What makes Putnam different?

In 1830, Massachusetts Supreme Judicial Court Justice Samuel Putnam established The Prudent Man Rule, a legal foundation for responsible money management.

#### THE PRUDENT MAN RULE

All that can be required of a trustee to invest is that he shall conduct himself faithfully and exercise a sound discretion. He is to observe how men of prudence, discretion, and intelligence manage their own affairs, not in regard to speculation, but in regard to the permanent disposition of their funds, considering the probable income, as well as the probable safety of the capital to be invested.

#### A time-honored tradition in money management

Since 1937, our values have been rooted in a profound sense of responsibility for the money entrusted to us.

#### A prudent approach to investing

We use a research-driven team approach to seek consistent, dependable, superior investment results over time, although there is no guarantee a fund will meet its objectives.

#### Funds for every investment goal

We offer a broad range of mutual funds and other financial products so investors and their financial representatives can build diversified portfolios.

#### A commitment to doing what's right for investors

With a focus on investment performance and in-depth information about our funds, we put the interests of investors first and seek to set the standard for integrity and service.

#### Industry-leading service

We help investors, along with their financial representatives, make informed investment decisions with confidence.

## Message from the Trustees

Dear Fellow Shareholder:

The past six months have presented the economy with the most serious set of challenges in many years, and the financial markets have reflected the uncertainty of the situation. However, given the circumstances, the economy has held up relatively well. In fact, for late 2007 and early 2008, economic growth has held steady at a rate of 0.6% . To be sure, current economic indicators present a mixed picture, but another, more likely, outcome is that the economy will weather this rough patch. The Federal Reserve Board has cut interest rates sharply and provided financial markets with ample liquidity, while Congress and the White House have come forward with a timely fiscal package of tax rebates and investment incentives. A growing number of economists now believe that the economy may avert a recession.

It is always unsettling to see the markets and one's investment returns declining. Times like these are a reminder of why it is important to keep a long-term perspective, ensure your portfolio is well diversified, and seek the counsel of your financial representative.

Starting this month, we have changed the portfolio manager's commentary in this report to a question-and-answer format. We feel this new approach makes the information more readable and accessible, and we hope you think so as well.

2

---

Lastly, we are pleased to report that on February 19, 2008, the merger of Putnam High Yield Municipal Trust into this fund was completed. We would like to take this opportunity to welcome new shareholders to the fund, and wish to thank all of our investors for your continued confidence in Putnam Investments.

---

## Putnam Managed Municipal Income Trust: Potential for income exempt from federal income tax

Municipal bonds finance important public projects such as schools, roads, and hospitals, and they can help investors keep more of the income they receive from their investment. Putnam Managed Municipal Income Trust offers an additional advantage – the flexibility to invest in municipal bonds issued by any state in the country.

Municipal bonds are typically issued by states and local municipalities to raise funds for building and maintaining public facilities. The income from a municipal bond is generally exempt from federal income tax, and often state and local taxes. The bonds are backed by either the issuing city or town or by revenues collected from usage fees, and have varying degrees of credit risk – the risk that the issuer won't be able to repay the bond.

The fund's management team can select bonds from a variety of state and local governments throughout the United States. The fund also combines bonds of differing credit quality. In addition to investing in high-quality bonds, the team allocates a portion of the portfolio to lower-rated bonds, which may offer higher income in return for more risk.

When deciding whether to invest in a bond, the team considers factors such as credit risk, interest-rate risk, and the risk that the bond will be prepaid. The team is backed by Putnam's fixed-income organization, one of the largest in the investment management industry, in which municipal bond analysts are grouped into sector teams and conduct ongoing research. Once a bond has been purchased, the team continues to monitor developments that affect the bond market, the sector, and the issuer of the bond. Typically, lower-rated bonds are reviewed more often because of their greater potential risk.

The goal of the management team's research and active management is to stay a step ahead of the industry and pinpoint opportunities to adjust the fund's holdings – either by acquiring more of a particular bond or by selling it – for the benefit of the fund and its shareholders.

*Capital gains, if any, are taxable for federal and, in most cases, state purposes. For some investors, investment income may be subject to the federal alternative minimum tax. Income from federally exempt funds may be subject to state and local taxes. Please consult with your tax advisor for more information. Mutual funds that invest in bonds are subject to certain risks, including interest-rate risk, credit risk, and inflation risk. As interest rates rise, the prices of bonds fall. Long-term bonds are more exposed to interest-rate risk than short-term bonds. Lower-rated bonds may offer higher yields in return for more risk. Unlike bonds, bond funds have ongoing fees and expenses. The fund uses leverage, which involves risk and may increase the volatility of the fund's net asset value. The fund's shares trade on a stock exchange at market prices, which may be higher or lower than the fund's net asset value.*

### How do closed-end funds differ from open-end funds?

**More assets at work** While open-end funds need to maintain a cash position to meet redemptions, closed-end funds are not subject to redemptions and can keep more of their assets invested in the market.

**Traded like stocks** Closed-end fund shares are traded on stock exchanges, and their market prices fluctuate in response to supply and demand, among other factors.

**Market price vs. net asset value** Like an open-end fund's net asset value (NAV) per share, the NAV of a closed-end fund share equals the current value of the fund's assets, minus its liabilities, divided by the number of shares outstanding. However, when buying or selling closed-end fund shares, the price you pay or receive is the market price. Market price reflects current market supply and demand and may be higher or lower than the NAV.

**Strategies for higher income** Closed-end funds have greater flexibility to use strategies such as "leverage" – for example, issuing preferred shares to raise capital, then seeking to invest it at higher rates to enhance return for common shareholders.

Municipal bonds may finance a range of community projects and thus play a key role in local development.

---

## *Performance snapshot*

# Putnam Managed Municipal Income Trust

Average annual total return (%) comparison as of 4/30/08

*Data is historical. Past performance does not guarantee future results. More recent returns may be less or more than those shown. Investment return and net asset value will fluctuate, and you may have a gain or a loss when you sell your shares. Performance assumes reinvestment of distributions and does not account for taxes. Fund returns in the bar chart are at NAV. See pages 7 and 13-15 for additional performance information, including fund returns at market price. Index and Lipper results should be compared to fund performance at NAV. Lipper calculates performance differently than the closed-end funds it ranks, due to varying methods for determining a fund's monthly reinvestment NAV.*

*\* Returns for the six-month period are not annualized, but cumulative.*

6

---

## The period in review

Paul, financial markets have been extremely volatile in recent months. How has the municipal bond market fared?

