**PERMIAN BASIN ROYALTY TRUST
PART I FINANCIAL INFORMATION**

Item 1. Financial Statements

The condensed financial statements included herein have been prepared by Bank of America, N.A. as Trustee for the Permian Basin Royalty Trust, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements have been condensed or omitted pursuant to such rules and regulations, although the Trustee believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed financial statements and notes thereto be read in conjunction with the financial statements and the notes thereto included in the Trust's latest annual report on Form 10-K. In the opinion of the Trustee, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the assets, liabilities and trust corpus of the Permian Basin Royalty Trust at September 30, 2011, the distributable income for the three-month and nine-month periods ended September 30, 2011 and 2010 and the changes in trust corpus for the nine-month periods ended September 30, 2011 and 2010, have been included. The distributable income for such interim periods is not necessarily indicative of the distributable income for the full year.

The condensed financial statements as of September 30, 2011, and for the three-month and nine-month periods ended September 30, 2011 and 2010 included herein have been reviewed by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report appearing herein.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Unit Holders of Permian Basin Royalty Trust and

Bank of America, N.A., Trustee

Dallas, Texas

We have reviewed the accompanying condensed statement of assets, liabilities and trust corpus of Permian Basin Royalty Trust (the Trust) as of September 30, 2011, and the related condensed statements of distributable income for the three-month and nine-month periods ended September 30, 2011 and 2010 and changes in trust corpus for the nine-month periods ended September 30, 2011 and 2010. These condensed financial statements are the responsibility of the Trustee.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

As described in Note 1 to the condensed financial statements, these condensed financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed interim financial statements for them to be in conformity with the basis of accounting described in Note 1.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of assets, liabilities, and trust corpus of Permian Basin Royalty Trust as of December 31, 2010, and the related statements of distributable income and changes in trust corpus for the year then ended (not presented herein); and in our report dated March 1, 2011, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying condensed statement of assets, liabilities, and trust corpus as of December 31, 2010, is fairly stated, in all material respects, in relation to the statement of assets, liabilities and trust corpus from which it has been derived.

PERMIAN BASIN ROYALTY TRUST

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF ACCOUNTING

The Permian Basin Royalty Trust (Trust) was established as of November 1, 1980. The net overriding royalties conveyed to the Trust include: (1) a 75% net overriding royalty carved out of Southland Royalty Company's fee mineral interests in the Waddell Ranch in Crane County, Texas (the Waddell Ranch properties); and (2) a 95% net overriding royalty carved out of Southland Royalty Company's major producing royalty interests in Texas (the Texas Royalty properties). The net overriding royalty for the Texas Royalty properties is subject to the provisions of the lease agreements under which such royalties were created. The financial statements of the Trust are prepared on the following basis:

Royalty income recorded for a month is the amount computed and paid to Bank of America, N.A. (Trustee) as Trustee for the Trust by the interest owners: Burlington Resources Oil & Gas Company LP (BROG), a subsidiary of ConocoPhillips for the Waddell Ranch properties and Riverhill Energy Corporation (Riverhill Energy), formerly a wholly owned subsidiary of Riverhill Capital Corporation (Riverhill Capital) and formerly an affiliate of Coastal Management Corporation (CMC), for the Texas Royalty properties. Schlumberger Technology Corporation (STC) currently conducts all field, technical and accounting operations on behalf of BROG with regard to the Waddell Ranch properties. Riverhill Energy currently conducts the accounting operations for the Texas Royalty properties. Royalty income consists of the amounts received by the owners of the interest burdened by the net overriding royalty interests (Royalties) from the sale of production less accrued production costs, development and drilling costs, applicable taxes, operating charges, and other costs and deductions multiplied by 75% in the case of the Waddell Ranch properties and 95% in the case of the Texas Royalty properties.

In February 1997, BROG sold its interest in the Texas Royalty properties to Riverhill Energy.

The Trustee was advised that in the first quarter of 1998, STC acquired all of the shares of stock of Riverhill Capital. Prior to such acquisition by STC, CMC and Riverhill Energy were wholly owned subsidiaries of Riverhill Capital. The Trustee was further advised that in connection with STC's acquisition of Riverhill Capital, the shareholders of Riverhill Capital acquired ownership of all of the shares of stock of Riverhill Energy. Thus, the ownership in the Texas Royalty properties referenced above remained in Riverhill Energy, the stock ownership of which was acquired by the former shareholders of Riverhill Capital.

