VANECK VECTORS ETFs

(unaudited)

Dear Shareholder:

We are pleased to present this report for the two Master Limited Partnership (MLP) exchange-traded funds (ETFs) of the VanEck Vectors ETF Trust for the 12 month period ended November 30, 2017.

Crude Oil: Stability Followed by Volatility

Despite a relatively stable initial three months, the following four months of the period under review were characterized by notable downward price movement in the crude oil market, even following the deal struck in December 2016 by OPEC and non-OPEC oil producers to cut production.

Having hit a low of \$42.53 on June 21, 2017, crude oil rose fitfully, if steadily, through the end of November 2017, where it settled at \$57.40 per barrel. However, despite this five month period of rising oil prices, both MLP ETFs suffered losses for the full 12 month period under review.

WTI Brent Crude Futures Contract Prices¹

12/1/2016 - 11/30/2017

Source: FactSet as of November 30, 2017. Not intended to be a forecast of future events, a guarantee of future results or investment advice. Current market conditions may not continue.

Any Continued Rise in Oil Prices May Benefit MLPs

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Going forward, we believe that both funds may still stand to benefit from the recently agreed upon extension of the cut in oil output by OPEC and non-members (led by Russia) through December 2018.²

Thank you for participating in the VanEck Vectors ETF Trust. On the following pages, you will find the performance record of the two funds for the 12 month period ending November 30, 2017. You will also find their financial statements. We value your continuing confidence in us and look forward to helping you meet your investment goals in the future.

*Jan F. van Eck
Trustee and President
VanEck Vectors ETF Trust*

December 12, 2017

Represents the opinions of the investment adviser. Past performance is no guarantee of future results. Not intended to be a forecast of future events, a guarantee of future results or investment advice. Current market conditions may not continue.

West Texas Intermediate (WTI), also known as Texas light sweet, is a grade of crude oil used as a benchmark in oil pricing. This grade is described as light because of its relatively low density, and sweet because of its low sulfur content. It is the underlying commodity of New York Mercantile Exchange's oil futures contracts.

Management Discussion

The performance of both funds continued to be affected by the volatility in crude oil prices during the period under review.

High Income MLP

For the 12 months ended November 30, 2017, the VanEck Vectors High Income MLP ETF (NYSE Arca: YMLP) lost 2.67% on a total return basis.*

YMLP declined specifically as a result of its exposure to MLPs involved in energy and, in particular, coal and consumable fuels. While YMLP's exposure to materials contributed positively to performance, this positive contribution provided little counterbalance to the negative performance of both the energy and utilities MLPs.

High Income Infrastructure MLP

For the 12 months ended November 30, 2017, the VanEck Vectors High Income Infrastructure MLP ETF (NYSE Arca: YMLI) lost 6.91% on a total return basis.*

While YMLI's index remains focused on the midstream segment of the MLP sector, YMLI continues generally to be insulated from commodity prices on a fundamental basis; it did benefit briefly from the uptick in oil prices at the start of the period under review. However, thereafter, YMLI's performance deteriorated steadily, if erratically, through the end of November 2017.

The majority of the MLPs in the oil and gas storage and transportation subindustry (in which the Fund remains predominantly invested) detracted from performance, as did the two MLPs in the oil and gas refining and marketing sub-industry.

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Returns based on net asset value (NAV). The performance data quoted represents past performance. Past performance is not a guarantee of future results. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares. Current performance may be lower or higher than performance data quoted.

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in a fund. An index's performance is not illustrative of a fund's performance. Indices are not securities in which investments can be made.

Solactive High Income Infrastructure MLP Index (YMLITR) is a rules-based index designed to provide investors a means of tracking the performance of selected MLPs which are publicly traded on a U.S. securities exchange. To be eligible for inclusion in the Index, a company must be structured as an MLP and be classified as an "Infrastructure" MLP.

¹ Solactive High Income MLP Index (YMLPTR) is a rules-based index designed to provide investors a means of tracking the performance of selected MLPs which are publicly traded on a U.S. securities exchange. To be eligible for inclusion in the Index, a company must be structured as an MLP and be classified as a “High Income” MLP.

² The S&P 500 Index (SPTR) is a market-value weighted index consisting of 500 stocks chosen for market size, liquidity, and industry group representation, with each stock’s weight in the Index proportionate to its market value.

VanEck Vectors High Income MLP ETF (the “Fund”) is the successor to the Yorkville High Income MLP ETF pursuant to reorganizations that took place on February 22, 2016. Prior to that date, the Fund had no investment operations.

