying Shares, and therefore inadvertently increased the level below which we would be required to deliver to you at maturity Underlying Shares, which, in turn, would have a value less than the principal amount of your Securities.

PS-9

Through our affiliates, we are likely to modify our hedge position throughout the life of the Securities by purchasing and selling Underlying Shares, options contracts on Underlying Shares listed on major securities markets or positions in other securities or instruments that we may wish to use in connection with such hedging. Although we have no reason to believe that our hedging activity or other trading activities that we, or any of our affiliates, engage in or may engage in has had or will have a material impact on the price of the Underlying Shares, we cannot give you any assurance that we have not or will not affect such price as a result of our hedging or trading activities. It is possible that we or one of more of our affiliates could receive substantial returns from these hedging activities while the value of the Securities may decline. We or one or more of our affiliates may also engage in trading the Underlying Shares and other investments relating to Varian on a regular basis as part of our or its general broker-dealer and other businesses, for proprietary accounts, for other accounts under management or to facilitate transactions for customers, including block transactions. Any of these activities could adversely affect the price of the Underlying Shares and, therefore, the value of the Securities. We or one or more of our affiliates may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in the value of the Underlying Shares. By introducing competing products into the marketplace in this manner, we or one or more of our affiliates could adversely effect the value of the Securities. It is also possible that any advisory services that we or our affiliates provide in the course of any business with Varian or its affiliates could lead to actions on the part of the issuer of the stock which might adversely affect the value of the Underlying Shares.

The indenture governing the Securities does not contain any restrictions on our ability or the ability of any of our affiliates to sell, pledge or otherwise convey all or any portion of the Underlying Shares acquired by us or our affiliates. Neither we nor Holding nor any of our affiliates will pledge or otherwise hold Underlying Shares for the benefit of holders of the Securities in order to enable the holders to exchange their Securities for Underlying Shares under any circumstances. Consequently, in the event of a bankruptcy, insolvency or liquidation involving us or Holding, as the case may be, any Underlying Shares that we or Holding own will be subject to the claims of our creditors or Holding's creditors generally and will not be available specifically for the benefit of the holders of the Securities.

NO SHAREHOLDER RIGHTS IN THE UNDERLYING SHARES

As a holder of the Securities, you will not have voting rights or rights to receive dividends or other distributions or other rights that holders of Underlying Shares would have.

Edgar Filing: ABN AMRO BANK NV - Form 424B2

Because neither we nor Holding nor any of our affiliates are affiliated with Varian, we have no ability to control or predict the actions of Varian, including any corporate actions of the type that would require the calculation agent to adjust the initial price and consequently the knock-in level and stock redemption amount, and have no ability to control the public disclosure of these corporate actions or any other events or circumstances affecting Varian. VARIAN IS NOT INVOLVED IN THE OFFER OF THE SECURITIES IN ANY WAY AND HAS NO OBLIGATION TO CONSIDER YOUR INTEREST AS AN OWNER OF THE SECURITIES IN TAKING ANY CORPORATE ACTIONS THAT MIGHT AFFECT THE VALUE OF YOUR SECURITIES. NONE OF THE MONEY YOU PAY FOR THE SECURITIES WILL GO TO VARIAN.

INFORMATION REGARDING VARIAN

Neither we nor Holding nor any of our affiliates assume any responsibility for the adequacy of the information about Varian contained in this Pricing Supplement or in any of Varian's publicly available filings. AS AN INVESTOR IN THE SECURITIES, YOU SHOULD MAKE YOUR OWN INVESTIGATION INTO VARIAN. NEITHER WE NOR HOLDING NOR ANY OF OUR AFFILIATES HAVE ANY AFFILIATION WITH VARIAN, AND ARE NOT RESPONSIBLE FOR VARIAN'S PUBLIC DISCLOSURE OF INFORMATION, WHETHER CONTAINED IN SEC FILINGS OR OTHERWISE.

