## Table of Contents

## INTUIT INC. <br> NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

## 1. Description of Business and Summary of Significant Accounting Policies

## Description of Business

Intuit Inc. provides business and financial management solutions for small and medium sized businesses, financial institutions, consumers, and accounting professionals. Our flagship products and services, including QuickBooks, Quicken and TurboTax software, simplify small business management and payroll processing, personal finance, and tax preparation and filing. Lacerte and ProSeries are Intuit s tax preparation software suites for professional accountants. Our financial institutions division, anchored by Digital Insight Corporation, provides on-demand banking services to help banks and credit unions serve businesses and consumers. Founded in 1983 and headquartered in Mountain View, California, we sell our products and services primarily in the United States.
Basis of Presentation
The condensed consolidated financial statements include the financial statements of Intuit and its wholly owned subsidiaries. We have eliminated all significant intercompany balances and transactions in consolidation. In February 2007 we completed the acquisition of Digital Insight Corporation for a total purchase price of approximately $\$ 1.34$ billion. Accordingly, we have included Digital Insight s results of operations in our consolidated results of operations from the date of acquisition. See Note 4. The condensed consolidated financial statements also include the financial position, results of operations and cash flows of Superior Bankcard Services, LLC (SBS), an entity that acquires merchant accounts for our Innovative Merchant Solutions business. We are allocated $51 \%$ of the earnings and losses of this entity and $100 \%$ of the losses in excess of the minority interest capital balances. We therefore eliminate the portion of the SBS financial results that pertain to the minority interests on a separate line in our statements of operations and on our balance sheets.
We have reclassified certain amounts previously reported in our financial statements to conform to the current presentation, including amounts related to discontinued operations and reportable segments.
We have included all normal recurring adjustments and the adjustments for discontinued operations that we considered necessary to give a fair presentation of our operating results for the periods presented. These condensed consolidated financial statements and accompanying notes should be read together with the audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended July 31, 2007. Results for the three and six months ended January 31, 2008 do not necessarily indicate the results we expect for the fiscal year ending July 31, 2008 or any other future period.

## Seasonality

Our QuickBooks, Consumer Tax and Professional Tax businesses are highly seasonal. Some of our other offerings are also seasonal, but to a lesser extent. Revenue from many of our small business software products, including QuickBooks, tends to be at its peak around calendar year end, although the timing of new product releases or changes in our offerings can materially shift revenue between quarters. Sales of income tax preparation products and services are heavily concentrated in the period from November through April. These seasonal patterns mean that our total net revenue is usually highest during our second quarter ending January 31 and third quarter ending April 30. We typically report losses in our first quarter ending October 31 and fourth quarter ending July 31, when revenue from our tax businesses is minimal while operating expenses continue at relatively consistent levels.
Computation of Net Income (Loss) Per Share
We compute basic net income or loss per share using the weighted average number of common shares outstanding during the period. We compute diluted net income per share using the weighted average number of common shares and dilutive potential common shares outstanding during the period. Dilutive potential common shares consist of the shares issuable upon the exercise of stock options and upon the vesting of restricted stock units (RSUs) under the treasury stock method. In loss periods, basic net loss per share and diluted net loss per share are identical since the effect of potential common shares is anti-dilutive and therefore excluded.

## Table of Contents

We include stock options with combined exercise prices and unrecognized compensation expense that are less than the average market price for our common stock, and RSUs with unrecognized compensation expense that is less than the average market price for our common stock, in the calculation of diluted net income per share. We exclude stock options with combined exercise prices and unrecognized compensation expense that are greater than the average market price for our common stock, and RSUs with unrecognized compensation expense that is greater than the average market price for our common stock, from the calculation of diluted net income per share because their effect is anti-dilutive. Under the treasury stock method, the amount that must be paid to exercise stock options, the amount of compensation expense for future service that we have not yet recognized for stock options and RSUs, and the amount of tax benefits that will be recorded in additional paid-in capital when the awards become deductible are assumed to be used to repurchase shares.
The following table presents the composition of shares used in the computation of basic and diluted net loss per share for the periods indicated.