Accordingly, for periods prior to that date, the Fund performance information is that of the Yorkville High Income MLP ETF.

Hypothetical Growth of \$10,000 (Since Inception)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund’s benchmark.

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares.

See “About Fund Performance” on page 5 for more information.

VANECK VECTORS ETFs

ABOUT FUND PERFORMANCE

(unaudited)

The price used to calculate market return (Share Price) is determined by using the closing price listed on its primary listing exchange. Since the shares of each Fund did not trade in the secondary market until after each Fund's commencement, for the period from commencement to the first day of secondary market trading in shares of each Fund, the NAV of each Fund is used as a proxy for the secondary market trading price to calculate market returns.

These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of each Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect reinvestment of dividends and capital gains distributions. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Shares may trade at a premium or discount to their NAV in the secondary market.

The net asset value (NAV) of each VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of each fund; it is calculated by taking the total assets of each fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAVs are not necessarily the same as each ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell fund shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses. Past performance is no guarantee of future results.

Solactive High Income MLP Index and Solactive High Income Infrastructure MLP Index are published by Solactive AG (the "Index Provider"). The Index Provider does not sponsor, endorse, or promote the Funds and bear no liability with respect to the Funds or any security.

Premium/discount information regarding how often the closing trading price of the Shares of each Fund were above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund for each of the four previous calendar quarters and the immediately preceding five years (if applicable) can be found at www.vaneck.com.

VANECK VECTORS ETFs TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

This disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, June 1, 2017 to November 30, 2017.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During the Period.”

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on your Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Beginning Account Value	Ending Account Value	Annualized Expense Ratio
-------------------------------	----------------------------	--------------------------------

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

	June 1, 2017	November 30, 2017	During Period⁽¹⁾	Expenses Paid During the Period
High Income MLP ETF*				
Actual	\$ 1,000.00	\$ 1,005.00	0.83 %	\$ 4.17
Hypothetical**	\$ 1,000.00	\$ 1,020.91	0.83 %	\$ 4.20
High Income Infrastructure MLP ETF*				
Actual	\$ 1,000.00	\$ 913.80	0.85 %	\$ 4.08
Hypothetical**	\$ 1,000.00	\$ 1,020.81	0.85 %	\$ 4.31

(1) Tax benefit/(expense) is not included in the ratio calculation.

Expenses are equal to each Fund's annualized expense ratio (for the six months ended November 30, 2017)

* multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

** Assumes annual return of 5% before expenses.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

November 30, 2017

Note 1—Fund Organization—VanEck Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of November 30, 2017, offers fifty-nine investment portfolios, each of which represents a separate series of the Trust.

The financial statements herein relate to the following funds: the High Income MLP ETF and the High Income Infrastructure MLP ETF (each a “Fund”, and collectively the “Funds”). The High Income MLP ETF seeks to provide investment results that correspond generally to the performance, before fees and expenses, of the Solactive High Income MLP Index (the “Index”). The High Income Infrastructure MLP ETF seeks to provide investment results that correspond generally to the performance, before fees and expenses, of the Solactive High Income Infrastructure MLP Index (the “Infrastructure Index”). Each Fund is classified as “non-diversified”. This means that the Funds may invest more of their assets in securities of a single issuer than that of a diversified fund. Each Fund is treated as a regular corporation, or “C” corporation, for U.S. federal income tax purposes. Van Eck Associates Corporation (the “Adviser”) serves as the investment adviser for the Funds and is subject to the supervision of the Board of Trustees (the “Board”).

On February 22, 2016, the shareholders of the Yorkville High Income MLP ETF and Yorkville High Income Infrastructure MLP ETF (the “Predecessor Funds”) approved a proposed agreement and plan of reorganization (the “Reorganization”) that provided for (a) the transfer of all the assets and assumption of certain of the liabilities of the Predecessor Funds, (b) the issuance of shares of the Funds to the shareholders of the Predecessor Funds; and (c) the liquidation and termination of the Predecessor Funds. The effective date of the Reorganization was February 22, 2016. The Predecessor Funds had substantially similar investment objectives, investment strategies, policies and restrictions as those of the Funds. The financial statements and financial highlights include the financial information of the Predecessor Funds through February 21, 2016.

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification (“ASC”) 946 Financial Services-Investment Companies.

The following is a summary of the significant accounting policies followed by the Funds.

Return of Capital Estimates—Distributions received by the Funds generally are comprised of income and return of capital. Each Fund records investment income and return of capital based on estimates made at the time such distributions are received. Such estimates are based on historical information available to the Funds and other industry sources. These estimates may subsequently be revised based on information received from Master Limited Partnerships (“MLP”) after their tax reporting periods are concluded.