In 2007 the Bank of America private wealth management group officially became known as U.S. Trust, Bank of America Private Wealth Management. The legal entity that serves as Trustee of the Trust did not change, and references in this Form 10-Q to U.S.

Table of Contents

Trust, Bank of America Private Wealth Management shall describe the legal entity Bank of America, N.A. Trust expenses recorded are based on liabilities paid and cash reserves established out of cash received or borrowed funds for liabilities and contingencies.

Distributions to Unit holders are recorded when declared by the Trustee.

Royalty income is computed separately for each of the conveyances under which the Royalties were conveyed to the Trust. If monthly costs exceed revenues for any conveyance (excess costs), such excess costs cannot reduce royalty income from other conveyances, but is carried forward with accrued interest to be recovered from future net proceeds of that conveyance.

The financial statements of the Trust differ from financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) because revenues are not accrued in the month of production and certain cash reserves may be established for contingencies which would not be accrued in financial statements prepared in accordance with GAAP. Amortization of the Royalties calculated on a unit-of-production basis is charged directly to trust corpus. This comprehensive basis of accounting other than GAAP corresponds to the accounting permitted for royalty trusts by the U.S. Securities and Exchange Commission as specified by Staff Accounting Bulletin Topic 12:E, Financial Statements of Royalty Trusts.

Use of Estimates

The preparation of financial statements in conformity with the basis of accounting described above requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues and expenses as of and for the reporting period. Actual results may differ from such estimates.

2. FEDERAL INCOME TAXES

For federal income tax purposes, the Trust constitutes a fixed investment trust which is taxed as a grantor trust. A grantor trust is not subject to tax at the trust level. The Unit holders are considered to own the Trust's income and principal as though no trust were in existence. The income of the Trust is deemed to have been received or accrued by each Unit holder at the time such income is received or accrued by the Trust and not when distributed by the Trust.

The Royalties constitute economic interests in oil and gas properties for federal income tax purposes. Unit holders must report their share of the revenues from the Royalties as ordinary income from oil and gas royalties and are entitled to claim depletion with respect to such income.

The Trust has on file technical advice memoranda confirming the tax treatment described above.

Table of Contents

The classification of the Trust's income for purposes of the passive loss rules may be important to a Unit holder. Royalty income generally is treated as portfolio income and does not offset passive losses.

Some Trust Units are held by middlemen, as such term is broadly defined in U.S. Treasury Regulations (and includes custodians, nominees, certain joint owners, and brokers holding an interest for a customer in street name, collectively referred to herein as "middlemen"). Therefore, the Trustee considers the Trust to be a non-mortgage widely held fixed investment trust ("WHFIT") for U.S. federal income tax purposes. U.S. Trust, Bank of America Private Wealth Management, EIN: 56-0906609, 901 Main Street, 17th Floor, Dallas, Texas 75202, telephone number (214) 209-2400, is the representative of the Trust that will provide tax information in accordance with applicable U.S. Treasury Regulations governing the information reporting requirements of the Trust as a WHFIT. Tax information is also posted by the Trustee at www.pbt-permianbasintrust.com. Notwithstanding the foregoing, the middlemen holding Trust Units on behalf of Unit holders, and not the Trustee of the Trust, are solely responsible for complying with the information reporting requirements under the U.S. Treasury Regulations with respect to such Trust Units, including the issuance of IRS Forms 1099 and certain written tax statements. Unit holders whose Trust Units are held by middlemen should consult with such middlemen regarding the information that will be reported to them by the middlemen with respect to the Trust Units.

Unit holders should consult their tax advisors regarding Trust tax compliance matters.

3. STATE TAX CONSIDERATIONS

All revenues from the Trust are from sources within Texas, which has no individual income tax. However, Texas imposes a franchise tax on generally all entity types providing limited liability protection at a rate of 1% on gross revenues less certain deductions, as specifically set forth in the Texas franchise tax statute. Entities subject to tax generally include trusts unless otherwise exempt. Trusts that receive at least 90% of their federal gross income from designated passive sources, including royalties from mineral properties and other non-operated mineral interest income, and that do not receive more than 10% of their income from operating an active trade or business generally are exempt from the Texas franchise tax as "passive entities." The Trust should be exempt from Texas franchise tax as a passive entity. Since the Trust should be exempt from Texas franchise tax at the Trust level as a passive entity, each Unit holder that is considered a taxable entity under the Texas franchise tax will generally be required to include its portion of Trust revenues in its own Texas franchise tax computation. This revenue is sourced to Texas under provisions of the Texas Administrative Code sourcing such income according to the principal place of business of the Trust, which is Texas.

