Philips to nominate Frans van Houten as its next President and CEO, succeeding Gerard Kleisterlee in April 2011
July 8, 2010

Amsterdam, The Netherlands Royal Philips Electronics (NYSE:PHG, AEX: PHI) today announced it will nominate Frans van Houten as its next President and Chief Executive Officer, effective April 1, 2011, as successor to Gerard Kleisterlee who will retire from Philips as per the same date.

Mr. van Houten was a member of Philips Board of Management until September 2006 when he led the successful spin out of Philips Semiconductors and the creation of NXP Semiconductors as an independent global company. He will re-join Philips on October 1, 2010 and will assume the position of Chief Operating Officer as of January 1, 2011, working closely with Mr. Kleisterlee to ensure a smooth transition. It is Philips intention to propose the appointment of Mr. van Houten as President and CEO of Philips to its Annual General Meeting of Shareholders on March 24, 2011.

With hands-on experience in marketing and sales and deep understanding of both professional systems and solutions as well as consumer products, and having lived and worked in Europe, the US and Asia Frans van Houten is the right leader in the world of today and tomorrow to continue Philips strategy to be a leader in the domain of health and well-being, Jan-Michiel Hessels, Chairman of Philips Supervisory Board said.

I am happy to see Frans return to our company, said Mr. Kleisterlee, Frans was a strong member of my team and a strong contributor in setting the direction of the company. I regretted to see him leave with the Semiconductor spin-out. Under his leadership Philips future will be in very good hands.

Mr. van Houten (Dutch, 1960) holds a Masters degree in Economics and Business Management from the Erasmus University in Rotterdam, The Netherlands. He started his career with the company in 1986 in marketing and sales at Philips Data Systems and held several leadership positions within the company. He became CEO of Airvision, an in-flight entertainment startup in the United States in 1992, and was appointed vice president international sales and operations of Philips Kommunikations Industrie in Germany in 1993. In 1996 Mr. van Houten joined Philips Consumer Electronics division for which he led the region Asia Pacific, Middle East and Africa, based in Singapore. In 2002, he became co-CEO of the Consumer Electronics division and was appointed member of Philips Group Management Committee in 2003. In 2004, Mr. van Houten was appointed CEO of Philips Semiconductors and in 2006 joined Philips Board of Management until the spin out and creation of NXP Semiconductors in September of that year. Mr. van Houten is currently leading the project to separate ING Group s banking and insurance operations as an independent advisor to ING s management board.

The CV of Frans van Houten is available via this link.

About Royal Philips Electronics

Royal Philips Electronics of the Netherlands (NYSE: PHG, AEX: PHI) is a diversified health and well-being company, focused on improving people's lives through timely innovations. As a world leader in healthcare, lifestyle and lighting, Philips integrates technologies and design into people-centric solutions, based on fundamental customer insights and the brand promise of sense and simplicity. Headquartered in the Netherlands, Philips employs approximately 116,000 employees in more than 60 countries worldwide. With sales of EUR 23 billion in 2009, the company is a market leader in cardiac care, acute care and home healthcare, energy efficient lighting solutions and new lighting applications, as well as lifestyle products for personal well-being and pleasure with strong leadership positions in flat TV, male shaving and grooming, portable entertainment and oral healthcare. News from Philips is located at www.philips.com/newscenter.

Table of Contents

Quarterly report and Semi-annual report

Q2 2010, Royal Philips Electronics

Philips reports second-quarter EBITA of EUR 527 million and sales of EUR 6.2 billion

Comparable sales up 12%, led by double-digit growth at Lighting and Consumer Lifestyle

Emerging markets sales growth accelerates to 29%, now representing over one-third of Group sales

EBITA of EUR 527 million, or 8.5% of sales

EBITA, excluding EUR 93 million restructuring and acquisition-related charges, at 10% of sales

Net income of EUR 262 million

In Q2, Philips delivered another strong quarter, with good top-line growth and strong profitability in all three operating sectors. Sales performance was especially strong in emerging markets. We are particularly pleased to have reached an adjusted profitability level of 10% in the quarter.

It is encouraging to see that our performance continues to improve, despite ongoing weakness in many global markets and economic uncertainty – a clear testimony to the soundness of our strategy and the strength of our portfolio. I believe we remain well on our way to becoming the leading company in health and well-being and consider this quarter another clear step in the right direction.

Gerard Kleisterlee, President and CEO of Royal Philips Electronics

Forward-looking statements

This document contains certain forward-looking statements with respect to the financial condition, results of operations and business of Philips and certain of the plans and objectives of Philips with respect to these items, in particular the paragraphs *Looking ahead* and *Outlook*. Examples of forward-looking statements include statements made about our strategy, estimates of sales growth, future EBITA and future developments in our organic business. By their nature, these statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these statements. These factors include but are not limited to domestic and global economic and business conditions, the successful implementation of our strategy and our ability to realize the benefits of this strategy, our ability to develop and market new products, changes in legislation, legal claims, changes in exchange and interest rates, changes in tax rates, pension costs and actuarial assumptions, raw materials and employee costs, our ability to identify and complete successful acquisitions and to integrate those acquisitions into our business, our ability to successfully exit certain businesses or restructure our operations, the rate of technological changes, political, economic and other developments in countries where Philips operates, industry consolidation and competition. As a result, Philips' actual future results may differ materially from the plans, goals and expectations set forth in such forward-looking statements. For a discussion of factors that could cause future results to differ from such forward-looking statements, see the Risk management chapter included in our Annual Report 2009 and the *Risk and uncertainties* section in our semi-annual financial report for the six months ended July 4, 2010.

Third-party market share data

Statements regarding market share, including those regarding Philips' competitive position, contained in this document are based on outside sources such as research institutes, industry and dealer panels in combination with management estimates. Where information is not yet available to Philips, those statements may also be based on estimates and projections prepared by outside sources or management. Rankings are based on sales unless otherwise stated.

