The Benefits Committee

Costco 401(k) Retirement Plan:

We have audited the accompanying statements of net assets available for benefits of the Costco 401(k) Retirement Plan (the Plan) as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2016 and 2015, and the changes in net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

The supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2016, has been subjected to audit procedures performed in conjunction with the audit of the Plan's 2016 financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but include supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2016 is fairly stated in all material respects in relation to the 2016 financial statements as a whole.

COSTCO 401(k) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2016 and 2015

(1) Plan Description

The following description of the Costco 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Participants in the Plan are employees of Costco Wholesale Corporation (the Company or Costco).

The Plan is a defined contribution plan for the benefit of eligible employees, established by the Company under Section 401(a) of the Internal Revenue Code (IRC). It includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(a) Employee Contributions

The Plan allows employees at least 18 years of age who have completed 90 days of service within a 12-consecutive-month period to make salary deferral contributions, commencing the first day of the month following the completion of 90 days of employment. Participants may contribute from 1% to 50% of their compensation before income taxes, subject to certain limitations set by the Internal Revenue Service (IRS). Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans (known as rollover contributions).

All newly-eligible employees are automatically enrolled in the Plan at a contribution rate of 3% unless the employee elects otherwise. The percentage deferred into the Plan automatically increases by one percentage point on an active participant's employment anniversary date, and each anniversary date thereafter, to a maximum automatic deferral of 20%. Employees may choose to opt out of this automatic deferral increase.

(b) Employer Contributions

All Company contributions are made in cash and invested in accordance with investment selections made by participants. If no selection has been made, the contribution defaults to the age-based target retirement fund. Employer contributions are allocated based on an employee's classification as either: 1) a California Union Employee; or 2) an Other-than-California Union Employee.

(1) California Union Employees

The Company matches 50% of each employee's contribution up to a maximum employer matching contribution of \$250 per year. In addition, employees at least 18 years of age who have completed 12 consecutive months of service and worked at least 1,000 hours, calculated every pay period, are eligible for an annual employer contribution. Plan entry dates for this purpose occur on January 1 and July 1. If the minimum hours requirement is not met in the first 12 months, hours roll forward until the requirement is fulfilled. The Company makes contributions into the accounts of all eligible plan participants employed on the last day of the plan year, based on straight-time hours worked during the plan year, up to a maximum of 2,080 hours per calendar year and years of service. These contributions in 2016 and 2015 ranged from \$0.05 to \$0.47 per hour, totaling \$4.5 million and \$4.3 million, respectively.

(2) Other-than-California Union Employees

The Company matches 50% of each employee's contribution up to a maximum employer matching contribution of \$500 per year. In addition, employees at least 18 years of age who have completed 12 consecutive months of service and worked at least 1,000 hours, calculated every pay period, are eligible for an annual discretionary employer contribution. Plan entry dates for this purpose occur on January 1 and July 1. If the minimum hours requirement is not met in the first 12 months, hours roll forward until the requirement is fulfilled. The Company makes discretionary contributions into the accounts of all eligible plan participants employed on the last day of the plan year. These

Table of Contents

COSTCO 401(k) RETIREMENT PLAN
Notes to Financial Statements (Continued)
December 31, 2016 and 2015

contributions range from 3% to 9% of each participant's compensation based on years of service, as defined by the Plan, totaling \$299.3 million and \$274.2 million for the years ended December 31, 2016 and 2015, respectively.

(c) Participants' Accounts

Each participant's account is credited or debited with the participant's contributions, the Company's contributions, plan earnings, and appreciation or depreciation in underlying securities. Participant accounts are also charged with an allocation of certain expenses based on the account balances. An example of an expense is the investment fees, which vary by investment elections. The benefit to which a participant is entitled is that available from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions, actual earnings thereon, and in other contributions as defined in the Plan document. Vesting in the employer-match, employer contributions, and discretionary contributions, including actual earnings thereon, is based on years of service, according to the following schedule:

Years of service	Percentage vested
Under 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	100%

(e) Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions or to pay administrative expenses. During 2016 and 2015, forfeitures totaling \$4.0 million and \$3.8 million, respectively, were used to reduce employer contributions. At the end of 2016 and 2015 there was a forfeiture balance of \$3.6 million and \$2.9 million, respectively, which were used to offset future employer discretionary contributions. There were no unallocated forfeitures as of December 31, 2016 and 2015, after application to reduce the employer discretionary contributions. Forfeitures, without the benefit of investment gains or losses, can be restored to a participant's account if, within five years, the participant is re-hired by the Company and repays the full amount distributed upon termination.