Unit holders should consult their tax advisors regarding state tax requirements, if any, applicable to such Unit holder's ownership of Trust units.

4. SUBSEQUENT EVENTS

Subsequent to September 30, 2011, the Trust declared a distribution on October 21, 2011 of \$.104152 per unit payable on November 15, 2011, to Unit holders of record on October 31,

Table of Contents

2011. \$474,480 of proceeds from the Waddell Ranch properties was withheld by ConocoPhillips (and therefore not included in the distribution) relating to a claimed overpayment for prior periods. See Note 5 for additional detail.

5. CONTINGENCIES

Contingencies related to the Underlying Properties that are unfavorably resolved would generally be reflected by the Trust as reductions to future royalty income payments to the Trust with corresponding reductions to cash distributions to Unit holders.

On May 2, 2011, ConocoPhillips, as the parent company of BROG, the operator of the Waddell Ranch properties, notified the Trustee that as a result of inaccuracies in ConocoPhillips' accounting and record keeping relating to the Trust's interest in proceeds from the gas plant production since January 2007, ConocoPhillips overpaid the Trust approximately \$5.9 million. ConocoPhillips informed the Trustee on September 20, 2011 that it was withholding \$4,068,067 (all of the Waddell Ranch portion of the September, 2011 proceeds, which would be reflective of July, 2011 production, of approximately 29,796 bbls of oil and 180,425 mcf of gas) in order to recoup this claim. This affected the Trust's distribution declared September 20, 2011 and paid October 17, 2011. ConocoPhillips also withheld \$474,480 from the proceeds for October, 2011, which ConocoPhillips has informed the Trustee completes the recoupment. Additionally, ConocoPhillips informed the Trustee that beginning with the June 2011 distribution, proceeds to the Trust relating to the gas plant production have been adjusted to reflect ConocoPhillips calculation of the corrected interest.

The Trustee is continuing to evaluate the claim.

* * * * *

Item 2. Trustee's Discussion and Analysis

Forward Looking Information

Certain information included in this report contains, and other materials filed or to be filed by the Trust with the Securities and Exchange Commission (as well as information included in oral statements or other written statements made or to be made by the Trust) may contain or include, forward looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. Such forward looking statements may be or may concern, among other things, capital expenditures, drilling activity, development activities, production efforts and volumes, hydrocarbon prices and the results thereof, and regulatory matters. Although the Trustee believes that the expectations reflected in such forward-looking statements are reasonable, such expectations are subject to numerous risks and uncertainties and the Trustee can give no assurance that they will prove correct. There are many factors, none of which are within the Trustee's control, that may cause such expectations not to be realized, including, among other things, factors such as actual oil and gas prices and the recoverability of reserves, capital expenditures, general economic conditions, actions and policies of petroleum-producing nations and other changes in the domestic and international energy markets. Such forward looking statements generally are accompanied by

Table of Contents

words such as estimate, expect, predict, anticipate, goal, should, assume, believe, or other words that convey uncertainty of future events or outcomes.

Three Months Ended September 30, 2011 Compared to Three Months Ended September 30, 2010

For the quarter ended September 30, 2011 royalty income received by the Trust amounted to \$14,879,902 compared to royalty income of \$16,016,241 during the third quarter of 2010. The decrease in royalty income is primarily attributable to the withholding of \$4,068,067 of proceeds by ConocoPhillips related to a claimed overpayment for prior periods with respect to the Waddell Ranch properties as well as decreases in both oil and gas production, offset by increases in both oil and gas prices.

Interest income for the quarter ended September 30, 2011, was \$157 compared to \$420 during the third quarter of 2010. The decrease in interest income is primarily attributable to lower interest rates. General and administrative expenses during the third quarter of 2011 amounted to \$150,178 compared to \$124,056 during the third quarter of 2010. The increase in general and administrative expenses can be primarily attributed to timing of payment of expenses.

These transactions resulted in distributable income for the quarter ended September 30, 2011 of \$14,729,881 or \$.32 per Unit of beneficial interest. Distributions of \$.148472, \$.117780 and \$.049779 per Unit were made to Unit holders of record as of July 29, 2011, August 31, 2011 and September 30, 2011, respectively. For the third quarter of 2010, distributable income was \$15,892,605, or \$.340979 per Unit of beneficial interest.