Use of non-GAAP information

In presenting and discussing the Philips Group's financial position, operating results and cash flows, management uses certain non-GAAP financial measures. These non-GAAP financial measures should not be viewed in isolation as alternatives to the equivalent IFRS measures and should be used in conjunction with the most directly comparable IFRS measures. A reconciliation of such measures to the most directly comparable IFRS measures is contained in this document. Further information on non-GAAP measures can be found in our Annual Report 2009.

Use of fair-value measurements

In presenting the Philips Group's financial position, fair-values are used for the measurement of various items in accordance with the applicable accounting standards. These fairvalues are based on market prices, where available, and are obtained from sources that are deemed to be reliable. Readers are cautioned that these values are subject to changes over time and are only valid at the balance sheet date. When quoted prices or observable market data do not exist, we estimated the fairvalues using appropriate valuation models and unobservable inputs. They require management to make significant assumptions with respect to future developments, which are inherently uncertain and may therefore deviate from actual developments. Critical assumptions used are disclosed in our 2009 financial statements. Independent valuations may have been obtained to support management's determination of fairvalues. All amounts in millions of euros unless otherwise stated; data included are unaudited. Financial reporting is in accordance with IFRS, unless otherwise stated. This document comprises regulated information within the meaning of the Dutch Financial Markets Supervision Act *Wet op het Financieel Toezicht*.

Table of Contents

Philips Group

Net income

in millions of euros unless otherwise stated

	Q2 2009	Q2 2010
Sales	5,230	6,191
EBITA	118	527
as a % of sales	2.3	8.5
EBIT	8	404
as a % of sales	0.2	6.5
Financial expenses	(3)	(71)
Income taxes	15	(82)
Results investments in associates	25	11
Net income	45	262
Net income -shareholders per common share (in euros) basic	0.05	0.28

Net income

Net income was EUR 217 million higher than in Q2 2009, driven by substantially higher earnings in the operating sectors, notably Lighting and Consumer Lifestyle, partially offset by higher income taxes and financial expenses.

Financial income and expenses in Q2 2010 was impacted by unfavorable fair-value adjustments of the TPV bond option, whereas Q2 2009 included a EUR 48 million gain on the sale of Pace shares.

The decline in Results from investments in associates was largely attributable to last year's EUR 25 million favorable reversal of the accumulated value adjustment of Philips' shareholding in TPV.

Income tax was higher than in Q2 2009 due to higher earnings and lower non-taxable income, mainly reflecting last year's EUR 48 million gain on the sale of Pace shares.

Sales by sector

in millions of euros unless otherwise stated

	Q2 2009	Q2 2010	nominal	% change comparable
Healthcare	1,872	2,068	10	4
Consumer Lifestyle	1,735	2,183	26	20
Lighting	1,550	1,859	20	13
GM&S	73	81	11	11
Philips Group	5,230	6,191	18	12
Sales per sector				

Sales amounted to EUR 6,191 million, an increase of 12% on a comparable basis.

Healthcare sales improved by 4% on a comparable basis, driven by growth in all businesses, notably solid growth at Patient Care and Clinical Informatics and at Customer Services.

Consumer Lifestyle comparable sales grew by 20% year-on-year, driven by growth in almost all businesses, including double-digit growth at Television and Health & Wellness.

Lighting sales grew by 13% on a comparable basis, driven by double-digit growth at Lamps and Automotive, while Lumileds sales almost tripled. Professional Luminaires reported moderate sales growth, whereas Consumer Luminaires showed a modest decline.

Sales per market cluster

in millions of euros unless otherwise stated

	Q2 ¹⁾ 2009	Q2 2010	nominal	% change comparable
Western Europe	1,803	1,986	10	8
North America	1,633	1,745	7	0
Other mature markets	290	370	28	12
Total mature markets	3,726	4,101	10	5
Emerging markets	1,504	2,090	39	29
Philips Group	5,230	6,191	18	12

1) Revised to reflect an adjusted market cluster allocation

Sales per market cluster

Comparable sales in the mature markets grew by 5% compared to Q2 2009, driven by Consumer Lifestyle.

Led by the BRIC countries, the emerging markets showed strong double-digit growth, predominantly driven by Lighting and Consumer Lifestyle. Emerging markets accounted for 34% of Group sales, up from 29% last year.

as a % of sales	0.2	6.5

Earnings

EBITA amounted to EUR 527 million, an increase of EUR 409 million compared to Q2 2009, driven by improved earnings across all operating sectors. Restructuring and acquisition-related charges of EUR 93 million were recorded, EUR 55 million lower than in Q2 2009. Excluding these charges, EBITA amounted to EUR 620 million, or 10% of sales. Last year's restructuring and acquisition-related charges and product recall provision of EUR 17 million were partly offset by legal settlements and insurance recoveries totaling EUR 90 million.

EBIT improved by EUR 396 million, reflecting higher EBITA in all operating sectors. Amortization charges were EUR 13 million higher than in Q2 2009.

Healthcare EBITA increased by EUR 63 million year-on-year, despite a EUR 22 million increase in restructuring and acquisition-related charges. Improvements in earnings were seen across all businesses, notably Imaging Systems, Patient Care and Clinical Informatics and Customer Services.

Consumer Lifestyle EBITA increased by EUR 180 million year-on-year, with improved earnings in most businesses, notably Television. Restructuring and acquisition-related charges were EUR 20 million lower than in Q2 2009; the latter quarter included a EUR 17 million product recall provision.

Lighting EBITA increased by EUR 231 million year-on-year, driven by higher sales and an improved margin, largely attributable to Lamps, Lumileds and Automotive. Restructuring and acquisition-related charges were EUR 45 million lower than in Q2 2009.

GM&S EBITA declined by EUR 65 million to a net cost of EUR 72 million. Earnings in Q2 2009 were favorably impacted by EUR 57 million of insurance recoveries and EUR 33 million from legal settlements.

