 SUMMARY PROSPECTUS  
 MAY 1, 2013

HAPSUM

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at <http://www.vaneck.com/library/etfs/>. You can also get this information at no cost by calling 888.MKT.VCTR, or by sending an email request to [info@vaneck.com](mailto:info@vaneck.com). The Fund's prospectus and statement of additional information, both dated May 1, 2013, are incorporated by reference into this summary prospectus.

**INVESTMENT OBJECTIVE**

Market Vectors RVE Hard Assets Producers ETF (the Fund) seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of The Rogers™-Van Eck Hard Assets Producers Index (the Hard Assets Producers Index).

**FUND FEES AND EXPENSES**

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund ( Shares ).

Shareholder expenses (*fees paid directly from your investment*) None

**Annual Fund Operating Expenses**

(*expenses that you pay each year as a percentage of the value of your investment*)

Management Fee	0.50 %
Other Expenses	0.18 %
Total Annual Fund Operating Expenses <sup>(a)</sup>	0.68 %
Fee Waivers and Expense Reimbursement <sup>(a)</sup>	0.16 %
Total Annual Fund Operating Expenses After Fee Waiver and Expense Reimbursement <sup>(a)</sup>	0.52 %

<sup>(a)</sup> Van Eck Associates Corporation (the Adviser)

has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.49% of the Fund's average daily net assets per year until at least May 1, 2014. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

**EXPENSE EXAMPLE**

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. This example does not take into account brokerage commissions that you pay when purchasing or selling Shares of the Fund.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your Shares at the end of those periods. The example also assumes that your investment has a 5% annual return and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

YEAR	EXPENSES
1	\$ 53
3	\$ 201
5	\$ 363
10	\$ 831

**PORTFOLIO TURNOVER**

The Fund will pay transaction costs, such as commissions, when it purchases and sells securities (or turns over its portfolio). A higher portfolio turnover will cause the Fund to incur additional transaction costs and may result in higher taxes when Fund

---

Shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, may affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 10% of the average value of its portfolio.

## **PRINCIPAL INVESTMENT STRATEGIES**

The Fund normally invests at least 80% of its total assets in equity securities, which may include depositary receipts, of U.S. and foreign hard asset producer companies. A company will be considered to be a hard asset producer company if it, directly or indirectly, derives at least 50% of its revenues from the production and/or distribution of commodities and commodity-related products and services, including among others, companies that fabricate mining or drilling equipment. Such companies may include foreign issuers. As of December 31, 2012, the Hard Assets Producers Index included 336 securities of companies with a market capitalization range of between approximately \$464 million and \$389.6 billion and a weighted average market capitalization of \$66.7 billion. These amounts are subject to change. The Fund's 80% investment policy is non-fundamental and may be change without shareholder approval upon 60 days' prior written notice to shareholders.

The Fund, using a passive or indexing investment approach, attempts to approximate the investment performance of the Hard Assets Producers Index by investing in a portfolio of securities that generally replicates the Hard Assets Producers Index. The Adviser expects that, over time, the correlation between the Fund's performance before fees and expenses and that of the Hard Assets Producers Index will be 95% or better. A figure of 100% would indicate perfect correlation. The Fund normally invests at least 80% of its total assets in securities that comprise the Hard Assets Producers Index.

The Fund may also utilize convertible securities and participation notes to seek performance that corresponds to the Hard Assets Producers Index.

The Fund may concentrate its investments in a particular industry or group of industries to the extent that the Hard Assets Producers Index concentrates in an industry or group of industries. As of December 31, 2012, the Hard Assets Producers Index was concentrated in the hard assets industry and the energy and basic materials sectors.

## **PRINCIPAL RISKS OF INVESTING IN THE FUND**

Investors in the Fund should be willing to accept a high degree of volatility in the price of the Fund's Shares and the possibility of significant losses. An investment in the Fund involves a substantial degree of risk. An investment in the Fund is not a deposit with a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Therefore, you should consider carefully the following risks before investing in the Fund.

**Risk of Investing in the Hard Assets Industry.** Because as currently constituted the Hard Assets Products Index is concentrated in the hard assets industry, the Fund is subject to risks associated with concentrating its investments in hard assets and the hard assets industry, including agriculture, alternatives (*e.g.*, water and alternative energy), base and industrial metals, energy, forest products and precious metals, and can be significantly affected by events relating to these industries, including international political and economic developments, inflation, and other factors. The Fund's portfolio securities may experience substantial price fluctuations as a result of these factors, and may move independently of the trends of operating companies. Companies engaged in the sectors listed above may be adversely affected by changes in government policies and regulations, technological advances and/or obsolescence and competition from new market entrants. Changes in general economic conditions, including commodity price volatility, changes in exchange rates, imposition of import controls, depletion of resources and labor relations, could adversely affect the Fund's portfolio companies.

