Yes No

(If Yes is marked, indicated below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82: _____.)

Taiwan Semiconductor Manufacturing Company Limited
Financial Statements for the
Years Ended December 31, 2010 and 2009 and
Independent Auditors Report

INDEPENDENT AUDITORS REPORT

The Board of Directors and Shareholders

Taiwan Semiconductor Manufacturing Company Limited

We have audited the accompanying balance sheets of Taiwan Semiconductor Manufacturing Company Limited as of December 31, 2010 and 2009, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Taiwan Semiconductor Manufacturing Company Limited as of December 31, 2010 and 2009, and the results of its operations and its cash flows for the years then ended in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting with respect to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 3 to the financial statements, effective January 1, 2009, Taiwan Semiconductor Manufacturing Company Limited adopted the newly revised Statement of Financial Accounting Standards No. 10, Accounting for Inventories.

We have also audited, in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China, the consolidated financial statements of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of and for the year ended December 31, 2010 on which we have issued an unqualified opinion and as of and for the year ended December 31, 2009 on which we have issued an unqualified opinion with an explanatory paragraph relating to the adoption of the newly revised Statement of Financial Accounting Standards No. 10, Accounting for Inventories.
January 24, 2011

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdiction. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009
(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)

1. GENERAL

Taiwan Semiconductor Manufacturing Company Limited (the Company or TSMC), a Republic of China (R.O.C.) corporation, was incorporated on February 21, 1987. The Company is a dedicated foundry in the semiconductor industry which engages mainly in the manufacturing, selling, packaging, testing and computer-aided design of integrated circuits and other semiconductor devices and the manufacturing of masks. Beginning in 2010, the Company also engages in the researching, developing, designing, manufacturing and selling of LED lighting devices and related applications products and systems, and renewable energy and efficiency related technologies and products. On September 5, 1994, its shares were listed on the Taiwan Stock Exchange (TSE). On October 8, 1997, TSMC listed some of its shares of stock on the New York Stock Exchange (NYSE) in the form of American Depositary Shares (ADSs).

As of December 31, 2010 and 2009, the Company had 33,232 and 22,292 employees, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are presented in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, Business Accounting Law, Guidelines Governing Business Accounting, and accounting principles generally accepted in the R.O.C.

For the convenience of readers, the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the R.O.C. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language financial statements shall prevail.

Significant accounting policies are summarized as follows:

Use of Estimates

The preparation of financial statements in conformity with the aforementioned guidelines, law and principles requires management to make reasonable assumptions and estimates of matters that are inherently uncertain. The actual results may differ from management's estimates.

Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets held for trading purposes and assets expected to be converted to cash, sold or consumed within one year from the balance sheet date. Current liabilities are obligations incurred for trading purposes and obligations expected to be settled within one year from the balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

Cash Equivalents

Repurchase agreements collateralized by government bonds acquired with maturities of less than three months from the date of purchase are classified as cash equivalents. The carrying amount approximates fair value due to

their short term nature.

Financial Assets/Liabilities at Fair Value Through Profit or Loss

Derivatives that do not meet the criteria for hedge accounting are initially recognized at fair value, with transaction costs expensed as incurred. The derivatives are remeasured at fair value subsequently with changes in fair value recognized in earnings. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is estimated using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

Available-for-sale Financial Assets

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of shareholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

The fair value of overseas publicly traded stock is determined using the closing prices at the end of the year. The fair value of debt securities is determined using the average of bid and asked prices at the end of the year.

Any difference between the initial carrying amount of a debt security and the amount due at maturity is amortized using the effective interest method, with the amortization recognized in earnings.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to shareholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Held-to-maturity Financial Assets

Debt securities for which the Company has a positive intention and ability to hold to maturity are categorized as held-to-maturity financial assets and are carried at amortized cost. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

Allowance for Doubtful Receivables

An allowance for doubtful receivables is provided based on a review of the collectability of receivables. The Company determines the amount of the allowance for doubtful receivables with a charge of 1% of the amount of outstanding receivables considering the account aging analysis and current trends in the credit quality of its

customers.

Revenue Recognition and Allowance for Sales Returns and Others

The Company recognizes revenue when evidence of an arrangement exists, the rewards of ownership and significant risk of the goods has been transferred to the buyer, price is fixed or determinable, and collectability is reasonably assured. Provisions for estimated sales returns and other allowances are recorded in the year the related revenue is recognized, based on historical experience, management's judgment, and any known factors that would significantly affect the allowance.

Sales prices are determined using fair value taking into account related sales discounts agreed to by the Company and its customers. Sales agreements typically provide that payment is due 30 days from invoice date for a majority of the customers and 30 to 45 days after the end of the month in which sales occur for some customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Inventories

Inventories are recorded at standard cost and adjusted to approximate weighted-average cost on the balance sheet date.

Prior to January 1, 2009, inventories were stated at the lower of cost or market value. Any write-down was made on a total-inventory basis. Market value represented replacement cost for raw materials, supplies and spare parts and net realizable value for work in process and finished goods.

As stated in Note 3, effective January 1, 2009, inventories are stated at the lower of cost or net realizable value. Inventory write-downs are made on an item-by-item basis, except where it may be appropriate to group similar or related items. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and necessary selling costs.

Investments Accounted for Using Equity Method

Investments in companies wherein the Company exercises significant influence over the operating and financial policy decisions are accounted for using the equity method. The Company's share of the net income or net loss of an investee is recognized in the equity in earnings/losses of equity method investees, net account. The cost of an investment shall be analyzed and the cost of investment in excess of the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of non-current assets (except for financial assets other than investments accounted for using the equity method and deferred income tax assets). When an indication of impairment is identified, the carrying amount of the investment is reduced, with the related impairment loss recognized in earnings.

When the Company subscribes for additional investee's shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company's share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to capital surplus.

Gains or losses on sales from the Company to equity method investees are deferred in proportion to the Company's ownership percentages in the investees until such gains or losses are realized through transactions with third parties. The entire amount of the gains or losses on sales to investees over which the Company has a controlling interest is deferred until such gains or losses are realized through subsequent sales of the related products to third parties. Gains or losses on sales from equity method investees to the Company are deferred in

proportion to the Company's ownership percentages in the investees until they are realized through transactions with third parties. Gains or losses on sales between equity method investees over each of which the Company has control are deferred in proportion to the Company's weighted-average ownership percentage in the investee which records gains or losses. In transactions between equity method investees over either or both of which the Company has no control, gains or losses on sales are

-12-

deferred in proportion to the multiplication of the Company's weighted-average ownership percentages in the investees. Such gains or losses are recorded until they are realized through transactions with third parties.

If an investee's functional currency is a foreign currency, differences will result from the translation of the investee's financial statements into the reporting currency of the Company. Such differences are charged or credited to cumulative translation adjustments, a separate component of shareholders' equity.

Financial Assets Carried at Cost

Investments for which the Company does not exercise significant influence and that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, such as non-publicly traded stocks and mutual funds, are carried at their original cost. The costs of non-publicly traded stocks and mutual funds are determined using the weighted-average method. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Cash dividends are recognized as investment income upon resolution of shareholders of an investee but are accounted for as a reduction to the original cost of investment if such dividends are declared on the earnings of the investee attributable to the period prior to the purchase of the investment. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. The cost per share is recalculated based on the new total number of shares.

Property, Plant and Equipment and Assets Leased to Others

Property, plant and equipment and assets leased to others are stated at cost less accumulated depreciation. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight-line method over the following estimated service lives: buildings 10 to 20 years; machinery and equipment 5 years; and office equipment 3 to 5 years.

Upon sale or disposal of property, plant and equipment and assets leased to others, the related cost and accumulated depreciation are deducted from the corresponding accounts, with any gain or loss recorded as non-operating gains or losses in the year of sale or disposal.

Intangible Assets

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Goodwill is no longer amortized and instead is tested for impairment annually. If an event occurs or circumstances change which indicate that the fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Deferred charges consist of technology license fees, software and system design costs and patent and others. The amounts are amortized over the following periods: Technology license fees the estimated life of the technology or the term of the technology transfer contract; software and system design costs 3 years; patent and others the economic life or contract period. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a

subsequent period, the previously recognized impairment loss would be reversed and recognized as a gain.
However, the adjusted amount may not exceed the carrying

-13-

amount that would have been determined, net of amortization, as if no impairment loss had been recognized.

Expenditures related to research activities and those related to development activities that do not meet the criteria for capitalization are charged to expense when incurred.

Pension Costs

For employees who participate in defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods. For employees who participate in defined benefit pension plans, pension costs are recorded based on actuarial calculations.

Income Tax

The Company applies an inter-period allocation for its income tax whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training expenditures, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income tax on unappropriated earnings at a rate of 10% is expensed in the year of shareholder approval which is the year subsequent to the year the earnings are generated.

Stock-based Compensation

Employee stock options that were granted or modified in the period from January 1, 2004 to December 31, 2007 are accounted for by the interpretations issued by the Accounting Research and Development Foundation of the Republic of China. The Company adopted the intrinsic value method and any compensation cost determined using this method is recognized in earnings over the employee vesting period. Employee stock option plans that were granted or modified after December 31, 2007 are accounted for using fair value method in accordance with Statement of Financial Accounting Standards No. 39, Accounting for Share-based Payment. The Company did not grant or modify any employee stock options since January 1, 2008.

Profit Sharing to Employees and Bonus to Directors

Effective January 1, 2008, the Company adopted Interpretation 2007-052, Accounting for Bonuses to Employees, Directors and Supervisors, which requires companies to record profit sharing to employees and bonus to directors as an expense rather than as an appropriation of earnings.

Foreign-currency Transactions

Foreign-currency transactions other than derivative contracts are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency

transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings.

-14-

At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

3. ACCOUNTING CHANGES

Effective January 1, 2009, the Company adopted the newly revised Statement of Financial Accounting Standards (SFAS) No. 10, Accounting for Inventories. The main revisions are (1) inventories are stated at the lower of cost or net realizable value, and inventories are written down to net realizable value on an item-by-item basis except when the grouping of similar or related items is appropriate; (2) unallocated overheads are recognized as expenses in the year in which they are incurred; and (3) abnormal cost, write-downs of inventories and any reversal of write-downs are recorded as cost of sales for the year. Such changes in accounting principle did not have significant effect on the Company's financial statements for the year ended December 31, 2009.

4. CASH AND CASH EQUIVALENTS

	December 31	
	2010	2009
Cash and deposits in banks	\$ 108,735,942	\$ 114,023,307
Repurchase agreements collateralized by government bonds	775,188	3,020,236
	\$ 109,511,130	\$ 117,043,543

5. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

	December 31	
	2010	2009
Trading financial assets		
Cross currency swap contracts	\$	\$ 181,743
Trading financial liabilities		
Forward exchange contracts	\$ 7,834	\$

The Company entered into derivative contracts during the years ended December 31, 2010 and 2009 to manage exposures due to fluctuations of foreign exchange rates. The derivative contracts entered into by the Company did not meet the criteria for hedge accounting. Therefore, the Company did not apply hedge accounting treatment for its derivative contracts.

Outstanding forward exchange contracts consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
December 31, 2010		
Sell NT\$/Buy JPY	January 2011 to February 2011	NT\$814,882/JPY2,278,420

Outstanding cross currency swap contracts consisted of the following:

Maturity Date	Contract Amount (In Thousands)	Range of Interest Rates Paid	Range of Interest Rates Received
December 31, 2009			
January 2010 to February 2010	US\$750,000/NT\$24,201,706	0.24%-0.70%	0.00%-0.38%

For the years ended December 31, 2010 and 2009, changes in fair value related to derivative financial instruments recognized in earnings was a net gain of NT\$312,862 thousand and NT\$587,151 thousand, respectively.

6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	December 31	
	2010	2009
Overseas publicly traded stock	\$ 3,918,274	\$
Corporate bonds	1,033,049	1,046,672
	4,951,323	1,046,672
Current portion	(3,918,274)	
	\$ 1,033,049	\$ 1,046,672

7. HELD-TO-MATURITY FINANCIAL ASSETS

	December 31	
	2010	2009
Corporate bonds	\$ 6,202,287	\$ 12,266,311
Structured time deposits		7,000,000
Government bonds		2,897,587
	6,202,287	22,163,898
Current portion	(4,796,589)	(9,944,843)
	\$ 1,405,698	\$ 12,219,055

Structured time deposits categorized as held-to-maturity financial assets consisted of the following:

	Principal Amount	Interest Receivable	Range of Interest Rates	Maturity Date
December 31, 2009				

Callable domestic deposits	\$ 7,000,000	\$ 4,308	0.36%-0.95%	July 2010 to August 2011 (redeemed by the issuer from February 2010 to July 2010)
----------------------------	--------------	----------	-------------	---

8. ALLOWANCES FOR DOUBTFUL RECEIVABLES, SALES RETURNS AND OTHERS

Movements of the allowance for doubtful receivables were as follows:

	Years Ended December 31	
	2010	2009
Balance, beginning of year	\$ 431,000	\$ 436,746
Provision	59,268	238,061
Write-off	(2,268)	(243,807)
Balance, end of year	\$ 488,000	\$ 431,000

Movements of the allowance for sales returns and others were as follows:

	Years Ended December 31	
	2010	2009
Balance, beginning of year	\$ 8,583,632	\$ 5,868,582
Provision	11,703,136	13,728,346
Write-off	(12,945,324)	(11,013,296)
Balance, end of year	\$ 7,341,444	\$ 8,583,632

9. INVENTORIES

	December 31	
	2010	2009
Finished goods	\$ 4,623,812	\$ 2,355,232
Work in process	18,128,677	14,230,318
Raw materials	1,681,525	1,420,466
Supplies and spare parts	1,212,334	824,200
	\$ 25,646,348	\$ 18,830,216

Write-down of inventories to net realizable value in the amount of NT\$792,951 thousand and NT\$199,732 thousand, respectively, were included in the cost of sales for the years ended December 31, 2010 and 2009. Inventory losses related to earthquake damage in the amount of NT\$190,992 thousand were classified under non-operating expenses and losses for the year ended December 31, 2010.

