Item 1. FINANCIAL STATEMENTS

Introduction to Interim Financial Statements.

The interim financial statements included herein have been prepared by Bay Resources Ltd. (the Company) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (The Commission). Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30, 2002.

In the opinion of management, all adjustments, consisting of normal recurring adjustments and consolidating entries, necessary to present fairly the financial position of the Company and subsidiaries as of March 31, 2003 and March 31, 2002, the results of its operations for the three and nine month periods ended March 31, 2003 and March 31, 2002, and the changes in its cash flows for the three and nine month periods ended March 31, 2003 and March 31, 2002, have been included. The results of operations for the interim periods are not necessarily indicative of the results for the full year.

UNLESS OTHERWISE INDICATED, ALL FINANCIAL INFORMATION PRESENTED IS IN AUSTRALIAN DOLLARS.

Notes to Consolidated Financial Statements

March 31, 2003, June 30, 2002 and

March 31, 2002

(1) Organisation

Bay Resources Ltd. (Bay Resources) is incorporated in the State of Delaware. The principal shareholder of Bay Resources is Edensor Nominees Proprietary Limited (Edensor), an Australian corporation. Edensor owned 78.8% of Bay Resources as of March 31, 2003. Bay Resources acquired a controlling interest on September 3, 1987 in former subsidiary, Solmecs Corporation N.V. (Solmecs) and 100% ownership on January 2, 1992. Bayou sold its interest in Solmecs effective June 5, 1998. During fiscal 1998, Bay Resources incorporated a further subsidiary, Baynex.com Pty Ltd, under the laws of Australia. Baynex.com Pty Ltd has not traded at September 30, 1998. On August 21, 2000, Bay Resources incorporated a new wholly owned subsidiary, Bay International Pty Ltd (now called Bay Resources (Asia) Pty Ltd), a corporation incorporated under the laws of Australia. In June 2002, the Company incorporated a new wholly owned subsidiary, 4075251 Canada Inc, a corporation incorporated under the laws of Canada. 4075251 Canada Inc is the vehicle that will be used by the Company to undertake exploration activities for gold in Canada. In December 2002, the name of its 100% owned subsidiary was changed from Baynet International Pty Ltd to Bay Resources (Asia) Pty Ltd.

(2) Investment Securities

The following is a summary of Investment Securities at March 31, 2003, June 30, 2002 and March 31, 2002 :

The investment using this cost method is carried at cost. Dividends received from the investment carried at cost are included in other income. Dividends received in excess of the Company's proportionate share of accumulated earnings (return of capital dividends) are applied as a reduction of the cost of the investment. No securities were sold during 2003 and 2002 and all securities were treated as available for sale for 2003 and 2002.

(3) Short Term and Long Term Debt

The following is a summary of Bay Resources borrowing arrangements as of March 31, 2003, June 30, 2002 and March 31, 2002 .

(4) Affiliate Transactions

Bay Resources advances to and receives advances from various affiliates. All advances between consolidated affiliates are eliminated on consolidation. At March 31, 2003, Bay Resources had no outstanding advances to or from unconsolidated affiliated companies. \$484,000, \$389,000 and \$418,000 of accounts payable for the years shown is due to an affiliated management company.

Bay Resources paid management fees to this affiliated management company in the amounts of \$80,000, \$150,000 and \$112,500 respectively. These entities are affiliated through common management and ownership.

(5) Going Concern

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of Bay Resources as a going concern. However, Bay Resources has sustained recurring losses. In addition, Bay Resources has a net working capital deficiency which raises substantial doubts as to its ability to continue as going concerns. Bay Resources anticipates that it will be able to defer repayment of certain of its short term loan commitments until it has sufficient liquidity to enable these loans to be repaid or other arrangements to be put in place. In addition Bay Resources has historically relied on loans and advances from corporations affiliated with the President of Bay Resources. Based on discussions with these affiliate companies, Bay Resources believes this source of funding will continue to be available. Other than the arrangements noted above, Bay Resources has not confirmed any other arrangement for ongoing funding. As a result Bay Resources may be required to raise funds by additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

(6) Sale of Solmecs

Pursuant to a stock purchase agreement dated as of June 5, 1998, the Company acquired 499,701 shares in SCNV Acquisition Corp (SCNV), representing approximately 24% of the issued and outstanding share capital of SCNV, in return for the whole of the share capital of Solmecs Corporation N.V., a Netherlands Antilles company which prior to the exchange was formerly a wholly owned subsidiary of the Company. The 499,701 shares has been valued at US\$2,800,000 or A\$4,516,000 and will be accounted for using the cost method because the Company does not exercise significant influences over SCNV's operating and financial activities (see note 4). The sale resulted in a gain of \$5,899,000.