The municipal bond market certainly has not been immune to the challenges in the financial markets. A number of factors related to the subprime lending crisis contributed to a significant increase in volatility for municipal bonds. We've had significant forced selling on Wall Street by hedge funds and investment banks needing to raise capital and cover losses. Meanwhile, concerns about the financial health of bond insurers, which also insure subprime debt, have put additional pressure on insured municipal bonds.

How did the fund perform during the six-month period?

For the six months ended April 30, 2008, the fund had a loss of 2.50%. While we're never happy with negative returns, in a difficult period the fund was able to outperform the average return of its

### **Broad market index and fund performance**

This comparison shows your fund's performance in the context of broad market indexes for the six months ended 4/30/08. See page 6 and pages 13-15 for additional fund performance information. Index descriptions can be found on page 18.

7

peers, which experienced a loss of 4.71%, as measured by Lipper. The fund under-performed its benchmark, the Lehman Municipal Bond Index, which posted a positive return of 1.47% for the period. With investors demonstrating a "flight-to-safety" mentality in the past six months, the fund, which holds lower-quality issues than the Lehman Municipal Bond Index, underperformed the benchmark.

Can you describe in greater detail some of the concerns that weighed on the market?

One major concern involved monoline bond insurers, which are companies that provide insurance on municipal bonds as well as the issuers of securitized credit, such as mortgage-backed securities and collateralized debt obligations associated with the subprime market. [See *Investment Insight* on page 11 for more details.] Initially, investors were worried about the insurers' involvement in subprime-related securities and their responsibility for covering those losses. As the subprime credit crisis unfolded, however, investors began to worry about *all* securities covered by these insurers, including issuers of municipal bonds. The resulting volatility has continued during the past six months as several monoline insurers were downgraded or put on negative watch by the ratings agencies.

These downgrades created a significant dislocation in the market. Today, of the

### Credit quality overview

Credit qualities shown as a percentage of portfolio value as of 4/30/08. A bond rated Baa or higher (MIG3/VMIG3 or higher, for short-term debt) is considered investment grade. The chart reflects Moody's ratings; percentages may include bonds not rated by Moody's but considered by Putnam Management to be of comparable quality. Ratings will vary over time.

8

seven major insurers, only two "Financial Security Assurance and Assured Guaranty Ltd." have the highest ratings from the three leading rating agencies. In a significant blow to the issuance of new insured bonds, several have stopped writing new contracts altogether.

Meanwhile, concerns about the slowdown of the economy and its possible effects on tax revenues weighed on the municipal market. Liquidity problems persisted in credit markets in general, with hedge funds, a major buyer in 2007, leading an early 2008 sell-off that put additional downward pressure on municipal bond prices.

Compared to your peers, how did you limit damage to the portfolio?

We believe that, compared to our peers, the largest driver of performance was our higher credit quality, which favored bonds with credit ratings of A and Baa as opposed to our peers' greater weighting of Ba, B, and below. We were helped by the higher credit quality outperforming.

We also benefitted from our preference for shorter-term bonds, which generally outperformed longer-term bonds following the rate cuts by the Federal Reserve Board [the Fed]. One notable contributor was a so-called "pre-refunded" bond issued by the **California Statewide Community Development Authority** for the Thomas Jefferson

### Comparison of top sector weightings

This chart shows how the fund's top weightings have changed over the past six months. Weightings are shown as a percentage of net assets. Holdings will vary over time.

9

---

School of Law. Pre-refunding means the bond issuer was able to secure enough in Treasury securities to ensure that it would redeem the bond issues on their first callable date. This action raised the bond's creditworthiness and allowed us to sell at a premium.

Not all of our strategies helped the fund's performance, however — most notably, our decision to increase our position in prepaid gas bonds, such as **Tennessee Energy Acquisition Corporation** bonds. Their performance suffered in the period as investors became concerned about the investment banks that back the bonds. We are still comfortable in our long-term outlook for these bonds.

### How have you adapted the portfolio to the changing market environment?

We believe that many areas of the municipal bond market have been oversold by concerned investors, creating opportunities to add bonds paying unusually wide spreads. In February, 10-year Aaa-rated municipal bonds were yielding 17% more than 10-year Treasury bonds, despite municipal bonds' tax-free income. We expect continued volatility during the rest of 2008. To that end, we are opportunistically adding to our holdings of lower-quality bonds — specifically, to our overweight in BBB-rated bonds. One such addition is a BBB-rated education bond issued by **Delaware County Pennsylvania** for Neumann College, whose heavy reliance on net tuition and fee revenue was met by a total headcount increase of 4% in 2007.

We also added "short put bonds" that we believe are particularly attractive. These unique two- to three-year puts, which offer attractive credit spreads, have been offered by bond issuers as a means to refinance their auction rate bonds. We found a number of opportunities, including a two-year short put bond issued by the **Burke County Georgia Development Authority**.

As prices of longer-term bonds fell during the period, we also moved selectively into some longer-term holdings, particularly in the 15- to 20-year maturity range. Although there are no guarantees, we believe these additions should help improve our yield while positioning the fund for potential price increases ahead.

### Paul, what's your outlook ?

With the economy struggling, we're clearly not out of the woods. State budgets are a concern across the country, but we do not foresee large amounts of credit downgrades of general obligation bonds — bonds backed by the "taxing" ability of the municipality rather than the revenue from a particular project — at this point. Still, we are being cautious in some areas, like New York City, where we expect the financial industry-led recession to be more severe. Declining real estate prices will also have a greater effect in certain states, such as Florida.

10

---

Investors should understand that, while the market will likely remain uncertain in the near term, the Fed has taken dramatic steps to inject liquidity into the markets and provide a cushion for the slumping economy. The silver lining is that we are finding investment opportunities that we believe add value to the portfolio. We are looking to add to bonds in the Baa-to-Ba range where we have strong conviction.

Overall, municipal bond asset quality is still quite sound, in our opinion. We also believe that income tax rates may rise with a new White House administration and the scheduled 2010 sunset, or discontinuation, of certain tax cuts within the current tax code. This combination of potentially higher taxes, attractive valuations, and high asset quality makes municipal bonds a compelling investment opportunity, in our view.

Thank you, Paul, for your time and insights today.

## INVESTMENT INSIGHT

**Municipal bond issuers purchase insurance** from monoline insurers to enhance their credit ratings. The insurance comes in the form of credit wraps, with the monoline insurer — so-named because they offer a single line of insurance — essentially “wrapping” its credit rating around the issuer’s. This added layer of protection allows the issuer to guarantee full payment of a bond’s principal and interest to bondholders should it be downgraded or default, and typically boosts the issuer’s credit rating. However, a successful transaction hinges on the monoline insurer’s credit rating and claims-paying ability — two areas under pressure given the monoline industry’s involvement with subprime mortgages.

