NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions in Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and adjustments) considered necessary for a fair presentation of the condensed consolidated financial statements have been included. Results for interim periods should not be considered indicative of results to be expected for a full year. Reference should be made to the consolidated financial statements contained in our Annual Report on Form 10-K for the fiscal year ended February 24, 2006 (Form 10-K) as amended by the Form 10-K/A, filed with the U.S. Securities and Exchange Commission on July 12, 2006. As used in this Report, unless otherwise expressly stated or the content otherwise requires, all references to Steelcase, we, our, Company and similar references are to Steelcase Inc. and its consolidated subsidiaries.

Unless the context otherwise indicates, reference to a year relates to the fiscal year, ended in February of the year indicated, rather than the calendar year. Additionally, Q3, Q2 and Q1 reference the third, second, and first quarter, respectively, of the fiscal year indicated. All amounts are in millions, except per share data, data presented as a percentage or unless otherwise indicated.

Certain amounts in the prior year's financial statements have been reclassified to conform to the current year presentation.

2. NEW ACCOUNTING STANDARDS

FIN No. 48

In July 2006, the Financial Accounting Standards Board (FASB) adopted FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for financial statement recognition of positions taken or expected to be taken in income tax returns. Only tax positions meeting a more-likely-than-not threshold of being sustained are recognized under FIN 48. FIN 48 also provides guidance on derecognition, classification of interest and penalties and accounting and disclosures for annual and interim financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006. The cumulative effect of the changes arising from the initial application of FIN 48 is required to be reported as an adjustment to the opening balance of retained earnings in the period of adoption. We are currently evaluating the impact, if any, of the adoption of FIN 48 on our financial statements, and we expect to adopt FIN 48 in 2008.

EITF Issue No. 04-5

In June 2005, the Emerging Issues Task Force (EITF) reached a consensus on EITF Issue No. 04-5, Investor's Accounting for an Investment in a Limited Partnership When the Investor is the Sole General Partner and the Limited Partners Have Certain Rights (EITF 04-5), which states that the general partner in a limited partnership should

presume that it controls and, thus, should consolidate the limited partnership, unless the limited partners have either (a) substantive ability to dissolve the limited partnership or otherwise remove the general partner without cause or (b) substantive participating rights. EITF 04-5 was effective for the first reporting period in fiscal years beginning after December 15, 2005. As a result of adopting EITF 04-5, during Q2 2007 we began consolidating certain non-furniture partnerships related to one of our consolidated dealers that were not previously

consolidated. The impact of the consolidation increased our year-to-date 2007 revenue by \$12.5 and operating income by \$1.2. The equity interest we hold does not share in the net income of the subsidiary, per the subsidiary's operating agreement. The impact of consolidating these businesses did not have a material impact on our financial statements.

SFAS No. 123(R)

At the beginning of 2007, we adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 123(R), *Share-Based Payment (revised 2004)*, using the modified prospective transition method. The adoption of SFAS No. 123(R) had the following year-to-date impact in 2007: *Income before income tax expense* was reduced by \$1.1, *Net income* was reduced by \$0.7, *Net cash* provided by operating activities was reduced by \$2.2 and *Net cash used in financing activities* was increased by \$2.2. There was no impact on basic or diluted earnings per share.

On November 10, 2005, the FASB issued FASB Staff Position (FSP) 123(R)-3, *Transition Election Related to Accounting for Tax Effects of Share-Based Payment Awards*, that provides a practical transition election related to accounting for the tax effects of share-based payment awards to employees. The alternative transition method includes simplified methods to establish the beginning balance of the additional paid-in capital pool (APIC pool) related to the tax effects of employee share-based compensation, and to determine the subsequent impact on the APIC pool and Consolidated Statements of Cash Flows of the tax effects of employee share-based compensation awards that are outstanding upon adoption of SFAS No. 123(R). We are in the process of evaluating whether to adopt the provisions of FSP 123(R)-3 and will make our election before the end of 2007.

Prior to the adoption of SFAS No. 123(R), our policy was to expense stock-based compensation using the fair-value based method of accounting for all awards granted, modified or settled in accordance with SFAS No. 123, *Accounting for Stock-Based Compensation*. Prior to 2004, our stock-based compensation consisted only of stock options, and we accounted for them under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations. Given the terms of the plans, no stock-based employee compensation cost was recognized, as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant.

The following table details the effect on net income and earnings per share had stock-based compensation expense been recorded for the three and nine months ended November 24, 2005 based on the fair-value method under SFAS No. 123, *Accounting for Stock-Based Compensation*:

Table of Contents

(Unaudited)

SFAS No. 123 Pro Forma Data	Three Months Ended November 25, 2005	Nine Months Ended November 25, 2005
Net income, as reported	\$ 19.1	\$ 39.6
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	0.7	2.1
Deduct: Total stock-based employee compensation expense determined under the fair value based method for all awards, net of related tax effects	(0.7)	(2.3)
Pro forma net income	\$ 19.1	\$ 39.4
Earnings per share:		
Basic and diluted as reported	\$ 0.13	\$ 0.27
Basic and diluted pro forma	\$ 0.13	\$ 0.27

The reported and pro forma net income and earnings per share for the three and nine month periods ended November 24, 2006 are the same because stock-based compensation expense was calculated and recorded in the financial statements in accordance with the provisions of SFAS No. 123(R).

