Use of Non-GAAP Financial Measures

Exhibits 99.01, 99.02, 99.03 and 99.04 to this Current Report on Form 8-K, in addition to including earnings and earnings per share in accordance with generally accepted accounting principles (“GAAP”) for the three months ended March 31, 2013, also include earnings and earnings per share for such period excluding (1) a charge for an estimated probable loss relating to Mississippi Power Company's construction of the integrated coal gasification combined cycle facility in Kemper County, Mississippi and (2) a charge related to the restructuring of a leveraged lease investment that was completed on March 1, 2013. These charges significantly impacted the presentation of earnings and earnings per share for the three months ended March 31, 2013, and similar charges are not expected to occur with any regularity as part of Southern Company's ongoing business activities. Accordingly, Southern Company believes the presentation of earnings and earnings per share, excluding these charges, is useful to investors because it provides investors with additional information to evaluate the performance of Southern Company's ongoing business activities. Southern Company management also uses earnings and earnings per share, excluding the effect of these charges, to evaluate the performance of Southern Company's ongoing business activities. The presentation of this additional information is not meant to be considered a substitute for financial measures prepared in accordance with GAAP.