## Of special interest

Beginning in mid-February 2008, and consistent with the experience of other closed-end funds with preferred shares outstanding, the fund has experienced unsuccessful remarketing of its preferred shares. The remarketing failures appear to be driven by broad-based liquidity issues that are affecting credit markets in general and do not affect the credit rating of the fund’s preferred shares or its ability to pay dividends to preferred shareholders. The fund’s preferred shareholders continue to receive dividends at the “maximum dividend rate,” determined by reference to a market rate (such as a commercial paper rate) pursuant to the fund’s bylaws. Putnam and the fund’s Trustees share the concern of the fund’s preferred shareholders regarding the recent

11

---

remarketing failures and the liquidity issues that they currently face. We are devoting considerable internal and external resources to address the current situation faced by the fund’s preferred shareholders. For more information, and to remain apprised of developments on these matters at Putnam, please visit the closed-end fund portion of Putnam’s mutual fund Web site, which may be accessed through <http://www.putnam.com/individual>.

## Your fund’s performance

This section shows your fund’s performance for periods ended April 30, 2008, the end of the first half of its current fiscal year. In accordance with regulatory requirements for mutual funds, we also include performance as of the most recent calendar quarter-end. Performance should always be considered in light of a fund’s investment strategy. Data represents past performance. Past performance does not guarantee future results. More recent returns may be less or more than those shown. Investment return, net asset value, and market price will fluctuate,

and you may have a gain or a loss when you sell your shares.

## Fund performance

Total return for periods ended 4/30/08

	NAV	Market price	Lehman Municipal Bond Index	Lipper High Yield Municipal Debt Funds (closed-end) category average*
Annual average Life of fund (since 2/24/89)	6.40%	5.53%	6.62%	5.50%
10 years	51.73	24.38	65.41	55.24
Annual average	4.26	2.21	5.16	4.44
5 years	29.55	24.79	21.83	30.57
Annual average	5.31	4.53	4.03	5.44

## Your fund's management

Your fund is managed by the members of the Putnam Tax Exempt Fixed-Income Team. Paul Drury is the Portfolio Leader, and Brad Libby, Susan McCormack, and Thalia Meehan are Portfolio Members, of your fund. The Portfolio Leader and Portfolio Members coordinate the team's management of the fund.

For a complete listing of the members of the Putnam Tax Exempt Fixed-Income Team, including those who are not Portfolio Leaders or Portfolio Members of your fund, please visit the Individual Investors section of [www.putnam.com](http://www.putnam.com).

## Investment team fund ownership

The table below shows how much the fund's current Portfolio Leader and Portfolio Members have invested in the fund and in all Putnam mutual funds (in dollar ranges). Information shown is as of April 30, 2008, and April 30, 2007.

## Trustee and Putnam employee fund ownership

As of April 30, 2008, all of the Trustees of the Putnam funds owned fund shares. The table below shows the approximate value of investments in the fund and all Putnam funds as of that date by the Trustees and Putnam employees. These amounts include investments by the Trustees' and employees' immediate family members and investments through retirement and deferred compensation plans.

	Assets in the fund	Total assets in all Putnam funds
Trustees	\$53,000	\$ 87,000,000
Putnam employees	\$ 6,000	\$626,000,000

16

## Other Putnam funds managed by the Portfolio Leader and Portfolio Members

Thalia Meehan is the Portfolio Leader, and Paul Drury, Brad Libby, and Susan McCormack are Portfolio Members, of Putnam's open-end tax-exempt funds for the following states: Arizona, California, Massachusetts, Michigan, Minnesota, New Jersey, New York, Ohio, and Pennsylvania. The same group also manages Putnam Tax Exempt Income Fund, Putnam AMT-Free Insured Municipal Fund, and Putnam Municipal Opportunities Trust.

Paul Drury is the Portfolio Leader, and Brad Libby, Susan McCormack, and Thalia Meehan are Portfolio Members, of Putnam Tax-Free High Yield Fund and Putnam Managed Municipal Income Trust.

Thalia Meehan, Paul Drury, Brad Libby, and Susan McCormack may also manage other accounts and variable trust funds advised by Putnam Management or an affiliate.

17

## Terms and definitions

### Important terms

**Total return** shows how the value of the fund's shares changed over time, assuming you held the shares through the entire period and reinvested all distributions in the fund.

**Net asset value (NAV)** is the value of all your fund's assets, minus any liabilities and the net assets allocated to any outstanding preferred shares, divided by the number of outstanding common shares.

**Market price** is the current trading price of one share of the fund. Market prices are set by transactions between buyers and sellers on exchanges such as the New York Stock Exchange.

**Current yield** is the annual rate of return earned from dividends or interest of an investment. Current yield is expressed as a percentage of the price of a security, fund share, or principal investment.

### Comparative indexes

**Lehman Aggregate Bond Index** is an unmanaged index of U.S. investment-grade fixed-income securities.

**Lehman Municipal Bond Index** is an unmanaged index of long-term fixed-rate investment-grade tax-exempt bonds.

**Merrill Lynch 91-Day Treasury Bill Index** is an unmanaged index that seeks to measure the performance of U.S. Treasury bills available in the marketplace.

**S&P 500 Index** is an unmanaged index of common stock performance.

*Indexes assume reinvestment of all distributions and do not account for fees. Securities and performance of a fund and an index will differ. You cannot invest directly in an index.*

**Lipper** is a third-party industry-ranking entity that ranks mutual funds. Its rankings do not reflect sales charges. Lipper rankings are based on total return at net asset value relative to other funds that have similar current investment styles or objectives as determined by Lipper. Lipper may change a fund's category assignment at its discretion. Lipper category averages reflect performance trends for funds within a category.

18

---

## **Trustee approval of management contract**

### **General conclusions**

The Board of Trustees of the Putnam funds oversees the management of each fund and, as required by law, determines annually whether to approve the continuance of your fund's management contract with Putnam Investment Management ("Putnam Management"). In this regard, the Board of Trustees, with the assistance of its Contract Committee consisting solely of Trustees who are not "interested persons" (as such term is defined in the Investment Company Act of 1940, as amended) of the Putnam funds (the "Independent Trustees"), requests and evaluates all information it deems reasonably necessary under the circumstances. Over the course of several months ending in June 2007, the Contract Committee met several times to consider the information provided by Putnam Management and other information developed with the assistance of the Board's independent counsel and independent staff. The Contract Committee reviewed and discussed key aspects of this information with all of the Independent Trustees. The Contract Committee recommended, and the Independent Trustees approved, the continuance of your fund's management contract, effective July 1, 2007.