Royalty income for the Trust for the third quarter of the calendar year is associated with actual oil and gas production for the period of May, June and July of 2011 from the properties from which the Trust's net overriding royalty interests (Royalties) were carved. Oil and gas sales attributable to the Royalties and the properties from which the Royalties were carved are as follows:

	Third Quarter	
	2011	2010
Production:		
Oil sales (Bbls)	125,747	168,282
Gas sales (Mcf)	413,816	763,886
Product Sales From Which The Royalties Were Carved:		
Oil:		
Total oil sales (Bbls)	191,190	256,478
Average per day (Bbls)	2,078	2,788
Average price per Bbl	\$ 94.11	\$ 69.56
Gas:		
Total gas sales (Mcf)	742,437	1,318,837
Average per day (Mcf)	8,070	14,335
Average price per Mcf	\$ 8.52	\$ 6.45

Table of Contents

The average received price of oil increased to an average price per barrel of \$94.11 per Bbl in the third quarter of 2011 compared to \$69.56 per Bbl in the third quarter of 2010 due to worldwide market variables. The Trustee has been advised by ConocoPhillips that for the period of August 1, 1993, through September 30, 2011, the oil from the Waddell Ranch properties was being sold under a competitive bid to a third party. The average price of gas increased from \$6.45 per Mcf in the third quarter of 2010 to \$8.52 per Mcf in the third quarter of 2011 due to change in overall market variables.

Since the oil and gas sales attributable to the Royalties are based on an allocation formula that is dependent on such factors as price and cost (including capital expenditures), the production amounts in the Royalties section of the above table do not provide a meaningful comparison. Oil sales volumes decreased and gas sales volumes decreased from the Underlying Properties (as defined in the Trust's Annual Report on Form 10-K for the year ended December 31, 2010) for the applicable period in 2011 compared to 2010.

Capital expenditures for drilling, remedial and maintenance activities on the Waddell Ranch properties during the third quarter of 2011 totaled \$2.5 million as compared to \$366,440 to the Trust for the third quarter of 2010.

ConocoPhillips has informed the Trustee that the 2011 capital expenditures budget has been revised to \$23 million (gross) for the Waddell Ranch properties. The total amount of capital expenditures for 2010 was \$12.0 million.

Through the third quarter of 2011, capital expenditures of \$17.9 million (gross) have been expended.

The Trustee has been advised that there were 0 wells completed and 0 wells in progress, and 11 workover wells completed and 9 workover wells in progress, during the three months ended September 30, 2011 as compared to 0 wells completed and 11 wells in progress, and 2 workover wells completed and 13 workover wells in progress for the three months ended September 30, 2010 on the Waddell Ranch properties. There were 0 facility projects completed and 18 projects in progress for the third quarter of 2011.

Lease operating expenses and property taxes totaled \$5.1 million for the third quarter of 2011, compared to \$4.7 million in the third quarter of 2010 on the Waddell Ranch properties. This increase is primarily attributable to increased costs of services.

Nine Months Ended September 30, 2011 Compared to Nine Months Ended September 30, 2010

For the nine months ended September 30, 2011, royalty income received by the Trust amounted to \$50,076,877 compared to royalty income of \$50,969,184 for the nine months ended September 30, 2010. The decrease in royalty income is primarily due to the withholding of \$4,068,067 of proceeds by ConocoPhillips related to a claimed overpayment for prior periods with respect to the Waddell Ranch properties partially offset by an increase in oil and gas prices in the first nine months of 2011, compared to the first nine months in 2010. Interest income for the nine months ended September 30, 2011 was \$521 compared to \$808 for the nine months ended September 30, 2010. The decrease in interest income is attributable primarily to significantly lowered interest rates. General and administrative expenses for the nine months ended September 30, 2011 were \$992,629. During the nine months ended September 30, 2010, general and administrative expenses were \$987,391. The increase in general and administrative expenses is primarily due to increased Unit holder reporting and other professional expenses.

Table of Contents

These transactions resulted in distributable income for the nine months ended September 30, 2011 of \$49,084,769, or \$1.05, per Unit. For the nine months ended September 30, 2010, distributable income was \$49,982,601, or \$1.07, per Unit.

