COMPENSATION DISCUSSION & ANALYSIS

Introduction

This discussion presents the principles underlying our executive officer compensation program. Our goal in this discussion is to provide the reasons why we award compensation as we do and to place in perspective the data presented in the tables that follow this discussion. The focus is primarily on our executive's compensation for the fiscal year ended September 30, 2009, but some historical and forward-looking information is also provided to put the fiscal 2009 information in context. The information we present relates to Gary Stern, our President and Chief Executive Officer, Robert J. Michel, our Chief Financial Officer, Cameron Williams, our Chief Operating Officer and Mary Curtin, our Senior Vice President. In addition, as Mitchell Cohen held the Chief Financial Officer position until his resignation on February 20, 2009 he is included in the Executive Compensation Table as holding the position of Chief Financial Officer during the fiscal year. These individuals are collectively referred to as Named Executive Officers.

Compensation Philosophy and Objectives

We seek to have compensation programs for our Named Executive Officers that achieve a variety of goals, including to:

attract and retain talented and experienced executives in the competitive debt buying industry;

motivate and fairly reward executives whose knowledge, skills and performance are critical to our success; and

provide fair and competitive compensation.

In determining executive compensation for 2009, the Compensation Committee continued its process to focus more on a pay-for-performance objectives, to attempt to better link pay and performance, and to assure that its

Table of Contents

compensation practices are competitive with those in the industry. For 2007 and 2008, the Compensation Committee had engaged a professional compensation consultant, Compensation Resources, Inc. (CRI), to provide benchmarking data, make suggestions, and assist it in the compensation process, including assisting in the development of appropriate performance metrics for variable compensation determinations. For fiscal year 2009 the Committee did not engage a consultant but utilized these metrics and developed the plan internally. Again this year, the chief executive officer assisted the Compensation Committee in determining compensation for the other Named Executive Officers.

For fiscal 2009, the Compensation Committee continued the process of making sure that compensation rewarded good performance, that a greater percentage of overall compensation be tied to performance, and that there be a reasonable mix of cash and equity compensation. The Company also sought compensation levels that would put its executives within the range of compensation for three public peer group companies in its industry (Encore Capital Group, Portfolio Recovery Associates, Inc. and Compucredit Corporation). Our Compensation Committee realizes that benchmarking compensation may not always be appropriate, but believes that engaging in a comparative analysis of our compensation practices is useful.

As part of the process for fiscal 2009 compensation, the Compensation Committee utilized certain performance measures on which to base its plan for variable compensation in the prior year. The Compensation Committee desired a program that had internal and external components and that was also flexible, so that targets could be adjusted and weighted differently over time as the needs of the business changed. There was also a desire to take into account windfalls or unfair detriments that objective factors might produce at times, and to retain some measure of discretion for a portion of bonuses to be awarded each year. The Compensation Committee had determined with the help of CRI in the prior year to utilize the following performance measures for determining variable compensation:

(a) performance of the Company's stock vs. NASDAQ, (b) performance vs. the identified peer companies, (c) net income, (d) operating expenses (e) net collections as a percent of total investment. Different weights were assigned to each component, as well as a 10% discretionary reserve. The Compensation Committee also believed there should be a circuit breaker, i.e., a minimum level of performance that must be achieved in order to qualify for payment of any variable compensation award. The Compensation Committee reviewed its tentative conclusions with respect to the plan with the full Board to get the input of the entire Board about the process and the results of the Compensation Committee's deliberations, and the Board approved the plan subject to development of threshold, target and maximum bonus level performance goals. The following targets were developed for fiscal 2009: (a) 52.25%, (b) 75.25%, (c) \$9.2 million, (d) \$29.6 million and (e) 43.%. The threshold for each target is considered met if the actual result is at least 80% of the target.

In October 2009 when the Compensation Committee met to determine compensation levels for fiscal 2010, they determined that based on disappointing financial results for the prior fiscal year, no salary raises would be recommended (except for a market adjustment for the CFO) and that there would be no bonus or equity grants made in 2010 for fiscal 2009 performance. Although certain performance level targets were met during fiscal year 2009, based on the circuit breaker aspect of our 2009 plan, no cash bonuses were awarded for fiscal 2009. The Committee allowed at that time that it would re-visit the no raise/no grants decision during fiscal 2010 if circumstances so warranted.