In addition, in anticipation of the sale of Putnam Investments to Great-West Lifeco, at a series of meetings ending in March 2007, the Trustees reviewed and approved new management and distribution arrangements to take effect upon the change of control. Shareholders of all funds approved the management contracts in May 2007, and the change of control transaction was completed on August 3, 2007. Upon the change of control, the management contracts that were approved by the Trustees in June 2007 automatically terminated and were replaced by new contracts that had been approved by shareholders. In connection with their review for the June 2007 continuance of the Putnam funds' management contracts, the Trustees did not identify any facts or circumstances that would alter the substance of the conclusions and recommendations they made in their review of the contracts to take effect upon the change of control.

The Independent Trustees' approval was based on the following conclusions:

□ That the fee schedule in effect for your fund represented reasonable compensation in light of the nature and quality of the services being provided to the fund, the fees paid by competitive funds and the costs incurred by Putnam Management in providing such services, and

□ That this fee schedule represented an appropriate sharing between fund shareholders and Putnam Management of such economies of scale as may exist in the management of the fund at current asset levels.

These conclusions were based on a comprehensive consideration of all information provided to the Trustees and were not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered these factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors. It is also important to recognize that the fee arrangements for your fund and the other Putnam funds are the result of many years of review and discussion between the Independent Trustees and Putnam Management, that

19

certain aspects of such arrangements may receive greater scrutiny in some years than others, and that the Trustees' conclusions may be based, in part, on their consideration of these same arrangements in prior years.

### **Management fee schedules and categories; total expenses**

The Trustees reviewed the management fee schedules in effect for all Putnam funds, including fee levels and breakpoints, and the assignment of funds to particular fee categories. In reviewing fees and expenses, the Trustees generally focused their attention on material changes in circumstances — for example, changes in a fund's size or investment style, changes in Putnam Management's operating costs or responsibilities, or changes in competitive practices in the mutual fund industry — that suggest that consideration of fee changes might be warranted. The Trustees concluded that the circumstances did not warrant changes to the management fee structure of your fund, which had been carefully developed over the years, reexamined on many occasions and adjusted where appropriate. The Trustees focused on two areas of particular interest, as discussed further below:

**Competitiveness.** The Trustees reviewed comparative fee and expense information for competitive funds, which indicated that, in a custom peer group of competitive funds selected by Lipper Inc., your fund ranked in the 20th percentile in management fees and in the 20th percentile in total expenses as of December 31, 2006 (the first percentile being the least expensive funds and the 100th percentile being the most expensive funds). The Trustees expressed their intention to monitor this information closely to ensure that fees and expenses of your fund continue to meet evolving competitive standards.

**Economies of scale.** The Trustees considered that most Putnam funds currently have the benefit of breakpoints in their management fees that provide shareholders with significant economies of scale, which means that the effective management fee rate of a fund (as a percentage of fund assets) declines as a fund grows in size and crosses specified asset thresholds. Conversely, as a fund shrinks in size — as has been the case for many Putnam funds in recent years — these breakpoints result in increasing fee levels. In recent years, the Trustees have examined the operation of the existing breakpoint structure during periods of both growth and decline in asset levels. The Trustees concluded that the fee schedules in effect for the funds represented an appropriate sharing of economies of scale at current asset levels. In reaching this conclusion, the Trustees considered the Contract Committee's stated intent to continue to work with Putnam Management to plan for an eventual resumption in the growth of assets, and to consider the potential economies that might be produced under various growth assumptions.

In connection with their review of the management fees and total expenses of the Putnam funds, the Trustees also reviewed the costs of the services to be provided and profits to be realized by Putnam Management and its affiliates from the relationship with the funds. This information included trends in revenues, expenses and profitability of Putnam Management and its affiliates

20

---

relating to the investment management and distribution services provided to the funds. In this regard, the Trustees also reviewed an analysis of Putnam Management's revenues, expenses and profitability with respect to the funds' management contracts, allocated on a fund-by-fund basis.

### **Investment performance during the review period**

The quality of the investment process provided by Putnam Management represented a major factor in the Trustees' evaluation of the quality of services provided by Putnam Management under your fund's management contract. The Trustees were assisted in their review of the Putnam funds' investment process and performance by the work of the Investment Process Committee of the Trustees and the Investment Oversight Committees of the Trustees, which had met on a regular monthly basis with the funds' portfolio teams throughout the year. The Trustees concluded that Putnam Management generally provides a high-quality investment process — as measured by the experience and skills of the individuals assigned to the management of fund portfolios, the resources made available to such personnel, and in general the ability of Putnam Management to attract and retain high-quality personnel — but also recognized that this does not guarantee favorable investment results for every fund in every time period. The

## Edgar Filing: PUTNAM MANAGED MUNICIPAL INCOME TRUST - Form N-CSRS

Trustees considered the investment performance of each fund over multiple time periods and considered information comparing each fund's performance with various benchmarks and with the performance of competitive funds.

The Trustees noted the satisfactory investment performance of many Putnam funds. They also noted the disappointing investment performance of certain funds in recent years and discussed with senior management of Putnam Management the factors contributing to such underperformance and actions being taken to improve performance. The Trustees recognized that, in recent years, Putnam Management has made significant changes in its investment personnel and processes and in the fund product line to address areas of underperformance. In particular, they noted the important contributions of Putnam Management's leadership in attracting, retaining and supporting high-quality investment professionals and in systematically implementing an investment process that seeks to merge the best features of fundamental and quantitative analysis. The Trustees indicated their intention to continue to monitor performance trends to assess the effectiveness of these changes and to evaluate whether additional changes to address areas of underperformance are warranted.

In the case of your fund, the Trustees considered that your fund's common share cumulative total return performance at net asset value was in the following percentiles of its Lipper Inc. peer group (Lipper High Yield Municipal Debt Funds (closed-end)) (compared using tax-adjusted performance to recognize the different federal income tax treatment for capital gains distributions and exempt-interest distributions) for the one-, three- and five-year periods ended March 31, 2007 (the first percentile being the best-performing funds and the 100th percentile being the worst-performing funds):

21

---

One-year period	Three-year period	Five-year period
93rd	87th	76th

---

(Because of the passage of time, these performance results may differ from the performance results for more recent periods shown elsewhere in this report. Over the one-, three- and five-year periods ended March 31, 2007, there were 15, 15 and 12 funds, respectively, in your fund's Lipper peer group.\* Past performance is no guarantee of future returns.)