Royalty income for the Trust for the nine months ended September 30, 2011 is associated with actual oil and gas production for the period November 2010 through July 2011 from the properties from which the Royalties were carved. Oil and gas production attributable to the Royalties and the properties from which the Royalties were carved are as follows:

	Nine Months Ended	
	2011	2010
Royalties:		
Oil sales (Bbls)	432,352	506,837
Gas sales (Mcf)	1,708,150	2,292,284
Properties From Which The Royalties Were Carved:		
Oil:		
Total oil sales (Bbls)	692,907	776,746
Average per day (Bbls)	2,538	2,845
Average price per Bbl	\$ 89.88	\$ 72.91
Gas:		
Total gas sales (Mcf)	3,212,146	3,958,768
Average per day (Mcf)	11,766	14,501
Average price per Mcf	\$ 7.59	\$ 6.95

The average received price of oil increased during the nine months ended September 30, 2011 to \$89.88 per barrel compared to \$72.91 per barrel for the same period in 2010. The increase in the average price of oil is primarily due to worldwide market variables. The increase in the average price of gas from \$6.95 per Mcf for the nine months ended September 30, 2010 to \$7.59 per Mcf for the nine months ended September 30, 2011 is primarily the result of an increase in the spot prices of natural gas.

Since the oil and gas sales volumes attributable to the Royalties are based on an allocation formula that is dependent on such factors as price and cost (including capital expenditures), the production amounts in the Royalties section of the above table do not provide a meaningful comparison. The oil and gas sales volumes from the properties from which the Royalties are carved have declined for the applicable period of 2011 compared to 2010.

Capital expenditures for the Waddell Ranch properties for the nine months ended September 30, 2011 totaled \$8.2 million compared to \$1.6 million net to the Trust for the same period in 2010. ConocoPhillips has previously advised the Trust that the remaining 2011 capital expenditures budget for the Waddell Ranch properties is \$5.1 million (gross).

The Trustee has been advised that 4 wells were drilled and completed and 0 wells were to be completed on the Waddell Ranch properties during the nine months ended September 30, 2011,

Table of Contents

as compared to 0 wells drilled and completed and 1 well to be completed on the Waddell Ranch properties during the nine months ended September 30, 2010. Approximately 20 workover wells were completed and approximately 9 workover wells were in progress as of September 30, 2011. Approximately 0 facilities projects were completed and 18 facilities projects were in progress.

Lease operating expense and property taxes totaled \$14.7 million for the nine months ended September 30, 2011 compared to \$12.1 million for the same period in 2010. The increase in lease operating expense is primarily attributable to increased costs of services.

Calculation of Royalty Income

The Trust's royalty income is computed as a percentage of the net profit from the operation of the properties in which the Trust owns net overriding royalty interests. These percentages of net profits are 75% and 95% in the case of the Waddell Ranch properties and the Texas Royalty properties, respectively. Royalty income received by the Trust for the three months ended September 30, 2011 and 2010, respectively, were computed as shown in the table below:

	Three Months Ended September 30,			
	2011		2010	
	Waddell Ranch Properties	Texas Royalty Properties	Waddell Ranch Properties	Texas Royalty Properties
Gross proceeds of sales from the Underlying Properties				
Oil proceeds	\$ 10,837,042	\$ 7,156,526	\$ 12,343,193	\$ 5,496,900
Gas proceeds	5,037,905	1,289,581	7,333,630	1,168,823
Total	15,874,947	8,446,107	19,676,823	6,665,723
Less:				
Severance tax:				
Oil	445,640	273,326	491,195	177,759
Gas	263,532	62,282	363,863	68,120
Lease operating expenses and property tax:				
Oil and gas	3,163,355	420,000	4,776,138	360,000
Other	39,848			
Capital expenditures	1,864,001		366,441	
Total	5,776,376	755,608	5,997,637	605,879
Net profits	10,098,571	7,690,499	13,679,186	6,059,844
Net overriding royalty interests	75%	95%	75%	95%
Royalty income	7,573,928	7,305,974	10,259,389	5,756,852

Critical Accounting Policies and Estimates

The Trust's financial statements reflect the selection and application of accounting policies that require the Trust to make significant estimates and assumptions. The following are some of the more critical judgment areas in the application of accounting policies that currently affect the Trust's financial condition and results of operations.