TSMC Solar North America, Inc. (TSMC Solar NA)	26,527	100		
TSMC Solar Europe B.V. (TSMC Solar Europe)	23,971	100		
TSMC Korea Limited (TSMC Korea)	20,929	100	18,519	100
TSMC Lighting North America, Inc. (TSMC Lighting NA)	3,133	100		
	\$ 114,977,174		\$ 104,660,098	

For the renewable energy and efficiency related businesses development, the Company established wholly-owned subsidiaries, TSMC Solar NA, TSMC Solar Europe and TSMC Lighting NA, in the third quarter of 2010.

For the year ended December 31, 2010, the Company increased its investment in VTAF III for the amount of NT\$1,862,278 thousand, and the Company's percentage of ownership in VTAF III increased from 98% to 99%.

In February 2010, the Company subscribed to 75,316 thousand shares of Motech through a private placement for NT\$6,228,661 thousand; after the subscription, the Company's percentage of ownership in Motech was 20%. Transfer of the aforementioned common shares within three years is prohibited according to the related regulations.

For the years ended December 31, 2010 and 2009, equity in earnings/losses of equity method investees was a net gain of NT\$7,111,443 thousand and a net loss of NT\$2,695,720 thousand, respectively. Related equity in earnings/losses of equity method investees were determined based on the audited financial statements, except those of Emerging Alliance, TSMC Europe, TSMC Japan and TSMC Korea for the year ended December 31, 2010 and those of TSMC Europe, TSMC Japan and TSMC Korea for the year ended December 31, 2009. The Company believes that, had Emerging Alliance, TSMC Europe, TSMC Japan and TSMC Korea's financial statements been audited, any adjustments arising would have no material effect on the Company's financial statements.

As of December 31, 2010 and 2009, the quoted market price of publicly traded stocks in unrestricted investments accounted for using the equity method (VIS and GUC) were NT\$14,993,626 thousand and NT\$18,027,990 thousand, respectively.

Movements of the difference between the cost of investments and the Company's share in investees' net assets allocated to depreciable assets were as follows:

	Years Ended December 31	
	2010	2009
Balance, beginning of year	\$ 1,429,118	\$ 2,053,253
Additions	2,055,660	
Amortization	(980,282)	(624,135)
Balance, end of year	\$ 2,504,496	\$ 1,429,118

Movements of the difference allocated to goodwill were as follows:

	Years Ended December 31	
	2010	2009
Balance, beginning of year	\$ 1,061,885	\$ 1,061,885
Additions	353,680	
Balance, end of year	\$ 1,415,565	\$ 1,061,885

14. SHORT-TERM LOANS

	December 31, 2010
Unsecured loans: US\$864,000 thousand and EUR114,900 thousand, due in January 2011, and annual interest at 0.38%-0.65%	\$ 30,908,637

15. BONDS PAYABLE

	December 31	
	2010	2009
Domestic unsecured bonds: Issued in January 2002 and repayable in January 2012, 3.00% interest payable annually	\$ 4,500,000	\$ 4,500,000

16. OTHER LONG-TERM PAYABLES

The Company's long-term payables mainly resulted from license agreements for certain semiconductor-related patents.

As of December 31, 2010, the future payment of other long-term payable (classified under accrued expenses and other current liabilities) due in 2011 amounted to NT\$718,637 thousand.

17. PENSION PLANS

The pension mechanism under the Labor Pension Act is deemed a defined contribution plan. Pursuant to the Act, the Company has made monthly contributions equal to 6% of each employee's monthly salary to employees' pension accounts and recognized pension costs of NT\$964,063 thousand and NT\$608,731 thousand for the years ended December 31, 2010 and 2009, respectively.

The Company has a defined benefit plan under the Labor Standards Law that provides benefits based on an employee's length of service and average monthly salary for the six-month period prior to retirement. The Company contributes an amount equal to 2% of salaries paid each month to a pension fund (the Fund), which is administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the Committee's name in the Bank of Taiwan.

Pension information on the defined benefit plan is summarized as follows:

a. Components of net periodic pension cost for the year

	2010	2009
Service cost	\$ 129,552	\$ 166,460
Interest cost	145,151	149,297
Projected return on plan assets	(39,939)	(56,170)
Amortization	1,061	29,134
 Net periodic pension cost	 \$ 235,825	 \$ 288,721

b. Reconciliation of funded status of the plans and accrued pension cost at December 31, 2010 and 2009

	2010	2009
Benefit obligation		
Vested benefit obligation	\$ 189,047	\$ 123,524
Nonvested benefit obligation	5,390,113	3,754,388
 Accumulated benefit obligation	 5,579,160	 3,877,912
Additional benefits based on future salaries	3,634,495	2,614,358
 Projected benefit obligation	 9,213,655	 6,492,270
Fair value of plan assets	(2,853,535)	(2,612,295)
 Funded status	 6,360,120	 3,879,975
Unrecognized net transition obligation	(82,991)	(91,291)
Prior service cost	154,738	161,977
Unrecognized net loss	(2,607,266)	(143,485)
 Accrued pension cost	 \$ 3,824,601	 \$ 3,807,176
 Vested benefit	 \$ 208,176	 \$ 135,501

2010 **2009**

c. Actuarial assumptions at December 31, 2010 and 2009

Discount rate used in determining present values	1.75%	2.25%
Future salary increase rate	3.00%	3.00%
Expected rate of return on plan assets	2.50%	1.50%

d. Contributions to the Fund for the year	\$ 209,459	\$ 191,554

e. Payments from the Fund for the year	\$ 19,991	\$ 37,801
--	-----------	-----------

18. INCOME TAX

- a. A reconciliation of income tax expense based on income before income tax at the statutory rates and income tax currently payable was as follows:

	Years Ended December 31	
	2010	2009
Income tax expense based on income before income tax at statutory rate (17% and 25% for 2010 and 2009, respectively)	\$ 28,779,335	\$ 23,745,246
Tax effect of the following:		
Tax-exempt income	(16,669,784)	(8,621,941)
Temporary and permanent differences	(704,252)	3,124,974
Others		247,050
Additional tax at 10% on unappropriated earnings	127,489	
Income tax credits used	(4,823,988)	(9,914,570)
Income tax currently payable	\$ 6,708,800	\$ 8,580,759

- b. Income tax expense consisted of the following:

	Years Ended December 31	
	2010	2009
Income tax currently payable	\$ 6,708,800	\$ 8,580,759
Income tax adjustments on prior years	980,428	(1,155,113)
Other income tax adjustments	369,220	15,921
Net change in deferred income tax assets		
Investment tax credits	(7,243,473)	(1,119,523)
Temporary differences	16,790	41,456
Valuation allowance	6,853,430	(600,314)
Income tax expense	\$ 7,685,195	\$ 5,763,186

- c. Net deferred income tax assets consisted of the following:

	December 31	
	2010	2009
Current deferred income tax assets		
Investment tax credits	\$ 4,182,893	\$ 3,210,254
Temporary differences		
Allowance for sales returns and others	624,023	794,507
Unrealized gain/loss on financial instruments	87,735	
Others	239,124	58,649
	\$ 5,133,775	\$ 4,063,410

Noncurrent deferred income tax assets		
Investment tax credits	\$ 17,792,321	\$ 11,521,487
Temporary differences		
Depreciation	1,981,915	1,909,152
Others	32,792	132,336
Valuation allowance	(12,652,762)	(5,799,332)
	\$ 7,154,266	\$ 7,763,643

-23-

Effective in May 2009 and June 2010, the Article 5 of the Income Tax Law of the Republic of China was amended, in which the income tax rate of profit-seeking enterprises would be reduced from 25% to 20% and from 20% to 17%, respectively. The last amended income tax rate of 17% is retroactively applied on January 1, 2010. The Company recalculated its deferred tax assets in accordance with the new amended Article and adjusted the resulting difference as an income tax expense in 2010 and 2009, respectively.

Under Article 10 of the Statute for Industrial Innovation (SII) legislated and effective in May 2010, a profit-seeking enterprise may deduct up to 15% of its research and development expenditures from its income tax payable for the year in which these expenditures are incurred, but this deduction should not exceed 30% of the income tax payable for that year. This incentive is retroactive to January 1, 2010 and effective until December 31, 2019.

d. Integrated income tax information:

The balance of the imputation credit account as of December 31, 2010 and 2009 was NT\$1,669,533 thousand and NT\$369,265 thousand, respectively.

The estimated and actual creditable ratios for distribution of earnings of 2010 and 2009 were 4.70% and 9.85%, respectively.

The imputation credit allocated to shareholders is based on its balance as of the date of dividend distribution. The estimated creditable ratio may change when the actual distribution of imputation credit is made.

e. All earnings generated prior to December 31, 1997 have been appropriated.

f. As of December 31, 2010, investment tax credits consisted of the following:

Law/Statute	Item	Total Creditable Amount	Remaining Creditable Amount	Expiry Year
Statute for Upgrading Industries	Purchase of machinery and equipment	\$ 3,212,913	\$ 2,512,408	2012
		6,033,745	6,033,745	2013
		6,361,790	6,361,790	2014
		\$ 15,608,448	\$ 14,907,943	
Statute for Upgrading Industries	Research and development expenditures	\$ 1,000,000	\$	2010
		1,054,194		2011
		2,691,517	2,691,517	2012
		4,328,009	4,328,009	2013
		\$ 9,073,720	\$ 7,019,526	

Statute for Upgrading Industries	Personnel training expenditures	\$ 19,293	\$	2011
		30,624	30,624	2012
		17,121	17,121	2013
		\$ 67,038	\$ 47,745	

Statute for Industrial Innovation	Research and development expenditures	\$ 2,049,996	\$	2010
-----------------------------------	---------------------------------------	--------------	----	------

g. The profits generated from the following projects are exempt from income tax for a five-year period:

	Tax-exemption Period
Construction and expansion of 2001	2006 to 2010
Construction and expansion of 2003	2007 to 2011
Construction and expansion of 2004	2008 to 2012
Construction and expansion of 2005	2010 to 2014

h. The tax authorities have examined income tax returns of the Company through 2007. All investment tax credit adjustments assessed by the tax authorities have been recognized accordingly.

19. LABOR COST, DEPRECIATION AND AMORTIZATION

	Year Ended December 31, 2010		
	Classified as Cost of Sales	Classified as Operating Expenses	Total
Labor cost

20. SHAREHOLDERS EQUITY

As of December 31, 2010, 1,096,448 thousand ADSs of the Company were traded on the NYSE. The number of common shares represented by the ADSs was 5,482,242 thousand (one ADS represents five common shares). Capital surplus can only be used to offset a deficit under the Company Law. However, the capital surplus generated from donations and the excess of the issuance price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which are limited to a certain percentage of the Company's paid-in capital. In addition, the capital surplus from long-term investments may not be used for any purpose. Capital surplus consisted of the following:

	December 31	
	2010	2009
Additional paid-in capital	\$ 23,628,908	\$ 23,457,805
From merger	22,805,390	22,805,390
From convertible bonds	8,893,190	8,893,190
From long-term investments	370,891	329,570
Donations	55	55
	\$ 55,698,434	\$ 55,486,010

The Company's Articles of Incorporation provide that, when allocating the net profits for each fiscal year, the Company shall first offset its losses in previous years and then set aside the following items accordingly:

- a. Legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve equals the Company's paid-in capital;
- b. Special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge;
- c. Bonus to directors and profit sharing to employees of the Company of not more than 0.3% and not less than 1% of the remainder, respectively. Directors who also serve as executive officers of the Company are not entitled to receive the bonus to directors. The Company may issue profit sharing to employees in stock of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the Board of Directors;
- d. Any balance left over shall be allocated according to the resolution of the shareholders' meeting.

The Company's Articles of Incorporation also provide that profits of the Company may be distributed by way of cash dividend and/or stock dividend. However, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided that the ratio for stock dividend shall not exceed 50% of the total distribution.

Any appropriations of the profits are subject to shareholder's approval in the following year.

The Company accrued profit sharing to employees as a charge to earnings of certain percentage of net income during the year amounted to NT\$10,908,338 thousand and NT\$6,691,338 thousand for the years ended December 2010 and 2009, respectively; bonuses to directors were accrued with an estimate based on historical experience. If the actual amounts subsequently resolved by the shareholders differ from the estimated amounts, the differences are recorded in the year of shareholders' resolution as a change in accounting estimate. If profit sharing is resolved to be distributed to employees in stock, the number of shares is determined by dividing the amount of profit sharing by the closing price (after considering the effect of dividends) of the shares on the day preceding the shareholders' meeting.

The Company no longer has supervisors since January 1, 2007. The required duties of supervisors are being fulfilled by the Audit Committee.

The appropriation for legal capital reserve shall be made until the reserve equals the Company's paid-in capital. The reserve may be used to offset a deficit, or be distributed as dividends and bonuses for the portion in excess of 50% of the paid-in capital if the Company has no unappropriated earnings and the reserve balance has exceeded 50% of the Company's paid-in capital. The Company Law also prescribes that, when the reserve has reached 50% of the Company's paid-in capital, up to 50% of the reserve may be transferred to capital.

A special capital reserve equivalent to the net debit balance of the other components of shareholders' equity (for example, cumulative translation adjustments and unrealized loss on financial instruments, but excluding treasury stock) shall be made from unappropriated earnings pursuant to existing regulations promulgated by the Securities and Futures Bureau (SFB). Any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

The appropriations of earnings for 2009 and 2008 had been approved in the shareholders' meetings held on June 15, 2010 and June 10, 2009, respectively. The appropriations and dividends per share were as follows:

	Appropriation of Earnings		Dividends Per Share	
			(NT\$)	
	For Fiscal Year 2009	For Fiscal Year 2008	For Fiscal Year 2009	For Fiscal Year 2008
Legal capital reserve	\$ 8,921,784	\$ 9,993,317		
Special capital reserve	1,313,047	(391,857)		
Cash dividends to shareholders	77,708,120	76,876,312	\$ 3.00	\$ 3.00
Stock dividends to shareholders		512,509		0.02
	\$ 87,942,951	\$ 86,990,281		

TSMC's profit sharing to employees to be paid in cash and bonus to directors in the amounts of NT\$6,691,338 thousand and NT\$67,692 thousand for 2009, respectively, and profit sharing to employees to be paid in cash and in stock as well as bonus to directors in the amounts of NT\$7,494,988 thousand, NT\$7,494,988 thousand and NT\$158,080 thousand for 2008, respectively, had been approved in the shareholders' meeting held on June 15, 2010 and June 10, 2009, respectively. The profit sharing to employees in stock of 141,870 thousand shares for 2008 was determined by the closing price of the Company's common shares (after considering the effect of dividends) of the day immediately preceding the shareholders' meeting, which was NT\$52.83. The resolved amounts of the profit sharing to employees and bonus to directors were consistent with the resolutions of meeting of the Board of Directors held on February 9, 2010 and February 10, 2009 and same amount had been charged against earnings of 2009 and 2008, respectively.