Elements of Executive Officer Compensation

Overview. Total compensation paid to our executive officers is divided among three principal components. Salary is generally fixed and does not vary based on our financial and other performance. Some components, such as bonuses, stock options and restricted stock award grants, are variable and dependent upon our performance. Historically, judgments about these elements have been made subjectively. The value of certain of these components, such as stock options and restricted stock, is dependent upon our future stock price. At the recommendation of CRI, in 2007 and 2008 we had begun to move away from stock options towards restricted stock as the preferred form of equity compensation, as it results in less dilution and perhaps a more straightforward accounting treatment.

Table of Contents

However, as we found that the tax implications of restricted stock grants were onerous to recipients and thus less of an incentive, we moved back to using stock options in 2009.

We view the three components of our executive officer compensation as related but distinct. Our Compensation Committee reviews total compensation to see if it falls in line with peer companies and may also look at overall market data. Last year, the Compensation Committee determined that our compensation program was generally competitive.

Base Salary. We pay our executives a base salary, which we review and determine annually. We believe that a competitive base salary is a necessary element of any compensation program. Base salaries are established, in part, based on the individual position, responsibility, experience, skills, historic salary levels and the executive's performance during the prior year. We are also seeking over a period of years to align base compensation levels comparable to our competitors and other companies similarly situated. We do not view base salaries as primarily serving our objective of paying for performance.

For fiscal 2009, we held the salary level of Gary Stern consistent with that of fiscal year 2008, as we believed his overall compensation should have a greater reliance on performance. Robert J. Michel's salary was increased in February 2009 compensation to reflect his promotion to Chief Financial Officer. Mary Curtin's salary was also held constant for fiscal 2009 with her salary level at the end of fiscal 2008 (during which year she had received a promotion and a raise). Cameron Williams received a raise of \$50,000 effective June 1, 2009 to an annual salary of \$350,000 as required by the terms of his January 2008 employment agreement. We believe that our salary levels are generally sufficient to retain our existing executive officers and to hire new executive officers when and as required.

For fiscal 2010, we again held the salary levels of the Named Executive Officers constant due to our financial performance and our review of peer salary levels, except that Robert Michel's compensation was raised to \$225,000 effective January 1, 2010, as we found that his salary was well below the salaries of chief financial officers at comparable companies. We believe that our salary levels are generally sufficient to retain our existing executive officers and to hire new executive officers when and as required.

Cash Incentive Bonuses. Consistent with our emphasis on pay-for-performance incentive compensation programs, our executives are eligible to receive annual cash incentive bonuses primarily based upon their performance during the year. As indicated above, although certain performance level targets were met during fiscal year 2009, based on the circuit breaker aspect of our 2009 plan, no cash bonuses were awarded for fiscal 2009. In the past, bonus levels have been subjective, impacted in part by comparisons to overall cash compensation paid by our competitors as well as a broader range of comparable companies.

Under the terms of the executive employment agreements previously in existence, subsequent restatement to the financial statements due to malfeasance or negligence of the executive will subject the executive to return of excess bonuses awarded if the executive would have received a reduced bonus amount based on the restated financial statements. We have not adopted this "claw back" feature as a general policy for executives who do not have employment agreements.

Equity Compensation. We believe that restricted stock awards and stock options are an important long-term incentive for our executive officers and employees and align officer interest with that of our stockholders. We recognize that Gary Stern already has a very significant equity stake in the Company, so that for him equity grants do not serve to further align their interests with that of our stockholders but do assure that his overall compensation is fair from the point of view of comparable overall compensation with our competitors. We review our equity compensation plan annually. In May 2009, we revisited our decision in October 2008 not to grant stock options, and 25,000 stock option grants were awarded to each of Cameron Williams, Robert J. Michel and Mary Curtin, in recognition of improving

performance of the Company and to serve as an incentive to continue improvement. At the same time, the Compensation Committee granted all employees 100 options each for the same reason and to give them a feeling of ownership in the Company at a time of some insecurity due to the staff reduction in connection with the closing of our Pennsylvania collection office. The stock option grants for executives vested one-third on the date of the grant, May 5, 2009, and one-third on the first and second anniversary of the grant. Effective with Mr. Williams' departure from the Company in December 2009, the remaining 16,667 stock options were vested as part of his exit agreement.