SFAS No. 157

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. This statement clarifies the definition of fair value, establishes a framework for measuring fair value, and expands the disclosures on fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. We have not determined the effect, if any, the adoption of this statement will have on our results of operations or financial position.

SFAS No. 158

In September 2006, the FASB adopted Statement of Financial Accounting Standards No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 106, and 132[®]. SFAS No. 158 requires companies to recognize a net liability or asset and an offsetting adjustment to accumulated other comprehensive income to report the funded status of defined benefit pension and other postretirement benefit plans. Additionally, SFAS No. 158 requires companies to measure plan assets and obligations at their year-end balance sheet date. We plan to adopt this statement at the end of 2007.

Based on our funded status of plan obligations disclosed in Note 8 of our Annual Report on Form 10-K, as amended, for the year ended February 24, 2006, the estimated impact of adopting SFAS No. 158 would have been an increase to accumulated other comprehensive income within stockholders' equity of approximately \$10 million. In addition, during Q3 2007, we reduced our survivor benefit coverage under the Steelcase Inc. Employee Benefit Plan, which would have an additional impact of increasing accumulated other comprehensive income by approximately

\$12 million (see Note 8).

(Unaudited)

SAB No. 108

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (SAB 108). SAB 108 provides guidance on how prior year misstatements should be taken into consideration when quantifying misstatements in current year financial statements for purposes of determining whether the current year's financial statements are materially misstated. SAB 108 is effective for our fiscal year ending February 23, 2007. We do not expect the adoption of SAB 108 to have a material impact on our financial statements.

3. ACQUISITION AND DECONSOLIDATION

In September 2006, we acquired 100% of the common stock of Softcare Innovations, Inc., and its sister company, DJRT Manufacturing, Inc. (collectively *Softcare*), for \$13.6 in cash. As a result of the purchase price allocation, we recorded intangible assets of \$5.5 and goodwill of \$6.6. The acquisition of these companies is part of our strategy to grow our healthcare division, Nurture by Steelcase. Softcare has a portfolio of patient room casegoods and healthcare seating products that will expand Nurture's ability to provide holistic solutions for its customers. We expect to finalize the allocation of the purchase price to the fair value of the assets acquired and liabilities assumed in Q1 2008 when we obtain information sufficient to complete the working capital adjustments, but in any case, within one year after acquisition. The purchase of Softcare did not have a material impact on our financial statements.

During Q3 2007, a consolidated variable interest dealer paid off its transition financing and equity balances, resulting in a non-operating gain of \$3.6. The payoff required us to reconsider the consolidation of this dealer under FASB Interpretation No. 46(R), *Consolidation of Variable Interest Entities*. As a result, we determined that we were no longer the primary beneficiary, and we deconsolidated the dealer. Our year-to-date consolidated financial statements include \$13.1 of revenue, \$7.6 of gross profit, \$5.2 of operating expenses, \$2.4 of operating income, and (\$2.4) of other income, net, related to the consolidated dealer. There was no impact on net income because the equity interest we held did not share in the net income of the subsidiary, per the subsidiary's operating agreement.

4. EARNINGS PER SHARE

Components of Earnings Per Share	Three Months Ended		Nine Months Ended	
	November 24, 2006	November 25, 2005	November 24, 2006	November 25, 2005

Edgar Filing: STEELCASE INC - Form 10-Q

Denominator for diluted EPS	149.2	148.7	150.3	148.6
-----------------------------	-------	-------	-------	-------

Basic earnings per share is based on the weighted average number of shares of common stock outstanding during each period. It excludes the dilutive effects of additional common shares that would

Table of Contents

STEELCASE INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

have been outstanding if the shares under our stock incentive plans had been issued and the dilutive effect of outstanding restricted shares to the extent those shares have not vested.

Diluted earnings per share reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock. However, diluted earnings per share does not reflect the effects of 1.1 million shares related to outstanding stock incentive plan awards as of November 24, 2006 and 5.8 million shares as of November 25, 2005 because those shares or potential shares were anti-dilutive.

5. COMPREHENSIVE INCOME

Comprehensive income is comprised of net income and all changes to shareholders' equity except those due to investments by, and distributions to, shareholders.