Basis of Accounting

The financial statements of the Trust are prepared on a modified cash basis and are not intended to present financial positions and results of operations in conformity with accounting principles generally accepted in the United States of America (GAAP). Preparation of the Trust's financial statements on such basis includes the following:

Royalty income and interest income are recorded in the period in which amounts are received by the Trust rather than in the period of production and accrual, respectively.

General and administrative expenses recorded are based on liabilities paid and cash reserves established out of cash received.

Amortization of the royalty interests is calculated on a unit-of-production basis and charged directly to trust corpus when revenues are received.

Distributions to Unit holders are recorded when declared by the Trustee (see Note 1 to the Financial Statements).

The financial statements of the Trust differ from financial statements prepared in accordance with accounting principles generally accepted in the United States of America because royalty income is not accrued in the period of production, general and administrative expenses recorded are based on liabilities paid and cash reserves established rather than on accrual basis, and amortization of the royalty interests is not charged against operating results. This comprehensive basis of accounting other than GAAP corresponds to the accounting permitted for royalty trusts by the U.S. Securities and Exchange Commission as specified by Staff Accounting Bulletin Topic 12:E, Financial Statements of Royalty Trusts.

Revenue Recognition

Revenues from the royalty interests are recognized in the period in which amounts are received by the Trust. Royalty income received by the Trust in a given calendar year will generally reflect the proceeds, on an entitlement basis, from natural gas produced and sold for the twelve-month period ended October 31st in that calendar year. Royalty income received by the Trust in the third quarter of 2011 generally reflects the proceeds associated with actual oil and gas production for the period of May through July 2011.

Reserve Disclosure

As of January 1, 2011, independent petroleum engineers estimated the net proved reserves attributable to the royalty interests. Estimates of future net revenues from proved reserves have been prepared using average 12-month oil and gas prices, determined as an unweighted

Table of Contents

arithmetic average of the first-day-of-the-month price for each month within the 12-month period preceding the end of the most recent fiscal year, unless prices are defined by contractual arrangements. Numerous uncertainties are inherent in estimating volumes and the value of proved reserves and in projecting future production rates and the timing of development of non-producing reserves.

Such reserve estimates are subject to change as additional information becomes available. The reserves actually recovered and the timing of production may be substantially different from the reserves estimates.

Contingencies

Contingencies related to the Underlying Properties that are unfavorably resolved would generally be reflected by the Trust as reductions to future royalty income payments to the Trust with corresponding reductions to cash distributions to Unit holders.

On May 2, 2011, ConocoPhillips, as the parent company of BROG, the operator of the Waddell Ranch properties, notified the Trustee that as a result of inaccuracies in ConocoPhillips' accounting and record keeping relating to the Trust's interest in proceeds from the gas plant production since January 2007, ConocoPhillips overpaid the Trust approximately \$5.9 million. ConocoPhillips informed the Trustee on September 20, 2011 that it was withholding \$4,068,067 (all of the Waddell Ranch portion of the September, 2011 proceeds, which would be reflective of July, 2011 production, of approximately 29,796 bbls of oil and 180,425 mcf of gas) in order to recoup this claim. This affected the Trust's distribution declared September 20, 2011 and paid October 17, 2011. ConocoPhillips also withheld \$474,480 from the proceeds for October, 2011, which ConocoPhillips has informed the Trustee completes the recoupment. Additionally, ConocoPhillips informed the Trustee that beginning with the June 2011 distribution, proceeds to the Trust relating to the gas plant production have been adjusted to reflect ConocoPhillips' calculation of the corrected interest.

The Trustee is continuing to evaluate the claim.

Use of Estimates

The preparation of financial statements in conformity with the basis of accounting described above requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues and expenses as of and for the reporting period. Actual results may differ from such estimates.

Item 3. Qualitative and Quantitative Disclosures About Market Risk

There have been no material changes in the Trust's market risk, as disclosed in the Trust's Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

Table of Contents

Item 4. Controls and Procedures

As of the end of the period covered by this report, the Trustee carried out an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Trustee concluded that the Trust's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Trust in the reports that it files or submits under the Securities Exchange Act of 1934 and are effective in ensuring that information required to be disclosed by the Trust in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the Trustee to allow timely decisions regarding required disclosure. In its evaluation of disclosure controls and procedures, the Trustee has relied, to the extent considered reasonable, on information provided by Burlington Resources Oil & Gas Company LP, the owner of the Waddell Ranch properties, and Riverhill Energy Corporation, the owner of the Texas Royalty properties. There has not been any change in the Trust's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting.