Table of Contents

We do not have any plan or obligation that requires us to grant equity compensation to any executive officer on specified dates. In recent years, we have developed the practice of approving bonuses and equity grants at about the time our audit of the prior fiscal year is completed to reward executives for work in the completed year, however as in 2009, we do reserve the right to re-visit these matters during the year. The authority to make equity grants to our executive officers rests with our Compensation Committee; however, our practice has been to make those grants subject to ratification and approval by the full Board of Directors. The Committee does consider the input of our chief executive officer in setting the compensation of our other executive officers, including in the determination of appropriate levels of equity grants.

Severance and Change-in-Control Benefits. While we are not subject to any employment agreements as of January 2010, historically, we have provided our executive officers with employment contracts. In January 2007, we entered into three-year contracts with Gary Stern and Mitchell Cohen. In January 2008, we entered into a two-year employment agreement with Cameron Williams. All contracts were similarly structured. These contracts set minimum base salary levels, but leave discretion as to bonuses and equity grants, with the agreement for Mr. Williams setting an expected level of the maximum cash bonus and stock grant. The contracts also provide for certain severance benefits in the event of termination, as well as a provision providing for a higher payment in the event of termination or retirement following a change-in-control as defined in the employment agreements. Mr. Cohen and Mr. Williams are no longer with the Company, and their severance arrangements are described under *Employment Agreements* below, which also contains a description of severance benefits available to Gary Stern and certain estimates of the severance and change of control benefits available to him. While Mr. Stern's employment agreement expired on December 31, 2009, the Compensation Committee and Mr. Stern expect to negotiate and enter into a new agreement in the near term. When the existing employment agreements were negotiated, we did not review wealth and retirement accumulation as a result of employment with us in fixing severance benefits or any other compensation issues, and we only focused on fair compensation for the year in question. We provided this benefit to retain our executives and believed these provisions were consistent with the provisions of similar benefits by competitive companies.

Share Retention

We did not have a share retention policy or guideline for executive officers until recently. In October 2009, we adopted a guideline recommending that each director retain \$10,000 of equity in the Company (other than shares received through stock options and restricted stock grants).

Regulatory Considerations

We account for the equity compensation expense for our employees under the rules of Statement of Financial Accounting Standards No. 123R, *Share-Based Payment* (SFAS 123R), which requires us to estimate and record an expense for each award of equity compensation over the service period of the award. Accounting rules also require us to record cash compensation as an expense at the time the obligation is accrued.

Employment Agreements

In January 2007, the Company entered into employment agreements (each an "Employment Agreement") with each of Gary Stern, the Company's Chairman, President and Chief Executive and Mitchell Cohen, the Company's

Table of Contents

Chief Financial Officer (each, an Executive). Each agreement was for three years ending December 31, 2009. Gary Stern's Employment Agreement was not renewed by the expiration date, however, he will continue in his roles at the discretion of the Board of Directors until a new agreement is signed.

Mr. Cohen resigned from the Company with an effective date of February 20, 2009. Mr. Cohen consulted with the Company for a six month period ending September 30, 2009 and received a consulting fee of \$5,000 per month. The Board also agreed to accelerate the vesting of 5,000 shares of restricted stock of the Company which otherwise would have vested on March 19, 2009.

In January 2008, the Company entered into similar employment agreements with Cameron Williams, two years in length and Mr. Arthur Stern one year in length. Mr. Williams' employment contract was not renewed on expiration on December 31, 2009.

Mr. Williams' employment contract was not renewed on expiration as of December 31, 2009. On November 30, 2009, the Company announced that it had entered into a Consulting Services Agreement with Mr. Williams. Under the terms of the agreement, the Company will pay Mr. Williams a monthly fee of \$20,833.33 each month from January to November 2010 in exchange for certain consulting services. In addition, in exchange for a release of all claims and liabilities, Mr. Williams is to be paid a fee of \$100,000, plus reimbursement of his monthly COBRA costs of up to \$1,000 per month for the next year and the Company accelerated vesting of 16,667 stock options held by Mr. Williams at a price of \$2.95 per share. Also, Mr. Williams will be paid \$20,833.37 if he signs another release in favor of the Company at the end of this consulting term in December 2010.

