Travelers Property Casualty Corp.

Current Report on Form 8-K

ITEM 5. OTHER EVENTS.

On April 15, 2002, in its first quarter as a public company, Travelers Property Casualty Corp. reported \$326.6 million in operating income or \$0.41 per share, fully diluted. Had the additional shares issued in connection with its initial public offering been outstanding for the entire quarter, fully diluted operating income per share would have been \$0.33.

"We have emerged from a successful initial public offering as a strong, well-capitalized public company," according to Robert I. Lipp, Chairman and Chief Executive Officer. "I am pleased with our first quarter operating results and feel that we are off to a good start."

On March 22, Travelers Property Casualty completed its initial public offering of 231 million shares of class A common stock in the largest ever IPO in the U.S. insurance sector and the fifth largest IPO in U.S. history.

Operating income was \$326.6 million in the first quarter of 2002, compared to \$314.3 million and \$348.8 million in the fourth and first quarters of 2001, respectively. A major contributor to the year-over-year reduction in operating income was an expected decline in net investment income of \$24.5 million, after

## Edgar Filing: TRAVELERS PROPERTY CASUALTY CORP - Form 8-K

tax, resulting from realized gains taken in 2001, declining interest rates, and a reduction in investable funds due to dividend and debt payments to Citigroup in recent years. In addition, the first quarter of 2001 benefited from favorable prior year reserve development in Commercial Lines.

During the 2002 quarter, the company adopted new accounting standards relating to goodwill and other intangible assets (FAS 141 and 142), the effect of which was a cumulative charge of \$242.6 million, after-tax, or \$0.30 per share and the elimination of goodwill amortization.

### CONSOLIDATED OPERATING RESULTS

(\$ millions)	1Q 2002	4Q 2001	1Q 2001
Operating income	\$326.6	\$314.3	\$348.8
Realized investment gains (losses)	18.9	(10.2)	125.3
Restructuring charge	(.8)	(.8)	--
Cumulative effect of changes in accounting principles	(242.6)	--	4.5
Net income	\$102.1	\$303.3	\$478.6

"There are a number of major positive trends underlying our performance in the quarter," said Mr. Lipp. "Rates are increasing across all major lines, including average increases in excess of 20% in our core Commercial Lines mid-size business market and average increases of approximately 9% in our Personal Lines business. Customer retention levels are strong and, as a result of these factors, revenues are rising. At the same time, we are seeing loss trends continuing to rise, which require us to keep our focus on underwriting discipline and expense management."

### COMMERCIAL LINES FUNDAMENTALS STRONG

Operating income for the first quarter of 2002 was \$277.6 million compared to \$277.9 million and \$300.7 million in the fourth and first quarters of 2001, respectively. First quarter 2002 results were positively affected by rate increases in excess of loss cost trends and lower expenses, reflecting the elimination of goodwill amortization. However, lower net investment income in 2002 and favorable prior year reserve development in the first quarter of 2001 more than offset these earnings improvements.

Net written premiums rose 17% to \$1.688 billion over the first quarter of 2001 as a result of rate increases in all lines of business, improvement in new business volumes and the addition of the Northland and CitiCapital companies in the fourth quarter of 2001, partly offset by our disciplined approach to underwriting and risk selection and increased reinsurance costs. Rate increases were particularly strong in our core mid-size business market, exceeding 20%. Fees for services provided to self-insured companies and residual markets also rose during the quarter.

## Edgar Filing: TRAVELERS PROPERTY CASUALTY CORP - Form 8-K

The statutory combined ratio for the quarter was 101.3% compared to 100.7% and 99.8% in the fourth and first quarters of 2001, respectively. These ratios reflect the factors described above.

### PERSONAL LINES RATES INCREASING

Operating income of \$71.2 million compared to \$60.1 million and \$96.4 million in the fourth and first quarters of 2001, respectively. First quarter 2002 results reflect recent improvements in premium rates and, to a lesser degree, the accounting change for goodwill. Catastrophe losses, after tax, were \$10.4 million in the first quarter of 2002, which compares to \$2.3 million in the fourth quarter of 2001 and no catastrophe losses in the first quarter of 2001.

Net written premiums increased 10% over the first quarter of 2001 to \$1.037 billion, reflecting average renewal price increases of 9%. These rate increases and the benefits of other underwriting actions initiated in 2001 are now exceeding the rise in loss costs. The statutory combined ratio for the first quarter of 2002 was 101.5%, compared to 102.2% in the fourth quarter of 2001. The unfavorable impact of rising loss costs in 2001 resulted in an increase in the statutory combined ratio from a low of 98.0% in the first quarter to 102.3% for the full year of 2001.

### INTEREST EXPENSE AND OTHER DECLINES ON LOWER DEBT

Interest Expense and Other was an after tax charge of \$22.2 million in the first quarter 2002 compared to \$23.7 million and \$48.3 million in the fourth and first quarters of 2001, respectively. The primary component of Interest Expense and Other for each quarter was interest expense, which amounted to \$23.3 million in the first quarter 2002, \$26.1 million in the fourth quarter 2001 and \$42.7 million in the first quarter 2001, all after tax. The reduction in interest expense is due to lower average debt levels and lower interest rates. The decrease in debt levels was primarily due to repayments of debt obligations to Citigroup.