The shareholders' meeting held on June 10, 2009 also resolved to distribute stock dividends out of capital surplus, and stock dividends to shareholders as well as profit sharing to employees to be paid in stock in the amount of

NT\$768,763 thousand, NT\$512,509 thousand and NT\$7,494,988 thousand, respectively.

-27-

As of January 24, 2011, the Board of Directors has not resolved the appropriation for earnings of 2010. The information about the appropriations of profit sharing to employees and bonus to directors is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on January 1, 1998, the R.O.C. resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by the Company on earnings generated since January 1, 1998.

21. STOCK-BASED COMPENSATION PLANS

The Company's Employee Stock Option Plans, consisting of the 2004 Plan, 2003 Plan and 2002 Plan were approved by the SFB on January 6, 2005, October 29, 2003 and June 25, 2002, respectively. The maximum number of options authorized to be granted under the 2004 Plan, 2003 Plan and 2002 Plan was 11,000 thousand, 120,000 thousand and 100,000 thousand, respectively, with each option eligible to subscribe for one common share when exercised. The options may be granted to qualified employees of the Company or any of its domestic or foreign subsidiaries, in which the Company's shareholding with voting rights, directly or indirectly, is more than fifty percent (50%). The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of the Company's common shares listed on the TSE on the grant date. Options of the plans that had never been granted or had been granted but subsequently canceled had expired as of December 31, 2010.

Information about outstanding options for the years ended December 31, 2010 and 2009 was as follows:

	Number of Options (In Thousands)	Weighted- average Exercise Price (NT\$)
Year ended December 31, 2010		
Balance, beginning of year	28,810	\$ 32.4
Options exercised	(7,372)	33.2
Options canceled	(1)	50.1
Balance, end of year	21,437	32.3
Year ended December 31, 2009		
Balance, beginning of year	36,234	34.0
Options granted	175	34.0
Options exercised	(7,272)	35.8
Options canceled	(327)	46.5
Balance, end of year	28,810	33.5

The number of outstanding options and exercise prices have been adjusted to reflect the distribution of earnings in accordance with the plans.

As of December 31, 2010, information about outstanding options was as follows:

Range of Exercise Price (NT\$)	Number of Options (In Thousands)	Options Outstanding	
		Weighted-average Remaining Contractual Life (Years)	Weighted-average Exercise Price (NT\$)
\$21.7- \$30.5	16,438	2.20	\$ 28.2
38.0-50.1	4,999	3.91	45.6
	21,437	2.60	32.3

As of December 31, 2010, all of the above outstanding options were exercisable.

No compensation cost was recognized under the intrinsic value method for the years ended December 31, 2010 and 2009. Had the Company used the fair value based method to evaluate the options using the Black-Scholes model, the assumptions at the various grant dates and pro forma results of the Company for the years ended December 31, 2010 and 2009 would have been as follows:

Assumptions:

Expected dividend yield	1.00%-3.44%
Expected volatility	43.77%-46.15%
Risk free interest rate	3.07%-3.85%
Expected life	5 years

	Years Ended December 31	
	2010	2009
Net income:		
Net income as reported	\$ 161,605,009	\$ 89,217,836
Pro forma net income	161,470,030	88,838,182
Earnings per share (EPS) after income tax (NT\$):		
Basic EPS as reported	\$ 6.24	\$ 3.45
Pro forma basic EPS	6.23	3.44
Diluted EPS as reported	6.23	3.44
Pro forma diluted EPS	6.23	3.43

22. EARNINGS PER SHARE

EPS is computed as follows:

Year ended December 31, 2010	Amounts (Numerator)		Number of Shares (Denominator) (In Thousands)	EPS (NT\$)	
	Before Income Tax	After Income Tax		Before Income Tax	After Income Tax

Basic EPS

Earnings available to common shareholders	\$ 169,290,204	\$ 161,605,009	25,905,832	\$ 6.53	\$ 6.24
---	----------------	----------------	------------	---------	---------

Effect of dilutive potential common shares

14,262

Diluted EPS

Earnings available to common shareholders (including effect of dilutive potential common shares)	\$ 169,290,204	\$ 161,605,009	25,920,094	\$ 6.53	\$ 6.23
--	----------------	----------------	------------	---------	---------

(Continued)

	Amounts (Numerator)		Number of Shares (Denominator) (In Thousands)	EPS (NT\$)	
	Before Income Tax	After Income Tax		Before Income Tax	After Income Tax
Year ended December 31, 2009					
Basic EPS					
Earnings available to common shareholders	\$ 94,981,022	\$ 89,217,836	25,835,802	\$ 3.68	\$ 3.45
Effect of dilutive potential common shares			77,319		
Diluted EPS					
Earnings available to common shareholders (including effect of dilutive potential common shares)	\$ 94,981,022	\$ 89,217,836	25,913,121	\$ 3.67	\$ 3.44

(Concluded)

Effective January 1, 2008, the Company adopted Interpretation 2007-052 that requires companies to record profit sharing to employees as an expense rather than as an appropriation of earnings. If the Company may settle the obligation by cash, by issuing shares, or in combination of both cash and shares, profit sharing to employees which will be settled in shares should be included in the weighted average number of shares outstanding in calculation of diluted EPS, if the shares have a dilutive effect. The number of shares is estimated by dividing the amount of profit sharing to employees in stock by the closing price (after considering the dilutive effect of dividends) of the common shares on the balance sheet date. Such dilutive effect of the potential shares needs to be included in the calculation of diluted EPS until the shares of profit sharing to employees are resolved in the shareholders meeting in the following year.

The average number of shares outstanding for EPS calculation has been considered for the effect of retroactive adjustments. This adjustment caused each of the basic and diluted after income tax EPS for the year ended December 31, 2009 to remain at NT\$3.45 and NT\$3.44, respectively.

23. DISCLOSURES FOR FINANCIAL INSTRUMENTS

a. Fair values of financial instruments were as follows:

	December 31			
	2010		2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets				
Financial assets at fair value through profit or loss	\$	\$	\$ 181,743	\$ 181,743
Available-for-sale financial assets	4,951,323	4,951,323	1,046,672	1,046,672

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

Held-to-maturity financial assets	6,202,287	6,278,054	22,163,898	22,251,517
Financial assets carried at cost	497,835		501,988	

Liabilities

Financial liabilities at fair value through profit or loss	7,834	7,834		
Bonds payable	4,500,000	4,538,660	4,500,000	4,574,979
Other long-term payables (including current portion)	718,637	718,637	1,185,534	1,185,534

-30-

- b. Methods and assumptions used in the estimation of fair values of financial instruments
- 1) The aforementioned financial instruments do not include cash and cash equivalents, receivables, other financial assets, refundable deposits, short-term loans, payables and guarantee deposits. The carrying amounts of these financial instruments approximate their fair values due to their short maturities.
 - 2) Except for derivatives and structured time deposits, available-for-sale and held-to-maturity financial assets were based on their quoted market prices.
 - 3) The fair values of those derivatives and structured time deposits are determined using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.
 - 4) Financial assets carried at cost have no quoted prices in an active market and entail an unreasonably high cost to obtain verifiable fair values. Therefore, no fair value is presented.
 - 5) Fair value of the bonds payable was based on their quoted market price.
 - 6) Fair value of other long-term payables was based on the present value of expected cash flows, which approximates their carrying amount.
- c. The changes in fair value of derivatives contracts which were outstanding as of December 31, 2010 and 2009 estimated using valuation techniques were recognized as a net loss of NT\$7,834 thousand and a net gain of NT\$181,743 thousand, respectively.
- d. As of December 31, 2010 and 2009, financial assets exposed to fair value interest rate risk were NT\$7,235,336 thousand and NT\$23,392,313 thousand, respectively, financial liabilities exposed to fair value interest rate risk were NT\$35,416,471 thousand and NT\$4,500,000 thousand, respectively.
- e. Movements of the unrealized gains or losses on financial instruments for the years ended December 31, 2010 and 2009 were as follows:

	Year Ended December 31, 2010		
	From Available- for-sale Financial Assets	Equity- method Investments	Total
Balance, beginning of year	\$ 46,672	\$ 406,949	\$ 453,621
Recognized directly in shareholders equity	(441,978)	97,646	(344,332)
Balance, end of year	\$ (395,306)	\$ 504,595	\$ 109,289

	Year Ended December 31, 2009		
	From Available- for-sale	Equity- method Investments	Total

	Financial Assets		
Balance, beginning of year	\$ 32,658	\$ (320,000)	\$ (287,342)
Recognized directly in shareholders' equity	51,384	726,949	778,333
Removed from shareholders' equity and recognized in earnings	(37,370)		(37,370)
Balance, end of year	\$ 46,672	\$ 406,949	\$ 453,621

f. Information about financial risks

- 1) Market risk. The derivative financial instruments categorized as financial assets/liabilities at fair value through profit or loss are mainly used to hedge the market exchange rate fluctuations of foreign-currency assets and liabilities; therefore, the market exchange rate risk of derivatives will be offset by the foreign exchange risk of these hedged items. Available-for-sale financial assets and held-to-maturity financial assets held by the Company are mainly fixed-interest-rate debt securities and overseas publicly traded stock; therefore, the fluctuations in market interest rates and market price will result in changes in fair values of these debt securities.
- 2) Credit risk. Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The Company evaluated whether the financial instruments for any possible counter-party or third-parties are reputable financial institutions, business enterprises, and government agencies and accordingly, the Company believed that the Company's exposure to credit risk was not significant.
- 3) Liquidity risk. The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments and bonds payable. Therefore, the liquidity risk is low.
- 4) Cash flow interest rate risk. The Company mainly invests in fixed-interest-rate debt securities. Therefore, cash flows are not expected to fluctuate significantly due to changes in market interest rates.

24. RELATED PARTY TRANSACTIONS

The Company engages in business transactions with the following related parties:

a. Subsidiaries

TSMC North America
TSMC China
TSMC Europe
TSMC Japan

b. Investees

GUC (with a controlling financial interest)
Xintec (with a controlling financial interest)
VIS (accounted for using equity method)
SSMC (accounted for using equity method)

c. Indirect subsidiaries

WaferTech, LLC (WaferTech)
TSMC Technology, Inc. (TSMC Technology)
TSMC Design Technology Canada, Inc. (TSMC Canada)

d. Indirect investee

VisEra Technology Company, Ltd. (VisEra), an indirect investee accounted for using equity method.

e. Others

Related parties over which the Company has control or exercises significant influence but with which the Company had no material transactions.

Transactions with the aforementioned parties, other than those disclosed in other notes, are summarized as follows:

	2010		2009	
	Amount	%	Amount	%
For the year				
Sales				
TSMC North America	\$ 220,529,792	53	\$ 161,251,368	54

-34-

The sales prices and payment terms to related parties were not significantly different from those of sales to third parties. For other related party transactions, prices and terms were determined in accordance with mutual agreements.

The Company leased certain buildings, facilities, and machinery and equipment from Xintec. The lease terms and prices were determined in accordance with mutual agreements. The rental expense was paid monthly and the related expenses were classified under manufacturing expenses.

The Company leased certain office space and facilities from VIS. The lease terms and prices were determined in accordance with mutual agreements. The office rental was prepaid by the Company and the facilities rental was paid quarterly. The related rental expenses were classified under research and development expenses and manufacturing expenses.

The Company deferred the gains and losses (classified under deferred debits and deferred credits) derived from sales of property, plant and equipment to TSMC China, and then recognized such gains and losses (classified under non-operating gains and losses) over the depreciable lives of the disposed assets.

Compensation of directors and management personnel:

	Years Ended December 31	
	2010	2009
Salaries, incentives and special compensation	\$ 773,134	\$ 572,464
Bonus	578,343	395,313
	\$ 1,351,477	\$ 967,777

The information about the compensation of directors and management personnel is available in the annual report for the shareholders' meeting. Total compensation expense for the year ended December 31, 2010 includes estimated profit sharing to employees and bonus to directors of the Company that relate to 2010 but will be paid in the following year. The actual amount will be finalized and approved upon the resolution of the shareholders' meeting in 2011. The total compensation for the year ended December 31, 2009 included the bonuses appropriated from earnings of 2009 which was approved by the shareholders' meeting held in 2010.

25. PLEDGED OR MORTGAGED ASSETS

As of December 31, 2010 and 2009, the Company had pledged time deposits of NT\$25,864 thousand and NT\$824,797 thousand (classified as other financial assets) as collateral for land lease agreements and customs duty guarantee, respectively.

26. SIGNIFICANT LONG-TERM LEASES

The Company leases several parcels of land from the Science Park Administration. These operating leases expire on various dates from April 2011 to July 2030 and can be renewed upon expiration.

