PROXY STATEMENT
April 8, 2003

INTRODUCTION

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors (the "Board of Directors" or the "Board") of Golden Telecom, Inc. (the "Company" or "Golden Telecom") of proxies to be voted at the annual meeting of stockholders of the Company in the Ringstrassensalon at the Imperial Hotel, Vienna, Austria on May 20, 2003 beginning at 12:30 p.m. local time (the "Annual Meeting"). Enclosed with this Proxy Statement is a Notice of the Annual Meeting of Stockholders, together with a Proxy Card for your signature if you are unable to attend. Stockholders of record who execute Proxy Cards may revoke them at any time before they are voted. Any Proxy Card may be revoked by the person giving it any time before it is voted by delivering to the Corporate Secretary of the Company at the principal executive offices of the Company at the Representative Offices of Golden TeleServices, Inc., 1 Kozhevnikhesky Proezd, 2nd Floor, Moscow, Russia 115114, on or before the business day prior to the Annual Meeting or at the Annual Meeting itself, a subsequent written notice of revocation or a subsequent Proxy Card relating to the same shares or by attending the meeting and voting in person. The approximate date on which this Proxy Statement and the accompanying Proxy Card will be sent to the Company's stockholders is April 10, 2003.

PROXIES AND VOTING PROCEDURES

Shares of the Company's common stock, par value \$0.01 per share ("Common Stock"), represented by properly executed Proxy Cards received prior to or at the meeting, unless such Proxy Cards have been revoked, will be voted in accordance with the instructions indicated on the Proxy Card.

Stockholders of record (the "Stockholders") on March 28, 2003 (the "Record Date") are entitled to vote at the Annual Meeting. On March 28, 2003, the Company had outstanding approximately 27,144,947 shares of Common Stock, with each share representing one vote.

If you return your signed Proxy Card to the Company before the Annual Meeting, Golden Telecom will vote your shares as you direct. You can specify on your Proxy Card whether your shares should be voted for all, some or none of the nominees for director. You can also specify whether you approve, disapprove, or abstain from each of the proposals. The proposals will be presented at the Annual Meeting by management.

IF YOU RETURN THE PROXY CARD TO US AND DO NOT SPECIFY ON YOUR PROXY CARD HOW YOU WANT TO VOTE YOUR SHARES, WE WILL VOTE THEM "FOR" THE ELECTION OF ALL NOMINEES FOR DIRECTOR AS SET FORTH UNDER "ELECTION OF DIRECTORS" BELOW; AND "FOR" EACH OF THE PROPOSALS.

3

The affirmative vote of the holders of a plurality of the votes cast by stockholders will elect candidates for director (Item No. 1 on your Proxy Card). The affirmative vote of the holders of at least a majority of the shares of Common Stock present in person or represented by proxy at the meeting and entitled to vote is required to ratify the Board of Directors' appointment of

Edgar Filing: GOLDEN TELECOM INC - Form DEF 14A

Ernst & Young (CIS) Limited as the Company's independent public accountants for 2003 (Item No. 2 on your Proxy Card). The required quorum is a majority of the outstanding shares of voting stock of Golden Telecom. Golden Telecom intends to count abstentions both for purposes of determining presence or absence of a quorum and in the total number of shares represented and voting with respect to a proposal. Accordingly, abstentions will have the same effect as a vote against Item 2.

The nominees for director receiving the highest number of affirmative votes will be elected. Unless authority to vote is withheld or another contrary instruction is indicated, properly executed Proxy Cards received by Golden Telecom prior to or at the Annual Meeting will be voted FOR the election of the nominees listed on the following pages. Should any of the nominees be unavailable to serve at the time the election occurs, the proxyholders named in the Proxy Card will vote for substitute nominees at their discretion.

Broker non-votes occur when nominees have voted on some of the matters to be acted on at a meeting, but fail to vote on certain other matters because they are not permitted to vote on such matters in the absence of instructions from the beneficial owners of shares. Broker non-votes, if any, with respect to a proposal will not be counted for purposes of determining the presence or absence of a quorum, and will not be counted as shares represented and voting with respect to that proposal. A broker non-vote will have no effect on the outcome of the election of directors.

COMMON STOCK OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding beneficial ownership of the Common Stock and rights to acquire Common Stock by stockholders that own five percent or more of the Common Stock, by each of the Company's directors and executive officers, and all the Company's directors and executive officers as a group. Percentages of shares owned are based on the 27,126,470 shares of Common Stock issued and outstanding at March 20, 2003. These shareholding numbers are based in part on the public filings of several of the shareholders listed below.