As of January 2009 Arthur Stern retired as an employee of the Company, although he continues to serve on the Board, with the title Chairman Emeritus and to consult for a combined annual director and consulting fee of \$300,000. Mr. Stern founded the Company and has served as Executive Vice President and Chairman of Board of the Company since 1995.

The following is a summary of the employment agreement between the Company and Gary Stern. The actual agreement is on file with the Securities and Exchange Commission.

The employment agreement of Gary Stern provided for a salary of \$577,500, which continues through the renewal process.

Mr. Gary Stern is eligible to receive bonuses and equity awards in amounts to be determined by the Compensation Committee of the Board of Directors. Mr. Gary Stern may also participate in all of the Company's employee benefit plans and programs generally available to other employees.

If Mr. Gary Stern's employment is terminated Without Cause (as such term is defined in the Employment Agreement), subject to the execution of a general release agreement by the executive in favor of the Company, the Company must continue to pay the executive his base salary for 12 months following the effective date of termination and maintain insurance benefits for that period. Except as provided above, the executive will not be eligible to participate in the Company's benefit plans and programs as of the last day of his employment by the Company; provided, however that he will not be precluded from exercising his rights, if any, under COBRA or with respect to grants made under the Company's 1995 Stock Option Plan, the 2002 Plan, or the Equity Compensation Plan, pursuant to the terms of such plans and the applicable grant agreements thereunder. The Company must provide the executive either ninety days prior written notice of such termination or an amount equal to ninety days' of his base salary in lieu of such notice of termination. Each party is required to provide ninety days prior written notice if it does not intend to seek an extension or renewal of the Employment Agreement. The term Cause under the contract includes: (i) the employee's failure or refusal to perform his duties and responsibilities under the contract or the Company's policies and procedures (subject

to certain cure rights); (ii) the employee's conviction of a felony or of any crime involving moral turpitude; (iii) the commission by the employee of a fraudulent, illegal or dishonest act in connection with the performance of his duties; or (iv) the commission by the employee of any willful misconduct or gross negligence which reasonably could be expected to have the effect of injuring the Company.

Table of Contents

If the executive's employment with the Company is terminated for any reason within 180 days following a change of control of the Company (as such term is defined in the 2002 Plan), the Company is required to pay:

a lump sum amount in cash equal to two (2) times the sum of the executive's base salary in effect on the date of termination and the highest annual bonus earned by the executive during his employment with the Company, and

the executive will continue to receive the benefits and perquisites as provided in the employment agreement for two years from the date of termination.

The executive is also subject to standard non-compete and confidentiality provisions contained in the employment agreement.

The following table describes the potential payments and benefits upon employment termination of Mr. Gary Stern pursuant to applicable law and the terms of the employment agreement with us, as if his employment had terminated on September 30, 2009 (the last day of the fiscal year) under the various scenarios described in the column headings as explained in the footnotes below: No severance is paid on a termination with Cause, if the executive terminates employment, if employment terminates at the end of the employment period, or if termination is because of death. Upon disability the individual will be paid his base salary for the remainder of the agreement from the date of disability.

Gary Stern	\$ 577,500	\$ 1,355,000
Cameron Williams	525,000	\$ 600,000

Financial Interests in other Businesses. Senior Financial Officers should avoid having an ownership interest in any other enterprises, such as a customer, supplier or competitor if that interest compromises the officer's loyalty to the Company.

Section 8. *Encouraging the Reporting of any Illegal or Unethical Behavior.*

Senior Financial Officers must promote ethical behavior and create a culture of ethical compliance. Senior Financial Officers should foster an environment in which the Company: (a) encourages employees to talk to supervisors, managers and other appropriate personnel when in doubt about the best course of action in a particular situation; (b) encourages employees to report violations of laws, rules and regulations to appropriate personnel; and (c) informs employees that the Company will not allow retaliation for reports made in good faith.

Section 9. *Conclusion.*

Senior Financial Officers should communicate any suspected violations of this Code promptly to the Chair of the Audit Committee. The Board or a person or persons designated by the Board will investigate violations, and appropriate disciplinary action will be taken by the Board in the event of any violation of the Code, up to and including termination. Only the Audit Committee may grant any waivers of this policy.

In addition, it will meet with the appropriate members of senior management designated by the Audit Committee to review the responses to the respective regulatory reports.