Components of Comprehensive Income	Three Months Ended		Nine Months Ended	
	November 24, 2006	November 25, 2005	November 24, 2006	November 25, 2005
Net income	\$ 32.8	\$ 19.1	\$ 77.6	\$ 39.6
Other comprehensive income (loss):				
Foreign currency translation	(2.2)	(11.7)	10.8	(19.1)
Derivative adjustments, net of tax		6.0	1.3	10.3
Minimum pension liability, net of tax	(0.1)	0.1	0.8	0.2
Total	(2.3)	(5.6)	12.9	(8.6)
Comprehensive income	\$ 30.5	\$ 13.5	\$ 90.5	\$ 31.0

In Q3 2007, the foreign currency translation loss was primarily due to a loss from the weakening of the Canadian dollar to the U.S. dollar, partially offset by the strengthening of the euro to the U.S. dollar. For the nine months ended November 24, 2006, the foreign currency translation income was primarily due to the strengthening of the Canadian dollar and euro to the U.S. dollar. Foreign currency translation losses in Q3 2006 and for the nine months ended November 25, 2005 were primarily due to the strengthening of the U.S. dollar against the euro.

6. INVENTORIES

Inventories are stated at the lower of cost or market. The North America segment primarily uses the last in, first out (LIFO) method to value its inventories. Companies in the Steelcase Design Partnership segment primarily use the first in, first out (FIFO) or the average cost inventory valuation methods. Companies in the International segment value their inventories using the FIFO method.

November 24, February 24,

Inventories		2006	2006
Finished goods	\$	94.3	\$ 87.2
Work in process		29.3	27.8
Raw materials		65.7	60.3

The portion of inventories determined by the LIFO method aggregated \$70.4 as of November 24, 2006 and \$61.9 as of February 24, 2006.

7. GOODWILL AND OTHER INTANGIBLE ASSETS

A summary of goodwill, by business segment and category, is as follows:

Goodwill by Business Segment and Category	February 24, 2006	Additions	Dispositions/ Adjustments	Currency Translation Adjustment	November 24, 2006
North America	\$ 43.7	\$ 6.6	\$ (1.6)	\$	\$ 48.7
International	42.1		(3.1)	3.1	42.1
Steelcase Design Partnership	63.1				63.1
Other	62.2				62.2
Total	\$ 211.1	\$ 6.6	\$ (4.7)	\$ 3.1	\$ 216.1

The addition to goodwill in North America relates to the acquisition of Softcare, which was completed during Q3 2007 (See Note 3).

As of November 24, 2006 and February 24, 2006, our other intangible assets and related accumulated amortization consisted of the following:

		November 24, 2006			February 24, 2006		
	Weighted Average Useful Lives (Years)		Accumulated			Accumulated	
Other Intangible Assets		Gross	Amortization	Net	Gross	Amortization	Net

Total Intangible Assets		\$ 126.8	\$ 51.0	\$ 75.8	\$ 121.6	\$ 47.9	\$ 73.7

The increase in other intangible assets relates primarily to the acquisition of Softcare, which was completed during Q3 2007 (See Note 3).

In Q3 2007 and Q3 2006, we recorded amortization expense of \$2.8 and \$2.2, respectively, on intangible assets subject to amortization. Through Q3 2007, we recorded amortization expense of \$7.2 as compared to \$6.5 through November 2005. Based on the current amount of intangible assets

subject to amortization, the estimated amortization expense for each of the following five fiscal years is as follows:

Year Ending February	Estimated Amortization Expense	Amount
2007		\$ 9.2
2008		8.2
2009		7.9
2010		5.5
2011		4.5

As events such as potential acquisitions, dispositions or impairments occur in the future, these amounts may change.

8. EMPLOYEE BENEFIT PLAN OBLIGATIONS

In connection with an amendment to the Steelcase Inc. Employee Benefit Plan, which reduced certain surviving spouse benefits, we remeasured our accumulated post-retirement benefit obligation (APBO) as of November 24, 2006. As a result of the remeasurement, the APBO decreased by \$18.6. In addition, the discount assumption was revised based on trends and recent experience from 5.7% in the February 24, 2006 valuation to 5.9% in the November 24, 2006 valuation.

During Q3, 2007, we received \$0.4 in Medicare Part D subsidy reimbursements. We do not have sufficient information to estimate the amount of any future proceeds for the remainder of 2007.

In August 2006, we issued \$250.0 of unsecured unsubordinated senior notes, due in August 2011 (2011 Notes). The 2011 Notes were priced at 99.715% of par value. The bond discount of \$0.7 and direct debt issue costs of \$1.9 were deferred and will be amortized over the life of the notes. Although the coupon rate of the 2011 Notes is 6.5%, the effective interest rate is 6.3% after taking into account the impact of the discount, offset by the deferred gain on interest rate locks related to the debt issuance. The 2011 Notes rank equally with all of our other unsecured unsubordinated indebtedness.

In September 2006, we redeemed \$250.0 of senior subordinated notes which were due in November 2006 at face value, plus \$4.9 of accrued interest and a \$0.4 make-whole premium.

10. RESTRUCTURING COSTS

During 2007, we incurred restructuring costs of \$10.8 in our North America segment as we continued the initiative to consolidate our North America manufacturing operations. We incurred restructuring costs of \$3.4 in our International segment which included an impairment related to our Strasbourg campus, which we exited in connection with previous restructuring activities, and severance charges related to the exit of certain other operations in Morocco and France.

