**Item 2.02 Results of Operations and Financial Conditions.**

On October 19, 2004, Commercial Metals Company (the Company ) issued a press release (the Press Release ) announcing its financial results for the fourth quarter and fiscal year ended August 31, 2004. A copy of the Press Release is attached hereto as Exhibit 99.1. The Press Release is incorporated by reference into this Item 2.02, and the foregoing description of the Press Release is qualified in its entirety by reference to this exhibit.

The Press Release contains non-GAAP financial measures as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended (the Exchange Act ). In the Press Release, the Company has provided reconciliations of the non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with generally accepted accounting principles ( GAAP ) in the United States.

The information in this Form 8-K, including the exhibit, shall not be deemed filed for purposes of Section 18 of the Exchange Act, and is not incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

**Item 4.02 Non-Reliance on Previously Issued Financial Statements or Related Audit Report or Completed Interim Review**

Our fiscal year 2004 interim consolidated condensed balance sheets and statements of cash flows for each of the first three fiscal quarters are being corrected as discussed below. The statements of net earnings and stockholders equity for each of these three interim periods are not impacted.

In order to facilitate certain trade transactions, the Company utilizes documentary letters of credit, advances, and non- or limited-recourse trade financing arrangements to provide assurance of payments and advanced funding to its suppliers. In October 2003, one of the Company s international subsidiaries (the Subsidiary ) entered into a financing agreement with an independent third party lender for the sole purpose of advancing funds for steel purchases to a key supplier. The financing agreement is secured by a supply agreement between the Subsidiary and the supplier for the delivery of steel. The lender is to be repaid after the product is delivered in conformance with the supply agreement, and the Subsidiary is not liable for repayment of the principal and/or interest unless and until it has received conforming deliveries of the products from the supplier. Since the transaction involved only standard commercial risk to the Company and because of the limited-recourse nature of this transaction, it had initially been accounted for off-balance sheet. On October 18, 2004, the Company determined that this trade financing arrangement had been incorrectly accounted for in its fiscal 2004 interim financial statements and should have been accounted for as a financing liability with the corresponding advance to the supplier included in other assets. The fiscal year 2004 interim condensed statements of earnings and stockholders equity are not affected. The fiscal year 2004 interim condensed consolidated balance sheets are not materially affected. However by recording the transaction in the quarter ended November 30, 2003, the fiscal year 2004 interim statements of cash flows can no longer be relied on given the effects shown in the table below.

The Company will reflect this transaction as a financing liability with the corresponding advance to the supplier included in other assets in its Form 10-K for the year ended August 31, 2004, to be filed by November 15, 2004. The Company s Form 10-Qs for fiscal 2005 will restate its fiscal 2004 interim consolidated statements of cash flows to reflect the adjustments shown below.

The Company s Chief Financial Officer and Corporate Controller discussed the correction of this error and the restatement of these interim financial statements with both Deloitte & Touche L.L.P., the Company s independent

auditor, and its Audit Committee.