9. The Audit Committee shall consider and review with management: (a) significant findings during the year and management's responses thereto, including the status of previous audit recommendations and (b) any difficulties encountered in the course of their audits, including any restrictions on the scope of activities or access to required information.

10. The Audit Committee shall consider and approve, if appropriate, changes to the Company's auditing and accounting principles and practices, as suggested by the outside auditors or management, and the Audit Committee shall review with the outside auditors and management the extent to which such changes have been implemented (to be done at an appropriate amount of time prior to the implementation of such changes as decided by the Audit Committee).

11. The Audit Committee shall prepare a letter for inclusion in the Company's proxy statement describing the discharge of the Audit Committee's responsibilities.

12. The Audit Committee will review and update this Charter periodically, at least annually, and as conditions may dictate. The Audit Committee Charter shall be presented to the full Board for its approval of any changes.

13. Commencing on such date as Section 102(a) of the Sarbanes-Oxley Act of 2002 (the Act) becomes effective, the Audit Committee shall obtain confirmation from the outside auditors at the commencement of each audit that such firm is a registered public accounting firm as such term is defined under the Act.

**Principles of Corporate Governance
Adopted by the Board of Directors**

Purpose and Nature of Principles

These principles have been adopted by Board resolution as a definitive statement of the elements of governance by which the Board will manage its affairs. These principles will be reviewed and modified by the Board as needed on recommendation of the Nominating and Corporate Governance Committee.

1. *Responsibilities of the Board.* The Directors' most basic responsibility is to exercise their business judgment to act in a manner that they reasonably believe is in the best interest of the Company and its shareholders, and, in discharging this obligation, may rely on members of the Company's management and on the Company's outside advisors and auditors. Directors must fulfill their responsibilities consistent with their fiduciary duties to the Company's shareholders and in compliance with all applicable laws and regulations. Each Director must also comply with all of the Company's policies, including its Code of Ethics.

2. *Functions of the Board.* The Board has four scheduled meetings a year at which it reviews and discusses reports by management on the financial, as well as operating, performance of the company, its plans and prospects, as well as immediate issues facing the Company. In addition to its general oversight of management, the Board also performs a number of specific functions including:

- a. selecting and evaluating the CEO and overseeing CEO succession planning;
- b. ensuring processes are in place for maintaining the integrity of the company, the integrity of the financial statements, the integrity of compliance with law and ethics, the integrity of relationships with customers and suppliers, and the integrity of relationships with other stakeholders.

3. *Board Size.* It is the policy of the Company that the number of Directors not exceed or be less than a number that can function efficiently as a body.

4. *Director Independence.* It is the policy of the Company that the Board consists of a majority of independent Directors. The Nominating and Corporate Governance Committee of the Board shall determine director independence utilizing the definition of director independence established by NASDAQ.

5. *Committees.* It is the general policy of the Company that the Board as a whole considers all major decisions. As a consequence, the committee structure of the Board is limited to those committees considered to be basic to, or required for, the operation of a publicly owned company. Currently these committees are the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee recommends the members and chairs of these committees to the Board.

The Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee are made up of only independent Directors as required by NASDAQ.

6. *Board and Committee Self Evaluation.* Annually, the Board and the committees of the Board shall discuss the performance of the Board and the committees during the year, focusing on the successes, as well as areas in which

improvements would be beneficial to the performance of the Board.

7. Director Education. Each director is expected to participate in one or more director education programs regarding directors' legal duties and responsibilities over each two-year period of service.

8. Presiding Director. On an annual basis, the non-employee Directors will select a non-employee member of the Board to serve as Presiding Director. The Presiding Director will chair executive sessions of the Board when the non-employee Directors meet without the Chairman and Chief Executive Officer and other inside Directors present. The Presiding Director will perform such other functions as the Board may direct, including, acting as an intermediary between the non-employee Directors and management when special circumstances exist or

D-3

Table of Contents

communication out of the ordinary course is necessary, participating in the performance evaluation of the Chief Executive Officer and reviewing the schedule of Board and Committee meetings and the agendas for Board meetings.