Master Limited Partnerships—Entities commonly referred to as “MLPs” are generally organized under state law as limited partnerships or limited liability companies. The Funds intend to primarily invest in MLPs receiving partnership taxation treatment under the Internal Revenue Code of 1986 (the “Code”), and whose interests or “units” are traded on securities exchanges like shares of corporate stock. To be treated as a partnership for U.S. federal income tax purposes, an MLP whose units are traded on a securities exchange must receive at least 90% of its income from qualifying sources such as interest, dividends, real estate rents, gain from the sale or disposition of real property, income and gain from mineral or natural resources activities, income and gain from the transportation or storage of certain fuels, and, in certain circumstances, income and gain from commodities or futures, forwards and options with respect to commodities. Mineral or natural resources activities include exploration, development, production, processing, mining, refining, marketing and transportation (including pipelines) of oil and gas, minerals, geothermal energy, fertilizer, timber or industrial source carbon dioxide. An MLP consists of a general partner and limited partners (or in the case of MLPs organized as limited liability companies, a managing member and members). The general partner or managing member typically controls the operations and management of the MLP and has an ownership stake in the partnership. The limited partners or members, through their ownership of limited partner or member interests, provide capital to the entity, are intended to have no role in the operation and management of the entity and receive cash distributions. The MLPs themselves generally do not pay U.S. federal income taxes (although some states do impose a net income tax on partnerships). Thus, unlike investors in

corporate securities, direct MLP investors are generally not subject to double taxation (i.e., corporate level tax and tax on corporate dividends).

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price.

Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value.

C. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. The Pricing Committee of the Adviser provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments or other assets. If market quotations for a security or other asset is not readily available, or if the Adviser believes it does not otherwise reflect the fair value of a security or asset, the security or asset will be fair valued by the Pricing Committee in accordance with the Funds' valuation policies and procedures. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, periodic comparisons to valuations provided by other independent pricing services, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of most of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Federal and Other Income Taxes—Each Fund intends to invest primarily in MLPs, which generally are treated as qualified publicly traded partnerships for federal income tax purposes. Accordingly, the Funds do not intend to qualify, and will not qualify as a regulated investment company pursuant to Subchapter M of the Internal Revenue Code due to the Funds' concentration in MLP securities and are taxed as regular C-corporations. As a regular C-corporation, each Fund is obligated to pay federal, state and local income tax on its taxable income. Currently the maximum marginal regular federal income tax rate for a regular C-corporation is 35% for taxable income more than

15

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

\$10 million. The Funds may be subject to a 20% alternative minimum tax on their federal alternative minimum taxable income to the extent that their alternative minimum tax exceeds their regular federal income tax. High Income Infrastructure MLP ETF is currently using an estimated 36.37% tax rate for federal, state and local tax which is composed of a 34% marginal federal tax rate and an assumed 2.37% rate attributable to state taxes (net of federal benefit). High Income MLP ETF is currently using an estimated 37.97% tax rate for federal, state and local tax which is composed of a 35% marginal federal tax rate and an assumed 2.97% state tax rate (net of federal benefit).

As a consequence of being taxed as a C-corporation, the Funds will be obligated to pay applicable federal and state corporate income taxes on their taxable income as opposed to most other investment companies which are not so obligated. The Funds expect that a portion of the distributions they receive from MLPs will be treated as a tax deferred return of capital, thus reducing the Funds' current tax liabilities and increasing the Funds' deferred tax liabilities. However, the amount of taxes currently payable by the Funds will vary depending on the amount income and gains derived from investments and/or sales of MLP interests and such taxes will reduce your return from an investment in the Funds.

Cash distributions from MLPs to the Funds that exceed such Funds' allocable share of such MLP's net taxable income are considered a tax-deferred return of capital that will reduce the Funds' adjusted tax basis in the equity securities of the MLP. These reductions in such Funds' adjusted tax basis in the MLP equity securities will increase the amount of gain (or decrease the amount of loss) recognized by the Funds on a subsequent sale of the securities. The Funds will accrue deferred income taxes for any future tax liabilities associated with (a) that portion of MLP distributions considered to be a tax-deferred return of capital as well as (b) capital appreciation on their investments. Upon the sale of an MLP security, the Funds will rely to some extent on information provided by the MLPs, which is not necessarily timely, or accurate, to estimate deferred tax liabilities for purposes of financial statement reporting and determining NAV of the Funds. From time to time, the Funds will modify the estimates or assumptions related to the Funds' deferred tax liabilities as new information becomes available.