Restructuring costs are summarized in the following table:

		Fiscal 2007			
		Three Months Ended			Nine months ended
Restructuring Costs		May 26, 2006	August 25, 2006	November 24, 2006	November 24, 2006

Steelcase Design Partnership		0.2	(0.1)	0.1	0.2
Total		\$ 0.2	\$ (0.1)	\$ 0.2	\$ 0.3

Below is a reconciliation of the restructuring reserve for activity during 2007:

	Restructuring reserve	Workforce Reductions	Business Exit and Related Costs	Total
Reserve balance as of February 24, 2006		\$ 3.9	\$ 7.0	\$ 10.9
Total restructuring costs		3.5	10.9	14.4

Non-cash and other adjustments		1.0	(5.7)	(4.7)
Reserve balance as of November 24, 2006		\$ 3.8	\$ 1.9	\$ 5.7

Non-cash and other adjustments incurred during 2007 primarily relate to asset impairment charges within our International and North America segments. The reserve balance as of November 24, 2006 for business exit and related costs primarily relates to lease termination costs within our International segment.

11. PRODUCT WARRANTY, GUARANTEES AND PERFORMANCE BONDS

Product Warranty

The accrued liability for warranty costs, included within other accrued expenses on the Condensed Consolidated Balance Sheets, is based on an estimated amount needed to cover future warranty obligations for products sold as of the balance sheet date and is determined by historical product data and management's knowledge of current events and actions.

	Product Warranty	Amount

Guarantees and Performance Bonds

The maximum amount of future payments (undiscounted and without reduction for any amounts that may possibly be recovered from third parties) we could be required to make under guarantees and performance bonds are as follows:

	November 24, 2006	February 24, 2006
Guarantees and Performance Bonds		
Performance bonds dealers and joint ventures	\$ 2.4	\$ 7.6
Guarantees with dealers and joint ventures	1.5	1.4
Guarantees other	0.7	1.0
 Total	 \$ 4.6	 \$ 10.0

We are party to performance bonds for certain installation or construction activities of certain Steelcase dealers and joint ventures. Under these agreements, we are liable to make financial payments if the installation or construction activities are not completed under their specified guidelines and claims are filed. Projects with performance bonds have completion dates ranging from one to five years. Where we have supplied performance bonds, we have the ability to step in and cure performance failures thereby mitigating our potential losses. No loss has been experienced under these performance bonds; however, reserves totaling \$0.2 are recorded as of November 24, 2006 to cover potential losses for performance bonds entered into subsequent to December 31, 2002.

We are contingently liable under guarantees to third parties for the benefit of certain Steelcase dealers and joint ventures in the event of default of a financial obligation. The guarantees generally have terms ranging from one to ten years. During Q3 2007, we paid \$0.1 under one guarantee. Reserves totaling \$0.3 are recorded as of November 24, 2006 to cover potential losses for loan and lease guarantees.

We occasionally provide guarantees of the performance of certain of our dealers to third parties. These performance guarantees typically relate to dealer services such as delivery and installation of products. In the event that a dealer cannot complete these services in a timely manner, we guarantee the completion of these activities. It is not possible to estimate a potential liability under these types of guarantees because of the conditional nature of our obligations and the unique facts and circumstances involved in each particular agreement.

13. STOCK INCENTIVE PLANS

Restricted Stock

Under the Steelcase Inc. Incentive Compensation Plan (the "Incentive Compensation Plan"), the Compensation Committee approved the granting of restricted shares of Class A Common Stock and restricted stock units ("RSUs") to

key employees. Restricted shares and RSUs will be forfeited if a participant leaves the Company for reasons other than retirement, disability or death prior to the vesting date. These restrictions lapse when the restricted shares and RSUs vest three years after the date of grant. When RSUs vest, they are converted to unrestricted shares of Class A Common Stock.

Prior to adopting SFAS 123(R), the aggregate market value on the grant date of the restricted shares was recorded as common stock and deferred compensation, a separate component of shareholders' equity. Upon adopting SFAS 123(R), the deferred compensation account was netted against common stock. Restricted shares are now expensed and recorded in common stock over the three-year vesting period based on the value of the shares on the grant date. RSUs are expensed and recorded in *Additional paid in capital* within the Condensed Consolidated Balance Sheets over the three-year vesting period based on the value of the shares on the grant date.

The restricted stock and RSU expense and associated tax benefit in 2007 and 2006 were as follows:

	Three Months Ended		Nine Months Ended	
	November 24,	November 25,	November 24,	November 25,
	2006	2005	2006	2005
Restricted stock and RSU expense	\$ 0.5	\$ 0.7	\$ 2.2	\$ 2.3
Tax benefit	0.2	0.3	0.8	0.9

Holders of restricted stock receive cash dividends equal to the dividends that the Company declares and pays on the Class A Common Stock, which is included in *Dividends paid* in the Condensed Consolidated Statements of Cash Flows. Holders of RSUs receive quarterly cash payments equal to the dividend that the Company declares and pays on its Class A Common Stock, which are expensed as paid.

