REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator and Members of
The Hartford Investment and Savings Plan
Hartford, Connecticut

We have audited the accompanying statements of net assets available for benefits of The Hartford Investment and Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic 2010 financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2010 is presented for the purpose of additional analysis and is not a required part of the basic 2010 financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2010 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic 2010 financial statements taken as a whole.

**THE HARTFORD INVESTMENT AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2010 AND 2009
AND FOR THE YEAR ENDED DECEMBER 31, 2010
(\$ IN THOUSANDS)**

Note 1. Description of the Plan

The following description of The Hartford Investment and Savings Plan (the Plan or ISP) is provided for general information purposes only. Members should refer to the Plan Document for more complete information. Members refers to eligible participants of the Plan.

The Hartford Financial Services Group, Inc. (HFSG) is a holding company for insurance and financial service subsidiaries that provide investment products and life and property and casualty insurance to both individual and business customers in the United States (collectively, The Hartford or the Company). Also, The Hartford continues to administer business previously sold in Japan and the U.K. The Plan Sponsor, Hartford Fire Insurance Company, is a wholly owned subsidiary of HFSG.

Information with regard to eligibility, contributions, distributions, vesting, trustees, withdrawals, loans, fund redistribution and certain definitions are contained in the Plan Document. A Summary Plan Description setting forth the highlights of the Plan is available to Members on the Fidelity NetBenefits website. Fidelity serves as the record keeper of the Plan.

Plan Changes

See Note 12 for a general description of amendments made to the Plan Document during the years ended December 31, 2010 and 2009.

General

The Plan is a defined contribution plan covering substantially all full-time and part-time employees of the Company. The Pension Administration Committee of the Company controls and manages the operation and administration of the Plan, subject to certain exemptions that are specified in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Trust, as defined in the Plan Document, is the aggregate funds held by the trustee, State Street Bank and Trust Company (the Trustee), under the trust agreement established for the purposes of this Plan.

Contributions

Members may elect to save a percentage of their base salary and may designate their savings as before-tax, Roth 401(k), after-tax or a combination thereof. Generally, savings may be elected based on 1% to 30% of base salary. Members who are highly compensated employees may have contribution limits of less than 30% due to the operation of certain tests required under the Internal Revenue Code of 1986, as amended (the Code). Pursuant to the terms of the Plan, highly compensated employees are employees whose prior year earnings were equal to or exceeded \$110 per annum for 2010.

Basic Savings are contributions which are not in excess of the first 6% of a Member's base salary. For Members who have completed at least six months of service, an amount equal to 50% of a Member's Basic Savings is matched by the Company (Matching Company contribution). Members' savings in excess of 6% of base salary are Supplemental Savings that are not matched by the Company. In addition, the Company contributes 0.5% of highly compensated eligible employees' base salary and 1.5% of all other eligible employees' base salary (Floor Company contribution) to each employee's Floor Company contribution account. An employee becomes eligible for Floor Company contributions after completing six months of service, regardless of whether the employee elects to participate in the Plan.

Administrative Costs

The Trust pays certain administrative expenses of the Plan out of the assets of the Trust. Expenses not paid by the Trust are borne by the Company.

Table of Contents

Note 1. Description of the Plan (continued)

Member Accounts

Individual accounts are maintained for each Member. Each Member's account is credited with that Member's contributions and allocations of (a) the Matching Company contributions and Floor Company contributions and (b) Plan earnings, and is charged with withdrawals and an allocation of administrative expenses and Plan losses. Allocations are based on Member account balances, as defined in the Plan Document. The benefit to which a Member is entitled is the benefit that can be provided from that Member's vested account balance.

Vesting

Members are 100% vested at all times with respect to employee and Floor Company contributions and earnings thereon. Vesting in Matching Company contributions begins after one year of service at which time Members are 20% vested. The vesting increases 20% each consecutive year until the fifth anniversary of service at which time the Members are 100% vested. Notwithstanding the foregoing statement, a Member becomes fully vested in such Member's Matching Company contribution account upon retirement (for certain Members), disability, death, reaching age 65, or upon the complete discontinuance of Matching Company contributions or termination of the Plan.

