Press Release

CVRD Announces Memorandum of Understanding with Antofagasta Plc.

Rio de Janeiro June 6, 2002 - Companhia Vale do Rio Doce (CVRD), the world's largest producer and exporter of iron ore and pellets, and Antofagasta Plc. (Antofagasta), a multinational company with mining activities, one of the largest Chilean copper producers, listed on the London Stock Exchange and controlled by LUKSIC group, signed on June 5, 2002 a Memorandum of Understanding, by which they have expressed their intention to co-develop a joint venture for mining research and exploration near Cuzco in southern Peru. The mentioned area, considered promising, has approximately 60 thousand square kilometers. Other important mining investments are located there.

According to this Memorandum of Understanding, (i) Anaconda Peru S.A. (Anaconda), Antofagasta's subsidiary, will transfer assets and mining rights to a new company to be incorporated in Peru (Newco), retaining a total participation of 99.9%; (ii) CVRD will establish a new company, called Compania Minera Andino-Brasilera (CMAB), which will hold a total participation of 0.1% in Newco, the company to be established; (iii) CMAB will be given the option to acquire a total participation of 50% of Newco, after having invested US\$6,700,000.00 during an investment period of three years in mining research and exploration at Newco.

This operation will be subject to the preceding conditions, that is, the establishment of both, Newco and CMAB, estimated to be implemented during the month of June 2002, according to the parties.

This transaction is a relevant movement in CVRD's strategy, in line with the internationalization of its activities, and reaffirms the Company's emphasis on copper mining, following the Mineracao Serra do Sossego S.A and Salobo Metais S.A acquisitions.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissao de Valores Mobiliarios and the U.S. Securities and Exchange Commission.