Since the Funds will be subject to taxation on their taxable income, the NAV of the Funds' shares will also be reduced by the accrual of any current or deferred tax liabilities. The Index and Infrastructure Index (the "Indices") however are calculated without any adjustments for taxes. As a result, the Funds' after tax performance could differ significantly from the Indices even if the pretax performance of the Funds and the performance of the Indices are closely correlated.

The tax expense or benefits attributable to certain components of income will be included in the Statements of Operations. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for federal income tax purposes. Deferred tax assets and liabilities are calculated utilizing effective tax rates expected to be applied to taxable income in the years the temporary differences are realized or settled. A valuation allowance will be recognized if, based on the available evidence, it is more likely than not that some or all of the deferred tax asset will not be realizable. In the assessment for a valuation allowance, consideration is given to all positive and negative evidence related to the realization of the deferred tax asset. This assessment considers, among other matters, the nature, frequency and severity of current and cumulative losses, forecasts of future profitability (which are highly dependent on cash distributions from the Funds' MLP holdings), the duration of statutory carry forward periods and

the associated risk that operating and capital loss carry forwards may expire unused. The Funds' policy is to classify interest and penalties associated with underpayment of federal and state income taxes, if any, as income tax expense on their Statements of Operations.

Dividends and Distributions to Shareholders—Each Fund distributes substantially all of its net investment income quarterly. All distributions are recorded on ex-dividend date. The estimated characterization of the distributions paid will be either an ordinary income or return of capital distribution. The Funds anticipate that 100% of their E. current year distributions will be treated as return of capital. The actual tax characterization of the distributions made during the current year will not be determined until after the end of the fiscal year when the Funds can determine their earnings and profits and, therefore, may differ from the preliminary estimates. The Funds will inform shareholders of the final tax character of the distributions on IRS Form 1099-DIV in February 2018.

16

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash **F**. in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds’ maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.82% of each Fund’s average daily net assets. Under the Advisory Agreement, the Adviser has agreed to pay all expenses incurred by the Funds except for the advisory fee, interest, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability and extraordinary expenses.

Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds’ “Distributor”. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Note 4—Investments—For the year ended November 30, 2017, the cost of purchases and proceeds from sales of investments other than U.S. Government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

	Purchases	Sales
High Income MLP ETF	\$32,509,240	\$61,727,097
High Income Infrastructure MLP ETF	17,642,154	30,760,620

Note 5—Income Taxes—The High Income MLP ETF and High Income Infrastructure MLP ETF income tax expense/(benefit) for the year ended November 30, 2017 consists of the following:

	Current Expense/ (Benefit)	Deferred Expense/ (Benefit)	Total Expense/ (Benefit)
<u>High Income MLP ETF</u>			
Federal	\$32,100	\$(538,381)	\$(506,281)
State (net of Federal)	—	128,546	128,546

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Change in valuation allowance	—	409,835	409,835
Total	\$32,100	\$—	\$32,100

	Current Expense/ (Benefit)	Deferred Expense/ (Benefit)	Total Expense/ (Benefit)
<u>High Income Infrastructure MLP ETF</u>			
Federal	\$5,205	\$(728,122)	\$(722,917)
State (net of Federal)	7,831	(74,688)	(66,857)
Change in valuation allowance	—	802,810	802,810
Total	\$13,036	\$—	\$13,036

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax purposes.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

Total income tax expense/(benefit) (current and deferred) differs from the amount computed by applying the federal statutory income tax rate to net investment income/(loss) and realized and unrealized gain/(loss) on investments before taxes as follows:

	For the Year Ended November 30, 2017	
	Amount	Rate
<u>High Income MLP ETF</u>		
Income tax expense/(benefit)	\$(549,662)	(35.00)%
State income tax, net of Federal benefit	(46,643)	(2.97)%
Permanent differences, net	34,869	2.22 %
Change in estimated state deferred rate	172,196	10.96 %
Other expense/(benefit)	11,505	0.73 %
Change in valuation allowance	409,835	26.10 %
Net income tax expense/(benefit)	\$32,100	2.04 %

	For the Year Ended November 30, 2017	
	Amount	Rate
<u>High Income Infrastructure MLP ETF</u>		
Income tax expense/(benefit)	\$(714,603)	(34.00)%
State income tax, net of Federal benefit	(49,812)	(2.37)%
Permanent differences, net	(14,062)	(0.67)%
Change in estimated state deferred rate	(23,937)	(1.14)%
Other expense/(benefit)	12,640	0.60 %
Change in valuation allowance	802,810	38.20 %
Net income tax expense/(benefit)	\$13,036	0.62 %