## Table of Contents

## Significant Customers

No customer accounted for $10 \%$ or more of total net revenue in the three or six months ended January 31, 2008 or 2007. Due to the seasonality of our business, at January 31, 2008 the account of one retail customer represented approximately $18 \%$ of total accounts receivable and the account of another retail customer represented approximately $14 \%$ of total accounts receivable. No customer accounted for $10 \%$ or more of total accounts receivable at July 31, 2007.

## Recent Accounting Pronouncements

SFAS 157. Fair Value Measurements
In September 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS 157 provides enhanced guidance for using fair value to measure assets and liabilities. The standard also responds to investors requests for expanded information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value and the effect of fair value measurements on earnings. SFAS 157 applies whenever other standards require or permit assets or liabilities to be measured at fair value. This standard does not expand the use of fair value in any new circumstances. SFAS 157 is effective for fiscal years beginning after November 15, 2007, which means that it will be effective for our fiscal year beginning August 1, 2008. In February 2008 the FASB issued a Staff Position that partially defers the effective date of SFAS 157 for one year for non-financial assets and liabilities, except for items that are recognized or disclosed at fair value in an entity sfinancial statements on a recurring basis (at least annually). We are in the process of evaluating this standard and therefore have not yet determined the impact that the adoption of SFAS 157 will have on our financial position, results of operations or cash flows.
SFAS 159. The Fair Value Option for Financial Assets and Financial Liabilities
In February 2007 the FASB issued SFAS 159, The Fair Value Option for Financial Assets and Financial Liabilities. SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. The standard s objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. The standard requires companies to provide additional information that will help investors and other users of financial statements to more easily understand the effect of the company s choice to use fair value on its earnings. It also requires companies to display the fair value of those assets and liabilities for which the company has chosen to use fair value on the face of the balance sheet. The new standard does not eliminate disclosure requirements included in other accounting standards, including requirements for disclosures about fair value measurements included in SFAS 157, Fair Value Measurements, and SFAS 107,
Disclosures about Fair Value of Financial Instruments. SFAS 159 is effective for fiscal years beginning after November 15, 2007, which means that it will be effective for our fiscal year beginning August 1, 2008. We are in the process of evaluating this standard and therefore have not yet determined the impact that the adoption of SFAS 159 will have on our financial position, results of operations or cash flows.
SFAS 141 (revised 2007). Business Combinations
In December 2007 the FASB issued SFAS 141 (revised 2007), Business Combinations. SFAS 141R will significantly change the accounting for business combinations in a number of areas, including the measurement of assets and liabilities acquired and the treatment of contingent consideration, contingencies, acquisition costs, in-process research and development and restructuring costs. In addition, under SFAS 141R, changes in deferred tax asset valuation allowances and acquired income tax uncertainties in a business combination after the measurement period will affect the income tax provision. SFAS 141R is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning after December 15, 2008, which means that it will be effective for our fiscal year beginning August 1, 2009. Early adoption is prohibited. We are in the process of evaluating this standard and therefore have not yet determined the impact that the adoption of SFAS 141R will have on our financial position, results of operations or cash flows.
SFAS 160, Noncontrolling Interests in Consolidated Financial Statements
In December 2007 the FASB issued SFAS 160, Noncontrolling Interests in Consolidated Financial Statements, which establishes accounting and reporting standards for the noncontrolling (minority) interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 is effective for business arrangements entered into in fiscal years beginning

## Edgar Filing: INTUIT INC - Form 10-Q

on or after December 15, 2008, which means that it will be effective for our fiscal year beginning August 1, 2009. Early adoption is prohibited. We are in the process of evaluating this standard and therefore have not yet 9

## Table of Contents

determined the impact that the adoption of SFAS 160 will have on our financial position, results of operations or cash flows.