Additionally, the Board of Directors and the Compensation Committee have delegated to the Chief Executive Officer the administrative authority to award restricted shares and RSUs to employees in amounts considered immaterial to the Incentive Compensation Plan. The awards are subject to limitations and the provisions of the Incentive Compensation Plan and are reviewed by the Compensation Committee. The limitations include, but are not limited to, the number of shares of restricted stock and RSUs that may be awarded in any plan year and the number of shares of restricted stock and RSUs that may be awarded to any individual in one plan year.

The 2007 activity for restricted shares of stock and RSUs is as follows:

	Restricted	Restricted	Total	Weighted
Nonvested Shares	Shares	Stock		Average
		Units		Grant Date
				Fair
				Value
Nonvested at February 24, 2006	660,000	121,750	781,750	\$ 12.47
Granted	31,100	10,000	41,100	\$ 17.09

Nonvested at November 24, 2006	395,650	95,250	490,900	\$ 13.83

As of November 24, 2006, there was \$2.1 of remaining unrecognized compensation cost related to restricted stock and RSUs. That cost is expected to be recognized over a weighted-average period of 1.3 years. The total fair value of shares and RSUs vested during Q3 and the first nine months of 2007 was \$0.3 and \$5.7, respectively. Under SFAS 123(R), grants to retiree-eligible employees are considered fully vested. No shares were vested prior to the adoption of SFAS 123(R) in Q1 2007.

Performance Shares and Performance Units

In Q1 2007, the Company made awards of performance shares and performance units (PSUs) under the Incentive Compensation Plan. The performance measures for the 2007 awards are based on a combination of a cumulative three-year cash flow calculation and average annual operating income for the three-year performance period. Both measures meet the definitions within the Incentive Compensation Plan for performance-based compensation. After completion of the performance period for these performance shares and PSUs, the number of the shares earned will be determined and issued as Class A Common Stock.

Table of Contents

STEELCASE INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

For performance shares and PSUs granted prior to 2007, the number of shares earned will be determined after completion of the applicable three-year performance period. One-third of the shares vest at the end of the performance period and the remaining two-thirds vest over the next two years. For performance shares, the number of shares earned will be issued as restricted shares of Class A Common Stock at the end of the performance period, subject to vesting, and for PSUs, the number of shares earned will be issued as Class A Common Stock as they vest.

Performance shares and PSUs are expensed and recorded in *Additional paid in capital* within the Consolidated Statements of Changes in Shareholders' Equity over the three to five year performance and vesting periods based on the market value on the grant date and the estimated number of shares to be issued.

The performance shares expense and associated tax benefit in 2007 and 2006 were as follows:

	Three Months Ended		Nine Months Ended	
	November 24, 2006	November 25, 2005	November 24, 2006	November 25, 2005
Performance shares expense	\$ 0.6	\$ 0.4	\$ 2.7	\$ 1.1
Tax benefit	0.2	0.1	1.0	0.4

For both performance shares and PSUs, a dividend equivalent is calculated on the basis of the actual number of shares earned at the end of the three-year performance period. The dividend equivalent is equal to the dividends that would have been payable on the earned shares had they been held during the entire performance period. The dividend equivalents on performance shares and PSUs are expensed and accrued over the three-year performance period. At the end of the performance period, the dividend equivalents will be paid in the form of cash or Class A Common Stock, at the discretion of the Board of Directors. During any vesting period following the performance period, holders of performance shares will receive cash dividends on the shares earned, and holders of PSUs will receive quarterly cash payments on the shares earned equal to the dividend that the Company declares and pays on its Class A Common Stock.

The actual number of common shares that ultimately may be issued ranges from zero to 886,000 shares based on actual performance levels. The 2007 activity for performance shares and PSUs is as follows:

Maximum Number of Nonvested Shares	Total	Weighted Average Grant Date Fair Value
Nonvested at February 24, 2006	652,000	\$ 13.52
Granted	234,000	\$ 19.07
Vested		
Forfeited		
Nonvested at November 24, 2006	886,000	\$ 14.99

As of November 24, 2006, there was \$3.2 of remaining unrecognized compensation cost related to non-vested performance shares and PSUs, based on the current estimated number of shares to be issued. That cost is expected to be recognized over a remaining weighted-average period of 2.6 years.

Overview

Revenue was \$802.0 in Q3 2007, a 6.8% increase compared to the same period last year. Revenue increased for all of our reportable segments, driven primarily by strong growth in our International segment. Q3 2007 revenue included \$9.9 of favorable currency effects versus the same quarter last year and \$9.8 for net acquisitions that were completed during the last twelve months.