Investment Options

As of December 31, 2010, contributions of Member savings and Company contributions may be invested in any of the twenty-five investment options of the Plan in multiples of 1%, as elected by the Member (Member directed investments).

Certain investment options are parties-in-interest with The Hartford. See Notes 3 and 10 for further discussion.

Member Loans

Members may borrow from their accounts a minimum of \$0.5 to a maximum equal to the lesser of \$50 or 50% of their vested account balance. Loan transactions are treated as transfers between the investment funds and the loan fund. Loan terms range from one to five years, or up to 15 years for the purchase of a primary residence. The loan is secured by the balance in the Member's account. The interest rate on a loan in a calendar quarter is set on the last business day of the prior February, May, August or November based on the prime rate provided by Reuters on that date plus one percentage point and is fixed for the term of the loan. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or certain other reasons, Members or their designated beneficiaries may elect to receive either a lump sum amount equal to the value of their vested account balance, annual installments over a period not greater than thirty years (subject to certain conditions), or annual installments over the recipient's life expectancy. Distributions may be paid in cash or, with respect to The Hartford Stock Fund, in stock distributions. Members or their designated beneficiaries may also elect to defer distributions subject to certain conditions.

Forfeitures

At December 31, 2010 and 2009, forfeited non-vested account balances totaled \$10 and \$5, respectively. These forfeitures are applied to reduce future Matching Company contributions. During the year ended December 31, 2010, Matching Company contributions were reduced by \$1,368 from forfeitures.

Note 2. Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Table of Contents

Note 2. Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Adoption of New Accounting Standards

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide level 3 activities of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan prospectively adopted the new guidance in 2010, except for the Level 3 reconciliation disclosures, which are required in 2011. The adoption in 2010 did not materially affect, and future adoption is not expected to materially affect, the Plan's financial statements.

In September 2010, the FASB issued ASU No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which amends ASC 820, adding new disclosure requirements for participant loans to be classified as

Notes receivable from participants within Receivables on the Statement of Net Assets Available for Benefits rather than a plan investment and measured at unpaid principal balance plus accrued but unpaid interest rather than fair value. The Plan retrospectively adopted the new accounting in 2010. The adoption did not have a material effect on the Plan's financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 5). The fair value of the common stock of HFSG is based on quoted market prices. The Hartford ISP S&P Index Fund, separately managed account, mutual funds and pooled temporary investment funds are valued at the net asset value of shares, which represent the fair value of the underlying securities, held by the Plan at year end. The group annuity contracts (the Stable Value Fund) include synthetic guaranteed investment contracts (GICs) whose underlying securities are stated at fair value. Fair value of the underlying securities in the GICs is determined by the issuer based on the discounted replacement cost methodology, which incorporates the difference between current market level rates for the wrapper contract and the wrapper fee presently being charged. The GICs are stated at fair value and then adjusted to contract value as described in Note 4. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities may occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Investment expenses charged to the Plan for investments in the mutual funds are charged directly against the assets of the Fund and are not separately reflected. Consequently, investment expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefits paid to Members are recorded when distributed.

Contributions

Employee and employer contributions are recorded in the period during which the Company makes payroll deductions from Members' compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan Document.

Table of Contents**Note 3. Investments**

The following investments represented 5% or more of the fair value of the Plan's net assets available for benefits at the end of the Plan year:

	December 31,	
	2010	2009
* The Hartford Stock Fund, common stock (7,943,419 and 8,348,519 shares at December 31, 2010 and 2009, respectively)	\$ 210,421	\$ 194,187
* The Hartford ISP S&P Index Fund	203,365	185,550
Mutual funds:		
* Capital Appreciation HLS Fund	342,491	303,458
* MidCap HLS Fund	256,027	205,109
Group annuity contracts:		
JPMorgan Chase Bank, Contract #AITTH01	199,221	184,424
Monumental Life Insurance Company #MDA00912TR	**	146,952

