**Item 8.01 Other Events**

On October 3, 2006, WPS Resources Corporation's Chief Financial Officer will make a presentation at a meeting of the American Gas Association Finance Committee Meeting. A portion of this presentation discusses information regarding the proposed merger of WPS Resources and Peoples Energy Corporation. A copy of the presentation is attached as Exhibit 99.1

Non-GAAP Financial Information

WPS Resources Corporation prepares financial statements in accordance with accounting principles generally accepted in the United States (GAAP). In addition, Exhibit 99.1 discloses and discusses diluted earnings per share (EPS) from continuing operations - adjusted, which is a non-GAAP financial measure. Management uses this measure in its internal performance reporting and for reports to the Board of Directors. We disclose this measure in our quarterly earnings releases, on investor conference calls, and during investor conferences and related events. Management believes that this measure is useful for providing investors with additional insight into our operating performance because it eliminates the effects of certain items that are not comparable from one period to the next. Therefore, this measure allows investors to better compare our financial results from period to period. The EBITDA measure used in the merger related discussion is also a non-GAAP financial measure. In connection with the merger related discussion, management believes that this measure helps illustrate underlying operating trends in the companies' businesses and provides an additional tool for investors to use in evaluating the proposed merger. The presentation of this non-GAAP financial information is not meant to be considered in isolation or as a substitute for our results of operations prepared and presented in conformance with GAAP.