9. **Board Meetings.** Directors are expected to attend Board meetings and meetings of the Committees on which they serve, to spend the time needed and to meet as frequently as necessary to properly discharge their responsibilities. Meetings should include presentations by management and, when appropriate, outside advisors or consultants, as well as sufficient time for full and open discussion. In addition to regularly scheduled Board meetings, the Audit Committee shall meet at least four times per year, the Compensation Committee shall meet at least one time per year and the Nominating and Corporate Governance Committee shall meet at least two times per year.

10. **Written Materials.** Written materials that are important to the Board's understanding of the agenda items to be discussed at a Board or Committee meeting should be distributed to the Directors sufficiently in advance of the meeting to allow the Directors the opportunity to prepare. Directors are expected to review these materials thoroughly in advance of the meeting.

11. **Agenda for Board Meetings.** The Chairman of the Board will set the agenda for Board meetings with the understanding that certain items necessary for appropriate Board oversight will be brought to the Board periodically for review, discussion and decision-making. The Presiding Director will have the opportunity to review the agenda for each Board meeting in advance of the meeting and may request changes, as he or she deems appropriate in order to ensure that the interests and requirements of the non-employee Directors are appropriately addressed. Any Director may request that an item be included on any meeting agenda.

12. **Executive Sessions of Non-Employee Directors.** The non-employee Directors will meet in regular executive sessions without any members of management present at least two times each year. The Presiding Director will chair these executive sessions.

13. **Conflicts of Interest.** Every employee and Director has a duty to avoid business, financial or other direct or indirect interests or relationships which conflict with the interests of the Company or which may affect his or her loyalty to the Company. Each Director must deal at arm's length with the Company and should disclose to the Chairman or Presiding Director any conflict or any appearance of a conflict of interest. Any activity which even appears to present such a conflict must be avoided or terminated, unless after appropriate disclosure and discussion, it is determined that the activity is not harmful to the Company or otherwise improper.

14. **Other Company Directorships.** The Board recommends that, except in unusual circumstances, if a Director is employed full-time by a public company, such Director limit the number of boards on which he or she sits to the boards of two other public companies (in addition to the Company's Board and that of his or her employer). If the Director is not employed full-time by a public company, the Board recommends that, except in unusual circumstances, he or she sit on the boards of no more than four other public companies (in addition to the Company's Board). The Nominating and Corporate Governance Committee shall review on a case-by-case basis situations concerning significant involvement by a Director in non-profit or charitable organizations.

15. **Change in Director Occupation.** When a Director's principal occupation or business association changes substantially during his or her tenure as a Director, that Director shall tender his or her resignation for consideration by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee will recommend to the Board the action, if any, to be taken with respect to the resignation.

16. **Term Limits.** The Board does not endorse arbitrary term limits on Directors' service, nor does it believe in automatic annual renomination until they reach the mandatory retirement age. The Board self-evaluation process is an important determinant for continuing service.

Table of Contents

17. *Succession Planning/Management Development Review.* The Board shall oversee the senior management development and succession planning process in order to ensure that the process is rigorous and effective. In furtherance of this objective, the Nominating and Corporate Governance Committee will focus upon succession planning for the Chairman/CEO and the Chairman/CEO will annually conduct a review of the Senior Management Team (the SMT) with the Nominating and Corporate Governance Committee. This review will be shared with the full Board in connection with its broader oversight responsibilities.

18. *Communication with Stakeholders.* The Chairman and CEO are responsible for establishing effective communications with the Company's stakeholder groups, i.e., shareholders, customers, company associates, communities, suppliers, creditors, governments and corporate partners.

It is the policy of the Company that management speaks for the Company. This policy does not preclude outside Directors from meeting with shareholders, but it is suggested that in the majority of circumstances, any such meetings be held with management present.

**WHISTLE-BLOWER POLICY FOR EMPLOYEES AND ON-SITE CONTRACTORS
OF
ASTA FUNDING, INC.
AS ADOPTED BY THE COMPANY'S BOARD OF DIRECTORS**

Asta Funding, Inc. and Subsidiary Companies (the Company) has established a procedure by which employees and on-site contractors can report to the Company allegations of known or suspected alleged Improper Activities (as hereinafter defined).