Year-to-date revenue increased \$189.4 or 8.9% compared to the same period last year. Revenue increased for all of our reportable segments, primarily driven by growth of 13.1% in our International segment and 7.5% in our North

America segment compared to the same period last year. Year-to-date revenue included \$12.7 of favorable currency effects and \$26.2 for net acquisitions and consolidations that were completed during the last twelve months.

Table of Contents

Cost of sales, which is reported separately from restructuring costs, improved as a percent of revenue from the prior year during Q3, and was slightly better year-to-date. North America's cost of sales percentage decreased by 1.7 percentage points during Q3 and 1.0 percentage points year-to-date due to improved pricing yields, benefits of restructuring activities, continued plant efficiencies, and appreciation of cash surrender value of company owned life insurance. International cost of sales improved by 2.9 percentage points over the prior year quarter and 1.9 percentage points year-to-date versus 2006 through volume leverage, restructuring benefits in certain markets and better operational performance. These improvements were offset by cost of sales percentage increases at PolyVision, due to supply chain issues we are facing in the U.S. static whiteboard business and some manufacturing inefficiencies. Cost of sales for Steelcase Design Partnership (SDP) also increased as a percent of sales because of a general increase in project business, mix shifts between higher margin and lower margin companies, and operations issues at certain facilities.

Restructuring costs were significantly lower in the current year than the prior year due to a decrease in charges related to the consolidation of manufacturing facilities in North America and the completion of plant rationalization activities in International. As a percentage of revenue, lower restructuring charges positively impacted gross margins by 0.1 percentage points and 0.5 percentage points in Q3 2007 and for the first three quarters of 2007, respectively, as compared to the prior year.

Operating expenses, which are reported separately from restructuring costs, were 25.8% and 25.2% of sales during Q3 2007 and 2006, respectively. Year-to-date operating expenses were 25.9% and 26.2% of sales for 2007 and 2006, respectively. Operating expenses increased by \$17.0 compared to the prior year quarter and \$41.7 year-to-date. The increases were driven by several factors including increased variable compensation expense, investments in growth initiatives, expenses related to acquired businesses and unfavorable currency translation effects.

Q3 2007 operating income of \$40.5 compares to \$32.7 in the prior year. The improvement was primarily due to better performance in our International and North America segments and lower restructuring charges. Included in our operating income are pretax restructuring charges of \$5.7 compared to \$7.3 last year. Year-to-date operating income of \$110.9 increased by \$37.7 versus the prior year.

Total non-operating income increased by \$10.4 and \$20.5 in Q3 2007 and year-to-date, respectively, compared to 2006. See Interest Expense and Other Income, Net section below for more information.

Our year-to-date effective tax rate was reduced to 36.4% during Q3 2007, down from 38.5% at the end of Q2 2007. We recorded our expense using an estimated tax rate of approximately 37% during Q1 and Q2 and also added a \$1.1 valuation reserve related to deferred tax assets which resulted in a higher effective rate for Q2 2007. The decrease during the current quarter is due to expected lower net permanent differences primarily related to appreciation of our company-owned life insurance policies.

Net income in Q3 and year-to-date 2007 improved compared to the corresponding periods in the prior year primarily due to better performance in our North America and International segments, lower restructuring charges and an increase in interest and other non-operating income.

Total other income, net increased \$11.3 for the quarter primarily due to higher interest income driven by higher cash balances and higher interest rates earned on those balances, a gain from the completion of a consolidated dealer transition, and a \$1.3 gain related to a minority interest ownership that we have in a European entity.

Year-to-date other income, net, increased \$21.0 primarily due to higher interest income, gains on foreign currency derivatives, and a gain from the completion of a consolidated dealer transition.

Operating income	\$ 21.4	4.9%	\$ 19.5	4.5%	\$ 79.6	6.1%	\$ 54.1	4.5%

Operating income improved to 4.9% of sales in Q3 2007 compared to 4.5% of sales in the prior year. Year-to-date operating income increased to 6.1% of sales through the first three quarters of 2007 from 4.5% of sales in the prior year due to higher revenue and improved cost of sales as a percentage of revenue.

North America revenue increased slightly over Q3 2006 and accounted for 54.2% of Q3 2007 consolidated revenue and 56.3% year-to-date. Q3 2007 revenue included \$7.3 from net acquisitions and \$1.2 from favorable currency impacts related to sales by our subsidiary in Canada, compared to the prior year. Revenue growth of \$91.5 year-to-date was driven by increased sales across most of our product categories, but most significantly in Turnstone, consolidated dealers and Seating.

Table of Contents

Cost of sales, which is reported separately from restructuring costs, as a percent of revenue improved 1.7 percentage points in the current year quarter and 1.0 percentage point year-to-date versus the prior year. The improvement was driven by improved pricing yields, restructuring benefits and continued plant efficiencies, as well as increases in cash surrender value of company owned life insurance policies.

Gross margin was 28.0% compared to 26.6% in the prior year quarter. Restructuring costs included in gross profit were \$5.2 in the current quarter and \$4.0 in the prior year quarter related to move and severance costs associated with our ongoing plant consolidation initiative. Year-to-date gross margin was 28.2%, a 1.4 percentage point improvement over the first three quarters of the prior year, due to improved operating performance and lower restructuring costs.