(f) Investment Options

Upon enrollment in the Plan, a participant may direct the account balance into any of the investment options then available. Participants may change their options and transfer amounts between funds daily. In January 2016, participants' investment in the Company's common stock were limited to no more than 50% of their 401(k) Plan Account, including loan repayments. Participants were not forced to sell stock and may reinvest stock dividends in the Company's common stock. After the change, participants are no longer able to purchase additional stock if the total

stock investment exceeds 50%. T. Rowe Price (TRP) is the trustee for all investments and the keeper of records of all participant accounts. Amounts may be temporarily invested in a cash account prior to investment in the Plan's investment accounts.

The Capital Preservation Portfolio (CPP) is a fully benefit-responsive investment contract for the exclusive benefit of the Plan. The CPP invests in Synthetic Guaranteed Investment Contracts (SICs), Separate Account Contracts (SACs) and mutual funds.

Table of Contents

COSTCO 401(k) RETIREMENT PLAN
Notes to Financial Statements (Continued)
December 31, 2016 and 2015

(g) Distributions

Upon termination of employment, total disability, or death, the vested interest in a participant's account is payable in a lump sum, or as a partial or installment distribution for eligible participants. Participants may apply for a distribution of all or a portion of the vested interest at any time after attaining age 59-1/2. Participants are also eligible to make withdrawals from their salary deferral contributions in the event of certain financial hardships. Following a hardship withdrawal, participants are not allowed to contribute to the Plan for a period of six months.

Dividends on the Company's stock are reinvested in the participant's Company stock account unless a distribution is requested by the participant in advance of the ex-dividend date. Dividends on the Company's stock are reported on a gross basis, with the dividends paid reported as "Dividends" and the amounts distributed reported as "Distributions to participants" in the statements of changes in net assets available for benefits. On January 29, 2015, the Company declared a special cash dividend on Costco common stock of \$5 per share, which was paid on February 27, 2015. Of the \$145.4 million special dividend paid to Plan participants, approximately \$91.7 million was distributed to the participants and the remaining \$53.7 million was reinvested into the participants' accounts.

(h) Notes Receivable from Participants

A participant may borrow up to the lesser of \$50,000 or 45% of the vested account balance, calculated using the participant's pre-tax contribution, and rollover. Only the participant's pre-tax contribution, rollover, and Company matching amounts may be borrowed against, with a minimum note of \$1,000. Notes are payable through payroll deductions over a period ranging up to 180 months. The interest rate is determined by the Plan Administrator, based on the Bank of America prime rate on the last day of the calendar year prior to when the note was made, plus 1% for a primary residence loan and 2% for a standard loan. The rates at December 31, 2016 and 2015 ranged from 4.25% to 11.50%, respectively. The notes have various maturity dates up to December 2031.

Starting January 1, 2015, participant loans requested and issued cannot be withdrawn from Company matching contributions. Loans also have an annual maintenance fee charge. This amendment was approved in December 2014. Additionally, starting January 1, 2016, terminated participants with outstanding loans are no longer in default and required to be paid within 30 days of termination. Participants are allowed to continue making regular loan payments after termination. These amendments were approved in November 2015.

(i) Plan Administrator

The Plan is administered by the Benefits Committee of the Company.

(j) Administrative and Investment Expenses

All investment management and transaction fees are netted against the "Net appreciation of investments." Certain administrative expenses of maintaining the Plan are paid by the Company, except for loan origination fees (paid by the participant requesting the loan) associated with notes receivable from participants.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. As required under U.S. generally accepted accounting principles (U.S. GAAP), fully benefit-responsive investment contracts are reported at contract value (see Note 3), while all other investments in the Plan are reported

Table of Contents

COSTCO 401(k) RETIREMENT PLAN
Notes to Financial Statements (Continued)
December 31, 2016 and 2015

at fair value (see Note 4). A benefit-responsive investment contract is a contract with a financial institution or an insurance company that provides for a stated return on principal invested over a specified period and that permits withdrawals at contract value for benefit payments, loans, or transfers to other investment options offered to the participant by the Plan. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates and assumptions.