7. Golden Telecom has adopted the 1999 Equity Participation Plan, as amended, whereby certain employees of Golden Telecom and its affiliates are granted Golden Telecom stock options. Owing to ambiguities and inconsistencies in the legislation of the countries in which some of our employees live, the Compensation Committee of the Board of Directors of Golden Telecom decided not to issue stock options to its Russian employees, including Mr. Vinogradov. Instead, as part of its key employee incentive and retention policy, Golden Telecom established the Golden Telecom Incentive Bonus Program, whereby Golden Telecom issues stock options to a trust in numbers corresponding to the level of financial incentive Golden Telecom wishes to award its eligible employees. When eligible employees, including Mr. Vinogradov, desire and are eligible to receive the economic benefit of the options, they inform Golden Telecom and the Company, in turn, advises the trustee, who exercises an appropriate number of options for contribution to the trust. Upon request of the Company and the employee, the funds available in the trust may be disbursed to eligible employees in the form of incentive bonuses. The economic value of Mr. Vinogradov's participation in the Bonus Program is approximately equivalent to

Bonuses listed for the years 2000, 2001 and 2002 represent cash payments for the services rendered in the first three quarters of those years and the fourth quarter of the previous year. In addition, personal subjective bonuses for 2001 and 2002 were paid in 2002 and 2003, respectively.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

OVERVIEW. The role of the Compensation Committee is to oversee and direct the development of executive compensation policies and programs that are consistent with, explicitly linked to, and supportive of the strategic objectives of growing the Company's businesses in order to maximize shareholder value. The Committee's specific responsibilities consist in determining the appropriate levels of compensation, including salaries, quarterly or annual incentives, long-term incentives and employee benefits, for members of the Company's senior management, including executive officers. The Committee believes that a strong link should exist between executive compensation and management's ability to maximize shareholder value. The Committee seeks to realize this goal by developing incentive compensation programs that provide competitive compensation

and reflect Company performance.

COMPENSATION PHILOSOPHY. The four fundamental principles to which the Committee adheres in discharging its responsibilities are as follows. First, most quarterly, annual and long-term incentive compensation for the Company's executive officers should be at risk, with actual compensation levels correlating with the Company's performance in certain key areas determined

17

by the Committee. Second, incentive compensation of the Company's executive officers should focus more heavily on long-term rather than short-term accomplishments and results. Third, equity-based compensation should be used to provide executive officers with clear and direct links to the shareholders' interests. Fourth, the overall executive compensation program should be competitive, equitable and structured so as to ensure the Company's ability to attract, retain, motivate and reward the talented executives who are essential to the Company's continuing success in the difficult markets in which the Company operates and the executives reside. Total compensation, rather than distinct compensation elements, is the focus of the Company's goal to provide competitive compensation opportunities.

COMPENSATION ELEMENTS. The Company's compensation program for executives and senior management consists of four principal elements, each of which is vitally important in meeting the Company's need to attract, retain, motivate and reward highly-qualified executives and senior management in the markets where the Company operates. The four principal elements are described below and include base salaries, periodic performance incentives, long-term incentives and benefits.

BASE SALARIES. Base salaries for executive officers and senior management are generally set at levels that reflect the competitive marketplace for companies that are of comparable size and complexity and that would be considered competitors of the Company in attracting and retaining qualified executives. The salaries of the executive officers are reviewed and approved by the Compensation Committee based on its assessment of each executive's experience and performance and a comparison of salaries of peers in other companies.

PERIODIC PERFORMANCE INCENTIVES. Incentive awards are made on a quarterly or annual basis to executive officers and senior management on the basis of Company and business unit performance relative to budget in such areas as revenue, net income, and EBITDA, which is a common performance measure in the telecommunications industry and means earnings before interest, tax, depreciation and amortization. The Company adopted a revised executive officer and senior management executive bonus program in 2001, whereby an additional criterion, personal performance objectives, was added and executives and senior management are eligible for an annual incentive payment based on the fulfillment of these personal objectives. The bonus program was revised in 2003 such that all bonus components will be paid annually. The Company intends to continue providing incentives in concert with other compensation elements in order to maintain a competitive total compensation program for its executive officers. The Committee reviews and approves all performance measures and goals established under the annual and long-term incentive plans.

LONG-TERM INCENTIVES. The Company relies on stock options as the principal means of providing long-term incentive compensation. Stock options have been, and will continue to be, granted to executive officers and senior management under the

Edgar Filing: GOLDEN TELECOM INC - Form DEF 14A

1999 Equity Participation Plan. In considering the size and amount of option grants, the Committee considers, among other things, previous grants made to the executive officers, the amount of options currently available for issuance under the guidelines established in the 1999 Equity Participation Plan, and the desirability of retaining an executive officer for the vesting period of the stock option.