LIMITED ANTIDILUTION PROTECTION

AAI, as calculation agent, will adjust the initial price and consequently the stock redemption amount and knock-in level for certain events affecting the Underlying Shares, such as stock splits and corporate actions. The calculation agent is not required to make an adjustment for every corporate action which affects the Underlying Shares. For example, the calculation agent is not required to make any adjustments if Varian or anyone else makes a partial tender or partial exchange offer for the Underlying Shares. IF AN EVENT OCCURS THAT DOES NOT REQUIRE THE

PS-10

CALCULATION AGENT TO ADJUST THE AMOUNT OF THE UNDERLYING SHARES PAYABLE AT MATURITY, THE MARKET PRICE OF THE SECURITIES MAY BE MATERIALLY AND ADVERSELY AFFECTED.

HOLDINGS OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES

Certain of our affiliates have agreed to purchase for investment the portion of the Securities that has not been purchased by investors in this offering, which initially they intend to hold for investment purposes. As a result, upon completion of this offering, our affiliates may own a substantial portion of the aggregate principal amount of the Securities. Circumstances may occur in which our interests or those of our affiliates could be in conflict with your interests.

POTENTIAL CONFLICTS OF INTEREST BETWEEN HOLDERS OF SECURITIES AND THE CALCULATION AGENT

As calculation agent, AAI will calculate the payout to you at maturity of the Securities. AAI and other affiliates may carry out hedging activities related to the Securities, including trading in the Underlying Shares, as well as in other instruments related to the Underlying Shares. AAI and some of our other affiliates also trade the Underlying Shares on a regular basis as part of their general broker dealer businesses. Any of these activities could influence AAI's determinations as calculation agent and any such trading activity could potentially affect the price of the Underlying Shares and, accordingly could

Edgar Filing: ABN AMRO BANK NV - Form 424B2

effect the payout on the Securities. AAI IS AN AFFILIATE OF ABN AMRO BANK N.V.

In addition, if certain reorganization events occur as defined under "Description of Securities--Adjustment Events" the calculation agent may adjust the initial price and consequently the knock-in level and stock redemption amount to reflect the new securities issued in such reorganization event. The calculation agent may make such adjustment based on its assessment of the market value and volatility of those new securities, which may adversely affect the value of the Securities. The calculation agent's adjustment to the Securities may be influenced by, among other things, our or our affiliates' hedging transactions with respect to the Securities and our or their ability to hedge our obligations under the Securities following those reorganization events. While we do not currently anticipate the occurrence of a reorganization event, there can be no assurance that a reorganization event will not occur or that the calculation agent's adjustments upon a reorganization event will not adversely affect the value of the Securities.

Moreover, the issue price of the Securities includes the agents' commissions and certain costs of hedging our obligations under the Securities. Our affiliates through which we hedge our obligations under the Securities expect to make a profit. Since hedging our obligations entails risk and may be influenced by market forces beyond our affiliates' control, such hedging may result in a profit that is more or less than initially projected.

TAX TREATMENT

You should also consider the tax consequences of investing in the Securities. Significant aspects of the tax treatment of the Securities are uncertain. We do not plan to request a ruling from the U.S. Internal Revenue Service (the "IRS") or from the Dutch authorities regarding the tax treatment of the Securities, and the IRS, the Dutch authorities or a court may not agree with the tax treatment described in the accompanying Prospectus Supplement. Please read carefully the sections entitled "United States Federal Taxation" (and in particular the subsection entitled "--Mandatorily Exchangeable Notes--Reverse Exchangeable and Knock-in Reverse Exchangeable Securities") and "Taxation in the Netherlands" in the accompanying Prospectus Supplement. You should consult your tax advisor about your own situation.

HYPOTHETICAL SENSITIVITY ANALYSIS OF TOTAL RETURN OF THE SECURITIES AT MATURITY

The following tables set out the total return to maturity of a Security, based on the assumptions outlined below and several variables, which include (a) whether the closing price of the Underlying Shares has fallen below the knock-in level on any trading day during the Knock-in Period and (b) several hypothetical closing prices for the Underlying Shares on the determination date. The information in the tables is based on hypothetical market values for the Underlying Shares. We cannot predict the market price or the closing price of the Underlying Shares on the determination date or at any time during the life of the Securities. THE ASSUMPTIONS EXPRESSED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY AND THE RETURNS SET FORTH IN THE TABLE MAY OR MAY NOT BE THE ACTUAL RATES APPLICABLE TO A PURCHASER OF THE SECURITIES.