SCNV is a Delaware corporation established May 1997 to select, develop and commercially exploit proprietary technologies, in various stages of development, invented primarily by scientists who immigrated to Israel from and by scientists and institutions in Russia and other countries that formerly comprised the Soviet Union. Simultaneously with the SCNV stock acquisition by the Company, SCNV completed an initial public offering of common stock and warrants which resulted in gross proceeds of approximately US\$5,900,000.

The Company has been granted certain demand and piggyback registration rights with respect to the SCNV shares. Notwithstanding the foregoing, the Company has agreed not to sell, grant options for sale or assign or transfer any of the SCNV shares, for a period of 24 months from the closing of the (Lock-up) agreement, which expired in June 2000. Bay Resources has requested SCNV to take the necessary steps to register Bay Resources' shareholding in SCNV. The Company does not currently have any plans to distribute the shares.

(7) Income Taxes

Bay Resources files its income tax returns on an accrual basis. Bayou has carry forward losses of approximately US\$19 million as of June 30, 2002 which expire in the years 2003 through 2022. Bay Resources will need to file tax returns for those years of the NOL carryforwards. Due to the uncertainty as to realisation of these losses, a valuation allowance of US\$6.0 million has been recorded to off set the tax benefit of the carry forward losses. During the year ended June 30, 2002, Bay Resources provided for a net change in its valuation allowance of US\$10,000.

(8) Canadian Agreement

During the 2003 fiscal year, Bay continued to expand its gold exploration business by entering into an agreement to explore for gold on extensive property interests in northern Canada held by Tahera Corporation; and making application via a new 100% owned subsidiary, 407521 Canada Inc, for properties in the highly prospective Committee Bay Greenstone Belt in Nunavut, Canada.

(9) Termination of New Business Opportunity

On November 25, 2002, the Company announced that it had signed a joint venture contract with the Tibet Bureau of Geology and Minerals Exploration Development (Tibet BGMR), China to earn a 51% interest (with the right to earn up to a 70% interest in two drilled porphyry zones and the surrounding higher risk exploration areas) in the Xigaze copper belt running in a 200km east-west trend either side of Lhasa. The exploration block of about 40,000km² contains eight known porphyry deposits. To date, only two have been drill tested in west Chong Jiang and east of Lhasa Qu Long.

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

In March 2003, the Company withdrew from the agreement due to additional hurdles that were placed in front of the Company by the Tibet BGMR.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FUND COSTS CONVERSION

The consolidated statements of income and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Australian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Australian dollar as compared to the US dollar during the periods indicated:

9 months ended March 31, 2002 A\$1.00 = U.S. \$.5282
9 months ended March 31, 2003 A\$1.00 = U.S. \$.5650

RESULTS OF OPERATION

Three Months Ended March 31, 2003 vs. Three Months Ended March 31, 2002 .

The Company is primarily engaged in mineral exploration activities and to date has not generated revenues from such activities.

Costs and expenses increased from A\$96,000 in the three months ended March 31, 2002 to A\$122,000 in the three months ended March 31, 2003. The Company's financial statements are prepared in Australian dollars (A\$). Since March 31, 2002 the A\$ compared to the United States dollar (US\$) has appreciated by 6.9%. A number of the costs and expenses of the Company are incurred in US\$ and the conversion of these costs to A\$ means that the comparison of March 2003 to 2002 does not always present a true comparison. The increase is a net result of:

- a) an increase in interest expense from A\$23,000 for the three months ended March 31, 2002 to A\$34,000 for the three months ended March 31, 2003 as a result of the increase in long term debt of the Company required to fund the Company's operations and an increase in interest rates in Australia over that period.
- b) an increase in legal accounting and professional expense from A\$5,000 for the three months ended March 31, 2002 to A\$7,000 for the three months ended March 31, 2003.
- c) a decrease in administrative costs including salaries from A\$68,000 in the three months ended March 31, 2002 to A\$62,000 in the three months ended March 31, 2003 as the charge from AXIS Consultants Pty Ltd for management services was less than in the comparable period of the prior year.
- d) an increase in the exploration expenditure expense from \$nil for the three months ended March 31, 2002 to \$19,000 for the three months ended March 31, 2003. In mid 2002, the Company commenced exploration activities in Canada and Tibet for the first time and introduced an accounting policy of expensing all exploration expenditure as incurred.

As a result of the foregoing, the loss from operations increased from A\$96,000 for the three months ended March 31, 2002 to A\$122,000 for the three months ended March 31, 2003.

The net loss was A\$122,000 for the three months ended March 31, 2003 compared to a net loss of A\$96,000 for the three months ended March 31, 2002 .

Nine months Ended March 31, 2003 vs. Nine months Ended March 31, 2002 .