## 2. Cash and Cash Equivalents, Investments and Funds Held for Payroll Customers

We consider highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents. Cash equivalents consist primarily of AAA-rated money market funds in all periods presented.
Investments consist of available-for-sale investment-grade debt securities that we carry at fair value. Funds held for payroll customers consist of cash and AAA-rated money market funds. Except for direct obligations of the United States government, securities issued by agencies of the United States government, and money market or cash management funds, we diversify our investments by limiting our holdings with any individual issuer.
The following table summarizes our cash and cash equivalents, investments and funds held for payroll customers by balance sheet classification at the dates indicated.

| (In thousands) | January 31, 2008 |  |  |  | July 31, 2007 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Classification on balance sheets: |  |  |  |  |  |  |  |  |
| Cash and cash equivalents | \$ | 230,148 | \$ | 230,148 | \$ | 255,201 |  | 255,201 |
| Investments |  | 603,774 |  | 607,029 |  | 1,048,643 |  | 1,048,470 |
| Funds held for payroll customers |  | 533,180 |  | 533,180 |  | 314,341 |  | 314,341 |
| Total cash and cash equivalents, investments and funds held for payroll customers | \$ | ,367,102 |  | ,370,357 | \$ | 1,618,185 |  | 1,618,012 |

The following table summarizes our cash and cash equivalents, investments and funds held for payroll customers by investment category at the dates indicated.

|  | January 31, 2008 |  | July 31, 2007 <br> (In thousands) <br> Type of issue: |  | Cost | Fair Value |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |

We accumulate unrealized gains and losses on our available-for-sale debt securities, net of tax, in accumulated other comprehensive income in the stockholders equity section of our balance sheets. Gross unrealized gains and losses on our available-for-sale debt securities at January 31, 2008 and July 31, 2007 were not significant. We held no available-for-sale debt securities that were in an unrealized loss position at January 31, 2008.
We include realized gains and losses on our available-for-sale debt securities in interest and other income in our statements of operations. Gross realized gains and losses on our available-for-sale debt securities for the three and six months ended January 31, 2008 and 2007 were not significant.
At January 31, 2008, we held approximately $\$ 328$ million in AAA rated municipal auction rate securities that were valued at reported market prices and classified as current assets. Auction rate securities are collateralized long-term debt instruments that provide liquidity through a Dutch auction process that resets the applicable interest rate at pre-determined intervals, typically every 35 days. Beginning in February 2008, auctions failed for approximately
$\$ 140$ million in par value of municipal auction rate securities we held because sell orders exceeded buy orders. When these auctions failed to clear, higher interest rates for those securities went into effect. However, the funds associated with these failed auctions will not be accessible until the issuer calls the security, a successful auction occurs, a buyer is found outside of the auction process, or the security matures. The underlying assets of the municipal auction rate securities we hold, including the securities for which auctions have failed, are generally

## Table of Contents

student loans which are guaranteed by the U.S. government. We do not believe the carrying values of these municipal auction rate securities are impaired. In addition, we believe that we will be able to liquidate these investments without significant loss within the next 12 months. We are continuing to monitor the credit markets and may reclassify some or all of these securities from current assets to long-term assets in the future.
The following table summarizes our available-for-sale debt securities classified by the stated maturity date of the security.

| (In thousands) | January 31, 2008 |  |  | July 31, 2007 |  |  |  |

| Due within two years | 109,836 |  | 111,582 |  | 25,856 |  | 25,808 |
| Due within three years |  |  |  |  | 14,700 |  | 14,700 |
| Due after three years | 406,510 |  | 407,460 |  | 848,523 |  | 848,474 |
| Total available-for-sale debt securities | \$ 603,774 | \$ | 607,029 | \$ | 1,048,643 |  | ,048,470 |

Approximately $79 \%$ of our available-for-sale debt securities at January 31, 2008 had an interest reset date, put date or mandatory call date within one year.

## 3. Comprehensive Net Income

SFAS 130, Reporting Comprehensive Income, establishes standards for reporting and displaying comprehensive net income (loss) and its components in stockholders equity. SFAS 130 requires that the components of other comprehensive income (loss), such as changes in the fair value of available-for-sale debt securities and foreign currency translation adjustments, be added to our net income (loss) to arrive at comprehensive net income (loss). Other comprehensive income (loss) items have no impact on our net income (loss) as presented in our statements of operations.