BENEFITS. Benefits offered to executive officers serve a different purpose than do other elements of the total compensation program. In general, they provide for retirement income and act as a safety net against problems that can arise from illness, disability or death. Benefits offered to executive officers are basically those offered to other employees of the Company.

18

GOLDEN TELECOM, INC. 401(k) PLAN. The Company offers a 401(k) retirement savings plan (the "401(k) Plan") to its employees. The 401(k) Plan is a defined contribution retirement benefit, the prototype of which has been submitted by the Company's 401(k) Plan administrators to the Internal Revenue Service for favorable tax treatment under Section 401 of the Internal Revenue Service Code. All employees of Golden Telecom, subject to certain regulatory qualifications, who are U.S. citizens and at least 21 years of age and have completed the minimum service requirement will be eligible to participate in the 401(k) Plan. The 401(k) Plan participants are able to defer pre-tax income by contributing to the plan up to the maximum amount permitted by law. After-tax contributions are also permitted under the 401(k) Plan. Golden Telecom matches 50% of each participant's pre-tax contribution to the 401(k) Plan, up to 5% of the participant's total compensation. In addition, Golden Telecom may, in its sole discretion and in a nondiscriminatory manner, contribute additional amounts as profit sharing to each participant's account. The amounts deposited into each participant's account will be invested among various investment options according to the instructions of the participant. Each participant's pre-tax and after-tax contributions will be immediately vested and non-forfeitable. The Company's matching contribution and profit sharing allocations to each participant's account will not vest until the participant has completed three years of service with Golden Telecom at which time the matching contribution and profit sharing allocations become 100% vested.

EVALUATION PROCEDURES. In determining matters regarding executive officer compensation (other than the Chief Executive Officer), the Committee, with the Chairman of the Board and Chief Executive Officer, reviews the performance of key executives including the executive officers, the respective areas of authority and responsibility of the various executive officers, and the contribution of each to the efforts of the Company in meeting its financial and strategic goals. The Committee has confirmed that the compensation paid in 2002 to the named executive officers is consistent with the Company's compensation philosophy and objectives.

COMPENSATION OF THE CHIEF EXECUTIVE OFFICER. On November 6, 2001 Mr. Alexander Vinogradov was appointed as President and Chief Executive Officer of the Company and entered into an employment agreement with Golden TeleServices, Inc. Mr. Vinogradov's base salary is currently set at \$290,000, and he is eligible for periodic bonuses throughout the year targeted, in the aggregate, to be 50% of his base salary. During 2002, Mr. Vinogradov received \$240,000 as his base salary and US\$102,424 in bonus payments. In evaluating Mr. Vinogradov's compensation, the Committee compared the Company's compensation practices and levels to those of other companies involved in similar businesses, including but

Edgar Filing: GOLDEN TELECOM INC - Form DEF 14A

not limited to, the companies included in the indices indicated in the Performance Graph. Based on this review, the Committee determined Mr. Vinogradov's compensation to be appropriate.

DEDUCTIBILITY OF CERTAIN EXECUTIVE COMPENSATION. Beginning in 1994, the Omnibus Reconciliation Act of 1993 limits to \$1 million the amount that may be deducted by a publicly-held company for compensation paid to each of its named executive officers in a taxable year, unless the compensation in excess of \$1 million is "qualified performance-based compensation." The Committee and the Company design short-term and long-term compensation plans to qualify for the exemption from the deduction limitations of Section 162(m) of the Internal Revenue Code and to be consistent with providing appropriate compensation to executives. Shareholder approval of incentive compensation plans and various provisions thereunder covering the executive officers has been sought and obtained and will be sought in the future to continue to qualify performance-based compensation for the exemption. Although it is the Company's intent to qualify compensation for the exemption from the deduction limitations, the Company's compensation practices have been, and will continue to be, designed to serve the best interests of the shareholders regardless of whether specific compensation qualifies for the exemption.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

SHAREHOLDERS AND STANDSTILL AGREEMENTS. On September 5, 2002, subsidiaries of the Company completed the purchase of the remaining 50% ownership interest in LLC EDN Sovintel from OAO Rostelecom. As a result of the transaction, OAO Rostelecom acquired 15% of the Company's then issued and outstanding shares. Also as a result of the transaction, the Company and certain major shareholders of the Company entered into a shareholders agreement and a standstill agreement. The shareholders agreement and standstill agreement were entered into on September 5, 2002 by the Company, Alfa Telecom Limited ("Alfa"), OAO Rostelecom, Capital International Global Emerging Markets Private Equity Fund, L.P. ("Capital"), Cavendish Nominees Limited and First NIS Regional Fund SICAV. An Independent Committee of the Board of Directors authorized both agreements and granted its approval of the acquisition pursuant to Section 203(a)(1) of the Delaware General Corporate Law.