Table of Contents**Financial income and expenses**

in millions of euros

	Q2 2009	Q2 2010
Net interest expenses	(57)	(64)
Sale of Pace shares	48	
TPV option fair value adjustment	14	(12)
Other	(8)	5
	(3)	(71)

Financial income and expenses

Q2 2010 was impacted by unfavorable fair-value adjustments of the TPV bond option.

Q2 2009 included a EUR 48 million gain on the sale of shares of Pace and favorable fair-value adjustments of the TPV bond option.

Results relating to investments in associates

in millions of euros

	Q2 2009	Q2 2010
TPV value adjustment	25	
Other		11
	25	11

Investments in associates

Results in Q2 2010 were mainly attributable to earnings from Philips holding in Intertrust.

In Q2 2009, the accumulated value adjustment of the shareholding in TPV recognized in December 2008 was partially reversed by EUR 25 million following recovery of the TPV share price.

Table of Contents**Cash balance**

in millions of euros

	Q2	Q2
	2009	2010
Beginning cash balance	4,000	4,388
Free cash flow	251	348
<i>Net cash flow from operating activities</i>	446	562
<i>Net capital expenditures</i>	(195)	(214)
Acquisitions of businesses	(55)	(21)
Other cash flow from investing activities	65	(15)
Treasury shares transactions	6	19
Changes in debt/other	(44)	70
Dividend paid	(634)	(296)
Ending cash balance	3,589	4,493
Cash balance		

The Group cash balance increased to EUR 4.5 billion, mainly driven by EUR 348 million free cash inflow, partly offset by a EUR 296 million cash dividend payment.

In Q2 2009, the cash balance declined by EUR 411 million. Free cash inflow of EUR 251 million was more than offset by a EUR 634 million cash dividend payment.

Cash flows from operating activities

Operating activities led to a cash inflow of EUR 562 million, compared to an inflow of EUR 446 million in Q2 2009. The year-on-year increase was driven by higher earnings, partly offset by lower working capital inflow.

- 1) Capital expenditures on property, plant and equipment only

Gross capital expenditure

Gross capital expenditures on property, plant and equipment were EUR 27 million higher than in Q2 2009, due to higher investments, mainly at Lighting and Healthcare.

Table of Contents

Inventories

Inventories as a % of sales were 2.2 percentage points higher than in Q2 2009, representing a EUR 0.6 billion year-on-year value increase, more than half of which was due to currency effects. Higher inventories compared to last year were seen across all sectors, notably at Consumer Lifestyle.

Inventories as a % of sales increased by 2.0 percentage points compared to Q1 2010. Inventory value increased across the operating sectors to EUR 3.9 billion at the end of Q2 2010.

Net debt and group equity

At the end of Q2 2010, Philips had a net debt position of EUR 306 million, compared to EUR 840 million at the end of Q2 2009. During the quarter, the net debt position increased by EUR 233 million, mainly due to currency translation effects on debt.

Group equity increased by EUR 1.1 billion in the quarter to EUR 15.8 billion. The increase was largely the result of higher net income, a lower cash dividend following 50% shareholder election for payout in shares, and currency translation effects.

Employees

During Q2 2010, the number of employees increased by 404, primarily due to increases at Lighting and GM&S, partly offset by declines at Consumer Lifestyle and Healthcare.

Compared to Q2 2009, the number of employees increased by 567, as reductions at Healthcare and GM&S were more than offset by increases at Consumer Lifestyle (mainly as a result of the Saeco acquisition) and Lighting.

as a % of sales	4.7	7.2
Net operating capital (NOC)	8,738	9,545
Number of employees (FTEs)	35,094	34,344
Business highlights		

Philips and Electron announced a partnership for the development and production of healthcare solutions specifically designed for the Russian healthcare market, initially focusing on imaging modalities.

To further its capabilities in leading-edge imaging solutions, Philips is collaborating with the University of Washington (Seattle, USA) on research to extend the use of molecular imaging for radiotherapy planning.

Philips signed a five-year multi-million-euro contract with the Ministry of Health in Zambia to upgrade and maintain diagnostic imaging equipment for 71 government hospitals.

Philips and RXi Pharmaceuticals entered a research agreement to explore innovative ways of using ultrasound to trigger the delivery of new drug therapies that may treat conditions such as cancer and cardiovascular disease.

Financial performance

Currency-comparable equipment order intake increased by 10% year-on-year, with improvements across all businesses, notably at Patient Care and Clinical Informatics. In North America, equipment orders were 11% higher on a comparable basis.

Comparable sales increased by 4% year-on-year, with higher sales in all businesses. From a regional perspective, comparable sales in North America were in line with Q2 2009, while in markets outside North America they grew by 6%.

EBITA increased by EUR 63 million year-on-year to EUR 216 million, or 10.4% of sales. Excluding restructuring and acquisition-related charges of EUR 46 million, EBITA amounted to EUR 262 million, or 12.7% of sales, compared to EUR 177 million, or 9.5% of sales, in Q2 2009. The improvement was driven by Imaging Systems, Customer Services and Patient Care and Clinical Informatics as a result of higher margins from improved sales and ongoing cost management.

Looking ahead

Philips will introduce its Healthcare Consulting Solutions to help healthcare providers improve productivity, reduce costs, grow revenue and deliver better patient care.

Philips expects to introduce innovations in cardiac ultrasound in the second half of 2010, designed to provide clinicians with the versatility of 2D or 3D imaging, or a combination of both.

Restructuring and acquisition-related charges in Q3 2010 are expected to total around EUR 15 million.

Business highlights

Philips AVENT extended the target age range for its products with the launch of its toddler feeding range, designed for use by children aged up to 24 months.

Philips introduced its range of Full HD 3D Ready LED TVs, delivering a truly immersive 3D Ambilight cinema experience in the home.

Philips' latest TV campaign won the Grand Prix for Film Craft at the Cannes Lions International Advertising Festival, making Philips the first brand to win the jury's highest accolade for two consecutive years.

Financial performance

On a comparable basis, sales grew 20%, led by 35% growth in emerging markets, particularly driven by Television in Latin America. Mature markets showed low-double-digit growth.