North America operating expenses were 23.1% of sales during Q3 2007 and 22.1% of sales year-to-date, an increase of 1.0 percentage points over the prior year quarter and an improvement of 0.2 percentage points year-to-date. Operating expenses increased in 2007 compared to 2006 primarily due to an increase in variable compensation expense and investments in growth initiatives, partially offset by higher cash surrender value appreciation on company-owned life insurance.

The wood category reported an operating loss of (\$6.0) during Q3 and Q2 2007 on a fully allocated basis. Operating improvements in the third quarter were impacted by reinvestments in additional cost reduction initiatives, lower volumes and higher mix of low-margin contract business. We remain focused on getting the wood business to a break-even run rate by early next fiscal year.

Operating income (loss)	\$ 15.8	7.9%	\$ 6.6	3.9%	\$ 20.0	3.8%	\$ (0.1)	(0.0)%

International reported operating income of \$15.8 and \$6.6 in Q3 2007 and 2006, respectively. The current quarter improvement in operating income is the result of higher sales and improved cost of sales as a percentage of revenue. Year-to-date operating income was \$20.0, up \$20.1 from the prior year, driven by increased profitability in certain markets, most notably Spain, eastern Europe, UK and Germany, and lower restructuring costs. International revenue during Q3 2007 increased by 19.2% over the same period last year and represented 24.9% of consolidated revenue in Q3 2007. Currency translation had the effect of increasing revenue by \$8.7 in Q3 2007 as compared to the prior year, but had an insignificant impact year-to-date. Current quarter and year-to-date revenue included \$2.5 and \$7.9 from acquisitions that were completed during the past twelve months. Year-to-date revenue represented 22.7% of consolidated revenue and increased 13.1% compared to the same period of 2006. Revenues increased across many of our international regions, most notably in Germany, Spain, eastern Europe and Asia.

Q3 2007 cost of sales, which is reported separately from restructuring costs, as a percentage of revenue improved by 2.9 percentage points compared to 2006 and 1.9 percentage points year-to-date. The Q3 2007 and year-to-date improvement included volume leverage, restructuring benefits in certain markets and better operational performance. In addition, we experienced a more favorable mix of business in certain of our more profitable markets.

Table of Contents

Gross margin was 34.1% of revenue during Q3 2007, a 2.7 percentage point improvement versus Q3 2006. Year-to-date gross margin was 32.5%, a 2.4 percentage point improvement over 2006. The improvements in gross margin are due to volume leverage, lower restructuring costs, a more favorable mix of business in our larger markets, and benefits from prior restructuring activities.

Operating expenses, which are reported separately from restructuring costs, were \$52.2 and \$150.6 in the current year quarter and year-to-date, respectively, compared to \$44.6 in the prior year quarter and \$134.2 prior year-to-date. The year-to-date increases are due to higher spending on growth initiatives in Asia, costs related to acquired dealers and higher variable compensation costs.

SDP reported operating profit of \$9.5 in Q3 2007 versus \$10.0 in the prior year. As a percentage of sales, SDP operating income was 10.0% compared to 11.5% in the prior year.

Revenue increased \$8.5 or 9.8% over the prior year quarter due to growth across all of the SDP companies. SDP revenue represented 11.9% of consolidated revenue in Q3 2007 and 11.6% year-to-date. The year-to-date growth is primarily due to upholstery and specialty fabrics and table and guest seating product categories.

Gross margins were 35.2% and 36.4% during Q3 and year-to-date respectively in 2007, compared to 38.1% and 38.2%, respectively for the corresponding periods in 2006. The decline was due to a higher mix of project business, which typically carries deeper discounts, and various mix shifts among products and between companies. In addition we continued to experience some operational issues at certain facilities.

SDP operating expenses as a percentage of sales were 25.1% in the current year quarter and 27.0% year-to-date, which was down from 26.6% and 27.9% in the prior year quarter and year-to-date, respectively, primarily because of higher sales volume.

Year-to-date, the Other category reported a current year loss of (\$13.7) compared to a loss of (\$7.0) in the prior year. The increased loss is primarily related to operational issues and intense competition in the U.S. static whiteboard business within PolyVision and prior year gains from credit recoveries in Financial Services.

Net cash (used in) provided by investing activities	\$ (19.6)	\$ 110.8

Net cash used in investing activities during the first three quarters of 2007 was primarily for capital expenditures and acquisitions.

In the prior year, capital expenditures included \$18.0 for the replacement of a corporate aircraft. Additionally, we sold an existing aircraft which generated proceeds of \$14.8.

Table of Contents

We generated cash from investing activities for the nine months ended November 25, 2005 primarily through the sale of all of our short-term investments in auction rate securities which were converted to cash and cash equivalents.

