Ball Corporation
Current Report on Form 8-K
Dated October 12, 2006

Item 8.01. Other Events.

On October 12, 2006, Ball Corporation (the “Company”) issued a press release announcing that by the end of the year it will close two manufacturing facilities in North America as part of the realignment of the company’s Metal Food & Household Products, Americas, segment following the acquisition earlier this year of U.S. Can Corporation.

Ball will close a leased facility in Alliance, Ohio, which was one of 10 manufacturing locations in the U.S. acquired from U.S. Can. The plant manufactures plastic pails, primarily for paints and chemicals.

The company also announced that its Canadian subsidiary will close a metal food can manufacturing plant in Burlington, Ontario, which was part of Ball’s metal food can operations prior to the acquisition. The facility produces three-piece steel food can bodies and ends, and does metal cutting and coating.

The closure of the Alliance plant is expected to be cash neutral and be treated as an opening balance sheet item related to the U.S. Can acquisition. Ball will record a fourth quarter after-tax charge of approximately \$25 million related to equipment disposal and the Burlington closure.

The closure of the two plants will reduce annual operating costs by approximately \$8 million and be cash flow positive after tax benefits and proceeds from the sale of the fixed assets.

The Alliance plant has approximately 40 employees and the Burlington plant has approximately 300 employees.

Item 9.01. Financial Statements and Exhibits.

(c) Exhibits.