Most businesses saw single-digit comparable sales growth, while Television grew by 48%, despite some component supply constraints, in particular for high-end TVs.

EBITA improved significantly, driven by double-digit sales growth, structural cost improvements, higher license income and lower restructuring charges. Excluding restructuring and acquisition-related charges and last year's product recall-related charges, EBITA improved from 2.3% to 8.4%.

Net operating capital and headcount increased, mainly due to the Saeco acquisition.

Looking ahead

Further building its global leadership position in the male electric shaving market, Philips will, in Q3 2010, launch its most advanced premium electric shaver to date, the SensoTouch 3D, which allows men to choose between a dry and a wet shave.

At IFA 2010, Europe's largest consumer lifestyle trade show, Philips will launch a range of products that deliver simplicity to consumers, including coffee appliances, televisions, blu-ray players and domestic appliances.

Consumer Lifestyle expects to incur restructuring and acquisition-related charges of around EUR 30 million in Q3 2010.

Following an increase in license revenues in Q2, income from licenses in Q3 is expected to be lower.

Philips and Cree signed a comprehensive worldwide patent cross-licensing agreement designed to accelerate growth of the LED lighting market.

Further strengthening its outdoor lighting portfolio, Philips announced the acquisition of the street lighting controls activities of Amplex A/S, a Danish provider of energy-efficient infrastructure solutions.

At the 2010 Light & Building fair in Frankfurt, Philips presented a breakthrough 12-watt LED lamp to replace 60-watt incandescent bulbs.

Philips expanded its existing relationship with LED lighting components provider Future Lighting Solutions.

Philips will partner with Somfy, a specialist in automated sun protection systems for buildings, to develop intelligent solutions for more comfortable and energy-efficient working environments.

Six of South Africa's top sports stadiums were equipped with Philips' new ArenaVision sports lighting systems.

Financial performance

Comparable sales were 13% higher year-on-year, driven by growth across most businesses, mainly Lamps, Automotive and Lumileds, which tripled sales compared to Q2 2009. From a geographic perspective, significant growth was seen in emerging markets, led by China.

In Q2 2010, EBITA excluding restructuring and acquisition-related charges of EUR 37 million (Q2 2009: EUR 82 million) amounted to EUR 247 million, or 13.3% of sales. The substantial year-on-year EBITA improvement was largely driven by strong sales growth, a favorable product mix notably reflecting the transition to energy-saving lamps and LED, and ongoing cost management.

Net operating capital increased by EUR 258 million to EUR 5,934 million. Excluding currency impact, net operating capital decreased compared to Q2 2009.

Looking ahead

Restructuring and acquisition-related charges in Q3 2010 are expected to total around EUR 40 million.

Forbes magazine named Philips as one of the world's most reputable companies, following the release of the Global Reputation Pulse 2010 by the Reputation Institute.

The Philips Livable Cities Award program was launched in May, with a total prize fund of EUR 125,000, to support simple solutions that improve people's health and well-being in cities.

Amsterdam Airport Schiphol opened an innovative boarding gate, co-created with Philips Design and Philips Applied Technologies, using lighting and infotainment to enhance the traveler experience.

Financial performance

Sales increased from EUR 73 million in Q2 2009 to EUR 81 million in Q2 2010, driven by improved license revenues.

EBITA amounted to a net cost of EUR 72 million, a cost increase of EUR 65 million year-on-year, as last year's results were favorably impacted by EUR 57 million insurance recoveries and a EUR 33 million legal settlement.

Excluding the aforementioned items, EBITA improved EUR 25 million year-on-year, driven by higher earnings from licenses and lower R&D expenses.

Looking ahead

Philips Design will receive eight iF communication design awards in September, in recognition of exceptional design in the areas of digital media and packaging.

Net costs for the Group Management & Services sector in Q3 2010 are expected to total EUR 80 million.

Table of Contents

Outlook

After the strong rebound in the first half of the year, we expect comparable sales growth in the remainder of the year to moderate towards mid-single-digit level. This reflects continued but slow recovery in the US and Europe, different seasonality for our Television business following soccer's World Cup, and the improved sales performance in the second half of 2009.

We will continue to drive further improvements, including, where necessary, taking the required actions to offset the effects of rising commodity and component prices. Having achieved an EBITA before restructuring and acquisition-related charges of 9.9% in the first half-year, and assuming that the current economic climate will continue, we are confident that we can exceed 10% for the full-year 2010.

At our Capital Markets Day in London on September 14 we will update the markets on the medium-term prospects for our businesses in the context of our Vision 2015 plan.

Semi-annual financial report

Introduction

This report contains the semi-annual financial report of Koninklijke Philips Electronics N.V. (the Company), a company with limited liability, headquartered in Amsterdam, the Netherlands. The principal activities of the Company and its group companies (the Philips Group) are described in note 4.

The semi-annual financial report for the six months ended July 4, 2010 consists of the condensed consolidated semiannual financial statements, the semi-annual management report and responsibility statement by the Company's Board of Management. The information in this semiannual financial report is unaudited.

The condensed consolidated semi-annual financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's consolidated IFRS financial statements for the year ended December 31, 2009.

The Board of Management of the Company hereby declares that to the best of their knowledge, the semiannual financial statements, which have been prepared in accordance with the applicable financial reporting standards for interim financial reporting, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and the undertakings included in the consolidation taken as a whole, and the semi-annual management report gives a fair review of the information required pursuant to section 5:25d(8)/(9) of the Dutch Financial Markets Supervision Act (*Wet op het Financieel toezicht*).

Table of Contents**Management report****The 1st six months of 2010**

The results for the first half of 2010 compared favorably to the recession-impacted results in the first half of 2009. Group sales were some EUR 1.6 billion above 2009, with strong contributions from all operating sectors.

On a comparable basis, sales grew 12%, driven by 25% growth in the emerging markets, particularly China and Latin America, while high-single-digit growth was visible in mature markets.