* *Indicates party-in-interest*

** *Investment did not represent 5% or more of the fair value of the Plan's net assets available for benefits at December 31, 2010.*

For the year ended December 31, 2010, the Plan's investments had net appreciation, including gains and losses on investments bought and sold, as well as held during the year, as follows:

The Hartford Stock Fund, common stock	\$ 26,771
The Hartford ISP S&P Index Fund	27,091
Separately managed account	728
Group annuity contracts	22,690
Mutual funds	
Bond Investments	9,695
Large-Cap Equities	59,531
Mid-Cap Equities	47,506
Small-Cap Equities	27,710
International Equities	20,592
Vanguard Retirement Funds	36,324
Net appreciation in fair value of investments	\$ 278,638

Note 4. Investments in Group Annuity Contracts

The Plan has entered into numerous synthetic group annuity contracts with unaffiliated insurance carriers within the Stable Value Fund. A synthetic group annuity contract is an investment contract through an issuer's guarantee of a specific interest rate (the wrapper contract) and a fixed income portfolio of financial instruments that are owned by the Plan. The synthetic GIC contracts include underlying securities which are held in a trust owned by the Plan and utilize a benefit-responsive wrapper contract managed by DB Advisors. The fair value of the benefit-responsive wrapper contracts was \$2,217 at December 31, 2010 and \$222 at December 31, 2009. The contract provides that participants execute Plan transactions at contract value. These contracts are fully benefit-responsive and are included in the financial statements at fair value (see Note 2). Fully benefit-responsive contracts provide for a stated return on principal invested over a specified period and permit withdrawals at contract value for benefit payments, loans, or transfers. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. Certain events, such as a Plan termination, divestiture or reduction in force may limit the

ability of the Plan to transact at contract value or may allow for the termination of the wrapper contract at less than contract value. The Plan Sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value are probable.

F-7

Table of Contents**Note 4. Investments in Group Annuity Contracts (continued)**

The relationship of future crediting rates and the adjustments to contract value reported on the statements of net assets available for benefits are provided through the mechanism of the crediting rate formula. The crediting rate is based on the current yield-to-maturity, the duration of the portfolio, and the amortization of gains and losses, defined as the difference between the market value and contract value of the wrapper. Key factors that could influence future crediting rates include, but are not limited to, Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund and the initiation of an extended termination of one or more synthetic GIC contracts by the manager or the contract issuer. The rate of return earned on a synthetic GIC is generally reset quarterly by the issuer based on market rates of other similar investments, the current yield of the underlying investments and the spread between the market value and contract value, but the rate can not be less than zero.

The contract issuer is not allowed to terminate any of the synthetic GICs and settle at an amount different from contract value unless there is a breach of the contract which is not corrected within the applicable cure period. Actions that will result in a breach include, but are not limited to, material misrepresentation, failure to pay synthetic GIC fees, or any other payment due under the contract, and failure to adhere to investment guidelines. The Plan has not breached any contracts in 2010 or 2009.

Average yields:	2010	2009
Based on annualized earnings (1)	2.36%	3.26%
Based on interest rate credited to participants (2)	3.45%	3.61%

(1) Calculated by taking the fair value sum of the funds holdings multiplied by their respective yields, divided by the total sum of the holdings as of December 31, 2010 and 2009, respectively.

(2) Calculated by taking the sum of the book value holdings multiplied by the crediting rate, divided by the fair value of the funds.

The following table represents the adjustment from fair value to contract value for each of the contracts as of December 31, 2010:

Carrier Name	Contract Number	Major Credit Ratings	Investments at Contract Value	Investments at Fair Value	Adjustment from Fair Value to Contract Value
JPMorgan Chase Bank	AITTH01	AA- / Aa1	\$ 185,970	\$ 199,221	\$ (13,251)
JPMorgan Chase Bank	AITTH02	AA- / Aa1	49,938	53,808	(3,870)
Monumental Life Insurance Company	MDA00911TR	AA- / A1	113,520	120,816	(7,296)
Monumental Life Insurance Company	MDA00912TR	AA- / A1	135,214	137,278	(2,064)
Natixis Financial Products Inc.	WR1879-01	A+ / Aa3	85,936	87,083	(1,147)

Total			\$ 655,756	\$ 670,763	\$ (15,007)

F-8

Table of Contents**Note 5. Fair Value Measurements**

The Plan classifies its investments into level 1, which refers to securities valued using quoted prices from active markets for identical assets; level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's policy is to recognize significant transfers between levels at the beginning of the reporting period. Transfers between Level 1 and Level 2 were not material for the year ended December 31, 2010.