Components of each Fund's deferred tax assets and liabilities are as follows:

	For the Year Ended November 30, 2017	
	High Income MLP ETF	High Income Infrastructure MLP ETF
Deferred Tax Assets:		
Capital loss carryforward	\$69,658,694	\$3,069,598
Net operating loss carryforward	2,792,281	1,041,734
AMT credit carryforward	63,785	—
Other	18,113	2,447

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Deferred Tax Liabilities:

Unrealized gain on investments	(1,627,659)	(110,931)
Net Deferred Tax Asset/(Liability) before Valuation Allowance	70,905,214	4,002,848
Less valuation allowance	(70,905,214)	(4,002,848)
Total Net Deferred Tax Asset/(Liability)	\$—	\$—

The Funds review the recoverability of their deferred tax assets based upon the weight of the available evidence. When assessing the recoverability of their deferred tax assets, management considers available carrybacks, reversing temporary taxable differences, projections of future taxable income and tax planning (if any). High Income MLP ETF has recorded a valuation allowance of \$70,905,214 of the net deferred tax asset and High Income Infrastructure MLP ETF has recorded a valuation allowance of \$4,002,848 of the net deferred tax asset at November 30, 2017 as the Fund believes it is more-likely-than-not the asset will not be realized within the relevant carryforward periods. The Fund may be required to modify the estimates or assumptions it uses regarding the deferred tax asset or liability as new information becomes available. Since the Funds will be subject to taxation on their taxable income, the NAV of Funds shares will also be reduced by the accrual of any deferred tax liabilities. Because of the impact of deferred taxes, the Funds' performance could differ from their underlying Index.

The following is a tabular reconciliation of the total amounts of unrecognized tax benefits.

	For the Year Ended November 30, 2017		
	High Income		
	MLP ETF	Infrastructure MLP ETF	
Unrecognized tax benefit (beginning balance)	\$ —	\$ —	—
Changes for prior period positions	—	—	—
Current period positions	—	—	—
Settlements	—	—	—
Lapse of Statute of limitations	—	—	—
Unrecognized tax benefit (ending balance)	\$ —	\$ —	—

The Funds recognize the tax benefits of uncertain positions only when the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on U.S. and State tax returns filed or expected to be filed since inception of the Funds. The Funds’ tax years are open for examination by U.S. and state tax authorities for all periods. The Funds are not aware of any tax positions for which it is reasonably possible that the total amount of unrecognized tax benefits will change materially in the next 12 months.

As of November 30, 2017, High Income MLP ETF and High Income Infrastructure MLP ETF had the following expiring net operating losses:

<u>Fund</u>	Origination	Amount	Expiration
High Income MLP ETF	11/30/2012	\$454,274	11/30/2032
	11/30/2013	695,798	11/30/2033
	11/30/2014	770,077	11/30/2034
	11/30/2015	1,993,978	11/30/2035
	11/30/2016	2,254,649	11/30/2036
	11/30/2017	1,185,138	11/30/2037
			\$7,353,914

<u>Fund</u>	Origination	Amount	Expiration
High Income Infrastructure MLP ETF	11/30/2013	\$124,340	11/30/2033
	11/30/2015	2,022,791	11/30/2035
	11/30/2016	640,366	11/30/2036
	11/30/2017	76,769	11/30/2037
			\$2,864,266

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

As of November 30, 2017, High Income MLP ETF and High Income Infrastructure MLP ETF had the following expiring capital loss carryforward:

<u>Fund</u>	Origination	Amount	Expiration
High Income MLP ETF	11/30/2015	\$81,997,394	11/30/2020
	11/30/2016	89,478,335	11/30/2021
	11/30/2017	11,981,457	11/30/2022
		\$183,457,186	

<u>Fund</u>	Origination	Amount	Expiration
High Income Infrastructure MLP ETF	11/30/2015	\$1,251,310	11/30/2020
	11/30/2016	6,809,688	11/30/2021
	11/30/2017	378,920	11/30/2022
		\$8,439,918	

The Funds' net deferred tax liability and deferred income tax expense includes any prior year's return to provision adjustments. Prior year's income tax provision was based on estimates and information available at the time of the balance sheet date.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

The Federal tax cost and aggregate gross unrealized appreciation and depreciation on investments held by the Funds at November 30, 2017, were as follows:

	Federal Tax Cost	Aggregated Gross Unrealized Appreciation	Aggregated Gross Unrealized Depreciation	Net Unrealized Appreciation
High Income MLP ETF	\$59,550,647	\$9,725,408	\$(5,431,604)	\$4,293,804
High Income Infrastructure MLP ETF	22,522,486	2,558,486	(2,253,657)	304,829

The difference between cost amounts for financial statement purposes is due primarily to the recognition of pass-through income from the Funds' investments in MLP interests.