The Trustees noted the disappointing performance for your fund for the one-year, three-year, and five-year periods ended March 31, 2007. In this regard, the Trustees considered Putnam Management's view that one factor in the fund's relative underperformance during this period appeared to have been its selection of higher-quality bonds, given market conditions. The Trustees also considered Putnam Management's view that the fund's investment strategy and process are designed to produce attractive relative performance over longer periods. The Trustees also noted that the Trustees have approved the merger of this fund into Putnam Municipal Opportunities Trust, subject to shareholder approval.

As a general matter, the Trustees concluded that cooperative efforts between the Trustees and Putnam Management represent the most effective way to address investment performance problems. The Trustees noted that investors in the Putnam funds have, in effect, placed their trust in the Putnam organization, under the oversight of the funds' Trustees, to make appropriate decisions regarding the management of the funds. Based on the responsiveness of Putnam Management in the recent past to Trustee concerns about investment performance, the Trustees concluded that it is preferable to seek change within Putnam Management to address performance shortcomings. In the Trustees' view, the alternative of terminating a management contract and engaging a new investment adviser for an underperforming fund would entail significant disruptions and would not provide any greater assurance of improved investment performance.

### **Brokerage and soft-dollar allocations; other benefits**

The Trustees considered various potential benefits that Putnam Management may receive in connection with the services it provides under the management contract with your fund. These include benefits related to brokerage and soft-dollar allocations, whereby a portion of the commissions paid by a fund for brokerage may be used to acquire research services that may be useful to Putnam Management in managing the assets of the fund and of other clients. The Trustees indicated their continued intent to monitor the potential benefits associated with the

allocation of fund brokerage to ensure that the principle of seeking "best price and execution" remains paramount in the portfolio trading process.

*\* The percentile rankings for your fund's common share annualized total return performance in the Lipper High Yield Municipal Debt Funds (closed-end) category for the one-, five-, and ten-year periods ended March 31, 2008, were 34%, 67%, and 75%, respectively. Over the one-, five-, and ten-year periods ended March 31, 2008, the fund ranked 5th out of 14, 8th out of 11, and 9th out of 11, respectively. Unlike the information above, these rankings reflect performance before taxes. Note that this more recent information was not available when the Trustees approved the continuance of your fund's management contract.*

22

---

The Trustees' annual review of your fund's management contract also included the review of your fund's custodian agreement and investor servicing agreement with Putnam Fiduciary Trust Company ("PFTC"), which provide benefits to affiliates of Putnam Management. In the case of the custodian agreement, the Trustees considered that, effective January 1, 2007, the Putnam funds had engaged State Street Bank and Trust Company as custodian and began to transition the responsibility for providing custody services away from PFTC.

### **Comparison of retail and institutional fee schedules**

The information examined by the Trustees as part of their annual contract review has included for many years information regarding fees charged by Putnam Management and its affiliates to institutional clients such as defined benefit pension plans, college endowments, etc. This information included comparison of such fees with fees charged to the funds, as well as a detailed assessment of the differences in the services provided to these two types of clients. The Trustees observed, in this regard, that the differences in fee rates between institutional clients and the funds are by no means uniform when examined by individual asset sectors, suggesting that differences in the pricing of investment management services to these types of clients reflect to a substantial degree historical competitive forces operating in separate market places. The Trustees considered the fact that fee rates across all asset sectors are higher on average for funds than for institutional clients, as well as the differences between the services that Putnam Management provides to the Putnam funds and those that it provides to institutional clients of the firm, but did not rely on such comparisons to any significant extent in concluding that the management fees paid by your fund are reasonable.

23

---

## **Other information for shareholders**

### **Important notice regarding share repurchase program**

In September 2007, the Trustees of your fund approved the renewal of a share repurchase program that had been in effect since 2005. This renewal will allow your fund to repurchase, in the 12 months beginning October 8, 2007, up to 10% of the fund's common shares outstanding as of October 5, 2007.

### **Important notice regarding delivery of shareholder documents**

In accordance with SEC regulations, Putnam sends a single copy of annual and semiannual shareholder reports, prospectuses, and proxy statements to Putnam shareholders who share the same address, unless a shareholder requests otherwise. If you prefer to receive your own copy of these documents, please call Putnam at 1-800-225-1581, and Putnam will begin sending individual copies within 30 days.

### **Proxy voting**

Putnam is committed to managing our mutual funds in the best interests of our shareholders. The Putnam funds' proxy voting guidelines and procedures, as well as information regarding how your fund voted proxies relating to portfolio securities during the 12-month period ended June 30, 2007, are available in the Individual Investors

section of [www.putnam.com](http://www.putnam.com), and on the SEC's Web site, [www.sec.gov](http://www.sec.gov). If you have questions about finding forms on the SEC's Web site, you may call the SEC at 1-800-SEC-0330. You may also obtain the Putnam funds' proxy voting guidelines and procedures at no charge by calling Putnam's Shareholder Services at 1-800-225-1581.

## Fund portfolio holdings

The fund will file a complete schedule of its portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Shareholders may obtain the fund's Forms N-Q on the SEC's Web site at [www.sec.gov](http://www.sec.gov). In addition, the fund's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. You may call the SEC at 1-800-SEC-0330 for information about the SEC's Web site or the operation of the Public Reference Room.

## Financial statements

### A guide to financial statements

These sections of the report, as well as the accompanying Notes, constitute the fund's financial statements.

**The fund's portfolio** lists all the fund's investments and their values as of the last day of the reporting period. Holdings are organized by asset type and industry sector, country, or state to show areas of concentration and diversification.

**Statement of assets and liabilities** shows how the fund's net assets and share price are determined. All investment and noninvestment assets are added together. Any unpaid expenses and other liabilities are subtracted from this total. The result is divided by the number of shares to determine the net asset value per share. (For funds with preferred shares, the amount subtracted from total assets includes the liquidation preference of preferred shares.)

**Statement of operations** shows the fund's net investment gain or loss. This is done by first adding up all the fund's earnings — from dividends and interest income — and subtracting its operating expenses to determine net investment income (or loss). Then, any net gain or loss the fund realized on the sales of its holdings — as well as any unrealized gains or losses over the period — is added to or subtracted from the net investment result to determine the fund's net gain or loss for the fiscal period.

**Statement of changes in net assets** shows how the fund's net assets were affected by the fund's net investment gain or loss, by distributions to shareholders, and by changes in the number of the fund's shares. It lists distributions and their sources (net investment income or realized capital gains) over the current reporting period and the most recent fiscal year-end. The distributions listed here may not match the sources listed in the Statement of operations because the distributions are determined on a tax basis and may be paid in a different period from the one in which they were earned. Dividend sources are estimated at the time of declaration. Actual results may vary. Any non-taxable return of capital cannot be determined until final tax calculations are completed after the end of the fund's fiscal year.