A description of additional inputs used in the Plan's Levels 1, 2 or 3 measurements is listed below:

Level 1 Observable inputs that reflect quoted prices for identical assets in active markets that the Plan has the ability to access at the measurement date. Level 1 securities include highly liquid U.S. Treasuries, money market funds and exchange traded equity securities, open-ended mutual funds and derivative securities, including futures contracts.

Level 2 The fair values of most of the Plan's Level 2 investments are determined by management after considering prices received from third party pricing services. These investments include most fixed maturities.
ABS, CMBS and RMBS Primary inputs also include monthly payment information, collateral performance, which varies by vintage year and includes delinquency rates, collateral valuation loss severity rates, collateral refinancing assumptions and, for ABS and RMBS, estimated prepayment rates.
Corporates Primary inputs also include observations of credit default swap curves related to the issuer.
Municipals Primary inputs also include Municipal Securities Rulemaking Board reported trades and material event notices, and issuer financial statements.
Short-term investments Primary inputs also include material event notices and new issue money market rates.

Level 3 The Plan's securities classified as Level 3 are valued based on brokers' prices. Long-dated securities are priced based on third party pricing services. Primary inputs for these long-dated securities are consistent with the typical inputs used in Level 1 and Level 2 measurements noted above, but include benchmark interest rate or credit spread assumptions that are not observable in the marketplace.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2010 and 2009.

The tables below include the major categorization for debt and equity securities on the basis of the nature and risk of the investments at December 31, 2010 and 2009.

	Investment Assets at Fair Value as of December 31, 2010			
	Quoted Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Short Term Investments	\$	\$ 88,950	\$	\$ 88,950
Fixed Income Securities:				
Group annuity contracts				
Short Term Investments		10,736		10,736
Debt Securities including U.S. Government Securities	13,143	658,124	6,115	677,382
Bond Investments	150,609			150,609
Equity Securities:				
Company Stock	210,421			210,421
Large-Cap Equities	482,479	203,365		685,844
Mid-Cap Equities	256,027			256,027

Small-Cap Equities	147,022			147,022
International Equities	179,554			179,554
Vanguard Retirement Funds	384,984			384,984
Total investments at fair value [1]	\$ 1,824,239	\$ 961,175	\$ 6,115	\$ 2,791,529

[1] Excludes \$403 of dividend receivable and \$2,023 of interest receivable recorded at fair value.

Table of Contents**Note 5. Fair Value Measurements (continued)**

	Investment Assets at Fair Value as of December 31, 2009			
	Quoted Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Short Term Investments	\$	\$ 86,171	\$	\$ 86,171
Fixed Income Securities:				
Group annuity contracts				
Short Term Investments		17,445		17,445
Debt Securities including U.S. Government Securities	15,441	619,534	18,343	653,318

Total investments at fair value [2]	\$ 1,545,164	\$ 908,700	\$ 18,343	\$ 2,472,207

[2] Excludes \$419 of dividend receivable and \$2,044 of interest receivable recorded at fair value.

Total Plan investment assets at fair value classified within level 3 were \$6,115 and \$18,343, as of December 31, 2010 and 2009, respectively, which consists of the Plan's Stable Value Fund guaranteed investment contract holdings. Such amounts were less than 1% of Total investments on the Plan's statement of net assets available for benefits at fair value for both December 31, 2010 and December 31, 2009.