**Risk of Investing in the Basic Materials Sector.** The basic materials sector includes companies that manufacture chemicals, construction materials, glass and paper products, as well as metals, minerals and mining companies. Because as currently constituted the Hard Assets Producers Index is concentrated in the basic materials sector, the Fund will be sensitive to changes in, and its performance will depend to a greater extent on, the overall condition of the basic materials sector. Companies engaged in the production and distribution of basic materials may be adversely affected by changes in world events, political and economic conditions, energy conservation, environmental policies, commodity price volatility, changes in exchange rates, imposition of import controls, increased competition, depletion of resources and labor relations.

**Risk of Investing in the Energy Sector.** The energy sector includes companies engaged in the exploration, production and distribution of energy sources and companies that manufacture or provide related equipment or services. Because as currently constituted the Hard Assets Producers Index is concentrated in the energy sector, the Fund will be sensitive to changes in, and its performance will depend to a greater extent on, the overall condition of the energy sector. Companies operating in the energy sector are subject to risks including, but not limited to, economic growth, worldwide demand, political instability in the regions that the companies operate, government regulation stipulating rates charged by utilities, interest rate sensitivity, oil price volatility and the cost of providing the specific utility services. In addition, these companies are at risk of civil liability from accidents resulting in injury, loss of life or property, pollution or other environmental damage claims and risk of loss from terrorism and natural disasters.

---

**Risk of Investing in Foreign Issuers.** Investments in the securities, including depositary receipts, of foreign issuers involve risks beyond those associated with investments in U.S. securities. These additional risks include greater market volatility, the availability of less reliable financial information, higher transactional and custody costs, taxation by foreign governments, decreased market liquidity and political instability. Because the Fund may invest in securities denominated in foreign currencies and some of the income received by the Fund will generally be in foreign currencies, changes in currency exchange rates may negatively impact the Fund's return. In addition, the Fund may invest in depositary receipts which involve similar risks to those associated with investments in foreign securities.

**Risk of Investing in Depositary Receipts.** Depositary receipts in which the Fund may invest are receipts issued by banks or trust companies and entitle the holder to all dividends and capital gains that are paid out on the underlying foreign shares. Investments in depositary receipts may be less liquid than the underlying shares in their primary trading market and, if not included in the Hard Assets Producers Index, may negatively affect the Fund's ability to replicate the performance of the Hard Assets Producers Index.

**Equity Securities Risk.** The value of the equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the markets in which the issuers of securities held by the Fund participate, or factors relating to specific issuers in which the Fund invests. Equity securities are subordinated to preferred securities and debt in a company's capital structure with respect to priority in right to a share of corporate income, and therefore will be subject to greater dividend risk than preferred securities or debt instruments. In addition, while broad market measures of equity securities have historically generated higher average returns than fixed income securities, equity securities have also experienced significantly more volatility in those returns.

**Market Risk.** The prices of the securities in the Fund are subject to the risks associated with investing in the securities market, including general economic conditions and sudden and unpredictable drops in value. An investment in the Fund may lose money.

**Index Tracking Risk.** The Fund's return may not match the return of the Hard Assets Producers Index for a number of reasons. For example, the Fund incurs a number of operating expenses not applicable to the Hard Assets Producers Index and incurs costs associated with buying and selling securities, especially when rebalancing the Fund's securities holdings to reflect changes in the composition of the Hard Assets Producers Index. Because the Fund bears the costs and risks associated with buying and selling securities while such costs are not factored in to the return of the Hard Assets Producers Index, the Fund's return may deviate significantly from the return of the Hard Assets Producers Index. In addition, the Fund may not be able to invest in certain securities included in the Hard Assets Producers Index, or invest in them in the exact proportions they represent of the Hard Assets Producers Index, due to legal restrictions or limitations imposed by the governments of certain countries or a lack of liquidity on stock exchanges in which such securities trade. The Fund is expected to value certain of its investments based on fair value prices. To the extent the Fund calculates its net asset value (NAV) based on fair value prices and the value of Hard Assets Producers Index is based on securities' closing prices on local foreign markets (*i.e.*, the value of the Hard Assets Producers Index is not based on fair value prices), the Fund's ability to track the Hard Assets Producers Index may be adversely affected.