Note 6—Capital Share Transactions—As of November 30, 2017, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Fund shares are not individually redeemable and are issued and redeemed at their net asset value per share only through certain authorized broker-dealers (“Authorized Participants”) in blocks of shares (“Creation Units”), or multiples thereof, as follows:

	Creation Units
High Income MLP ETF	50,000
High Income Infrastructure MLP ETF	50,000

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index (“Deposit Securities”) plus a balancing cash component to equate the transaction to the net asset value per share of the Fund on the transaction date. Cash may also be substituted in an amount equivalent to the value of certain Deposit Securities, generally when the securities are not available in sufficient quantity for delivery, are not eligible for trading by the Authorized Participant, or as a result of market circumstances. The Funds may issue Creation Units in advance of receipt of Deposit Securities subject to various conditions, including a requirement to maintain on deposit at the Custodian for the benefit of the Funds, collateral consisting of cash in the form of U.S. dollars at least equal to 115% of the daily marked to market value of the missing Deposit Securities. Since the Funds are taxable as a C-Corporation, the Funds' redemptions will generally result in taxable income or loss to the Funds. Additionally, the Funds expect to effect its redemptions principally for cash, rather than in-kind securities.

For the year ended November 30, 2017, the High Income Infrastructure MLP ETF had in-kind contributions as follows:

**In-Kind
Contributions**

High Income Infrastructure MLP ETF \$3,230,246

The in-kind contributions in this table represent the accumulation of the Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect shareholder transactions including any cash component of the transactions.

Authorized Participants purchasing and redeeming Creation Units may pay transaction fees directly to The Bank of New York Mellon. In addition, the Funds may impose certain variable fees for creations and redemptions with respect to transactions in Creation Units for cash, or on transactions effected outside the clearing process, which are treated as increases in capital. These variable fees, if any, are reflected in share transactions in the Statements of Changes in Net Assets.

Note 7—Concentration of Risk—The Funds' assets will be concentrated in an industry or group of industries to the extent that the Index or Infrastructure Index concentrates in a particular industry or group of industries. By concentrating their assets in a particular industry or group of industries, the Funds are subject to the risk that economic, political or other conditions that have a negative effect on that industry or group of industries will negatively impact the Funds to a greater extent than if the Funds' net assets were invested in a wider variety of industries.

Under normal circumstances, each Fund intends to invest at least 80% of its net assets in securities of MLPs, which are subject to certain risks, such as supply and demand risk, depletion and exploration risk, and the risk associated with the hazards inherent in midstream energy industry activities. A substantial portion of the cash flow received by the Funds is derived from investment in equity securities of MLPs. The amount of cash that an MLP has available for

distributions and the tax character of such distributions are dependent upon the amount of cash generated by the MLP's operations.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees. These Funds have adopted a unitary management fee where the Adviser is responsible for all expenses of the Funds. Therefore, the expense for the Plan for these Funds are included in “Management fees.”

Note 9—Share Split— On June 29, 2016, the VanEck Vectors High Income MLP ETF executed a one-for-five reverse share split for shareholders of record before the open of markets on June 29, 2016.

Note 10—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended November 30, 2017, the following Funds borrowed under this Facility:

<u>Fund</u>	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of November 30, 2017
High Income MLP ETF	174	\$304,340	2.37 %	\$173,529
High Income Infrastructure MLP ETF	31	475,851	2.33	—

Note 11—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the year ended November 30, 2017, there were no offsets to custodian fees.

Note 12—Recent Accounting Pronouncements and Regulatory Requirements— In October 2016, the U.S. Securities and Exchange Commission adopted new rules and amended existing rules (together, final rules) intended to modernize the reporting and disclosure of information by registered investment companies. In part, the final rules amended Regulation S-X and require standardized, enhanced disclosures about derivatives in investment company financial statements, as well as other amendments. As of August 1, 2017, management has implemented the

amendments to Regulation S-X, which did not have a material impact on the Funds' financial statements and related disclosures or impact the Funds' net assets or results of operations.