As of December 31, 2010, future lease payments were as follows:

Year	Amount
2011	\$ 414,444
2012	412,977
2013	388,729
2014	375,171
2015	365,007
2016 and thereafter	3,078,295
	\$ 5,034,623

27. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

Significant commitments and contingencies of the Company as of December 31, 2010, excluding those disclosed in other notes, were as follows:

- a. Under a technical cooperation agreement with ITRI, the R.O.C. Government or its designee approved by the Company can use up to 35% of the Company's capacity if the Company's outstanding commitments to its customers are not prejudiced. The term of this agreement is for five years beginning from January 1, 1987 and is automatically renewed for successive periods of five years unless otherwise terminated by either party with one year prior notice.
- b. Under several foundry agreements, the Company shall reserve a portion of its production capacity for certain major customers that have guarantee deposits with the Company. As of December 31, 2010, the Company had a total of US\$22,653 thousand of guarantee deposits.
- c. Under a Shareholders Agreement entered into with Philips and EDB Investments Pte Ltd. on March 30, 1999, the parties formed a joint venture company, SSMC, which is an integrated circuit foundry in Singapore. The Company's equity interest in SSMC was 32%. Nevertheless, Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006. The Company and NXP B.V. purchased all the SSMC shares owned by EDB Investments Pte Ltd. pro rata according to the Shareholders Agreement on November 15, 2006. After the purchase, the Company and NXP B.V. currently own approximately 39% and 61% of the SSMC shares respectively. The Company and Philips (now NXP B.V.) are required, in the aggregate, to purchase at least 70% of SSMC's capacity, but the Company alone is not required to purchase more than 28% of the capacity. If any party defaults on the commitment and the capacity utilization of SSMC fall below a specific percentage of its capacity, the defaulting party is required to compensate SSMC for all related unavoidable costs.
- d. The Company provides technical services to SSMC under a Technical Cooperation Agreement (the Agreement) effective March 30, 1999. The Company receives compensation for such services computed at a specific percentage of net selling price of all products sold by SSMC. The Agreement shall remain in force for ten years and will be automatically renewed for successive periods of five years each unless pre-terminated by either party under certain conditions.
- e. The Company provides a technology transfer to VIS under a Manufacturing License and Technology Transfer Agreement entered into on April 1, 2004. The Company receives compensation for such technology

transfer in the form of royalty payments from VIS computed at specific percentages of net selling price of certain products sold by VIS. VIS agreed to reserve its certain capacity to manufacture for the Company certain products at prices as agreed by the parties.

-36-

- f. In August 2006, TSMC filed a lawsuit against Semiconductor Manufacturing International Corporation, SMIC (Shanghai) and SMIC Americas (aggregately referred to as SMIC) in the Superior Court of California for Alameda County for breach of a 2005 agreement that settled an earlier trade secret misappropriation and patent infringement litigation between the parties, as well as for trade secret misappropriation, seeking injunctive relief and monetary damages. In September 2006, SMIC filed a cross-complaint against TSMC in the same court alleging breach of settlement agreement, implied covenant of good faith and fair dealing. SMIC also filed a civil action against TSMC in November 2006 with the Beijing People's High Court alleging defamation and breach of good faith. On June 10, 2009, the Beijing People's High Court ruled in favor of TSMC and dismissed SMIC's lawsuit. On November 4, 2009, after a two-month trial, a jury in the California action found SMIC to have both breached the 2005 settlement agreement and misappropriated TSMC's trade secrets. TSMC has subsequently settled both lawsuits with SMIC. Pursuant to the new settlement agreement, the parties have agreed to the entry of a stipulated judgment in favor of TSMC in the California action, and to the dismissal of SMIC's appeal against the Beijing High Court's finding in favor of TSMC. Under the new settlement agreement and the related stipulated judgment, SMIC has agreed to make cash payments by installments to TSMC totaling US\$200 million, which are in addition to the US\$135 million previously paid to TSMC under the 2005 settlement agreement, and, conditional upon relevant government regulatory approvals, to issue to TSMC a total of 1,789,493,218 common shares of Semiconductor Manufacturing International Corporation and a three-year warrant to purchase 695,914,030 common shares (subject to adjustment) of Semiconductor Manufacturing International Corporation at HK\$1.30 per share (subject to adjustment). TSMC has received the approval from the Investment Commission of Ministry of Economic Affairs and acquired the above mentioned common shares on July 5, 2010, representing approximately 7.37% of Semiconductor Manufacturing International Corporation's total shares outstanding, and recognized settlement income amounting to NT\$4,434,364 thousand.
- g. In June 2010, STC.UNM, the technology transfer arm of the University of New Mexico, filed a complaint in the U.S. International Trade Commission (USITC) accusing the Company and one other company of allegedly infringing a single U.S. patent. Based on this complaint, the USITC has initiated an investigation in July 2010. The Company and STC.UNM have subsequently reached a settlement agreement and, on November 15, 2010, filed a joint motion to terminate the investigation based on the settlement agreement. As a result, the Administrative Law Judge (ALJ) assigned to the investigation has made an initial determination to terminate the investigation based on the settlement agreement. The USITC, on December 21, 2010, decided not to review the ALJ's initial determination, which officially terminates this investigation.
- h. In June 2010, Keranos, LLC. filed a lawsuit in the U.S. District Court for the Eastern District of Texas alleging that TSMC, TSMC North America, and several other leading technology companies infringe three expired U.S. patents. The outcome of this litigation cannot be determined at this time.
- i. In December 2010, Ziptronix, Inc. filed a complaint in the U.S. District Court for the Northern District of California accusing TSMC, TSMC North America and one other company of allegedly infringing six U.S. patents. This litigation is in its very early stages and therefore the outcome of the case cannot be determined at this time.

28. OTHERS

The significant financial assets and liabilities denominated in foreign currencies were as follows:

	2010		December 31		2009

JPY	30,604,986	0.3735	34,454,091	0.3484		

Note: Exchange rate represents the number of N.T. dollars for which one foreign currency could be exchanged.

29. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFB for the Company and its investees:

- Financing provided: Please see Table 1 attached;
- Endorsement/guarantee provided: None;
- Marketable securities held: Please see Table 2 attached;
- Marketable securities acquired or disposed of at costs or prices of at least NT\$100 million or 20% of the paid-in capital: Please see Table 3 attached;
- Acquisition of individual real estate properties at costs of at least NT\$100 million or 20% of the paid-in capital: Please see Table 4 attached;

- f. Disposal of individual real estate properties at prices of at least NT\$100 million or 20% of the paid-in capital: None;

-38-

- g. Total purchases from or sales to related parties of at least NT\$100 million or 20% of the paid-in capital: Please see Table 5 attached;
- h. Receivable from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 6 attached;
- i. Names, locations, and related information of investees over which the Company exercises significant influence: Please see Table 7 attached;
- j. Information about derivatives of investees over which the Company has a controlling interest:

Not meet the criteria for hedge accounting

TSMC China entered into forward exchange contracts during the year ended December 31, 2010 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contracts as of December 31, 2010 consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
Sell EUR/ Buy US\$	February 2011	EUR3,067/US\$4,093
Sell RMB/ Buy US\$	May 2011 to June 2011	RMB529,190/US\$80,000

For the year ended December 31, 2010, net losses arising from forward exchange contracts of TSMC China amounted to NT\$3,137 thousand.

Xintec entered into forward exchange contracts during the year ended December 31, 2010 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contracts as of December 31, 2010 consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
Sell US\$/Buy NT\$	January 2011 to March 2011	US\$11,800/NT\$353,076

For the year ended December 31, 2010, net gains arising from forward exchange contracts of Xintec amounted to NT\$11,005 thousand.

Meet the criteria for hedge accounting

Xintec monitors and manages the financial risk through the analysis of business environment and evaluation of entity's financial risks. Further, Xintec seeks to reduce the effects of future cash flow related interest rate exposures by primarily using derivative financial instruments.

Xintec is exposed to interest rate risk because its long-term bank loans bear floating interest rates. Accordingly, Xintec enters into interest rate swap contract to hedge such a cash flow interest rate risk. As of December 31, 2010, the outstanding interest rate swap contract of Xintec consisted of the following:

Hedging Financial	Fair Value December 31,	Expected Cash Flow	Expected Timing for the Recognition of Gains
--------------------------	--	-------------------------------	---

Hedged Item	Instrument	2010	Generated Period	or Losses from Hedge
Long-term bank loans	Interest rate swap contract	\$ (814)	2010 to 2012	2010 to 2012

-39-

The adjustment to shareholders' equity and the amount removed from shareholders' equity and recognized a loss of Xintec as a result of the above interest rate swap contract amounted to NT\$814 thousand and NT\$352 thousand for the year ended December 31, 2010, respectively.

k. Information on investment in Mainland China

- 1) The name of the investee in Mainland China, the main businesses and products, its issued capital, method of investment, information on inflow or outflow of capital, percentage of ownership, equity in the net gain or net loss, ending balance, amount received as dividends from the investee, and the limitation on investee: Please see Table 8 attached.
- 2) Significant direct or indirect transactions with the investee, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in Mainland China on financial reports: Please see Note 24.

30. SEGMENT FINANCIAL INFORMATION

a. Industry financial information

The Company operates in one industry. Therefore, the disclosure of industry financial information is not applicable to the Company.

b. Geographic information

The Company has no significant foreign operations. Therefore, the disclosure of geographic information is not applicable to the Company.

c. Export sales

Area	Years Ended December 31	
	2010	2009
Americas	\$ 228,283,198	\$ 166,813,136
Asia	86,188,861	59,496,755
Europe and others	48,906,727	31,350,249
	\$ 363,378,786	\$ 257,660,140

The export sales information is based on the amounts billed to customers within the areas.

d. Major customers representing at least 10% of gross sales

	Years Ended December 31			
	2010		2009	
	Amount	%	Amount	%
Customer A	\$ 220,529,792	53	\$ 161,251,368	54

**Taiwan Semiconductor
Manufacturing Company Limited and Subsidiaries
Consolidated Financial Statements for the
Years Ended December 31, 2010 and
2009 and Independent Auditors Report**

REPRESENTATION LETTER

The entities that are required to be included in the combined financial statements of Taiwan Semiconductor Manufacturing Company Limited as of and for the year ended December 31, 2010, under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with the revised Statement of Financial Accounting Standards No. 7, Consolidated Financial Statements. In addition, the information required to be disclosed in the combined financial statements is included in the consolidated financial statements. Consequently, Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries do not prepare a separate set of combined financial statements.

Very truly yours,

TAIWAN SEMICONDUCTOR
MANUFACTURING COMPANY LIMITED

By /s/ MORRIS CHANG
MORRIS CHANG
Chairman

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders

Taiwan Semiconductor Manufacturing Company Limited

We have audited the accompanying consolidated balance sheets of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of December 31, 2010 and 2009, and the related consolidated statements of income, changes in shareholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of December 31, 2010 and 2009, and the results of their consolidated operations and their consolidated cash flows for the years then ended in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the Republic of China.

-2-

As discussed in Note 3 to the consolidated financial statements, effective January 1, 2009, Taiwan Semiconductor Manufacturing Company Limited and subsidiaries adopted the newly revised Statement of Financial Accounting Standards No. 10, Accounting for Inventories.

January 24, 2011

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdiction. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and consolidated financial statements shall prevail.

(Concluded)

Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009
(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)

1. GENERAL

Taiwan Semiconductor Manufacturing Company Limited (TSMC), a Republic of China (R.O.C.) corporation, was incorporated on February 21, 1987. TSMC is a dedicated foundry in the semiconductor industry which engages mainly in the manufacturing, selling, packaging, testing and computer-aided design of integrated circuits and other semiconductor devices and the manufacturing of masks. Beginning in 2010, TSMC also engages in the researching, developing, designing, manufacturing and selling of LED lighting devices and related applications products and systems, and renewable energy and efficiency related technologies and products. On September 5, 1994, its shares were listed on the Taiwan Stock Exchange (TSE). On October 8, 1997, TSMC listed some of its shares of stock on the New York Stock Exchange (NYSE) in the form of American Depositary Shares (ADSs).

As of December 31, 2010 and 2009, TSMC and its subsidiaries had 38,393 and 26,390 employees, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements are presented in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the R.O.C.

For the convenience of readers, the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the R.O.C. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language consolidated financial statements shall prevail.

Significant accounting policies are summarized as follows:

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of all directly and indirectly majority owned subsidiaries of TSMC, and the accounts of investees in which TSMC's ownership percentage is less than 50% but over which TSMC has a controlling interest. All significant intercompany balances and transactions are eliminated upon consolidation.

The consolidated entities were as follows:

Name of Investor	Name of Investee	Percentage of Ownership December 31		Remark
		2010	2009	
TSMC	TSMC North America	100%	100%	
	TSMC Japan Limited (TSMC Japan)	100%	100%	
	TSMC Partners, Ltd. (TSMC Partners)	100%	100%	
	TSMC Korea Limited (TSMC Korea)	100%	100%	
	TSMC Europe B.V. (TSMC Europe)	100%	100%	
	TSMC Global Ltd. (TSMC Global)	100%	100%	
	TSMC China Company Limited (TSMC China)	100%	100%	
	VentureTech Alliance Fund III, L.P. (VTAF III)	99%	98%

GUC-BVI	Global Unichip (Shanghai) Company, Limited (GUC-Shanghai)	100%	Established in January 2010
TSMC Solar Europe	TSMC Solar Europe GmbH	100%	Established in December 2010

The following diagram presents information regarding the relationship and ownership percentages between TSMC and its consolidated investees as of December 31, 2010: TSMC North America is engaged in selling and marketing of integrated circuits and semiconductor devices. TSMC Japan, TSMC Korea and TSMC Europe are engaged mainly in marketing or customer service, engineering and technical supporting activities. TSMC Partners is engaged in investment in companies involved in the design, manufacture, and other related business in the semiconductor industry. TSMC Global and TSMC Development are engaged in investing activities. TSMC China is engaged in the manufacturing and selling of integrated circuits pursuant to the orders from and product design specifications provided by customers. Emerging Alliance, VTAF II, VTAF III, VTA Holdings, ISDF, ISDF II, and Growth Fund are engaged in investing in new start-up technology companies. TSMC Canada and TSMC Technology are engaged mainly in engineering support activities. WaferTech is engaged in the manufacturing, selling, testing and computer-aided designing of integrated circuits and other semiconductor devices. GUC is engaged in researching, developing, manufacturing, testing and marketing of integrated circuits. GUC-NA, GUC-Japan, GUC-Europe, and GUC-Shanghai are engaged in providing products consulting in North America, Japan, Europe, and China, respectively. GUC-BVI is engaged in investing activities. Xintec is engaged in the provision of wafer packaging service. TSMC Solar NA is engaged in selling and marketing of solar related products. TSMC Lighting NA is engaged in selling and marketing of LED related products. TSMC Solar Europe is engaged in investing activities of solar related business. TSMC Solar Europe GmbH is engaged in the selling and customer service of solar cell modules and related products. Mutual-Pak is engaged in the manufacturing and selling of electronic parts, and researching, developing and testing of RFID.