Costs and expenses increased from A\$319,000 in the nine months ended March 31, 2002 to A\$449,000 in the nine months ended March 31, 2003. The Company's financial statements are prepared in Australian dollars (A\$). Since March 31, 2002 the A\$ compared to the United States dollar (US\$) has appreciated by 6.9%. A number of the costs and expenses of the Company are incurred in US\$ and the conversion of these costs to A\$ means that the comparison of March 2003 to 2002 does not always present a true comparison. The increase is a net result of:

- a) an increase in interest expense from A\$64,000 for the nine months ended March 31, 2002 to A\$96,000 for the nine months ended March 31, 2003 as a result of the increase in long term debt of the Company required to fund the Company's operations.
- b) an increase in legal accounting and professional expense from A\$9,000 for the nine months ended March 31, 2002 to A\$35,000 for the nine months ended March 31, 2003 as a result of the work involved in regards the new exploration activities in Canada and Tibet.

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

- c) a decrease in administrative costs including salaries from A\$246,000 in the nine months ended March 31, 2002 to A\$188,000 in the nine months ended March 31, 2003 as the charge from AXIS Consultants Pty Ltd for management services was less than in the comparable period of the prior year.
 - d) an increase in the exploration expenditure expense from \$nil for the nine months ended March 31, 2002 to \$130,000 for the nine months ended March 31, 2003. In mid 2002, the Company commenced exploration
-

activities in Canada and Tibet for the first time and introduced an accounting policy of expensing all exploration expenditure as incurred. As a result of the foregoing, the loss from operations increased from A\$319,000 for the nine months ended March 31, 2002 to A\$449,000 for the nine months ended March 31, 2003.

The net loss was A\$449,000 for the nine months ended March 31, 2003 compared to a net loss of A\$319,000 for the nine months ended March 31, 2002 .

Liquidity and Capital Resources

As of March 31, 2003 the Company had short-term obligations of A\$560,000 comprising accounts payable and accrued expenses and long term debt of A\$1,120,000.

The Company anticipates that it will be able to defer repayment of certain of its short-term loan commitments, until it has sufficient liquidity to enable these loans to be repaid, of which there can be no assurance. In addition the Company has historically relied upon loans and advances from affiliates to meet a significant portion of the Company's cash flow requirements which the Company believes, based on discussions with such affiliates, will continue to be available during fiscal 2003.

Other than the arrangements above the Company has not confirmed any further arrangements for ongoing funding. As a result the Company will be required to raise funds from additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

Cautionary Safe Harbor Statement under the United States Private Securities Litigation Reform Act of 1995.

Certain information contained in this Form 10-Q is forward looking information within the meaning of the Private Securities Litigation Act of 1995 (the "Act") which became law in December 1995. In order to obtain the benefits of the "safe harbor" provisions of the act for any such forwarding looking statements, the Company wishes to caution investors and prospective investors about significant factors which among others have affected the Company's actual results and are in the future likely to affect the Company's actual results and cause them to differ materially from those expressed in any such forward looking statements. This Form 10-Q report contains forward looking statements relating to future financial results. Actual results may differ as a result of factors over which the Company has no control including, without limitation, the risks of " " and development stage projects, political risks of development in foreign countries, risks associated with environmental and other regulatory matters, mining risks and competition and the volatility of gold and copper prices, and movements in the foreign exchange rate. Additional information which could affect the Company's financial results is included in the Company's Form 10-K on file with the Securities and Exchange Commission.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Bay Resources is exposed to interest rate risk primarily through its loan facilities. The Company utilizes these borrowings to meet its working capital needs.

At March 31, 2003, the Company had outstanding borrowings of approximately \$1,120,000 under its Loan Facilities. In the event that interest rates associated with these facilities were to increase 100 basis points, the impact on future cash flows would be a decrease of approximately \$11,200 annually.

Item 4. CONTROLS AND PROCEDURES

Within 90 days prior to the date of the filing of this report, the Company's Chief Executive Officer and Chief Financial Officer conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, such officers concluded that our disclosure controls and procedures are effective to ensure that information gathered, analysed and disclosed on a timely basis.

There have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation referred to above.

Item 5. OTHER INFORMATION

Termination of New Business Opportunity

On December 4, 2002, the Company announced that it had signed the contract for a co-operative joint venture with the Tibet Bureau of Geology and Minerals Exploration and Development (Tibet BGMR), China, previously announced on October 31, 2002. Bay Resources can earn a minimum 51% interest, with the right to earn up to 70% interest by a further capital investment, in two drill tested porphyry copper-gold deposits (Chong Jiang and Qu Long). Bay Resources can earn a 70% interest in the surrounding exploration area of approximately 15,000 square kilometres, where previous exploration by the Tibet BGMR has defined a further six porphyry targets, which have not yet been drill tested. These additional six porphyry targets were defined by regional geochemical surveys, with anomalous areas being further refined with ground geophysics, and finally trenching of mineralized areas.

In March 2003, the Company withdrew from the agreement due to additional hurdles that were placed in front of the Company by the Tibet BGMR.