Improper Activities include, but are not limited to, (i) questionable accounting, internal accounting controls or auditing matters; (ii) disclosures in documents filed by the Company with the Securities and Exchange Commission (the SEC) and other public disclosures made by the Company that may not be complete or accurate; (iii) violations of any written policies of the Company as may be in effect from time to time; (iv) violations of federal or state securities laws or other laws applicable to the Company; (v) wire fraud, mail fraud, bank fraud, or any fraud against the Company's stockholders or under statute; (vi) forgery or alteration of documents; (vii) misappropriation or misuse of Company resources, such as funds or other assets; (viii) authorizing or receiving compensation for goods not received or services not performed; or (ix) any other activity by an employee or on-site contractor that is undertaken in the performance of the employee's or on-site contractor's official duties, whether or not that action is within the scope of his or her employment, and that is in violation of any state or federal law or regulation, or constitutes malfeasance, bribery, fraud, misuse of Company property, or willful omission to perform his or her duties, or involves gross misconduct.

Employees are encouraged to use the guidance provided by this policy for reporting Improper Activities in accordance with the following:

1. Reporting Requirement. All officers, directors and employees or outside contractors are required to report information concerning Improper Activities. Such reports are encouraged to be made in writing so as to assure a clear understanding of the issues, but may be oral. Such reports should be factual rather than speculative or conclusory, and should contain specific information to allow for proper assessment of the nature, extent and urgency of the issues raised in the report.

Reporting employees or on-site contractors should refrain from (i) obtaining evidence for which they do not have a right of access and (ii) conducting their own investigative activities.

It is the Company's policy that no employee or on-site contractor shall be subject to disciplinary or retaliatory action by the Company or any of its employees or agents or on-site contractors as a result of the employee's or on-site contractor's submitting a report hereunder. However, employees or on-site contractors who file reports of Improper Activities or provide evidence which they know to be false or without a reasonable belief in the truth and accuracy of such information will not be protected by the above policy statement and may be subject to disciplinary action and legal claims.

Reporting employees or on-site contractors that report Improper Activities on an anonymous basis must provide sufficient corroborating evidence to justify the commencement of an investigation. Unspecified wrongdoing or broad allegations without verifiable evidentiary support may not lead to an investigation. Because of the inability of investigators to interview anonymous reporting employees or on-site contractors, it may be more difficult to evaluate the credibility of an Improper Activity and therefore, it is less likely that an investigation will be initiated.

2. Procedure for Reporting Improper Activities. To submit a report involving any known or suspected Improper Activity, an employee may call the Company's Nominating and Corporate Governance Committee Chairperson at (800) 652-9194 or write to Mr. Herman Badillo, Nominating and Corporate Governance Committee Chairperson, 120 Broadway New York, NY 10271. If the employee or on-site contractor submitting the complaint is uncomfortable for any reason addressing such concerns to the Company's Nominating and Corporate Governance Committee Chairperson the employee or on-site contractor may write to the Lead Independent Director of the Company's Board of Directors c/o the Company. Employees or on-site contractors are encouraged to provide as

D-6

Table of Contents

much specific information as possible including names, dates, places and events that took place, the employee's or on-site contractor's perception of why the incident(s) constitute an Improper Activity. Anonymous written or telephonic communications will be accepted. Reports submitted through this process that involve the Company's accounting, auditing, and internal auditing controls and disclosure practices will be presented by the Nominating and Corporate Governance Committee Chairperson to the full Nominating and Corporate Governance Committee of the Company's Board of Directors. An employee or on-site contractor may utilize this process either to raise new complaints or if he or she feels that a complaint previously raised has not been appropriately handled.

The Company's Nominating and Corporate Governance Committee Chairperson will report directly to the Nominating and Corporate Governance Committee of the Company's Board of Directors on matters arising under this Policy. The Nominating and Corporate Governance Committee Chairperson's responsibilities under this policy include:

Administering, implementing and overseeing ongoing compliance under the Policy.

Establishing, amending where necessary and administering procedures to assure that such reports of Improper Activities will be collected, reviewed promptly, treated or resolved in an appropriate manner, and retained.

Establishing, amending where necessary and administering procedures that enable employees to submit reports of Improper Activities and related concerns in a confidential and anonymous manner.

Ensuring that the individuals at the Company who are responsible for preparing and reviewing the Company's public filings with the SEC and other public disclosures are made aware of reports of Improper Activities involving the Company's accounting, auditing, and internal auditing controls or disclosure practices.