The shareholders agreement provides that the shareholders will vote their shareholding such that three of Alfa's nominees will be elected to the Golden Telecom Board of Directors. The shareholders also agreed to vote their shares such that a candidate nominated by Capital will be elected to the Board. The agreement also provides that a single candidate nominated by both Cavendish Nominees Limited and First NIS Regional Fund SICAV (together, "Barings") will be elected to the Board. According to the agreement, two directors shall be designated by OAO

21

Rostelecom, one of whom shall be independent and financially literate under NASDAQ and SEC rules, and two directors shall be designated by the directors sitting on the Board at the Board meeting when the Board adopts the resolutions concerning the annual meeting of shareholders. The shareholders agreement terminates on the later of (i) May 11, 2004 and (ii) the date of the annual meeting of shareholders of the Company held in calendar year 2004.

Generally, the standstill agreement provides that Alfa may not acquire over 49% and OAO Rostelecom may not acquire over 35% of the Company's outstanding stock on a fully diluted basis. Similar "standstill" provisions are applicable to Capital and Barings whereby neither of these entities' shareholdings may exceed 20% of the Company's outstanding stock. The standstill agreement grants the signatory shareholders pro-rata pre-emptive rights in the event of any issuance of equity by the Company, with certain limited exceptions. This agreement also sets the total number of directors of the Company at nine. The standstill agreement expires on September 5, 2004.

AGREEMENTS WITH AFFILIATES OF ALFA TELECOM LIMITED AND WITH OAO ROSTELECOM. In

Edgar Filing: GOLDEN TELECOM INC - Form DEF 14A

the past, companies affiliated with Alfa Group have provided investment banking and corporate finance services to the Company. We expect that this relationship will continue. In particular, we engaged Alfa Bank Holdings Limited, an affiliate of Alfa Telecom Limited, to provide investment-banking services to the Company in connection with the acquisition by the Company of the remaining 50% of LLC EDN Sovintel and paid investment banking fees of approximately \$3.3 million to Alfa Bank Holdings, Limited in connection with this acquisition. The Company has also entered an agreement with ABH Financial Limited (formerly named Alfa Bank Holdings, Limited) to advise the Company on another potential transaction. We have also entered into commercial arrangements in the ordinary course of business with affiliates of Alfa Telecom Limited and with OAO Rostelecom. OAO Alfa Insurance provides medical insurance to employees of some of the Company's wholly owned subsidiaries. In 2002, payments to OAO Alfa Insurance for medical insurance were approximately \$148,000. In the regular course of business, we enter into infrastructure, settlement and other operational contracts with OAO Rostelecom. In 2002, payments to OAO Rostelecom under such contracts were approximately \$14.71 million. We believe that our arrangements with these companies have been conducted on commercially reasonable terms.

REGISTRATION RIGHTS AGREEMENTS. Golden Telecom entered into a registration rights agreement with OAO Rostelecom on September 5, 2002 when OAO Rostelecom acquired 15% of the issued and outstanding shares of Golden Telecom in connection with the Sovintel transaction. The agreement provides that on Rostelecom's written request to a maximum of two times, Golden Telecom will use its reasonable best efforts to register under the applicable federal and state securities laws the resale of any of OAO Rostelecom's shares of the Company's Common Stock. OAO Rostelecom also has the right to include its shares of the Company's Common stock in future registrations initiated by the Company on its own behalf or on behalf of other shareholders. This right is subject to certain limitations as to whether and to what extent OAO Rostelecom may request registration. The Company has agreed to pay any registration expenses. The registration rights agreement contains customary indemnification and contribution provisions between the Company and OAO Rostelecom. The Company has substantially similar registration rights agreements with its other significant shareholders, including Alfa Telecom Limited, Capital International Global Emerging Markets Private Equity Fund L.P., Digital Holdings Limited and investment funds managed by Barings Vostok Capital Partners.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 and related regulations require the Company's directors, executive officers, and anyone holding more than 10% of the Company's Common Stock to report their initial ownership of the Company's Common Stock and any changes in that ownership to the Securities and Exchange Commission and securities exchanges. The Company is required to disclose in this Proxy Statement whether any reporting person did not file these reports when due. Based on its review of the copies of Section 16(a) reports received by it or written representations from certain reporting persons that no reports on Form 5 were required, the Company believes that all reporting persons of the Company satisfied these filing requirements.