TSMC together with its subsidiaries are hereinafter referred to collectively as the Company.

Minority interests in the aforementioned subsidiaries are presented as a separate component of shareholders equity.

Use of Estimates

The preparation of consolidated financial statements in conformity with the aforementioned guidelines and principles requires management to make reasonable assumptions and estimates of matters that are inherently uncertain. The actual results may differ from management's estimates.

Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets held for trading purposes and assets expected to be converted to cash, sold or consumed within one year from the balance sheet date. Current liabilities are obligations incurred for trading purposes and obligations expected to be settled within one year from the balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

Cash Equivalents

Repurchase agreements collateralized by government bonds, corporate bonds, agency bonds and corporate issued notes acquired with maturities of less than three months from the date of purchase are classified as cash equivalents. The carrying amount approximates fair value due to their short term nature.

Financial Assets/Liabilities at Fair Value Through Profit or Loss

Derivatives that do not meet the criteria for hedge accounting are initially recognized at fair value, with transaction costs expensed as incurred. The derivatives are remeasured at fair value subsequently with changes in fair value recognized in earnings. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is estimated using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

Hedging Derivative Financial Instruments

Hedge derivatives are mainly derivatives instruments that are for cash flow hedge purposes and determined to be an effective hedge. The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognized in shareholders' equity. The amount recognized in shareholders' equity is recognized in profit or loss in the same year or year during which the hedged forecast transaction or an asset or liability arising from the hedged forecast transaction affects profit or loss. However, if all or a portion of a loss recognized in shareholders' equity is not expected to be recovered in the future, the amount that is not expected to be recovered is reclassified into profit or loss.

Available-for-sale Financial Assets

Investments designated as available-for-sale financial assets include debt securities and equity securities. Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of shareholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is determined as follows: Open-end mutual funds and money market funds' net asset values at the end of the year; publicly traded stocks' closing prices at the end of the year; and other debt securities' average of bid and asked prices at the end of the year.

Cash dividends are recognized as investment income upon resolution of shareholders of an investee but are accounted for as a reduction to the original cost of investment if such dividends are declared on the earnings of the investee attributable to the period prior to the purchase of the investment. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. The cost per share is recalculated based on the new total number of shares.

Any difference between the initial carrying amount of a debt security and the amount due at maturity is amortized using the effective interest method, with the amortization recognized in earnings.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to shareholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Held-to-maturity Financial Assets

Debt securities for which the Company has a positive intention and ability to hold to maturity are categorized as held-to-maturity financial assets and are carried at amortized cost. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

Allowance for Doubtful Receivables

An allowance for doubtful receivables is provided based on a review of the collectability of receivables. The amount of the allowance for doubtful receivables is determined based on the account aging analysis and current trends in the credit quality of the customers. TSMC's provision is set at 1% of the amount of outstanding receivables.

Revenue Recognition and Allowance for Sales Returns and Others

The Company recognizes revenue when evidence of an arrangement exists, the rewards of ownership and significant risk of the goods has been transferred to the buyer; price is fixed or determinable, and collectability is reasonably assured. Provisions for estimated sales returns and other allowances are recorded in the year the related revenue is recognized, based on historical experience, management's judgment, and any known factors that would significantly affect the allowance.

Sales prices are determined using fair value taking into account related sales discounts agreed to by the Company and its customers. Sales agreements typically provide that payment is due 30 days from invoice date for a majority of the customers and 30 to 45 days after the end of the month in which sales occur for some customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Inventories

Inventories are recorded at standard cost and adjusted to approximate weighted-average cost on the balance sheet date.

Prior to January 1, 2009, inventories were stated at the lower of cost or market value. Any write-down was made on a total-inventory basis. Market value represented replacement cost for raw materials, supplies and spare parts and net realizable value for work in process and finished goods.

As stated in Note 3, effective January 1, 2009, inventories are stated at the lower of cost or net realizable value. Inventory write-downs are made on an item-by-item basis, except where it may be appropriate to group similar or related items. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and necessary selling costs.

Investments Accounted for Using Equity Method

Investments in companies wherein the Company exercises significant influence over the operating and financial policy decisions are accounted for using the equity method. The Company's share of the net income or net loss of an investee is recognized in the equity in earnings/losses of equity method investees, net account. The cost of an investment shall be analyzed and the cost of investment in excess of the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of non-current assets (except for financial assets other than investments accounted for using the equity method and deferred income tax assets). When an indication of impairment is identified, the carrying amount of the investment is reduced, with the related impairment loss recognized in earnings.

When the Company subscribes for additional investee's shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company's share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to capital surplus.

Gains or losses on sales from the Company to equity method investees or from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until such gains or losses are realized through transactions with third parties.

If an investee's functional currency is a foreign currency, differences will result from the translation of the investee's financial statements into the reporting currency of the Company. Such differences are charged or credited to cumulative translation adjustments, a separate component of shareholders' equity.

Financial Assets Carried at Cost

Investments for which the Company does not exercise significant influence and that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, such as non-publicly traded stocks and mutual funds, are carried at their original cost. The costs of non-publicly traded stocks and mutual funds are determined using the weighted-average method. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

The accounting treatment for cash dividends and stock dividends arising from financial assets carried at cost is the same as that for cash and stock dividends arising from available-for-sale financial assets.

Property, Plant and Equipment, Assets Leased to Others and Idle Assets

Property, plant and equipment and assets leased to others are stated at cost less accumulated depreciation. Properties covered by agreements qualifying as capital leases are carried at the lower of the leased equipment's market value or the present value of the minimum lease payments at the inception date of the lease, with the corresponding amount recorded as obligations under capital leases. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight-line method over the following estimated service lives: land improvements 20 years; buildings 10 to 20 years; machinery and equipment 3 to 5 years; office equipment 3 to 15 years; and leased assets 20 years.

-16-

Upon sale or disposal of property, plant and equipment and assets leased to others, the related cost and accumulated depreciation are deducted from the corresponding accounts, with any gain or loss recorded as non-operating gains or losses in the year of sale or disposal.

When property, plant and equipment are determined to be idle or useless, they are transferred to idle assets at the lower of the net realizable value or carrying amount. Depreciation on the idle assets is provided continuously, and the idle assets are tested for impairment on a periodical basis.

Intangible Assets

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Goodwill is no longer amortized and instead is tested for impairment annually. If an event occurs or circumstances change which indicate that the fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Deferred charges consist of technology license fees, software and system design costs and patent and others. The amounts are amortized over the following periods: Technology license fees – the estimated life of the technology or the term of the technology transfer contract; software and system design costs – 2 to 5 years; patent and others – the economic life or contract period. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the previously recognized impairment loss would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of amortization, as if no impairment loss had been recognized.

Expenditures related to research activities and those related to development activities that do not meet the criteria for capitalization are charged to expense when incurred.

Pension Costs

For employees who participate in defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods. For employees who participate in defined benefit pension plans, pension costs are recorded based on actuarial calculations.

Income Tax

The Company applies an inter-period allocation for its income tax whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences, net operating loss carryforwards and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training expenditures, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income tax on unappropriated earnings (excluding earnings from foreign consolidated subsidiaries) at a rate of 10% is expensed in the year of shareholder approval which is the year subsequent to the year the earnings are generated.

-17-

Stock-based Compensation

Employee stock options that were granted or modified in the period from January 1, 2004 to December 31, 2007 are accounted for by the interpretations issued by the Accounting Research and Development Foundation of the Republic of China. The Company adopted the intrinsic value method and any compensation cost determined using this method is recognized in earnings over the employee vesting period. Employee stock option plans that were granted or modified after December 31, 2007 are accounted for using fair value method in accordance with Statement of Financial Accounting Standards No. 39, Accounting for Share-based Payment. The Company did not grant or modify any employee stock options since January 1, 2008.

Profit Sharing to Employees and Bonus to Directors and Supervisors

Effective January 1, 2008, the Company adopted Interpretation 2007-052, Accounting for Bonuses to Employees, Directors and Supervisors, which requires companies to record profit sharing to employees and bonus to directors and supervisors as an expense rather than as an appropriation of earnings.

Foreign-currency Transactions

Foreign-currency transactions other than derivative contracts are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings.

At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

Translation of Foreign-currency Financial Statements

The financial statements of foreign subsidiaries are translated into New Taiwan dollars at the following exchange rates: Assets and liabilities spot rates at year-end; shareholders equity historical rates; income and expenses average rates during the year. The resulting translation adjustments are recorded as a separate component of shareholders equity.

3. ACCOUNTING CHANGES

Effective January 1, 2009, the Company adopted the newly revised Statement of Financial Accounting Standard (SFAS) No. 10, Accounting for Inventories. The main revisions are (1) inventories are stated at the lower of cost or net realizable value, and inventories are written down to net realizable value on an item-by-item basis except when the grouping of similar or related items is appropriate; (2) unallocated overheads are recognized as expenses in the year in which they are incurred; and (3) abnormal cost, write-downs of inventories and any reversal of write-downs are recorded as cost of sales for the year. Such changes in accounting principle did not have significant effect on the Company's consolidated financial statements as of and for the year ended December 31, 2009.

4. CASH AND CASH EQUIVALENTS

	December 31	
	2010	2009
Cash and deposits in banks	\$ 146,622,854	\$ 167,448,973
Repurchase agreements collateralized by government bonds	960,432	3,359,754
Corporate bonds	151,840	54,451
Agency bonds	151,829	253,013
Corporate issued notes		160,150
	\$ 147,886,955	\$ 171,276,341

5. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

	December 31	
	2010	2009
Trading financial assets		
Forward exchange contracts	\$ 6,886	\$ 4,338
Cross currency swap contracts		181,743
	\$ 6,886	\$ 186,081
Trading financial liabilities		
Forward exchange contracts	\$ 19,002	\$ 25

The Company entered into derivative contracts during the years ended December 31, 2010 and 2009 to manage exposures due to fluctuations of foreign exchange rates. The derivative contracts entered into by the Company did not meet the criteria for hedge accounting. Therefore, the Company did not apply hedge accounting treatment for derivative contracts.

Outstanding forward exchange contracts consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
December 31, 2010		
Sell NT\$/Buy JPY	January 2011 to February 2011	NT\$814,882/JPY2,278,420
Sell EUR/Buy US\$	February 2011	EUR3,067/US\$4,093
Sell RMB/Buy US\$	May 2011 to June 2011	RMB529,190/US\$80,000

US\$21,300/NT\$686,788

Outstanding cross currency swap contracts consisted of the following:

Maturity Date	Contract Amount (In Thousands)	Range of Interest Rates Paid	Range of Interest Rates Received
December 31, 2009			
January 2010 to February 2010	US\$750,000/NT\$24,201,706	0.24%-0.70%	0.00%-0.38%

For the years ended December 31, 2010 and 2009, changes in fair value related to derivative financial instruments recognized in earnings was a net gain of NT\$320,730 thousand and NT\$594,660 thousand, respectively.

6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	December 31	
	2010	2009
Corporate bonds	\$ 14,871,120	\$ 7,042,219
Agency bonds	8,021,192	5,032,037
Publicly traded stocks	4,634,170	574,865
Government bonds	2,014,127	2,341,780
Money market funds	376,168	283,713
Corporate issued notes		303,367
Open-end mutual funds		170,014
	29,916,777	15,747,995
Current portion	(28,883,728)	(14,389,946)
	\$ 1,033,049	\$ 1,358,049

For the year ended December 31, 2009, the Company recognized impairment on available-for-sale financial assets of NT\$201,346 thousand.

7. HELD-TO-MATURITY FINANCIAL ASSETS

	December 31	
	2010	2009
Corporate bonds	\$ 12,843,956	\$ 15,120,048
Government bonds	455,520	3,378,037
Structured time deposits		7,000,000
	13,299,476	25,498,085
Current portion	(4,796,589)	(9,944,843)
	\$ 8,502,887	\$ 15,553,242

Structured time deposits categorized as held-to-maturity financial assets consisted of the following:

	Principal Amount	Interest Receivable	Range of Interest Rates	Maturity Date
December 31, 2009				
Callable domestic deposits	\$ 7,000,000	\$ 4,308	0.36%-0.95%	July 2010 to August 2011 (redeemed by the issuer from February 2010 to July 2010)

8. ALLOWANCES FOR DOUBTFUL RECEIVABLES, SALES RETURNS AND OTHERS

Movements of the allowance for doubtful receivables were as follows:

	Years Ended December 31	
	2010	2009
Balance, beginning of year	\$ 543,325	\$ 455,751
Provision (reversal)	(37,028)	331,485
Write-off	(2,268)	(243,911)
Balance, end of year	\$ 504,029	\$ 543,325

Movements of the allowance for sales returns and others were as follows:

	Years Ended December 31	
	2010	2009
Balance, beginning of year	\$ 8,724,481	\$ 6,071,026
Provision	12,092,947	13,913,375
Write-off	(13,271,164)	(11,259,920)
Balance, end of year	\$ 7,546,264	\$ 8,724,481

9. INVENTORIES

December 31	
2010	2009

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

Finished goods	\$ 5,118,060	\$ 2,743,450
Work in process	19,376,372	15,302,010
Raw materials	1,947,396	1,541,599
Supplies and spare parts	1,964,156	1,326,692
	\$ 28,405,984	\$ 20,913,751

Write-down of inventories to net realizable value in the amount of NT\$900,221 thousand were included in the cost of sales for the year ended December 31, 2010. The reversal of previously recognized inventory write-downs amounting to NT\$428,162 thousand was recorded for the year ended December 31, 2009. Inventory losses related to earthquake damage in the amount of NT\$190,992 thousand were classified under non-operating expenses and losses for the year ended December 31, 2010.