EBITA improved EUR 1 billion year-on-year, driven by top-line growth, fixed costs savings from restructuring programs and continued sound cost management. Philips has continued to focus on cost optimization and organizational effectiveness, spending EUR 111 million on restructuring, EUR 49 million below last year's level.

Net income (loss) -shareholders per common share (in euros) basic	(0.02)	0.49

Performance of the Group

Group sales were some EUR 1.6 billion above the level of the first half of 2009, driven by higher sales across all operating sectors, notably Consumer Lifestyle and Lighting. Adjusted for currency impacts and portfolio changes, sales were 12% above last year's level.

Group EBITA improved by EUR 987 million compared to the first half of 2009, largely driven by higher sales in the three operating sectors, notably Consumer Lifestyle and Lighting.

Net income was EUR 475 million higher than in the first half of 2009, mainly driven by higher sector earnings, partly offset by lower net gains on the sale of stakes and higher income tax expenses.

Cash flow from operating activities was EUR 450 million higher than in the first half of 2009, driven by higher earnings, partly offset by higher provision payments and higher working capital outflow from inventories and accounts receivable.

Philips sectors**Healthcare**

Equipment order intake at Healthcare increased 14% compared to the first half of 2009, with improvements seen across all businesses, notably at Imaging Systems. In North America, orders increased by 9%, while markets outside of North America showed order intake growth of 14%.

Nominal sales at Healthcare grew by 8%. Excluding currency effects and portfolio changes, comparable sales increased by 5% year-on-year, with improved sales across all businesses, notably at Customer Services and at

Patient Care and Clinical Informatics. Sales outside of North America, particularly in emerging markets, continued to show double-digit growth.

EBITA amounted to EUR 382 million, or 9.8% of sales, EUR 161 million higher than in the first half of 2009. Improvements were mainly driven by higher volume and fixed cost savings as a result of ongoing cost management programs. EBITA included restructuring and acquisition-related charges of EUR 75 million in the first half of 2010, compared to EUR 39 million in the first half of 2009.

as a % of sales

	January-June	
	2009	2010
Healthcare	6.1	9.8
Consumer Lifestyle	(1.6)	8.2
Lighting	(0.5)	12.4
Group Management & Services	(71.4)	(78.4)
Philips Group	0.4	8.7

Consumer Lifestyle

Sales amounted to EUR 4,125 million, a nominal increase of 18% compared to the first half of 2009, driven by Saeco and higher sales in most businesses. Excluding currency effects and portfolio changes, comparable sales grew 15%, led by 29% growth at Television, double-digit growth at Health & Wellness, higher license income, and single-digit growth in most other businesses.

EBITA improved significantly compared to the first half of 2009, driven by double-digit sales growth, structural cost improvements, higher license income, EUR 20 million lower restructuring and acquisition-related charges, and last year's EUR 47 million of product recall charges.

Lighting

Sales in the first half of 2010 amounted to EUR 3,669 million, an increase of 15% on a comparable basis compared to last year. Sales were higher across all regions, notably in emerging markets, with 33% year-on-year comparable sales growth.

EBITA increased by EUR 471 million compared to the first half of 2009, mainly driven by higher sales and gross margin improvements in most businesses. Results included restructuring and acquisition-related charges of EUR 46 million, compared to EUR 101 million in the first half of 2009.

Group Management & Services

EBITA declined EUR 40 million compared to the first half of 2009, as last year's results were favorably impacted by EUR 57 million insurance recoveries and a EUR 33 million legal settlement. Excluding those items, EBITA increased by EUR 50 million year-on-year, driven by higher revenue from licenses and lower R&D costs.

Table of Contents

Risks and uncertainties

In our Annual Report 2009 we have extensively described certain risk categories and risk factors which could have a material adverse effect on our financial position and results. Those risk categories and risk factors are deemed incorporated and repeated in this report by reference.

For the remainder of 2010, we see the risk of growth stagnation due to government deficits in our markets, in particular in our activities that cater to the consumer markets and the healthcare market.

Additional risks not known to us, or currently believed not to be material, could later turn out to have a material impact on our businesses, objectives, revenues, income, assets, liquidity or capital resources.

Notes to the unaudited semi-annual consolidated financial statements

This report contains the semi-annual financial report of Koninklijke Philips Electronics N.V. (the Company), a company with limited liability, headquartered in Amsterdam, the Netherlands. The principal activities of the Company and its group companies (the Philips Group) are described in note 4.

The semi-annual financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the European Union.

1 Significant accounting policies

The significant accounting policies applied in these semi-annual financial statements are consistent with those applied in the Company's consolidated IFRS financial statements for the year ended December 31, 2009, except for the adoption of the following new standards, amendments to standards and interpretations, which have been adopted as relevant to the Company for the first time:

Accounting for business combinations

On January 1, 2010, the Company applied IFRS 3 Business Combinations (revised standard 2008) in accounting for business combinations. This revised standard has been applied prospectively and since there were no significant acquisitions during the first half of 2010, the change did not have a material impact on the Company's consolidated financial statements.

For acquisitions on or after January 1, 2010, the Company measures goodwill as the fair value of the consideration transferred (including the fair value of any previously-held equity interest in the acquiree) and the recognised amount of any non-controlling interests in the acquiree, less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed, all measured as of the acquisition date. When the excess is negative, a bargain purchase gain is recognised immediately in the statements of income.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Company incurs in connection with a business combination, are expensed as incurred.

Accounting for acquisitions of non-controlling interests

From January 1, 2010, the Company has applied IAS 27 Consolidated and Separate Financial Statements (amendment 2008) in accounting for acquisitions of non-controlling interests. The change in accounting policy has been applied prospectively; there was no impact on the Company's consolidated financial statements.

From January 1, 2010, acquisitions of non-controlling interests are accounted for as transactions with equity holders in their capacity as equity holders and therefore no goodwill is recognized. Previously, goodwill arising on the acquisition of non-controlling interests in a subsidiary was recognized and represented the excess of the cost of the additional investment over the carrying amount of the interest in the net assets acquired at the date of the transaction.