Rollforward of Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 investments for the year ended December 31, 2010. As reflected in the table below, the net unrealized gain/(loss) on level 3 investment assets was \$4,292 as of December 31, 2010. This was comprised of net unrealized gains of \$4,294 and net unrealized losses of \$(2) on group annuity contracts for the year ended December 31, 2010.

	Level 3 Investment Assets and Investment Liabilities Year Ended December 31, 2010	
	Group Annuity Contracts	
Balance, beginning of year	\$	18,343
Realized losses, net		(1,765)
Unrealized gains, net		4,292
Purchases		
Issuances		
Settlements		
Sales		(6,055)

Transfers in and / or out of level 3		(8,700)
Balance, end of year	\$	6,115

The change in unrealized gains included in the statement of changes in net assets available for benefits related to assets still held at the reporting date totaled \$2,131 as of December 31, 2010. The transfer out of level 3 to level 2 was due to a change in the pricing source which allowed for further validation of inputs.

The valuation methods as described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Table of Contents**Note 6. Derivative Financial Instruments**

Futures Contracts The Plan enters into futures contracts as part of the Stable Value Fund in the normal course of its investing activities to manage market risk associated with the Plan's fixed-income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of net assets available for benefits. The credit risk associated with these contracts is minimal, as they are traded on organized exchanges and settled daily.

During 2010 and 2009, the Plan was a party to futures contracts held for trading purposes for U.S. Treasury bonds. Upon entering into a futures contract, the Plan is required to deposit either in cash or securities an amount (initial margin) equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by the Plan, depending on the daily fluctuation in the value of the underlying contracts. U.S. Treasury bills owned and included in the investments of the Plan, with a value of \$1,408 and \$2,197 at December 31, 2010 and 2009, respectively, were held by the Plan's brokers as performance security on futures contracts.

At December 31, 2010 and 2009, the Plan had futures contracts to purchase or sell U.S. Treasury bonds contracts.

The fair value of futures contracts in the statements of net assets available for benefits is zero at December 31, 2010 and 2009, as settlements are by cash daily. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments. For the year ended December 31, 2010 and 2009, the net (loss) gain related to future contracts was \$(346) and \$276, respectively.

Note 7. Federal Income Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated March 23, 2004 that the Plan and related Trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the Company and the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and the Plan and related Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires that Plan management evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by the Internal Revenue Service; however there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 8. Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to suspend, reduce, or partially or completely discontinue its contributions at any time and to terminate the Plan, the Trust agreement and the Trust hereunder, subject to the provisions of ERISA. In the event of termination or partial termination of the Plan or complete discontinuance of contributions, the interests of affected Members automatically become fully-vested.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits between the accompanying financial statements and the amounts reflected in Form 5500 as of December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per accompanying financial statements	\$ 2,813,825	\$ 2,508,410
Amounts allocated to withdrawing Members	(73)	(7)
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	33,549	15,007
Net assets per Form 5500	\$ 2,847,301	\$ 2,523,410

Table of Contents**Note 9. Reconciliation of Financial Statements to Form 5500 (continued)**

The following is a reconciliation of total investment gain and contributions on the accompanying financial statements and the amount reflected in Form 5500 for the year ended December 31, 2010:

Total investment gain and contributions per accompanying financial statements	\$ 510,171
Add adjustment from contract value to fair value for fully benefit-responsive investment contracts at beginning of the year	(15,007)
Deduct adjustment from contract value to fair value for fully benefit-responsive investment contracts at the end of the year	33,549
 Total income per Form 5500	 \$ 528,713

The following is a reconciliation of benefits paid to Members between the accompanying financial statements and the amount reflected in Form 5500 for the year ended December 31, 2010:

Benefits paid to Members per accompanying financial statements	\$ 202,279
Add amounts allocated to withdrawing Members current year	73
Deduct amounts allocated to withdrawing Members prior year	(7)
Deduct corrective distributions	(34)
Deduct amounts allocated to deemed loan distributions	(40)
 Benefits paid to Members per Form 5500	 \$ 202,271