(c) Investment Valuation and Income Recognition

The Plan invests in the Company's common stock, common commingled trust funds and other exchange-traded equity securities held in the separately managed accounts, as well as registered investment companies and certain fully benefit-responsive investment contracts that, in turn, invest in a combination of stocks, bonds and other investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Registered investment company funds, Company common stock, and other equity securities (held in the separately managed accounts) are stated at fair value based upon quoted market prices.

The CPP is invested in SICs and SACs, which are fully benefit-responsive and recorded at contract value. Participant withdrawals are required to be at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero. Such interest rates are reviewed on a quarterly basis for resetting. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Events may include, but are not limited to, Plan termination, bankruptcy of the Company, or defunction of the trustee. A result may be that the fully benefit-responsive contracts are terminated and settled at a valued amount different from the contract value. The Plan Administrator believes at this time any events that would limit the Plan's ability to transact at contract value with participants are not probable.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation of investments includes the change in the fair value or contract value of assets from one period to the next, plus realized gains and losses.

(d) Notes Receivable from Participants

Participant loans are classified as notes receivable from participants, which are segregated from Plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest.

(e) Distribution of Benefits

Distributions of benefits are recorded when paid.

Table of Contents

COSTCO 401(k) RETIREMENT PLAN
 Notes to Financial Statements (Continued)
 December 31, 2016 and 2015

(3) Fully Benefit-Responsive Investment Contracts

The following is a description of the fully benefit-responsive investment contracts invested in by the CPP.

SIC: Consist of a portfolio of underlying assets owned by the Plan and wrap contracts issued by an insurance company and a financial institution. The issuers of the wrap contracts provide for unscheduled withdrawals from the contracts at contract value, regardless of the value of the underlying assets, in order to fund routine permitted participant-initiated withdrawals.

SAC and wrap contract: These are contracts with an insurance company. The issuer legally owns the assets and is required to segregate them into a separate account, which is designed to be protected from the claims of the issuer's general creditors in the event of issuer insolvency. The issuer of the wrap contract provides for unscheduled withdrawals from the contract at contract value, regardless of the value of the underlying assets, in order to fund routine permitted participant-initiated withdrawals.

The table below presents the total contract value of each type of fully benefit-responsive investment contract in the Plan as of December 31, 2016, and 2015.

Fully benefit-responsive investment contracts (in thousands)	
2016	2015
\$184,996	\$902,262
\$85,626	181,088
Total fully benefit-responsive investment contracts	\$1,083,350

(4) Fair Value Measurement

U.S. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is estimated by applying a fair value hierarchy, which requires maximizing the use of observable inputs. The three levels of inputs are:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Significant unobservable inputs that are not corroborated by market data.

The following valuation techniques are used to measure fair value:

Level 1 primarily consists of financial instruments, such as investments in registered investment company funds and the Company's common stock, whose value is based on quoted market prices, such as quoted net asset values published by the fund as supported in an active market, exchange-traded instruments and listed equities.

Level 2 includes assets and liabilities where quoted market prices are unobservable but observable inputs other than Level 1 prices, such as quoted prices for similar assets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Valuation methodologies are based on "consensus pricing," using market prices from a variety of industry-standard data providers or pricing that considers various assumptions, including time value, yield curve, volatility factors, credit spreads, default rates, loss severity,

current market and contractual prices for the underlying instruments or debt, broker and dealer quotes, as well as other relevant economic measures. All are observable in the market or can be derived principally from or corroborated by observable market data, for which the Plan typically receives independent external valuation information.

Table of Contents

COSTCO 401(k) RETIREMENT PLAN
 Notes to Financial Statements (Continued)
 December 31, 2016 and 2015

Level 3 assets include significant unobservable inputs reflecting our own assumptions consistent with reasonably available assumptions made by other market participants. The Plan uses the income approach for certain investments, which involves determining fair values from discounted cash flow methodologies, or replacement cost for Level 3 assets.