-21-

10. INVESTMENTS ACCOUNTED FOR USING EQUITY METHOD

	December 31			
	2010	% of	2009	% of
	Carrying Amount	Owner- ship	Carrying Amount	Owner- ship
Common stock				
Vanguard International Semiconductor Corporation (VIS)	\$ 9,422,452	38	\$ 9,365,232	37
Systems on Silicon Manufacturing Company Pte Ltd. (SSMC)	7,120,714	39	6,157,141	39
Motech Industries Inc. (Motech)	6,733,369	20		
VisEra Holding Company (VisEra Holding)	2,522,267	49	2,273,065	49
Aiconn Technology Corporation (Aiconn)	16,583	43	18,116	42
Mcube Inc. (Mcube)		70	25,624	70
Preferred stock				
Mcube		10	32,030	10
	\$ 25,815,385		\$ 17,871,208	

In February 2010, the Company subscribed to 75,316 thousand shares of Motech through a private placement for NT\$6,228,661 thousand; after the subscription, the Company's percentage of ownership in Motech was 20%. Transfer of the aforementioned common shares within three years is prohibited according to the related regulations.

In September 2009, the Company acquired common stock and preferred stock of Mcube for NT\$57,960 thousand. The Company took both ownership of stock and controlling power into consideration and concluded that the Company did not have controlling interest over Mcube. Accordingly, the Company applied equity method to account for this investment and the related equity in earnings/losses.

For the years ended December 31, 2010 and 2009, equity in earnings/losses of equity method investees was a net gain of NT\$2,298,159 thousand and NT\$45,994 thousand, respectively. Related equity in earnings/losses of equity method investees were determined based on the audited financial statements, except for Aiconn and Mcube. The Company believes that, had Aiconn and Mcube's financial statements been audited, any adjustments arising would have had no material effect on the Company's consolidated financial statements.

As of December 31, 2010 and 2009, the quoted market price of publicly traded stocks in unrestricted investments accounted for using the equity method (VIS) was NT\$9,297,707 thousand and NT\$10,114,398 thousand, respectively.

Movements of the difference between the cost of investments and the Company's share in investees' net assets allocated to depreciable assets were as follows:

	Years Ended December 31	
	2010	2009
Balance, beginning of year	\$ 1,391,500	\$ 1,990,621
Additions	2,055,660	
Amortization	(955,269)	(599,121)

Balance, end of year	\$ 2,491,891	\$ 1,391,500
----------------------	--------------	--------------

-22-

Movements of the difference allocated to goodwill were as follows:

	Years Ended December 31	
	2010	2009
Balance, beginning of year	\$ 1,061,885	\$ 1,061,885
Additions	353,680	
Balance, end of year	\$ 1,415,565	\$ 1,061,885

11. HEDGING DERIVATIVE FINANCIAL INSTRUMENTS

	December 31, 2010
Hedging derivative financial liabilities	
Interest rate swap contract	\$ 814

The Company's long-term bank loans bear floating interest rates; therefore, changes in the market interest rate may cause future cash flows to be volatile. Accordingly, the Company entered into an interest rate swap contract in order to hedge cash flow risk caused by floating interest rates. As of December 31, 2010, the outstanding interest rate swap contract consisted of the following:

Contract Amount		Range of Interest Rates Paid	Range of Interest Rates Received
(In Thousands)	Maturity Date		
NT\$128,000	August 31, 2012	1.38%	0.56%-0.63%

The adjustment to shareholders' equity and the amount removed from shareholders' equity and recognized a loss as a result of the above interest rate swap contract amounted to NT\$814 thousand and NT\$352 thousand, respectively.

12. FINANCIAL ASSETS CARRIED AT COST

	December 31	
	2010	2009
Non-publicly traded stocks	\$ 4,264,956	\$ 2,899,600
Mutual funds	159,251	163,404
	\$ 4,424,207	\$ 3,063,004

In June 2010, the Company invested in Stion Corporation (Stion, a United States corporation) for US\$50,000 thousand and obtained Stion's preferred stock of 7,347 thousand shares with 23.4% of ownership. Stion is engaged in the manufacturing of high-efficiency thin-film solar photovoltaic modules. Due to certain restrictions

contained in the investment agreements, the Company does not have the ability to exert significant influence over Stion's operating and financial policy. Therefore, the investment was classified under financial assets carried at cost.

The common stocks of Capella Microsystems (Taiwan), Inc., Integrated Memory Logic Limited and Leadtrend Technology Corporation were listed on the Taiwan GreTai Securities Market or Taiwan Stock Exchange in June 2010, May 2010, and August 2009, respectively. Thus, the Company reclassified the aforementioned investments from financial assets carried at cost to available-for-sale financial assets.

For the years ended December 31, 2010 and 2009, the Company recognized impairment on financial assets carried at cost of NT\$159,798 thousand and NT\$711,884 thousand, respectively.

13. PROPERTY, PLANT AND EQUIPMENT

15. SHORT-TERM LOANS

	December 31, 2010
Unsecured loans: US\$874,000 thousand and EUR114,900 thousand, due from January 2011 to February 2011, annual interest at 0.38%-1.84%	\$ 31,213,944

16. BONDS PAYABLE

December 31

	2010	2009
Domestic unsecured bonds:		
Issued in January 2002 and repayable in January 2012, 3.00% interest payable annually	\$ 4,500,000	\$ 4,500,000

17. LONG-TERM BANK LOANS

	December 31	
	2010	2009
Secured loans:		
Repayable from August 2009 in 17 quarterly installments, annual interest at 0.66%-1.24% in 2010 and 0.67%-2.70% in 2009	\$ 542,968	\$ 788,263
US\$20,000 thousand, repayable in full in one lump sum payment in November 2010, annual interest at 0.68%-0.97% in 2009		640,895
Repayable from December 2007 in 8 semi-annual installments, fully repaid in June 2010, annual interest at 1.10%-2.42%		98,700
	542,968	1,527,858
Current portion	(241,407)	(949,298)
	\$ 301,561	\$ 578,560

Pursuant to the loan agreements, financial ratios calculated based on semi-annual and annual audited financial statements of Xintec must comply with predetermined financial covenants. As of December 31, 2010, Xintec was in compliance with all such financial covenants.

As of December 31, 2010, future principal repayments for the long-term bank loans were as follows:

Year of Repayment	Amount
2011	\$ 241,407
2012	241,407
2013	60,154
	\$ 542,968

18. OTHER LONG-TERM PAYABLES

	December 31	
	2010	2009
Payables for acquisition of property, plant and equipment (Note 29j)	\$ 7,112,172	\$ 8,355,395
Payables for royalties	848,637	1,252,332
	7,960,809	9,607,727
Current portion (classified under accrued expenses and other current liabilities)	(1,406,601)	(4,005,307)
	\$ 6,554,208	\$ 5,602,420

The payables for royalties were primarily attributable to several license arrangements that the Company entered into for certain semiconductor-related patents.

As of December 31, 2010, future payments for other long-term payables were as follows:

Year of Payment	Amount
2011	\$ 1,406,601
2012	675,672
2013	569,659
2014	5,308,877
	\$ 7,960,809

19. PENSION PLANS

The pension mechanism under the Labor Pension Act is deemed a defined contribution plan. Pursuant to the Act, TSMC, GUC, Xintec and Mutual-Pak have made monthly contributions equal to 6% of each employee's monthly salary to employees' pension accounts. Furthermore, TSMC North America, TSMC China, TSMC Europe, TSMC Canada and TSMC Solar NA are required by local regulations to make monthly contributions at certain percentages of the basic salary of their employees. Pursuant to the aforementioned Act and local regulations, the Company recognized pension costs of NT\$1,121,650 thousand and NT\$748,071 thousand for the years ended

December 31, 2010 and 2009, respectively.

TSMC, GUC and Xintec have defined benefit plans under the Labor Standards Law that provide benefits based on an employee's service years and average monthly salary for the six-month period prior to retirement. The aforementioned companies contribute an amount equal to 2% of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the name of the committees in the Bank of Taiwan.

Pension information on the defined benefit plans is summarized as follows:

a. Components of net periodic pension cost for the year

	2010	2009
Service cost	\$ 129,722	\$ 166,480
Interest cost	146,625	150,647
Projected return on plan assets	(40,967)	(57,382)
Amortization	2,196	29,924
 Net periodic pension cost	 \$ 237,576	 \$ 289,669

b. Reconciliation of funded status of the plans and accrued pension cost at December 31, 2010 and 2009

	2010	2009
Benefit obligation		
Vested benefit obligation	\$ 189,047	\$ 123,524

(Concluded)

Effective in May 2009 and June 2010, the Article 5 of the Income Tax Law of the Republic of China was amended, in which the income tax rate of profit-seeking enterprises would be reduced from 25% to 20% and from 20% to 17%, respectively. The last amended income tax rate of 17% is retroactively applied on January 1, 2010. TSMC and its domestic subsidiaries which are subject to the Income Tax Law of the Republic of China recalculated their deferred tax assets in accordance with the new amended Article and adjusted the resulting difference as an income tax expense in 2010 and 2009, respectively.

Under Article 10 of the Statute for Industrial Innovation (SII) legislated and effective in May 2010, a profit-seeking enterprise may deduct up to 15% of its research and development expenditures from its income tax payable for the year in which these expenditures are incurred, but this deduction should not exceed 30% of the income tax payable for that year. This incentive is retroactive to January 1, 2010 and effective until December 31, 2019.

As of December 31, 2010, the net operating loss carryforwards generated by WaferTech, TSMC Development and Mutual-Pak would expire on various dates through 2026.

d. Integrated income tax information:

The balance of the imputation credit account (ICA) of TSMC as of December 31, 2010 and 2009 was NT\$1,669,533 thousand and NT\$369,265 thousand, respectively.

The estimated and actual creditable ratios for distribution of TSMC's earnings of 2010 and 2009 were 4.70% and 9.85%, respectively.

The imputation credit allocated to the shareholders is based on its balance as of the date of dividend distribution. The estimated creditable ratio may change when the actual distribution of imputation credit is made.

e. All of TSMC's earnings generated prior to December 31, 1997 have been appropriated.

- f. As of December 31, 2010, investment tax credits of TSMC, GUC, Xintec and Mutual-Pak consisted of the following:

Law/Statute	Item	Total Creditable Amount	Remaining Creditable Amount	Expiry Year
Statute for Upgrading Industries	Purchase of machinery and equipment	\$ 114,677	\$	2010
		66,368	66,368	2011
		3,220,393	2,519,887	2012
		6,052,758	6,052,758	2013
		6,369,512	6,369,512	2014
		\$ 15,823,708	\$ 15,008,525	
Statute for Upgrading Industries	Research and development expenditures	\$ 1,020,212	\$	2010
		1,192,759	114,431	2011
		2,921,041	2,921,041	2012
		4,523,367	4,523,367	2013
				\$ 9,657,379
Statute for Upgrading Industries	Personnel training expenditures	\$ 759	\$	2010
		20,081	788	2011
		32,286	32,286	2012
		17,795	17,795	2013
				\$ 70,921
Statute for Industrial Innovation	Research and development expenditures	\$ 2,049,996	\$	2010

- g. The profits generated from the following projects of TSMC, GUC and Xintec are exempt from income tax for a five-year period:

	Tax-Exemption Period
Construction and expansion of 2001 by TSMC	2006 to 2010
Construction and expansion of 2003 by TSMC	2007 to 2011

Construction and expansion of 2004 by TSMC	2008 to 2012
Construction and expansion of 2005 by TSMC	2010 to 2014
Construction and expansion of 2003 by GUC	2007 to 2011
Construction and expansion of 2005 and 2006 by GUC	To be determined
Construction and expansion of 2003 by Xintec	2007 to 2011
Construction and expansion of 2002, 2003 and 2006 by Xintec	2010 to 2014

- h. The tax authorities have examined income tax returns of TSMC through 2007. All investment tax credit adjustments assessed by the tax authorities have been recognized accordingly.

22. SHAREHOLDERS EQUITY

As of December 31, 2010, 1,096,448 thousand ADSs of TSMC were traded on the NYSE. The number of common shares represented by the ADSs was 5,482,242 thousand (one ADS represents five common shares).

Capital surplus can only be used to offset a deficit under the Company Law. However, the capital surplus generated from donations and the excess of the issuance price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which are limited to a certain percentage of TSMC's paid-in capital. In addition, the capital surplus from long-term investment may not be used for any purpose.

-31-

Capital surplus consisted of the following:

	December 31	
	2010	2009
Additional paid-in capital	\$ 23,628,908	\$ 23,457,805
From merger	22,805,390	22,805,390
From convertible bonds	8,893,190	8,893,190
From long-term investments	370,891	329,570
Donations	55	55
	\$ 55,698,434	\$ 55,486,010

TSMC's Articles of Incorporation provide that, when allocating the net profits for each fiscal year, TSMC shall first offset its losses in previous years and then set aside the following items accordingly:

- a. Legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve equals TSMC's paid-in capital;
 - b. Special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge;
 - c. Bonus to directors and profit sharing to employees of TSMC of not more than 0.3% and not less than 1% of the remainder, respectively. Directors who also serve as executive officers of TSMC are not entitled to receive the bonus to directors. TSMC may issue profit sharing to employees in stock of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the Board of Directors;
 - d. Any balance left over shall be allocated according to the resolution of the shareholders' meeting.
- TSMC's Articles of Incorporation also provide that profits of TSMC may be distributed by way of cash dividend and/or stock dividend. However, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided that the ratio for stock dividend shall not exceed 50% of the total distribution.

Any appropriations of the profits are subject to shareholders' approval in the following year.

TSMC accrued profit sharing to employees as a charge to earnings of certain percentage of net income during the year amounted to NT\$10,908,338 thousand and NT\$6,691,338 thousand for the years ended December 2010 and 2009, respectively; bonuses to directors were accrued with an estimate based on historical experience. If the actual amounts subsequently resolved by the shareholders differ from the estimated amounts, the differences are recorded in the year of shareholders' resolution as a change in accounting estimate. If profit sharing is resolved to be distributed to employees in stock, the number of shares is determined by dividing the amount of profit sharing by the closing price (after considering the effect of dividends) of the shares on the day preceding the shareholders' meeting.