**Financial highlights** provide an overview of the fund's investment results, per-share distributions, expense ratios, net investment income ratios, and portfolio turnover in one summary table, reflecting the five most recent reporting periods. In a semiannual report, the highlight table also includes the current reporting period.

## Edgar Filing: PUTNAM MANAGED MUNICIPAL INCOME TRUST - Form N-CSRS

*\*\* The Moody's, Standard & Poor's or Fitch ratings indicated are believed to be the most recent ratings available at April 30, 2008 for the securities listed. Ratings are generally ascribed to securities at the time of issuance. While the agencies may from time to time revise such ratings, they undertake no obligation to do so, and the ratings do not necessarily represent what the agencies would ascribe to these securities at April 30, 2008. Securities rated by Putnam are indicated by /P. Securities rated by Fitch are indicated by /F. The rating of an insured security represents what is believed to be the most recent rating of the insurer's claims-paying ability available at April 30, 2008 and does not reflect any subsequent changes.*

*Non-income-producing security.*

*Restricted, excluding 144A securities, as to public resale. The total market value of restricted securities held at April 30, 2008 was \$3,216,576 or 0.7% of net assets.*

*A portion of this security was pledged and segregated with the custodian to cover margin requirements for futures contracts at April 30, 2008.*

*Is valued at fair value following procedures approved by the Trustees.*

*144A after the name of an issuer represents securities exempt from registration under Rule 144A under the Securities Act of 1933, as amended. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.*

*The rates shown on VRDN, Mandatory Put Bonds, FRB and FRN are the current interest rates at April 30, 2008.*

*The dates shown on Mandatory Put Bonds are the next mandatory put dates.*

*The dates shown on debt obligations other than Mandatory Put Bonds are the original maturity dates.*

*The dates shown on debt obligations are the original maturity dates.*

50

## **Notes to financial statements** 4/30/08 (Unaudited)

### **Note 1: Significant accounting policies**

Putnam Managed Municipal Income Trust (the "fund"), a Massachusetts business trust, is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The fund's investment objective is to seek a high level of current income exempt from federal income tax. The fund intends to achieve its objective by investing in a diversified portfolio of tax-exempt municipal securities which Putnam Investment Management, LLC ("Putnam Management"), the fund's manager, a wholly-owned subsidiary of Putnam, LLC, believes does not involve undue risk to income or principal. Up to 60% of the fund's assets may consist of high-yield tax-exempt municipal securities that are below investment grade and involve special risk considerations. The fund also uses leverage by issuing preferred shares in an effort to increase the income to the common shares.

In the normal course of business, the fund enters into contracts that may include agreements to indemnify another party under given circumstances. The fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be, but have not yet been, made against the fund. However, the fund's management team expects the risk of material loss to be remote.

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

**A) Security valuation** Tax-exempt bonds and notes are generally valued on the basis of valuations provided by an independent pricing service approved by the Trustees. Such services use information with respect to transactions in bonds, quotations from bond dealers, market transactions in comparable securities and various relationships between securities in determining value. Certain investments and derivatives are also valued at fair value following procedures approved by the Trustees. Such valuations and procedures are reviewed periodically by the Trustees. The fair value of securities is generally determined as the amount that the fund could reasonably expect to realize from an orderly disposition of such securities over a reasonable period of time. By its nature, a fair value price is a good faith estimate of the value of a security at a given point in time and does not reflect an actual market price, which may be different by a material amount.

**B) Security transactions and related investment income** Security transactions are recorded on the trade date (the date the order to buy or sell is executed). Gains or losses on securities sold are determined on the

identified cost basis. Interest income is recorded on the accrual basis. All premiums/discounts are amortized/accreted on a yield-to-maturity basis. The premium in excess of the call price, if any, is amortized to the call date; thereafter, any remaining premium is amortized to maturity.

**C) Futures and options contracts** The fund may use futures and options contracts to hedge against changes in the values of securities the fund owns, owned or expects to purchase, or for other investment purposes. The fund may also write options on swaps or securities it owns or in which it may invest to increase its current returns.

The potential risk to the fund is that the change in value of futures and options contracts may not correspond to the change in value of the hedged instruments. In addition, losses may arise from changes in the value of the underlying instruments, if there is an illiquid secondary market for the contracts, or if the counterparty to the contract is unable to perform. Risks may exceed amounts recognized on the Statement of assets

58

and liabilities. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Realized gains and losses on purchased options are included in realized gains and losses on investment securities. If a written call option is exercised, the premium originally received is recorded as an addition to sales proceeds. If a written put option is exercised, the premium originally received is recorded as a reduction to the cost of investments.

Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade. The fund and the broker agree to exchange an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin." Exchange traded options are valued at the last sale price or, if no sales are reported, the last bid price for purchased options and the last ask price for written options. Options traded over-the-counter are valued using prices supplied by dealers. Futures and written option contracts outstanding at period end, if any, are listed after the fund's portfolio.

**D) Interest rate swap contracts** The fund may enter into interest rate swap contracts, which are arrangements between two parties to exchange cash flows based on a notional principal amount, to manage the fund's exposure to interest rates. Interest rate swap contracts are marked to market daily based upon quotations from an independent pricing service or market makers and the change, if any, is recorded as an unrealized gain or loss. Payments received or made are recorded as a realized gains or loss. Certain interest rate swap contracts may include extended effective dates. Income related to these swap contracts is accrued based on the terms of the contract. The fund could be exposed to credit or market risk due to unfavorable changes in the fluctuation of interest rates or if the counterparty defaults on its obligation to perform. Risk of loss may exceed amounts recognized on the Statement of assets and liabilities. Interest rate swap contracts outstanding at period end, if any, are listed after the fund's portfolio.

**E) Federal taxes** It is the policy of the fund to distribute all of its income within the prescribed time and otherwise comply with the provisions of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies. It is also the intention of the fund to distribute an amount sufficient to avoid imposition of any excise tax under Section 4982 of the Code. Therefore, no provision has been made for federal taxes on income, capital gains or unrealized appreciation on securities held nor for excise tax on income and capital gains.