Distribution of non-cash assets to owners

From January 1, 2010, the Company applied IFRIC 17 Distributions of Non-cash Assets to Owners in accounting for distribution of non-cash assets to owners. This accounting policy has been applied prospectively and did not have a material impact on the Company's consolidated financial statements.

The Group measures a liability to distribute non-cash assets to owners as the fair value of the assets to be distributed. The carrying amount of the liability is measured at each reporting period and the settlement date, with

any changes recognized in equity as adjustments to the amount of the distribution.

Upon settlement of the transaction, the Company recognizes the difference, if any, between the carrying amount of the assets distributed and the carrying amount of the liability in the statements of income.

Other IFRS standards and interpretations effective from January 1, 2010 did not have a material impact on the Company.

2 Estimates

The preparation of the semi-annual financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated semi-annual financial statements, the significant estimates and judgments made by management in applying the Group's accounting policies and the key sources of estimation

Table of Contents

uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2009.

3 Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2009.

4 Segment information

Philips' activities are organized on a sector basis, with operating sectors Healthcare, Consumer Lifestyle and Lighting each being responsible for the management of its business worldwide, and Group Management & Services (GM&S). A short description of these sectors is as follows:

Healthcare: in May 2010, the organizational structure of the Healthcare sector changed. Healthcare now consists of the following businesses Imaging Systems, Home Healthcare Solutions, Patient Care and Clinical Informatics, and Customer Services.

Consumer Lifestyle: consists of the following businesses Television, Personal Care, Audio & Video Multimedia, Domestic Appliances, Accessories, Health & Wellness, and Licenses.

Television: contained within the Consumer Lifestyle sector, Television results are reported separately due to the large impact the results have on Consumer Lifestyle and the Philips Group.

Lighting: consists of the following businesses Lamps, Professional Luminaires, Consumer Luminaires, Lighting Electronics, Automotive, Special Lighting Applications and Solid-State Lighting Components & Modules.

GM&S: consists of various activities and businesses including the Corporate center, Countries & Regions, Global Service Units, Pensions, Research, Intellectual Property & Standards, Applied Technologies, New Venture Integration, and Design.

Reportable segments for the purpose of the segmental disclosures required by IAS 34 Interim Financial Statements are: Healthcare, Consumer Lifestyle, Television and Lighting.

Significant segment information can be found in the Sectors, Sectors and main countries and Reconciliation of non-GAAP performance measures sections of this document.

5 Seasonality

Under normal economic conditions, the Group's sales are impacted by seasonal fluctuations, particularly at Consumer Lifestyle and Healthcare, typically resulting in higher revenues and earnings in the second half-year results. Within Healthcare, sales are generally higher in the second half of the year, largely due to the timing of new product availability and customers attempting to spend their annual budgeted allowances before the end of the year. Within Consumer Lifestyle, sales are generally higher in the second half-year due to the holiday sales. Sales in the Lighting businesses are generally not materially affected by seasonality.

For the 12 months ended July 4, 2010, Healthcare, Consumer Lifestyle and Lighting had revenues of EUR 8,115 million, EUR 9,101 million and EUR 7,161 million respectively (12 months ended June 28, 2009: EUR 7,988 million, EUR 9,058 million and EUR 6,839 million respectively) and reported adjusted income from operations of EUR 1,009 million, EUR 734 million and EUR 616 million respectively (12 months ended June 28, 2009: EUR 752 million, a loss of EUR 29 million and a profit of EUR 52 million respectively).

6 Acquisitions and divestments

During the first six months of 2010, Philips entered into a number of acquisitions. These acquisitions, both individually and in the aggregate, were deemed immaterial in respect of IFRS disclosure requirements. The acquisitions involved an aggregated purchase price of EUR 11 million and have been accounted for using the purchase method of accounting.

In the first six months of 2010 Philips divested 9.4% of the shares in TPV Technology Ltd. (TPV) and several other minor activities.

The TPV shares were sold on March 9, 2010 to CEIEC Ltd., a Hong Kong-based technology company, for a cash consideration of EUR 98 million. The transaction resulted in a gain of EUR 5 million, which was reported under Results relating to investments in associates.

7 Investments in associates

On March 9, 2010 Philips sold 9.4% of the shares in TPV Technology Ltd. (TPV) to a third party for a cash consideration of EUR 98 million. Philips retained 3.0% of the TPV shares, which were transferred to Other non-current financial assets, because Philips was no longer able to exercise significant influence with respect to TPV. Consequently, the carrying amount of Investments in

Table of Contents

associates was reduced by EUR 123 million. The transaction resulted in a gain of EUR 5 million, which was recognized under Results relating to investments in associates.

8 Income taxes

Income tax expense is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full financial year applied to the pre-tax income of the interim period. This year's income tax expense is higher, mainly due to higher earnings in 2010 and EUR 95 million of net tax benefits in 2009, including the recognition of a deferred tax asset for Lumileds and a number of tax settlements partly offset by additional liabilities for uncertain tax positions.

9 Property, plant and equipment

Acquisitions and disposals

During the first six months ended July 4, 2010, there were no significant movements in property, plant and equipment. Apart from currency translation-related differences of EUR 243 million (six months ended June 28, 2009: EUR 18 million), the addition of EUR 305 million (six months ended June 28, 2009: EUR 252 million) was more than offset by depreciation and impairment charges of EUR 324 million (six months ended June 28, 2009: EUR 324 million).

------------	-------

Respiratory Care and Sleep Management and Professional Luminaires remain sensitive to fluctuations in the key assumptions used in the impairment tests as set out below. In addition, Home Monitoring is sensitive to healthcare reform in the United States.