TSMC no longer has supervisors since January 1, 2007. The required duties of supervisors are being fulfilled by the Audit Committee.

The appropriation for legal capital reserve shall be made until the reserve equals TSMC's paid-in capital. The reserve may be used to offset a deficit, or be distributed as dividends and bonuses for the portion in excess of

50% of the paid-in capital if TSMC has no unappropriated earnings and the reserve balance has exceeded 50% of TSMC's paid-in capital. The Company Law also prescribes that, when the reserve has reached 50% of TSMC's paid-in capital, up to 50% of the reserve may be transferred to capital.

-32-

A special capital reserve equivalent to the net debit balance of the other components of shareholders' equity (for example, cumulative translation adjustments and unrealized loss on financial instruments, but excluding treasury stock) shall be made from unappropriated earnings pursuant to existing regulations promulgated by the Securities and Futures Bureau (SFB). Any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

The appropriations of earnings for 2009 and 2008 had been approved in the TSMC's shareholders meetings held on June 15, 2010 and June 10, 2009, respectively. The appropriations and dividends per share were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	For Fiscal Year 2009	For Fiscal Year 2008	For Fiscal Year 2009	For Fiscal Year 2008
Legal capital reserve	\$ 8,921,784	\$ 9,993,317		
Special capital reserve	1,313,047	(391,857)		
Cash dividends to shareholders	77,708,120	76,876,312	\$ 3.00	\$ 3.00
Stock dividends to shareholders		512,509		0.02
	\$ 87,942,951	\$ 86,990,281		

TSMC's profit sharing to employees to be paid in cash and bonus to directors in the amounts of NT\$6,691,338 thousand and NT\$67,692 thousand for 2009, respectively, and profit sharing to employees to be paid in cash and in stock as well as bonus to directors in the amounts of NT\$7,494,988 thousand, NT\$7,494,988 thousand and NT\$158,080 thousand for 2008, respectively, had been approved in the shareholders' meeting held on June 15, 2010 and June 10, 2009, respectively. The profit sharing to employees in stock of 141,870 thousand shares for 2008 was determined by the closing price of the TSMC's common shares (after considering the effect of dividends) of the day immediately preceding the shareholders' meeting, which was NT\$52.83. The resolved amounts of the profit sharing to employees and bonus to directors were consistent with the resolutions of meeting of the Board of Directors held on February 9, 2010 and February 10, 2009 and same amount had been charged against earnings of 2009 and 2008, respectively.

The shareholders' meeting held on June 10, 2009 also resolved to distribute stock dividends out of capital surplus, and stock dividends to shareholders as well as profit sharing to employees to be paid in stock in the amount of NT\$768,763 thousand, NT\$512,509 thousand and NT\$7,494,988 thousand, respectively.

As of January 24, 2011, the Board of Directors of TSMC has not resolved the appropriation for earnings of 2010.

The information about the appropriations of TSMC's profit sharing to employees and bonus to directors is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on January 1, 1998, the R.O.C. resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by TSMC on earnings generated since January 1, 1998.

23. STOCK-BASED COMPENSATION PLANS

TSMC's Employee Stock Option Plans, consisting of the TSMC 2004 Plan, TSMC 2003 Plan, and TSMC 2002 Plan, were approved by the SFB on January 6, 2005, October 29, 2003 and June 25, 2002, respectively. The maximum number of options authorized to be granted under the TSMC 2004 Plan, TSMC 2003 Plan and TSMC 2002 Plan was 11,000 thousand, 120,000 thousand and 100,000 thousand, respectively, with each option eligible to subscribe for one common share of TSMC when exercised. The options may be granted to qualified employees of TSMC or any of its domestic or foreign subsidiaries, in which TSMC's shareholding with voting rights, directly or indirectly, is more than fifty percent (50%). The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of TSMC's common shares listed on the TSE on the grant date.

Options of the plans that had never been granted or had been granted but subsequently canceled had expired as of December 31, 2010.

Information about TSMC's outstanding options for the years ended December 31, 2010 and 2009 was as follows:

	Number of Options (In Thousands)	Weighted- average Exercise Price (NT\$)
Year ended December 31, 2010		
Balance, beginning of year	28,810	\$ 32.4
Options exercised	(7,372)	33.2
Options canceled	(1)	50.1
Balance, end of year	21,437	32.3
Year ended December 31, 2009		
Balance, beginning of year	36,234	34.0
Options granted	175	34.0
Options exercised	(7,272)	35.8
Options canceled	(327)	46.5
Balance, end of year	28,810	33.5

The number of outstanding options and exercise prices have been adjusted to reflect the distribution of earnings by TSMC in accordance with the plans.

As of December 31, 2010, information about TSMC's outstanding options was as follows:

Options Outstanding

Range of Exercise Price (NT\$)	Number of Options (In Thousands)	Weighted-average Remaining Contractual Life (Years)	Weighted-average Exercise Price (NT\$)
\$21.7-\$30.5	16,438	2.20	\$28.2
38.0- 50.1	4,999	3.91	45.6
	21,437	2.60	32.3

As of December 31, 2010, all of the above outstanding options were exercisable.

GUC's Employee Stock Option Plans, consisting of the GUC 2003 Plan and GUC 2002 Plan, were approved by its Board of Directors on January 23, 2003 and July 1, 2002, respectively. The maximum number of options authorized to be granted under the GUC 2003 Plan and GUC 2002 Plan was 7,535 and 5,000, respectively, with each option eligible to subscribe for one thousand common shares of GUC when exercised. The options may be granted to qualified employees of GUC. The options of all the plans are valid for six years and exercisable at certain percentages subsequent to the second anniversary of the grant date.

Moreover, the GUC 2007 Plan, GUC 2006 Plan, and GUC 2004 Plan were approved by the SFB on November 28, 2007, July 3, 2006, and August 16, 2004 to grant a maximum of 1,999 options, 3,665 options and 2,500 options, respectively, with each option eligible to subscribe for one thousand common shares of GUC when exercised. The options may be granted to qualified employees of GUC or any of its subsidiaries. Except for the options of the GUC 2006 Plan which are valid until August 15, 2011, the options of the other two GUC option plans are valid for six years. Options of all three plans are exercisable at certain percentages subsequent to the second anniversary of the grant date.

Information about GUC's outstanding options for the years ended December 31, 2010 and 2009 was as follows:

	Number of Options	Weighted- average Exercise Prices (NT\$)
Year ended December 31, 2010		
Balance, beginning of year	3,810	\$ 83.4
Options exercised	(1,592)	13.7
Options canceled	(431)	143.3
Balance, end of year	1,787	130.9
Year ended December 31, 2009		
Balance, beginning of year	5,557	\$ 63.8
Options granted	87	13.6
Options exercised	(1,475)	10.5
Options canceled	(359)	62.2
Balance, end of year	3,810	83.4

The number of outstanding options and exercise prices have been adjusted to reflect the distribution of earnings by GUC in accordance with the plans.

As of December 31, 2010, information about GUC's outstanding and exercisable options was as follows:

Range of Exercise Price (NT\$)	Number of Options	Options Outstanding		Options Exercisable	
		Weighted-average Remaining Contractual Life (Years)	Weighted-average Exercise Price (NT\$)	Number of Options	Weighted-average Exercise Price (NT\$)
\$ 15.3	493	0.67	\$ 15.3	493	\$ 15.3
175.0	1,294	3.00	175.0	646	175.0
	1,787	2.36	130.9	1,139	105.9

Xintec's Employee Stock Option Plans, consisting of the Xintec 2007 Plan and Xintec 2006 Plan, were approved by the SFB on June 26, 2007 and July 3, 2006, respectively. The maximum number of options authorized to be granted under the Xintec 2007 Plan and Xintec 2006 Plan was 6,000 thousand each, with each option eligible to subscribe for one common share of Xintec when exercised. The options may be granted to qualified employees of Xintec or any of its subsidiaries. The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date.

Information about Xintec's outstanding options for the years ended December 31, 2010 and 2009 was as follows:

	Number of Options (In Thousands)	Weighted-average Exercise Price (NT\$)
Year ended December 31, 2010		
Balance, beginning of year	3,960	\$ 14.7
Options exercised	(1,856)	13.9
Options canceled	(272)	17.3
Balance, end of year	1,832	15.1
Year ended December 31, 2009		
Balance, beginning of year	7,442	14.8
Options exercised	(2,552)	13.9
Options canceled	(930)	16.6
Balance, end of year	3,960	14.7

The exercise prices have been adjusted to reflect the distribution of earnings by Xintec in accordance with the plans.

As of December 31, 2010, information about Xintec's outstanding and exercisable options was as follows:

Range of Exercise Price (NT\$)	Number of Options (In Thousands)	Options Outstanding		Options Exercisable	
		Weighted-average Remaining Contractual Life (Years)	Weighted-average Exercise Price (NT\$)	Number of Options (In Thousands)	Weighted-average Exercise Price (NT\$)
\$12.1-\$14.0	793	5.75-6.04	\$12.5	664	\$12.5
15.2-\$19.1	1,039	6.50-6.69	17.0	497	17.0
	1,832		15.1	1,161	14.4

No compensation cost was recognized under the intrinsic value method for the years ended December 31, 2010 and 2009. Had the Company used the fair value based method to evaluate the options using the Black-Scholes model, the assumptions at the various grant dates and pro forma results of the Company for the years ended December 31, 2010 and 2009 would have been as follows:

Assumptions:

TSMC	Expected dividend yield	1.00%-3.44%
	Expected volatility	43.77%-46.15%
	Risk free interest rate	3.07%-3.85%
	Expected life	5 years
GUC	Expected dividend yield	0.00%-0.60%
	Expected volatility	22.65%-45.47%
	Risk free interest rate	2.12%-2.56%
	Expected life	3-6 years
Xintec	Expected dividend yield	0.80%
	Expected volatility	31.79%-47.42%
	Risk free interest rate	1.88%-2.45%
	Expected life	3 years

Years Ended December 31

	2010	2009
Net income attributable to shareholders of the parent:		
As reported	\$ 161,605,009	\$ 89,217,836
Pro forma	161,470,030	88,838,182
Earnings per share (EPS) after income tax (NT\$):		
Basic EPS as reported	\$ 6.24	\$ 3.45
Pro forma basic EPS	6.23	3.44
Diluted EPS as reported	6.23	3.44
Pro forma diluted EPS	6.23	3.43

24. EARNINGS PER SHARE

EPS is computed as follows:

	Amounts (Numerator)		Number of Shares (Denominator) (In Thousands)	EPS (NT\$)	
	Before Income Tax	After Income Tax		Before Income Tax	After Income Tax
Year ended December 31, 2010					
Basic EPS					
Earnings available to common shareholders of the parent	\$ 169,520,145	\$ 161,605,009	25,905,832	\$ 6.54	\$ 6.24
Effect of dilutive potential common shares			14,262		
Diluted EPS					
Earnings available to common shareholders of the parent (including effect of dilutive potential common shares)	\$ 169,520,145	\$ 161,605,009	25,920,094	\$ 6.54	\$ 6.23
Year ended December 31, 2009					
Basic EPS					
Earnings available to common shareholders of the parent	\$ 95,189,766	\$ 89,217,836	25,835,802	\$ 3.68	\$ 3.45
Effect of dilutive potential common shares			77,319		
Diluted EPS					
Earnings available to common shareholders of the parent (including effect of dilutive potential common shares)	\$ 95,189,766	\$ 89,217,836	25,913,121	\$ 3.67	\$ 3.44

Effective January 1, 2008, the Company adopted Interpretation 2007-052 that requires companies to record profit sharing to employees as an expense rather than as an appropriation of earnings. If the Company may settle the obligation by cash, by issuing shares, or in combination of both cash and shares, profit sharing to employees which will be settled in shares should be included in the weighted average number of shares outstanding in calculation of diluted EPS, if the shares have a dilutive effect. The number of shares is estimated by dividing the amount of profit sharing to employees in stock by the closing price (after considering the dilutive effect of

dividends) of the common shares on the balance sheet date. Such dilutive effect of the potential shares needs to be included in the calculation of diluted EPS until the shares of profit sharing to employees are resolved in the shareholders meeting in the following year.

The average number of shares outstanding for EPS calculation has been considered for the effect of retroactive adjustments. This adjustment caused each the basic and diluted after income tax EPS for the year ended December 31, 2009 to remain at NT\$3.45 and NT\$3.44, respectively.

-38-

25. DISCLOSURES FOR FINANCIAL INSTRUMENTS

a. Fair values of financial instruments were as follows:

	December 31			
	2010		2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets				
Financial assets at fair value through profit or loss	\$ 6,886	\$ 6,886	\$ 186,081	\$ 186,081
Available-for-sale financial assets	29,916,777	29,916,777	15,747,995	15,747,995
Held-to-maturity financial assets	13,299,476	13,457,742	25,498,085	25,671,664
Financial assets carried at cost	4,424,207		3,063,004	
Liabilities				
Financial liabilities at fair value through profit or loss	19,002	19,002	25	25
Hedging derivative financial liabilities	814	814		
Bonds payable	4,500,000	4,538,660	4,500,000	4,574,979
Long-term bank loans (including current portion)	542,968	542,968	1,527,858	1,527,858
Other long-term payables (including current portion)	7,960,809	7,960,809	9,607,727	9,607,727
Obligations under capital leases	694,986	694,986	707,499	707,499

b. Methods and assumptions used in estimating fair values of financial instruments

- 1) The aforementioned financial instruments do not include cash and cash equivalents, receivables, other financial assets, refundable deposits, short-term loans, payables and guarantee deposits. The carrying amounts of these financial instruments approximate their fair values due to their short maturities.
- 2) Except for derivatives and structured time deposits, available-for-sale and held-to-maturity financial assets were based on their quoted market prices.
- 3) The fair values of those derivatives and structured time deposits are determined using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.
- 4) Financial assets carried at cost have no quoted prices in an active market and entail an unreasonably high cost to obtain verifiable fair values. Therefore, no fair value is presented.
- 5) Fair value of the bonds payable was based on their quoted market price.
- 6) Fair values of long-term bank loans, other long-term payables and obligations under capital leases were based on the present value of expected cash flows, which approximate their carrying amounts.

c. The changes in fair value of derivatives contracts which were outstanding as of December 31, 2010 and 2009 estimated using valuation techniques were recognized as a net loss of NT\$12,116 thousand and a net gain of NT\$186,056 thousand, respectively.

d.