Note 13—Subsequent Events—The Funds have evaluated the need for additional disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no adjustments will be required to the financial statements. However, the following are details relating to subsequent events that have occurred since November 30, 2017.

Tax Cuts and Jobs Act of 2017

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (“the Act”) was signed into law. The Act reduces the statutory income tax rate applicable to corporations from 35 percent to 21 percent. Additionally, the Act makes changes regarding the use of net operating losses, repeals the corporate alternative minimum tax, restricts corporate deductibility of interest expense, and makes significant changes to the U.S. international tax rules. These changes may affect the Funds' estimates of the current income tax expense and the deferred tax asset and liability balances used in the calculation of their NAVs. Additionally, these and other changes in the Act may affect the business operations of the underlying MLPs in which the Funds invest, thereby affecting the future amount of taxable income or loss allocated from the MLPs to the Funds.

As the Act was signed into law subsequent to the November 30, 2017 year-end of the Funds, the impact of the Act is not reflected in the amounts recorded in these financial statements.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

As disclosed in Note 5, each of the Funds had a net deferred tax asset at November 30, 2017 which was fully offset by a valuation allowance. As a result of the 100% valuation allowance, the Funds have assessed that the reduction in the corporate tax rate had no impact on each of the Fund's net asset values on the enactment date.

The Funds are continuing to assess the effects of the Act on the deferred tax asset and liability balances and valuation allowances and continually assess the recoverability of their deferred tax assets based upon the weight of available evidence. The Funds may modify their estimates and assumptions regarding these balances as their evaluation of the Act continues and as new information regarding the Act or other matters becomes available. Any changes in the Funds' estimates or assumptions regarding these amounts could result in future increases or decreases in the Funds' NAVs.

VANECK VECTORS ETF TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of VanEck Vectors ETF Trust

We have audited the accompanying statements of assets and liabilities, including the schedules of investments of VanEck Vectors High Income MLP ETF and VanEck Vectors High Income Infrastructure MLP ETF (two of the series constituting VanEck Vectors ETF Trust) (the “Funds”) as of November 30, 2017, and the related statements of operations for the year then ended, and the statements of changes in net assets and the financial highlights for each of the two years in the period then ended. These financial statements and financial highlights are the responsibility of the Funds’ management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The financial highlights for periods ended prior to December 1, 2015 were audited by another independent registered public accounting firm whose report, dated January 29, 2016, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds’ internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds’ internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of November 30, 2017, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of VanEck Vectors High Income MLP ETF and VanEck Vectors High Income Infrastructure MLP ETF (two of the series constituting VanEck Vectors ETF Trust) at November 30, 2017 and the results of their operations for the year then ended, and the changes in their net assets and the financial highlights for each of the two years in the period then ended, in conformity with U.S. generally accepted accounting principles.

2 Officers are elected yearly by the Trustees.

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

November 30, 2017 (unaudited)

At a meeting held on June 9, 2017 (the “Renewal Meeting”), the Board of Trustees (the “Board”) of VanEck Vectors ETF Trust (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), approved the continuation of the investment management agreement between the Trust and Van Eck Associates Corporation (the “Adviser”) (the “Investment Management Agreement”) with respect to the VanEck Vectors High Income MLP ETF and VanEck Vectors High Income Infrastructure MLP ETF (each, a “Fund” and together, the “Funds”).

The Board’s approval of the Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 8, 2017. At that meeting, the Trustees discussed the information the Adviser and Broadridge Financial Solutions, Inc. (“Broadridge”), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance and expenses of the Funds and the Funds’ peer funds (other index-based exchange-traded funds (“ETFs”)), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser’s relationship with the Funds. In reviewing performance information for the Funds against their peer groups, the Trustees considered that each Fund generally invests in a different group of issuers than the funds in its designated peer group. In addition, as noted below, the Trustees reviewed certain performance information for each Fund that was not provided by Broadridge. For these and other reasons, the Trustees noted that the peer group performance information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees’ consideration of the Investment Management Agreement was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and the May 8, 2017 meeting regarding the management of the Funds and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides, under the Investment Management Agreement, including the Adviser’s agreement to pay all of the direct expenses of the Funds (excluding interest expense, trading expenses, taxes, accrued deferred tax liability and extraordinary expenses).

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance over relevant periods of the Funds, the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Fund (i.e., measured without regard to the impact of fees and expenses) to the performance of its benchmark index. Based on the foregoing, the Trustees concluded that the investment performance of the Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser and the current status, as they understood it, of the Adviser's compliance environment.