**Replication Management Risk.** An investment in the Fund involves risks similar to those of investing in any fund of equity securities traded on an exchange, such as market fluctuations caused by such factors as economic and political developments, changes in interest rates and perceived trends in security prices. However, because the Fund is not actively managed, unless a specific security is removed from the Hard Assets Producers Index, the Fund generally would not sell a security because the security's issuer was in financial trouble. Therefore, the Fund's performance could be lower than funds that may actively shift their portfolio assets to take advantage of market opportunities or to lessen the impact of a market decline or a decline in the value of one or more issuers.

**Premium/Discount Risk.** Disruptions to creations and redemptions, the existence of extreme market volatility or potential lack of an active trading market for Shares may result in Shares trading at a significant premium or discount

to NAV. If a shareholder purchases Shares at a time when the market price is at a premium to the NAV or sells Shares at a time when the market price is at a discount to the NAV, the shareholders may sustain losses.

**Non-Diversified Risk.** The Fund is classified as a non-diversified investment company under the Investment Company Act of 1940, as amended (the 1940 Act ). Therefore, the Fund may invest a relatively high percentage of its assets in a smaller number of issuers or may invest a larger proportion of its assets in a single company. As a result, the gains and losses on a single investment may have a greater impact on the Fund's NAV and may make the Fund more volatile than more diversified funds.

**Concentration Risk.** The Fund's assets may be concentrated in a particular sector or sectors or industry or group of industries to the extent the Hard Assets Producers Index concentrates in a particular sector or sectors or industry or group of industries. Based on the current composition of the Hard Assets Producers Index, the Fund's assets are concentrated in the energy sector and the hard assets industry; therefore, the Fund will be subject to the risk that economic, political or other conditions that have

a negative effect on that sector and industry will negatively impact the Fund to a greater extent than if the Fund's assets were invested in a wider variety of sectors or industries.

## PERFORMANCE

The bar chart that follows shows how the Fund performed for the calendar years shown. The table below the bar chart shows the Fund's average annual returns (before and after taxes). The bar chart and table provide an indication of the risks of investing in the Fund by comparing the Fund's performance from year to year and by showing how the Fund's average annual returns for one year and since inception compared with the Fund's benchmark index and a broad measure of market performance. All returns assume reinvestment of dividends and distributions. The Fund's past performance (before and after income taxes) is not necessarily indicative of how the Fund will perform in the future. Updated performance information is available online at [www.marketvectorsetfs.com](http://www.marketvectorsetfs.com).

### Annual Total Returns Calendar Years

Best Quarter: 20.01% 3Q 10

Worst Quarter: -22.20% 3Q 11

### Average Annual Total Returns for the Periods Ended December 31, 2012

The after-tax returns presented in the table below are calculated using the highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Your actual after-tax returns will depend on your specific tax situation and may differ from those shown below. After-tax returns are not relevant to investors who hold shares of the Fund through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

	Past One Year	Since Inception (8/29/2008)
Market Vectors RVE Hard Assets Producers ETF (return before taxes)	8.98 %	-0.83 %
Market Vectors RVE Hard Assets Producers ETF (return after taxes on distributions)	8.10 %	-1.31 %
Market Vectors RVE Hard Assets Producers ETF (return after taxes on distributions and sale of Fund Shares)	5.84 %	-0.98 %
<i>Rogers</i> <sup>TM</sup> -Van Eck Hard Assets Producers Index (reflects no deduction for fees, expenses or taxes)	8.59 %	-0.65 %
S&P 500 <sup>®</sup> Index (reflects no deduction for fees, expenses or taxes)	1.66 %	4.80 %

## PORTFOLIO MANAGEMENT

Investment Adviser. Van Eck Associates Corporation.

Portfolio Managers. The following individuals are jointly and primarily responsible for the day-to-day management of the Fund's portfolio:

Edgar Filing: MARKET VECTORS ETF TRUST - Form 497K

Name	Title with Adviser	Date Began Managing the Fund
Hao-Hung (Peter) Liao	Portfolio Manager	August 2008
George Cao	Portfolio Manager	August 2008

---

**PURCHASE AND SALE OF FUND SHARES**

The Fund issues and redeems Shares at NAV only in a large specified number of Shares, each called a Creation Unit, or multiples thereof. A Creation Unit consists of 50,000 Shares.

Individual Shares of the Fund may only be purchased and sold in secondary market transactions through brokers. Shares of the Fund are listed on NYSE Arca Inc. ( NYSE Arca ) and because Shares trade at market prices rather than NAV, Shares of the Fund may trade at a price greater than or less than NAV.

**TAX INFORMATION**

The Fund's distributions are taxable and will generally be taxed as ordinary income or capital gains.