As of December 31, 2010 and 2009, financial assets exposed to fair value interest rate risk were NT\$38,588,969 thousand and NT\$40,857,296 thousand, respectively; financial liabilities exposed to fair value interest rate risk were NT\$43,235,611 thousand and NT\$13,542,919 thousand, respectively, and financial liabilities exposed to cash flow interest rate risk were NT\$848,275 thousand and NT\$1,527,858 thousand, respectively.

- e. Movements of the unrealized gains or losses on financial instruments for the years ended December 31, 2010 and 2009 were as follows:

	Year Ended December 31, 2010			
	From		Gain (Loss)	
	Available- for-sale Financial Assets	Equity Method Investments	on Cash Flow Hedges	Total
Balance, beginning of year	\$ 424,128	\$ 29,493	\$	\$ 453,621
Recognized directly in shareholders' equity	250,475	(6,031)	(331)	244,113
Removed from shareholders' equity and recognized in earnings	(588,445)			(588,445)
Balance, end of year	\$ 86,158	\$ 23,462	\$ (331)	\$ 109,289

	Year Ended December 31, 2009			
	From		Gain (Loss)	
	Available- for-sale Financial Assets	Equity Method Investments	on Cash Flow Hedges	Total
Balance, beginning of year	\$ (198,413)	\$ (88,929)	\$	\$ (287,342)
Recognized directly in shareholders' equity	391,801	118,422		510,223
Removed from shareholders' equity and recognized in earnings	230,740			230,740
Balance, end of year	\$ 424,128	\$ 29,493	\$	\$ 453,621

f. Information about financial risk

- 1) Market risk. The derivative financial instruments categorized as financial assets/liabilities at fair value through profit or loss are mainly used to hedge the market exchange rate fluctuations of foreign-currency assets and liabilities; therefore, the market exchange rate risk of derivatives will be offset by the foreign exchange risk of these hedged items. Available-for-sale financial assets and held-to-maturity financial assets held by the Company are mainly fixed-interest-rate debt securities and publicly traded stock; therefore, the fluctuations in market interest rates and market price will result in changes in fair values of these debt securities.
- 2) Credit risk. Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The Company evaluated whether the financial instruments for any possible counter-parties or third-parties are reputable financial institutions, business enterprises, and government agencies and accordingly, the Company believed that the Company's exposure to credit risk was not significant.

- 3) Liquidity risk. The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments, bonds payable and bank loans. Therefore, the liquidity risk is low.

-40-

- 4) Cash flow interest rate risk. The Company mainly invests in fixed-interest-rate debt securities. Therefore, cash flows are not expected to fluctuate significantly due to changes in market interest rates. A portion of the short-term loans and the long-term bank loans were floating-rate loans. Therefore, changes in the market interest rates will result in changes in the interest rate of the long-term bank loans, which will affect future cash flows.
- g. The Company seeks to reduce the effects of future cash flow related interest rate changes by primarily using derivative financial instruments.

The Company's long-term bank loans bear floating interest rates; therefore, changes in the market interest rate may cause future cash flows to be volatile. Accordingly, the Company entered into an interest rate swap contract in order to hedge cash flow risk caused by floating interest rates. Information about outstanding interest rate swap contract consisted of the following:

Hedged Item	Hedging Financial Instrument	Fair Value December 31, 2010	Expected Cash Flow Generated Period	Expected Timing for the Recognition of Gains or Losses from Hedge
Long-term bank loans	Interest rate swap contract	\$ (814)	2010 to 2012	2010 to 2012

26. RELATED PARTY TRANSACTIONS

Except as disclosed in the consolidated financial statements and other notes, the following is a summary of significant related party transactions:

- a. Investees of TSMC

VIS (accounted for using equity method)
SSMC (accounted for using equity method)

- b. VisEra Technology Company, Ltd. (VisEra), an indirect investee accounted for using equity method by TSMC.
- c. Others

Related parties over which the Company has significant influence but with which the Company had no material transactions.

The sales prices and payment terms to related parties were not significantly different from those of sales to third parties. For other related party transactions, prices and terms were determined in accordance with mutual agreements.

The Company leased certain office space and facilities from VIS. The lease terms and prices were determined in accordance with mutual agreements. The office rental was prepaid by the Company and the facilities rental was paid quarterly. The related rental expenses were classified under research and development expenses and manufacturing expenses.

The Company leased certain factory building from VisEra. The lease terms and prices were determined in accordance with mutual agreements. The rental expense was paid monthly and classified under manufacturing expenses.

Compensation of directors and management personnel:

	Years Ended December 31	
	2010	2009

Bonus	578,343	395,313
	\$ 1,461,462	\$ 1,052,547

The information about the compensation of directors and management personnel is available in the annual report for the shareholders' meeting. Total compensation expense for the year ended December 31, 2010 includes estimated profit sharing to employees and bonus to directors of the Company that relate to 2010 but will be paid in the following year. The actual amount will be finalized and approved upon the resolution of the shareholders' meeting in 2011. The total compensation for the year ended December 31, 2009 included the bonuses appropriated from earnings of 2009 which was approved by the shareholders' meeting held in 2010.

27. PLEDGED OR MORTGAGED ASSETS

The Company provided certain assets as collateral mainly for long-term bank loans, land lease agreements and customs duty guarantee, which were as follows:

December 31	
2010	2009

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

	\$ 1,312,780	\$ 3,777,425

-43-

28. SIGNIFICANT LONG-TERM LEASES

The Company leases several parcels of land, factory and office premises from the Science Park Administration and Jhongli Industrial Park Service Center. These operating leases expire on various dates from April 2011 to July 2030 and can be renewed upon expiration.

The Company entered into lease agreements for its office premises and certain office equipment located in the United States, Europe, Japan, Shanghai and Taiwan. These operating leases expire between 2011 and 2018 and can be renewed upon expiration.

As of December 31, 2010, future lease payments were as follows:

Year	Amount
2011	\$ 612,361
2012	568,683
2013	537,150
2014	515,335
2015	483,034
2016 and thereafter	3,422,460
	\$ 6,139,023

29. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

Significant commitments and contingencies of the Company as of December 31, 2010, excluding those disclosed in other notes, were as follows:

- a. Under a technical cooperation agreement with ITRI, the R.O.C. Government or its designee approved by TSMC can use up to 35% of TSMC's capacity if TSMC's outstanding commitments to its customers are not prejudiced. The term of this agreement is for five years beginning from January 1, 1987 and is automatically renewed for successive periods of five years unless otherwise terminated by either party with one year prior notice.
- b. Under several foundry agreements, TSMC shall reserve a portion of its production capacity for certain major customers that have guarantee deposits with TSMC. As of December 31, 2010 TSMC had a total of US\$22,653 thousand of guarantee deposits.
- c. Under a Shareholders Agreement entered into with Philips and EDB Investments Pte Ltd. on March 30, 1999, the parties formed a joint venture company, SSMC, which is an integrated circuit foundry in Singapore. TSMC's equity interest in SSMC was 32%. Nevertheless, Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006. TSMC and NXP B.V. purchased all the SSMC shares owned by EDB Investments Pte Ltd. pro rata according to the Shareholders Agreement on November 15, 2006. After the purchase, TSMC and NXP B.V. currently own approximately 39% and 61% of the SSMC shares respectively. TSMC and Philips (now NXP B.V.) are required, in the aggregate, to purchase at least 70% of SSMC's capacity, but TSMC alone is not required to purchase more than 28% of the capacity. If any party defaults on the commitment and the capacity utilization of SSMC fall below a specific percentage of its capacity, the defaulting party is required to compensate SSMC for all related unavoidable costs.

- d. TSMC provides technical services to SSMC under a Technical Cooperation Agreement (the Agreement) effective March 30, 1999. TSMC receives compensation for such services computed at a specific percentage of net selling price of all products sold by SSMC. The Agreement shall remain in force for ten years and will be automatically renewed for successive periods of five years each unless pre-terminated by either party under certain conditions.
- e. TSMC provides a technology transfer to VIS under a Manufacturing License and Technology Transfer Agreement entered into on April 1, 2004. TSMC receives compensation for such technology transfer in the form of royalty payments from VIS computed at specific percentages of net selling price of certain products sold by VIS. VIS agreed to reserve its certain capacity to manufacture for TSMC certain products at prices as agreed by the parties.
- f. In August 2006, TSMC filed a lawsuit against Semiconductor Manufacturing International Corporation, SMIC (Shanghai) and SMIC Americas (aggregately referred to as SMIC) in the Superior Court of California for Alameda County for breach of a 2005 agreement that settled an earlier trade secret misappropriation and patent infringement litigation between the parties, as well as for trade secret misappropriation, seeking injunctive relief and monetary damages. In September 2006, SMIC filed a cross-complaint against TSMC in the same court alleging breach of settlement agreement, implied covenant of good faith and fair dealing. SMIC also filed a civil action against TSMC in November 2006 with the Beijing People's High Court alleging defamation and breach of good faith. On June 10, 2009, the Beijing People's High Court ruled in favor of TSMC and dismissed SMIC's lawsuit. On November 4, 2009, after a two-month trial, a jury in the California action found SMIC to have both breached the 2005 settlement agreement and misappropriated TSMC's trade secrets. TSMC has subsequently settled both lawsuits with SMIC. Pursuant to the new settlement agreement, the parties have agreed to the entry of a stipulated judgment in favor of TSMC in the California action, and to the dismissal of SMIC's appeal against the Beijing High Court's finding in favor of TSMC. Under the new settlement agreement and the related stipulated judgment, SMIC has agreed to make cash payments by installments to TSMC totaling US\$200 million, which are in addition to the US\$135 million previously paid to TSMC under the 2005 settlement agreement, and, conditional upon relevant government regulatory approvals, to issue to TSMC a total of 1,789,493,218 common shares of Semiconductor Manufacturing International Corporation and a three-year warrant to purchase 695,914,030 common shares (subject to adjustment) of Semiconductor Manufacturing International Corporation at HK\$1.30 per share (subject to adjustment). TSMC has received the approval from the Investment Commission of Ministry of Economic Affairs and acquired the above mentioned common shares on July 5, 2010, representing approximately 7.37% of Semiconductor Manufacturing International Corporation's total shares outstanding, and recognized settlement income amounting to NT\$4,434,364 thousand.
- g. In June 2010, STC.UNM, the technology transfer arm of the University of New Mexico, filed a complaint in the U.S. International Trade Commission (USITC) accusing TSMC and one other company of allegedly infringing a single U.S. patent. Based on this complaint, the USITC initiated an investigation in July 2010. TSMC and STC.UNM have subsequently reached a settlement agreement and, on November 15, 2010, filed a joint motion to terminate the investigation based on the settlement agreement. As a result, the Administrative Law Judge (ALJ) assigned to the investigation has made an initial determination to terminate the investigation based on the settlement agreement. The USITC, on December 21, 2010, decided not to review the ALJ's initial determination, which officially terminates this investigation.
- h. In June 2010, Keranos, LLC. filed a lawsuit in the U.S. District Court for the Eastern District of Texas alleging that TSMC, TSMC North America, and several other leading technology companies infringe three expired U.S. patents. The outcome of this litigation cannot be determined at this time.

- i. In December 2010, Ziptronix, Inc. filed a complaint in the U.S. District Court for the Northern District of California accusing TSMC, TSMC North America and one other company of allegedly infringing six U.S. patents. This litigation is in its very early stages and therefore the outcome of the case cannot be determined at this time.
- j. The Company entered into an agreement with a counterparty in 2003 whereby TSMC China is obligated to purchase certain property, plant and equipment at the agreed-upon price within the contract period. If the purchase is not completed, TSMC China is obligated to compensate the counterparty for the loss incurred. The property, plant and equipment have been in use by TSMC China since 2004 and are being depreciated over their estimated service lives. The related obligation totaled NT\$7,112,172 thousand and NT\$8,355,395 thousand as of December 31, 2010 and 2009, respectively, which is included in other long-term payables.
- k. Amounts available under unused letters of credit as of December 31, 2010 were NT\$94,764 thousand.

30. OTHERS

Note: Exchange rate represents the number of N.T. dollars for which one foreign currency could be exchanged.

31. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFB for TSMC and its investees in which all significant intercompany balances and transactions are eliminated upon consolidation:

- a. Financing provided: Please see Table 1 attached;
- b. Endorsement/guarantee provided: None;
- c. Marketable securities held: Please see Table 2 attached;
- d. Marketable securities acquired and disposed of at costs or prices of at least NT\$100 million or 20% of the paid-in capital: Please see Table 3 attached;
- e. Acquisition of individual real estate properties at costs of at least NT\$100 million or 20% of the paid-in capital: Please see Table 4 attached;
- f. Disposal of individual real estate properties at prices of at least NT\$100 million or 20% of the paid-in capital: None;
- g. Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 5 attached;
- h. Receivable from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 6 attached;
- i. Names, locations, and related information of investees over which TSMC exercises significant influence: Please see Table 7 attached;
- j. Information on investment in Mainland China
 - 1) The name of the investee in Mainland China, the main businesses and products, its issued capital, method of investment, information on inflow or outflow of capital, percentage of ownership, equity in the net gain or net loss, ending balance, amount received as dividends from the investee, and the limitation on investee: Please see Table 8 attached.
 - 2) Significant direct or indirect transactions with the investee, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in Mainland China on financial reports: Please see Table 9 attached.
- k. Intercompany relationships and significant intercompany transactions: Please see Table 9 attached.

32. SEGMENT FINANCIAL INFORMATION

- a. Industry financial information

The Company operates in one industry. Therefore, the disclosure of industry financial information is not applicable to the Company.