ASSUMPTIONS

Initial Price: \$41.23

Edgar Filing: ABN AMRO BANK NV - Form 424B2

Knock-in level: \$32.98 (80% of the Initial Price)

Annual Interest on the Securities: 10.00%

Term of the Securities: 6 months

Exchange Factor: 1.0 (we have assumed that no market disruption event occurs and the calculation agent does not need to adjust the exchange factor for any adjustment events during the term of the Securities).

PAYMENT AT MATURITY IF THE CLOSING PRICE OF THE UNDERLYING SHARES FALLS BELOW THE KNOCK-IN LEVEL ON ANY TRADING DAY DURING THE KNOCK-IN PERIOD:

ASSUMED VARIAN CLOSING PRICE ON DETERMINATION DATE	VALUE OF PAYMENT AT MATURITY (a)	SIX MONTHLY INTEREST PAYMENTS (c)	TOTAL RETURN (b)	
			\$	%
+\$41.23	\$1,000.00	\$50.00	\$1,050.00	5.00%
\$41.23	\$1,000.00	\$50.00	\$1,050.00	5.00%

\$ 8.33	\$ 202.04	\$50.00	\$ 252.04	-74.80%
\$ 4.17	\$ 101.14	\$50.00	\$ 151.14	-84.89%
\$ 0.00	\$ 0.00	\$50.00	\$ 50.00	-95.00%

PS-12

PAYMENT AT MATURITY IF THE CLOSING PRICE OF THE UNDERLYING SHARES NEVER FALLS BELOW THE KNOCK-IN LEVEL ON ANY TRADING DAY DURING THE KNOCK-IN PERIOD:

ASSUMED VARIAN CLOSING PRICE ON DETERMINATION DATE	VALUE OF PAYMENT AT MATURITY (d)	SIX MONTHLY INTEREST PAYMENTS (c)	TOTAL RETURN (b)	
			\$	%
+\$41.23	\$1,000.00	\$50.00	\$1,050.00	5.00%
\$41.23	\$1,000.00	\$50.00	\$1,050.00	5.00%
\$37.11	\$1,000.00	\$50.00	\$1,050.00	5.00%
\$35.25	\$1,000.00	\$50.00	\$1,050.00	5.00%
\$32.98	\$1,000.00	\$50.00	\$1,050.00	5.00%

(a) Based on the assumptions set forth above, if the closing price of the Underlying Shares falls below \$32.98 on any trading day during the Knock-in Period and, in addition, the closing price of the Underlying Shares is less

Edgar Filing: ABN AMRO BANK NV - Form 424B2

than \$41.23 on the determination date, the payment at maturity will be made in Underlying Shares. For determining the value of the payment at maturity, we have assumed that the closing price of the Underlying Shares will be the same on the maturity date as on the determination date.

- (b) The total return presented is exclusive of any tax consequences of owning the Securities. You should consult your tax adviser regarding whether owning the Securities is appropriate for your tax situation. See the sections titled "Risk Factors" in this Pricing Supplement and "United States Federal Taxation" and "Taxation in the Netherlands" in the accompanying Prospectus Supplement.
- (c) Interest on the Securities will be computed on the basis of a 360-day year of twelve 30-day months or, in the case of an incomplete month, the number of actual days elapsed. Accordingly, depending on the number of days in any monthly interest payment period, the coupon payable in such period and, consequently, the total interest payable over the life of the Securities, may be less than the amount reflected in this column.
- (d) Based on the assumptions set forth above, if the closing price of the Underlying Shares never falls below \$32.98 on any trading day during the Knock-in Period, the payment at maturity will be made in cash.