In 2010, the organizational structure of the Healthcare sector changed, as referenced in note 4. As a result of the change, part of the goodwill of Clinical Care Systems was allocated to Imaging Systems and the other part to Patient Care and Clinical Informatics (former Healthcare Informatics). Furthermore, Respiratory Hospital and related goodwill were transferred to Patient Care and Clinical Informatics. Applicable goodwill balances are reflected in the table below.

For impairment testing, goodwill is allocated to (groups of) cash-generating units (typically one level below sector level), which represent the lowest level at which goodwill is monitored for internal management purposes. A significant part of goodwill is allocated to the following businesses:

	July 4, 2010
Respiratory Care and Sleep Management	2,359

Professional Luminaires	1,608
Imaging Systems	1,549
Patient Care and Clinical Informatics	1,409

Key assumptions used in the annual impairment tests (performed in the second quarter) for the businesses in the table above were sales growth rates and the rates used for discounting the projected cash flows. For the **2010** annual test, cash flow projections, reflecting value in use, were determined using management's internal forecasts that cover an initial period from **2010** to **2015** and were extrapolated with stable or declining growth rates for a period of no more than 5 years, after which a terminal value was calculated, for which growth rates were capped at a historical long-term average growth rate.

The projected cash flows rely on the experience of the management teams of the cash-generating units and are based on market growth assumptions and industry long-term growth averages. Cash flow projections of Respiratory Care and Sleep Management, Professional Luminaires, Imaging Systems, and Patient Care and Clinical Informatics for **2010** were based on the following key assumptions:

Table of Contents

during the initial forecast period a compound sales growth of 9.4%, 11.3%, 5.2% and 6.5% respectively was used;

during the period beyond the initial forecast period, stable and declining growth was considered, with compound rates of 5.0%, 7.2%, 4.0% and 5.4% respectively; and

a terminal value for all four units was based on a growth rate of 2.7%.

Income from operations in all four units is expected to increase over the projection period as a result of volume growth and cost efficiencies. The respective pre-tax discount rates applied to the most recent cash flow projections were 10.2%, 14.0%, 11.1% and 12.1% respectively. Based on this analysis, management did not identify impairment for these (groups of) cash-generating units.

The value in use of Respiratory Care and Sleep Management in the annual impairment test was approximately EUR 100 million above its carrying value. An increase of 30 basis points in the pre-tax discount rate, a 50 basis points decrease in the compound long-term sales growth rate, or a 5% decrease in terminal value would cause its value in use to fall to the level of its carrying value.

The value in use of Professional Luminaires in the annual test was approximately EUR 600 million above its carrying value. An increase of 250 basis points in the pre-tax discount rate, a 280 basis points decrease in the compound long-term sales growth rate, or a 34% decrease in terminal value would cause its value in use to fall to the level of its carrying value.

The results of the annual impairment test of Imaging Systems and Patient Care and Clinical Informatics have indicated that a reasonably possible change in key assumptions would not cause the value in use to fall to the level of the carrying value.

12 Other non-current financial assets

The changes during 2010 are as follows:

Other non-current financial assets

in millions of euros

Balance as of December 31, 2009	691
Changes:	
Reclassifications	34
Acquisitions/additions	20
Sales/redemptions/reductions	(15)

Value adjustments	
Translation and exchange differences	34
Balance as of July 4, 2010	764

Other non-current financial assets mainly consist of available-for-sale financial assets.

Reclassifications relate to the 3.0% retained interest in TPV Technology Ltd. (TPV) which was reclassified from Investments in associates subsequent to the sale of 9.4% of the TPV shares to a third party. For further details, please refer to note 7.

The available-for-sale financial assets include a 19.8% interest in NXP Semiconductors N.V. (NXP) with a carrying value of EUR 207 million. NXP is treated as a cost-method investment.

Triggered by the net losses incurred by NXP, Philips performed impairment reviews on the carrying value of the investment in NXP during the first six months of 2010. The impairment review was approached consistent with the methodology outlined in our Annual Report 2009.

Table of Contents

In accordance with IAS 39, Financial Instruments: Recognition and Measurement, paragraph 66, if there is objective evidence that an impairment loss has been incurred for an unquoted equity investment carried at cost, the amount of the impairment loss is measured as the difference between the carrying amount of the investment and the present value of the discounted estimated future cash flows.

Based on the impairment reviews performed during the first six months of 2010, we concluded that no impairment was necessary.

13 Inventories

Inventories are summarized as follows:

	December	July 4,
	31,	2010
	2009	2009
Raw materials and supplies	871	1,143
Work in progress	408	555
Finished goods	1,634	2,230
	2,913	3,928

The amounts recorded above are net of allowances for obsolescence.

On July 4, 2010, the write-down of inventories to net realizable value amounted to EUR 115 million (year-end 2009: EUR 219 million). The write-down is included in cost of sales.

14 Shareholders equity

In April 2010, Philips settled a dividend of EUR 0.70 per common share, representing a total value of EUR 650 million. Shareholders could elect for a cash dividend or a share dividend. Around 53.25% of the shareholders elected for a share dividend, resulting in the issuance of 13,667,015 new common shares. The settlement of the cash dividend involved an amount of EUR 304 million.

As of July 4, 2010, the issued and fully paid share capital consists of 986,078,784 common shares, each share having a par value of EUR 0.20.

During the first six months of 2010 a total of 4,187,823 treasury shares were delivered as a result of stock option exercises, restricted share deliveries and other employee-related share plans. There were no transactions to reduce share capital. On July 4, 2010 the total number of treasury shares amounted to 40,766,854, which were purchased at an average price of EUR 27.02 per share.

15 Short-term and long-term debt

At the end of Q2 2010 the total debt position of Philips was EUR 4,799 million, an increase of EUR 533 million compared to December 31, 2009. Long-term debt was EUR 3,053 million, a decrease of EUR 587 million, and short-term debt was EUR 1,746 million, an increase of EUR 1,119 million compared to December 31, 2009. The movement was mainly due to reclassification of outstanding USD and EUR public bonds to short-term debt and currency translation effects. Total remaining long-term debt mainly consisted of outstanding public bonds for a book value of EUR 2,651 million, which were previously issued in USD. The weighted average interest rate of the long-term USD bonds was 5.57% at the end of Q2 2010.