As noted above, the Trustees were also provided various data from Broadridge comparing the Funds' expenses to that of other ETFs. The Trustees noted that the information provided showed that each Fund had management fees greater than the average and median of its peer group of funds. The Trustees also noted that the information provided showed that each Fund had a total expense ratio greater than the average and equal to the median of its peer group of funds. The Trustees reviewed the amount by which the Funds' management fees and/or total expense ratios exceeded the average and/or median of their peer group and information provided by the Adviser providing context for these comparisons. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Funds were reasonable in light of the performance of the Funds and the quality of services received.

The Trustees also considered the benefits, other than fees under the Investment Management Agreement, received by the Adviser from serving as adviser to the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and the fact that the Adviser did not earn any profits from managing the Funds. The Trustees reviewed each Fund's asset size and expense ratio and noted that the Investment Management Agreement does not include breakpoints in the advisory

fee rates as asset levels in a Fund increase. The Trustees considered the potential variability in the net assets of these Funds and the sustainability of any potential economies of scale which may exist given where fees are currently set. The Trustees also evaluated the extent to which management fees for the Funds effectively incorporate the benefits of economies of scale. The Trustees also considered the risks being assumed by the Adviser under the unitary fee structure arrangement and the potential expense stability that may inure to the benefit of shareholders. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and that the advisory fee rate for each Fund currently reflects an appropriate sharing with shareholders of any economies of scale which may exist.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 8, 2017 meeting as part of their consideration of the Investment Management Agreement.

In voting to approve the continuation of the Investment Management Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that the Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a VanEck Vectors ETF Trust (the "Trust") Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus contains this and other information about the investment company. Please read the prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 800.826.2333, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at <http://www.sec.gov>.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at <http://www.sec.gov> and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 800.826.2333 or by visiting vaneck.com.

Item 2. CODE OF ETHICS.

- (a) The Registrant has adopted a code of ethics (the “Code of Ethics”) that applies to the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) The Registrant’s code of ethics is reasonably described in this Form N-CSR.
- (c) The Registrant has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Registrant has not granted a waiver or an implicit waiver from a provision of its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (e) Not applicable.
- (f) The Registrant’s Code of Ethics is attached as an Exhibit hereto.

Item 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant’s Board of Trustees has determined that David Chow, R. Alastair Short, Peter Sidebottom and Richard Stamberger, members of the Audit and Governance Committees, are “audit committee financial experts” and “independent” as such terms are defined in the instructions to Form N-CSR Item 3(a)(2).

Item 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The principal accountant fees disclosed in Item 4(a), 4(b), 4(c), 4(d) and 4(g) are for the Funds of the Registrant for which the fiscal year end is November 30.

- (a) Audit Fees. The aggregate Audit Fees of Ernst & Young LLP (“E&Y”) for professional services billed for the audits of the financial statements, or services that are normally provided in connection with statutory and regulatory filings or engagements for the fiscal years ended November 30, 2017 and November 30, 2016, were \$53,500 and \$52,000, respectively.
- (b) Audit-Related Fees. Not applicable.
- (c) Tax Fees. Not applicable.
- (d) All Other Fees
None.

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

The Audit Committee will pre-approve all audit and non-audit services, to be provided to the Fund, by the independent accountants as required by Section 10A of the Securities Exchange Act of 1934. The Audit Committee (e) has authorized the Chairman of the Audit Committee to approve, between meeting dates, appropriate non-audit services.

The Audit Committee after considering all factors, including a review of independence issues, will recommend to the Board of Trustees the independent auditors to be selected to audit the financial statements of the Funds.

(f) Not applicable.

(g) Not applicable.

(h) Not applicable.

Item 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The Registrant's Board has an Audit Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)) consisting of four Independent Trustees. Messrs. Chow, Short, Sidebottom and Stamberger currently serve as members of the Audit Committee. Mr. Short is the Chairman of the Audit Committee.

Item 6. SCHEDULE OF INVESTMENTS.

Information included in Item 1.

Item 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable.

Item 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable.

Item 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

Item 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

None.

Item 11. CONTROLS AND PROCEDURES.

The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3 (c)) are effective, as of a date (a) within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15 (b)).

There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) (b) under the 1940 Act (17 CFR 270.30a(d)) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. DISCLOSURE OF SECURITIES LENDING ACTIVITIES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(a) Not applicable.

(b) Not applicable.

Item 13. EXHIBITS.

(a)(1) The code of ethics is attached as EX-99.CODE ETH.

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2) is attached as Exhibit 99.CERT.

(b) Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 is furnished as Exhibit 99.906CERT.