At October 31, 2007, the fund had a capital loss carryover of \$44,075,898 available to the extent allowed by the Code to offset future net capital gain, if any. The amount of the carryover and the expiration dates are:

Loss Carryover	Expiration
\$ 1,237,146	October 31, 2008
1,641,465	October 31, 2009
3,729,886	October 31, 2010

Edgar Filing: PUTNAM MANAGED MUNICIPAL INCOME TRUST - Form N-CSRS

25,837,158	October 31, 2011
8,560,869	October 31, 2012
300,620	October 31, 2013
2,376,260	October 31, 2014
392,494	October 31, 2015

As a result of the February 15, 2008 merger of Putnam High Yield Municipal Trust into the fund, the fund acquired \$21,438,097 in capital loss carryovers which are subject to limitations imposed by the Code. The acquired capital loss carryover and the expiration dates are:

59

Loss Carryover	Expiration
\$ 1,742,951	October 31, 2008
865,353	October 31, 2009
678,750	October 31, 2010
12,315,216	October 31, 2011
4,095,518	October 31, 2012
273,437	October 31, 2013
899,265	October 31, 2014
567,607	October 31, 2015

The aggregate identified cost on a tax basis is \$659,606,295, resulting in gross unrealized appreciation and depreciation of \$17,308,330 and \$25,065,841, respectively, or net unrealized depreciation of \$7,757,511.

**F) Distributions to shareholders** Distributions to common and preferred shareholders from net investment income are recorded by the fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid at least annually. Dividends on remarketed preferred shares become payable when, as and if declared by the Trustees. Each dividend period for the remarketed preferred shares is generally a 28-day period for Series A and Series B shares, and a 7-day period for Series C shares. The applicable dividend rate for the remarketed preferred shares on April 30, 2008 was 2.90% for Series A, 2.88% for Series B and 2.88% for Series C. Beginning in February 2008, the fund has experienced unsuccessful remarketing of its remarketed preferred shares. As a result, the dividends paid on the remarketed preferred shares has been at the "maximum dividend rate", pursuant to the fund's by-laws, which based on the current credit quality of the remarketed preferred shares equals 110% of the 60-day "AA" composite commercial paper rate. The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Dividend sources are estimated at the time of declaration. Actual results may vary. Any non-taxable return of capital cannot be determined until final tax calculations are completed after the end of

the fund's fiscal year. Reclassifications are made to the fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations.

**G) Determination of net asset value** Net asset value of the common shares is determined by dividing the value of all assets of the fund, less all liabilities and the liquidation preference of any outstanding remarketed preferred shares, by the total number of common shares outstanding as of period end.

**Note 2: Management fee, administrative services and other transactions**

Putnam Management is paid for management and investment advisory services quarterly based on the average net assets of the fund. Such fee is based on the lesser of (i) an annual rate of 0.55% of the average net assets of the fund attributable to common and preferred shares outstanding or (ii) the following annual rates expressed as a percentage of the fund's average net assets attributable to common and preferred shares outstanding: 0.65% of the first \$500 million, and 0.55% of the next \$500 million, with additional breakpoints at higher asset levels.

If dividends payable on remarketed preferred shares during any dividend payment period plus any expenses attributable to remarketed preferred shares for that period exceed the fund's gross income attributable to the proceeds of the remarketed preferred shares during that period, then the fee payable to Putnam Management for that period will be reduced by the amount of the excess (but not more than the effective management fee rate under the contract multiplied by the liquidation preference of the remarketed preferred shares outstanding during the period).

The fund reimburses Putnam Management an allocated amount for the compensation and related expenses of certain officers of the fund and their staff who provide administrative

60

---

services to the fund. The aggregate amount of all such reimbursements is determined annually by the Trustees.

Custodial services for the fund's assets were provided by Putnam Fiduciary Trust Company ("PFTC"), an affiliate of Putnam Management, and by State Street Bank and Trust Company ("State Street"). Custody fees are based on the fund's asset level, the number of its security holdings, transaction volumes and with respect to PFTC, certain fees related to the transition of assets to State Street. Putnam Investor Services, a division of PFTC, provided investor servicing agent functions to the fund. Putnam Investor Services was paid a monthly fee for investor servicing at an annual rate of 0.05% of the fund's average net assets. During the period ended April 30, 2008, the fund incurred \$93,545 for custody and investor servicing agent functions provided by PFTC.

Under the custodian contract between the fund and State Street, the custodian bank has a lien on the securities of the fund to the extent permitted by the fund's investment restrictions to cover any advances made by the custodian bank for the settlement of securities purchased by the fund. At April 30, 2008, the payable to the custodian bank represents the amount due for cash advanced for the settlement of securities purchased.

The fund has entered into expense offset arrangements with PFTC and State Street whereby PFTC's and State Street's fees are reduced by credits allowed on cash balances. For the six months ended April 30, 2008, the fund's expenses were reduced by \$18,636 under the expense offset arrangements.

Each independent Trustee of the fund receives an annual Trustee fee, of which \$368, as a quarterly retainer, has been allocated to the fund, and an additional fee for each Trustees meeting attended. Trustees receive additional fees for attendance at certain committee meetings and industry seminars and for certain compliance-related matters. Trustees also are reimbursed for expenses they incur relating to their services as Trustees.

The fund has adopted a Trustee Fee Deferral Plan (the "Deferral Plan") which allows the Trustees to defer the receipt of all or a portion of Trustees fees payable on or after July 1, 1995. The deferred fees remain invested in certain Putnam funds until distribution in accordance with the Deferral Plan.

The fund has adopted an unfunded noncontributory defined benefit pension plan (the "Pension Plan") covering all Trustees of the fund who have served as a Trustee for at least five years and were first elected prior to 2004.

Benefits under the Pension Plan are equal to 50% of the Trustee's average annual attendance and retainer fees for the three years ended December 31, 2005. The retirement benefit is payable during a Trustee's lifetime, beginning the year following retirement, for the number of years of service through December 31, 2006. Pension expense for the fund is included in Trustee compensation and expenses in the Statement of operations. Accrued pension liability is included in Payable for Trustee compensation and expenses in the Statement of assets and liabilities. The Trustees have terminated the Pension Plan with respect to any Trustee first elected after 2003.

**Note 3: Purchases and sales of securities**

During the six months ended April 30, 2008, cost of purchases and proceeds from sales of investment securities other than short-term investments aggregated \$135,132,318 and \$123,443,031, respectively. There were no purchases or sales of U.S. government securities.

**Note 4: Preferred shares**

On February 19, 2008, Putnam High Yield Municipal Trust merged with and into the fund. A related two-for-one stock split of Series C remarketed preferred shares of Putnam Managed Municipal Income Trust reduced the liquidation

61

---

preference of these preferred shares from \$100,000 to \$50,000 per share. The stock split was necessary to accommodate the different per-share liquidation preferences of preferred shares of the merging series, and did not affect the aggregate liquidation preference of preferred shares held by any shareholder.