Cash used in financing activities

Cash Flow Data Financing Activities	Nine Months Ended	
	November 24, 2006	November 25, 2005
Issuance of long-term debt, net	\$ 249.3	\$
Repayments of long-term debt	(251.9)	(54.1)

Common stock repurchases	(32.2)	(3.4)
Excess tax benefit from exercise of stock options and vesting of restricted stock	2.2	
Net cash used in financing activities	\$ (75.2)	\$ (92.0)

The primary use of cash in financing activities during the first three quarters of 2007 relates to dividends and share repurchases. The issuance of long-term debt is due to \$250.0 of senior unsecured unsubordinated notes, due in 2011, issued at a discount in 2007. The proceeds of the issuance were used to redeem \$250.0 of senior unsecured unsubordinated notes that were due in 2007.

The exercise of employee stock options generated \$11.5 and \$3.9 during the first three quarters of 2007 and 2006, respectively.

During Q3 2007, we repurchased 0.6 million shares for an average of \$16.36 per share under a share repurchase program approved by our Board of Directors. During the first three quarters of 2007, we repurchased 1.9 million shares under that program, and approximately 1.6 million shares remain available for repurchase under that program. At the end of Q3 2007, we had no outstanding share repurchase commitments. In October 2006, our Board of Directors approved an additional share repurchase program which permits us to repurchase up to \$100 million of shares of our common stock. We did not repurchase any shares under this program during Q3 2007.

Off-Balance Sheet Arrangements

During Q3 2007, no material change in our off-balance sheet arrangements occurred.

Table of Contents**Contractual Obligations**

Our contractual obligations as of November 24, 2006 are as follows:

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 Year	1-3 Years	3-5 Years	After 5 Years
Long-term debt and short-term borrowings	\$ 256.1	\$ 6.0	\$ 0.5	\$ 249.6	\$
Estimated interest on debt obligations	81.5	16.6	32.5	32.4	
Operating leases	277.3	52.0	79.1	59.1	87.1
Committed capital expenditures	39.8	22.1	17.7		
Purchase obligations	12.6	12.6			
Other long-term liabilities	184.6	44.2	32.2	33.6	74.6
Total	\$ 851.9	\$ 153.5	\$ 162.0	\$ 374.7	\$ 161.7

Total consolidated debt as of November 24, 2006 was \$256.1. On September 6, 2006, we redeemed \$250.0 of our senior unsecured unsubordinated notes at face value, plus \$4.9 of accrued interest and a \$0.4 make-whole premium (see Note 9).

Of the \$6.0 of debt payments due in less than one year, \$4.2 relates to foreign revolving credit facilities, capitalized lease obligations and notes payable, and \$1.8 relates to U.S. dollar notes payable and capital lease obligations.

The Company has commitments related to certain sales offices, showrooms, and equipment under non-cancelable operating leases that expire at various dates through 2018. Minimum payments for operating leases having initial or remaining non-cancelable terms in excess of one year are presented in the contractual obligations table above.

Committed capital expenditures represent obligations we have related to property, plant and equipment purchases and include an outstanding commitment to purchase a corporate aircraft that is intended to replace an existing aircraft.

We define purchase obligations as non-cancelable signed contracts to purchase goods or services beyond the needs of meeting current backlog or production.

Other long-term liabilities represent contribution and benefit payments expected to be made for our post-retirement, pension, deferred compensation, and defined contribution benefit plans. It should be noted that our obligations related to post-retirement benefit plans are not contractual and the plans could be amended at the discretion of the Compensation Committee of the Board of Directors. We limited our disclosure of contributions and benefit payments to 10 years as information beyond this time period was not available.

The contractual obligations table above is current as of November 24, 2006. The amounts of these obligations could change materially over time as new contracts or obligations are initiated and existing contracts or obligations are terminated or modified.

Table of Contents**Liquidity Facilities**

Our total liquidity facilities as of November 24, 2006 were:

	Amount
Global committed bank facility	\$ 200.0
Various uncommitted lines	87.0
Total credit lines available	287.0
Less: borrowings outstanding	4.1
Available capacity (subject to covenant constraints)	\$ 282.9

We have the option of increasing the committed bank facility from \$200.0 to \$300.0, subject to customary conditions. Borrowings under this facility are unsecured and unsubordinated. There are currently no borrowings outstanding under the facility. The facility requires us to satisfy financial covenants including a maximum debt ratio covenant and a minimum interest coverage ratio covenant. We were in compliance with all covenants under our financing facilities as of the end of Q3 2007, and they are fully available for our use, although the various uncommitted lines are subject to change or cancellation by the banks at any time.

Total consolidated debt as of November 24, 2006 was \$256.1. Our debt primarily consists of \$249.3 in term notes due August 2011 with an effective interest rate of 6.3% (See Note 9).

The current cash and cash equivalents balance, cash generated from future operations and available credit facilities are expected to be sufficient to finance our known or foreseeable liquidity and capital needs.

Our long-term debt rating is BBB- with a positive outlook from Standard & Poor's and Ba1 with a positive outlook from Moody's Investor Services.
