ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On February 13, 2004, Access Integrated Technologies, Inc. ("Access Integrated Technologies" or the "Company") issued a press release announcing its financial results for the fiscal quarter ended December 31, 2003.

Such press release contains EBITDA and adjusted EBITDA information in the discussion of Access Integrated Technologies' financial results. EBITDA represents earnings before interest, taxes, depreciation and amortization and other income/(expense), net. Adjusted EBITDA represents earnings before interest, taxes, depreciation and amortization, other income/(expense), net and non-cash stock-based compensation.

Edgar Filing: ACCESS INTEGRATED TECHNOLOGIES INC - Form 8-K

EBITDA and adjusted EBITDA are not measurements of financial performance under accounting principles generally accepted in the United States of America and may not be comparable to other similarly titled measures of other companies. Access Integrated Technologies uses each of EBITDA and adjusted EBITDA as a financial metric to measure the financial performance of the business because management believes it provides additional information with respect to the performance of its fundamental business activities. For this reason, Access Integrated Technologies believes EBITDA and adjusted EBITDA will also be useful to others, including its stockholders, as valuable financial metrics.

Management presents adjusted EBITDA because it believes that adjusted EBITDA is a useful supplement to net income as an indicator of operating performance. Management also believes that adjusted EBITDA is an industry-wide financial measure that is useful both to management and investors when evaluating the Company's performance and comparing our performance with the performance of our competitors. Management also uses adjusted EBITDA for planning purposes, as well as to evaluate the Company's performance because it believes that adjusted EBITDA more accurately reflects the Company's results, as it excludes certain items, in particular non-cash stock-based compensation charges, that management believes are not indicative of the Company's operating performance.

Access Integrated Technologies believes that each of EBITDA and adjusted EBITDA is a performance measure and not a liquidity measure, and a reconciliation between net income and EBITDA and adjusted EBITDA is provided in the financial results. EBITDA and adjusted EBITDA should not be considered as alternatives to operating or net income as an indicator of performance or as an alternative to cash flows from operating activities as an indicator of cash flows, in each case as determined in accordance with accounting principles generally accepted in the United States of America, or as a measure of liquidity.

A copy of such press release is attached as Exhibit 99.1 hereto and incorporated herein by reference.

The information in this Form 8-K and the exhibit attached hereto shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934 (the "Exchange Act") or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, regardless of any general incorporation language in such filing.