The Series A (550), Series B (550) and Series C (2,200) remarketed preferred shares are redeemable at the option of the fund on any dividend payment date at a redemption price of \$100,000 per share for Series A and B, and at \$50,000 per share for Series C, plus an amount equal to any dividends accumulated on a daily basis but unpaid through the redemption date (whether or not such dividends have been declared) and, in certain circumstances, a call premium.

It is anticipated that dividends paid to holders of remarketed preferred shares will be considered tax-exempt dividends under the Internal Revenue Code of 1986. To the extent that the fund earns taxable income and capital gains by the conclusion of a fiscal year, it may be required to apportion to the holders of the remarketed preferred shares throughout that year additional dividends as necessary to result in an after-tax equivalent to the applicable dividend rate for the period.

Under the Investment Company Act of 1940, the fund is required to maintain asset coverage of at least 200% with respect to the remarketed preferred shares. Additionally, the fund's bylaws impose more stringent asset coverage requirements and restrictions relating to the rating of the remarketed preferred shares by the shares' rating agencies. Should these requirements not be met, or should dividends accrued on the remarketed preferred shares not be paid, the fund may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain of the remarketed preferred shares. At April 30, 2008, no such restrictions have been placed on the fund.

**Note 5: Shares repurchased**

In September 2007, the Trustees approved the renewal of the repurchase program to allow the fund to repurchase up to 10% of its outstanding common shares over the 12-month period ending October 7, 2008 (based on shares outstanding as of October 5, 2007). Prior to this renewal, the Trustees had approved a repurchase program to allow the fund to repurchase up to 10% of its outstanding common shares over the 12 month period ending October 6, 2007 (based on shares outstanding as of October 7, 2005). Repurchases are made when the fund's shares are trading at less than net asset value and in accordance with procedures approved by the fund's Trustees.

For the six months ended April 30, 2008, the fund repurchased 789,594 common shares for an aggregate purchase price of \$5,522,844, which reflects a weighted-average discount from net asset value per share of 10.71% ..

**Note 6: Acquisition of Putnam HighYield Municipal Trust**

## Edgar Filing: PUTNAM MANAGED MUNICIPAL INCOME TRUST - Form N-CSRS

On February 19, 2008, the fund issued 18,007,034 common shares, in exchange for common shares of Putnam High Yield Municipal Trust to acquire that fund's net assets in a tax-free exchange approved by the shareholders. The common net assets of the fund and Putnam High Yield Municipal Trust on February 15, 2008, were \$310,693,597 and \$141,608,656 respectively. On February 15, 2008, Putnam High Yield Municipal Trust had distributions in excess of net investment income of \$181,133, accumulated net realized loss of \$24,733,409 and unrealized appreciation of \$3,004,507. The aggregate common net assets of the fund immediately following the acquisition were \$452,302,253.

On February 19, 2008, the fund also issued 900 Series C remarketed preferred shares in exchange for 900 Series A remarketed preferred shares of Putnam High Yield Municipal Trust. The liquidation preference of these shares is \$45,000,000.

62

---

Information presented in the Statement of operations and changes in net assets reflect only the operations of Putnam Managed Municipal Income Trust.

### **Note 7: Regulatory matters and litigation**

In late 2003 and 2004, Putnam Management settled charges brought by the Securities and Exchange Commission (the "SEC") and the Massachusetts Securities Division in connection with excessive short-term trading in Putnam funds. Payments from Putnam Management will be distributed to certain open-end Putnam funds and their shareholders. These allegations and related matters have served as the general basis for certain lawsuits, including purported class action lawsuits against Putnam Management and, in a limited number of cases, some Putnam funds. Putnam Management believes that these lawsuits will have no material adverse effect on the funds or on Putnam Management's ability to provide investment management services. In addition, Putnam Management has agreed to bear any costs incurred by the Putnam funds as a result of these matters.

### **Note 8: New accounting pronouncements**

In June 2006, the Financial Accounting Standards Board ("FASB") issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (the "Interpretation"). The Interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken by a filer in the filer's tax return. Upon adoption, the Interpretation did not have a material effect on the fund's financial statements. However, the conclusions regarding the Interpretation may be subject to review and adjustment at a later date based on factors including, but not limited to, further implementation guidance expected from the FASB, and on-going analysis of tax laws, regulations and interpretations thereof.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (the "Standard"). The Standard defines fair value, sets out a framework for measuring fair value and expands disclosures about fair value measurements. The Standard applies to fair value measurements already required or permitted by existing standards. The Standard is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Putnam Management does not believe the adoption of the Standard will impact the amounts reported in the financial statements; however, additional disclosures will be required about the inputs used to develop the measurements of fair value.

In March 2008, Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* ("SFAS 161") an amendment of FASB Statement No. 133 ("SFAS 133"), was issued and is effective for fiscal years beginning after November 15, 2008. SFAS 161 requires enhanced disclosures about how and why an entity uses derivative instruments and how derivative instruments affect an entity's financial position. Putnam Management is currently evaluating the impact the adoption of SFAS 161 will have on the Funds' financial statement disclosures.

## Putnam puts your interests first

**Putnam has introduced a number of voluntary initiatives designed to reduce fund expenses, provide investors with more useful information, and help safeguard the interests of all Putnam investors. Visit the Individual Investors section at [www.putnam.com](http://www.putnam.com) for details.**

### Cost-cutting initiatives

**Ongoing expenses will be limited** Through calendar 2008, total ongoing expenses, including management fees for all funds, will be maintained at or below the average of each fund's industry peers in its Lipper load-fund universe. For more information, please see the Statement of Additional information.

**Lower class B purchase limit** To help ensure that investors are in the most cost-effective share class, the maximum amount that can be invested in class B shares has been reduced to \$100,000. (Larger trades or accumulated amounts will be refused.)

## Improved disclosure

Putnam fund prospectuses and shareholder reports have been revised to disclose additional information that will help shareholders compare funds and weigh their costs and risks along with their potential benefits. Shareholders will find easy-to-understand information about fund expense ratios, portfolio manager compensation, risk comparisons, turnover comparisons, brokerage commissions, and employee and trustee ownership of Putnam funds. Disclosure of breakpoint discounts has also been enhanced to alert investors to potential cost savings.

## Protecting investors' interests

**Short-term trading fee introduced** To discourage short-term trading, which can interfere with a fund's long-term strategy, a 1% short-term trading fee may be imposed on any Putnam fund shares (other than money market funds) redeemed or exchanged within seven calendar days of purchase (for certain funds, this fee applies for 90 days).