Note 10. Party-in-Interest Transactions

Certain plan investments are in funds managed by the Trustee, certain subsidiaries of the Company and DB Advisors. Fees paid by the Plan for trustee, custodial and investment management services amounted to \$765 for the year ended December 31, 2010. Fees paid by the Plan to a subsidiary of the Company pursuant to a group annuity contract issued by a subsidiary amounted to \$23 for the year ended December 31, 2010. In addition, certain Plan investments are shares of mutual funds that are sponsored by The Hartford and shares of HFSG's common stock. At December 31, 2010 and 2009, the Plan held 7,943,419 shares and 8,348,519 shares of common stock of HFSG with a cost basis of \$268,082 and \$281,215, respectively. During the year ended December 31, 2010, the Plan recorded dividend income from HFSG's common stock and The Hartford's mutual funds of \$12,908.

Note 11. Plan Merger

Effective January 1, 2009, PLANCO, a subsidiary of the Company, merged its Profit Sharing Plan into the Plan, resulting in the transfer of \$25,902 in net assets and \$801 in participant loans into the Plan. Assets were converted in-kind for the mutual funds offered in the Plan. Assets not offered in the Plan were liquidated and invested in the corresponding Vanguard Retirement Fund according to the Plan Member's age.

Note 12. Plan Amendments

Effective October 1, 2010, the definition of the term "Service" in the Plan was amended to include periods of employment by an employee with Xchanging prior to October 1, 2010, so long as such employee becomes employed by The Hartford during October, 2010 under the September 15, 2010 agreement for Oasis Outsourcing immediately following employment with Xchanging.

Effective January 1, 2010, the Plan was amended to restrict "roundtrip transactions," that is, generally, an exchange in and then out of an investment fund within a certain period of days.

In addition, the Plan was also amended to restrict hardship distributions to "safe harbor" hardships (i.e., the occurrence of certain specified events).

Effective January 1, 2009, the plan was amended so that compensation shall also include differential wage payments made to active duty Members of the uniformed services.

Effective January 1, 2007, the plan was amended by adding special vesting rules for death while performing qualified military service.

F-12

Table of Contents

Note 12. Plan Amendments (continued)

Effective January 1, 2007 and January 1, 2009, respectively, the Plan was amended to update the vesting rules and definition of compensation, respectively, to make technical changes in good faith compliance with the Heroes Earnings Assistance and Relief Tax Act of 2008.

Effective January 1, 2009, the name of The Hartford Financial Services Group, Inc. Stock Fund was changed to The Hartford Stock Fund.

Effective January 16, 2009, Evercore Wealth Management LLC was named as the fiduciary responsible for The Hartford Stock Fund and investment manager of common stock of the Company held by The Hartford Stock Fund. Evercore Trust Company, N.A. subsequently replaced Evercore Wealth Management LLC as fiduciary for The Hartford Stock Fund, effective June 1, 2009.

Effective March 26, 2009 The Hartford Global Health HLS Fund was no longer available under the Plan. The Hartford Global Health HLS Fund was removed from the Plan in conjunction with the addition, in April 2009, of two new equity investment options, the Columbus Circle Large Cap Growth Fund and the RS Partners Y Fund, a small cap blend fund.

In connection with the above two new fund offerings, the Plan was amended effective March 31, 2009 to allow the investment of Floor contributions in an investment fund designated by the Investment and Savings Plan Investment Committee pending allocation of those Floor contributions to Member accounts.

Effective November 11, 2009, five new Target Retirement funds were added to the Plan. The funds added were the Vanguard Target Retirement 2010 Fund, the Vanguard Target Retirement 2020 Fund, the Vanguard Target Retirement 2030 Fund, the Vanguard Target Retirement 2040 Fund and the Vanguard Target Retirement 2050 Fund.

Note 13. Subsequent Events

For the year ended December 31, 2010, subsequent events were evaluated through the date the financial statements were issued. Effective June 1, 2011, The Dreyfus Corporation (Dreyfus), an affiliate of BNY Mellon Asset Management, will assume manager responsibilities for the Stable Value Fund.