16 Provisions

Provisions are summarized as follows:

	December 31, 2009		July 4, 2010	
	long term	short term	long term	short term
Provisions for defined-benefit plans	669	61	686	52
Other postretirement benefits	296	21	340	25
Postemployment benefits and obligatory severance payments	106	29	94	39
Product warranty	108	227	121	226
Loss contingencies (environmental remediation and product liability)	186	14	220	22
Restructuring-related provisions	78	318	73	293
Other provisions	291	46	269	75
	1,734	716	1,803	732

There are no significant changes in provisions compared to year-end 2009.

17 Accrued liabilities

The increase in accrued liabilities is mainly driven by changes in the fair values of derivatives totaling EUR 774 million.

18 Pensions

In accordance with IAS 34, actuarial gains and losses are reported in the semi-annual report only if there have been significant changes in financial markets. In the first six months of 2010 no actuarial gains or losses were recorded as the changes in financial markets during that period were considered not significant. In the first six months of 2009 the combined effect of actuarial gains and losses and IFRIC 14 was a reduction in equity of EUR 1.8

Table of Contents

billion net of tax. For the whole of 2009 the combined effect of actuarial gains and losses and IFRIC 14 was a reduction in equity of EUR 0.9 billion net of tax due to favorable developments in the second half of 2009.

The half-year estimates are limited to the principal plans, i.e. the defined-benefit plans in the Netherlands, Germany, the UK and the US, which together represent more than 90% of the defined-benefit pension assets and liabilities for the Group as a whole. Estimated changes in recognized prepaid pension costs are in accordance with IFRIC 14.

Actuarial gains or losses, if any, are reported under Other comprehensive income and against the respective balance sheet items.

19 Contingent liabilities

Guarantees

Philips policy is to provide guarantees and other letters of support only in writing. Philips does not stand by other forms of support. At the end of Q2 2010, the total fair value of guarantees recognized on the balance sheet was EUR 14 million (December 31, 2009: EUR 14 million). Remaining off-balance-sheet business and credit-related guarantees provided to third parties and associates decreased by EUR 3 million during the first half of 2010 to EUR 305 million.

Environmental remediation

The Company and its subsidiaries are subject to environmental laws and regulations. Under these laws, the Company and/or its subsidiaries may be required to remediate the effects of the release or disposal of certain chemicals on the environment. A number of subsidiaries of the Company have been identified for further investigation of possible environmental obligations. In the United States, subsidiaries of the Company have been named as potentially responsible parties in state and federal proceedings for the clean-up of various sites. The Company accrues for losses associated with environmental obligations when such losses are probable and reliably estimable.

Legal proceedings

The Company and certain of its group companies and former group companies are involved as a party in legal proceedings, including regulatory and other governmental proceedings, including discussions on potential remedial actions, relating to such matters as competition issues, commercial transactions, product liability, participations and environmental pollution. In respect of antitrust laws, the Company and certain of its (former) group companies are involved in investigations by competition law authorities in several jurisdictions and are engaged in litigation in this respect. Since the ultimate disposition of asserted claims and proceedings and investigations cannot be predicted with certainty, an adverse outcome could have a material adverse effect on the Company's consolidated financial position and consolidated results of operations for a particular period. For certain legal proceedings information required under IAS 37 is not disclosed, if the Company concludes that the disclosure can be expected to prejudice seriously the outcome of the legal proceeding.

For information regarding legal proceedings in which the Company is involved, please refer to our Annual Report 2009. Significant developments regarding legal proceedings that have occurred since the publication of our Annual Report 2009 are described below:

CRT

On March 30, 2010, the District Court adopted the Special Master's Report and Recommendation denying the bulk of the motions to dismiss filed on behalf of all Philips entities in response to both the direct and indirect purchaser actions in the federal class actions pending in the Northern District of California. These cases have now proceeded to discovery. The Court has not set a trial date and there is no timetable for the resolution of these cases.

LG Display

On April 15, 2010, Philips Electronics North America Corporation moved to dismiss the Nokia complaint on the ground that Nokia has failed to state a claim upon which relief can be granted. This motion was granted on June 29, 2010 with leave to amend. Nokia has until July 23, 2010 to amend its complaint.

Optical Disc Drive (ODD)

On April 7, 2010, a class action proceeding was instituted in the Province of Quebec on behalf of all Canadian residents (or alternatively Quebec residents only) who purchased, used and/or received an ODD or purchased any products which contained an ODD, since approximately January 2001 through to the present. The class action named, amongst others, as defendants, Koninklijke Philips Electronics N.V., Philips Electronics North America Corporation, Philips Canada Ltd., Lite-On IT Corporation, Philips & Lite-On Digital Solution Corporation and Philips & Lite-On Digital Solutions USA, Inc. The petitioner seeks both compensatory and punitive damages and all applicable interest, but they have not quantified the value of these damages in their claim.

Table of Contents**20 Related-party transactions**

In the normal course of business, Philips purchases and sells goods and services from/to various related parties in which Philips typically holds a 50% or less equity interest and has significant influence. These transactions are generally conducted with terms comparable to transactions with third parties.

Related-party transactions

Payables to related parties	47	13

21 Share-based compensation

Share-based compensation expense amounted to EUR 29 million and EUR 35 million in the first six months of 2010 and 2009 respectively.

During the first six months of 2010 the Company granted 5,028,436 stock option rights on its common shares and 1,258,122 rights to receive common shares in the future (restricted share rights).

A total of 1,812,948 restricted shares were issued to employees. 686,274 EUR-denominated options and 796,839 USD-denominated options were exercised at a weighted average exercise price of EUR 19.52 and USD 23.88 respectively.

Under the employee stock purchase plans 1,010,624 shares have been purchased at an average price of EUR 21.73.

For further information on the characteristics of these plans, please refer to the Annual Report 2009, note 30.