Valuation techniques utilized during the reporting period in the fair value measurement of Level 1, Level 2, and Level 3 assets and liabilities presented on the Plan's statements of net assets available for benefits were not changed from previous practice. The Plan reports transfers in and out of Levels 1, 2, and 3, as applicable, using the fair value of the individual securities or funds as of the beginning of the reporting period in which the transfer(s) occurred.

The carrying value of the Plan's receivables approximate fair value due to their short-term nature or fixed rates relative to prevailing market rates.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following is a description of the valuation methodologies used for assets measured at fair value.

Common stock, registered investment company funds, and separately managed accounts: Valued at the closing price reported in the active market in which the individual securities are traded. These assets are valued using Level 1 inputs.

Common commingled trust: Valued at the Net Asset Value (NAV) of shares held by the Plan at year end. Plan participant transactions of investment or withdrawals may occur on a daily basis in these trusts. There are no unfunded commitments at December 31, 2016 or 2015. Accounting Standards Update (ASU) 2015-10, Technical Corrections and Improvements updated the definition of Readily Determinable Fair Value. The valuation techniques used to measure the fair value of common commingled trust funds are based on quoted market prices, such as quoted net asset values published by the fund as supported in an active market. As such, the Plan has changed its valuation technique of the common commingled trust from NAV Practical Expedient to NAV Readily Determinable Fair Value for 2016 and 2015. This did not have a material impact to the financial statements or disclosures. These assets are valued using Level 1 inputs.

There were no Level 2 or Level 3 financial assets in the Plan that are measured at fair value on a recurring basis as of December 31, 2016 and 2015.

(5) Form 5500 Reconciliation

As of December 31, 2016, the net assets available for benefits per the financial statements agreed to the Plan's Form 5500.

In 2015, the Plan elected to early adopt ASU 2015-12 that simplified employee benefit plan accounting, eliminating the requirements to measure the fair value of fully benefit-responsive contracts. However, the Form 5500 does not allow early adoption, therefore the financial statements and Form 5500 do not agree. The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2015 to the Plan's Form 5500 (in thousands):

Net assets available for benefits per the financial statements	2015 \$ 11,324,265
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	4,631
Net assets available for benefits per the Form 5500	\$ 11,328,896

Table of Contents

COSTCO 401(k) RETIREMENT PLAN
 Notes to Financial Statements (Continued)
 December 31, 2016 and 2015

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements at December 31, 2016 and 2015 to the Plan's Form 5500 (in thousands):

	2016	2015
Net increase in net assets available for benefits per the financial statements	\$868,267	\$1,148,135
Net change due to fair value for fully benefit-responsive contracts	(4,631)	(11,535)
Net increase in net assets available for benefits per the Form 5500	\$863,636	\$1,136,600

(6) Plan Termination

Although it has no present intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and the requirements of the collective bargaining agreement with the International Brotherhood of Teamsters in California. In the event of plan termination, participants will become 100% vested in their accounts.

(7) Tax Status

In a determination letter dated September 23, 2013, the IRS informed the Company that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the last determination letter, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; there are currently no audits in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

(8) Party-in-Interest and Related Party Transactions

Certain Plan investments are shares of registered investment companies, benefit-responsive investment contracts, and common commingled trust funds managed by T. Rowe Price. T. Rowe Price is also the trustee and record keeper as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Plan also invests in the Company's common stock, which also qualify as party-in-interest transactions.

(9) Subsequent Events

In February 2016, the Company and the International Brotherhood of Teamsters entered into a labor agreement whereby East Coast employees covered by this agreement elected to join the West Coast Union 401(k) plan. These changes took effect on January 1, 2017.

On April 25, 2017, the Company declared a special cash dividend on Costco common stock of \$7 per share, which was paid on May 26, 2017. Of the \$210.2 million special dividend paid to Plan participants, approximately \$134.9 million was distributed directly to the participants and the remaining \$75.3 million was reinvested into the participants' accounts.