## Table of Contents

The components of accumulated other comprehensive income, net of income taxes, were as follows for the periods indicated:

| (In thousands) | Unrealized Gain (Loss) on <br> Investments |  | Realized <br> Gain on Derivative Instruments |  | Foreign <br> Currency <br> Translation |  |  | Total |

## Table of Contents

## 4. Acquisitions

## Electronic Clearing House, Inc.

On December 19, 2007 we entered into a definitive agreement to acquire Electronic Clearing House, Inc. (ECHO). Under the terms of the agreement, Intuit will pay $\$ 17.00$ per share in cash for each share of ECHO common stock, including shares issuable upon exercise of options, for total consideration of approximately $\$ 131$ million on a fully diluted basis. ECHO is a provider of electronic payment processing services and will become part of our Payroll and Payments segment. The transaction is subject to ECHO shareholder approval and other customary closing conditions and is expected to close during the third quarter of fiscal 2008.

## Homestead Technologies Inc.

On December 18, 2007 we acquired all of the outstanding shares of Homestead Technologies Inc. (Homestead) for total consideration of approximately $\$ 170$ million on a fully diluted basis. The total consideration was comprised of the purchase price of $\$ 146$ million, which included the fair value of vested stock options assumed, and the $\$ 24$ million fair value of unvested stock options and restricted stock units assumed. Homestead is a provider of Web site services to small businesses. We acquired Homestead as part of our strategy to help small businesses acquire and serve customers through the Internet. Homestead became part of our QuickBooks segment.
Under the purchase method of accounting we allocated the total purchase price to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values on the date of acquisition. We estimated the fair values with the assistance of a third party appraisal firm. The fair values assigned to identifiable intangible assets acquired were based on estimates and assumptions determined by management. We recorded the excess of purchase price over the aggregate fair values as goodwill. We allocated the purchase price using the information currently available. We may adjust the preliminary purchase price allocation after obtaining more information about asset valuations and liabilities assumed. We allocated approximately $\$ 14$ million of the purchase price to tangible assets and liabilities and approximately $\$ 22$ million of the purchase price to identified intangible assets. We recorded the excess purchase price of approximately $\$ 110$ million as goodwill, none of which is deductible for income tax purposes. The identified intangible assets are being amortized over a weighted average life of five years.
We have included Homestead s results of operations in our consolidated results of operations from the date of acquisition. Homestead $s$ results of operations for periods prior to the date of acquisition were not material when compared with our consolidated results of operations.

## Digital Insight Corporation

We completed the acquisition of Digital Insight Corporation for a purchase price of approximately $\$ 1.34$ billion on February 6, 2007. We have included Digital Insight s results of operations in our consolidated results of operations from the date of acquisition. The unaudited financial information in the table below summarizes the combined results of operations of Intuit and Digital Insight on a pro forma basis, as though the companies had been combined as of the beginning of the periods presented. The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition and the issuance of $\$ 1$ billion of related senior notes had taken place at the beginning of the periods presented. The pro forma financial information also includes adjustments to share-based compensation expense for stock options assumed, adjustments to depreciation expense for acquired property and equipment, amortization charges for acquired intangible assets, adjustments to interest income, and related tax effects. The pro forma financial information for the three and six months ended January 31, 2007 combines our historical results for those periods with the historical results of Digital Insight for the three and six months ended December 31, 2006.

## Table of Contents

The following table summarizes the pro forma financial information:

## 5. Dispositions and Discontinued Operations

## Intuit Distribution Management Solutions Discontinued Operations

In August 2007 we sold our Intuit Distribution Management Solutions (IDMS) business for approximately $\$ 100$ million in cash and recorded a net gain on disposal of $\$ 27.5$ million. The decision to sell IDMS was a result of management s desire to focus resources on Intuit s core products and services. IDMS was part of our Other Businesses segment.
In accordance with the provisions of SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, we determined that IDMS became a discontinued operation in the fourth quarter of fiscal 2007. We have therefore segregated the net assets and operating results of IDMS from continuing operations on our balance sheets and in our statements of operations for all periods prior to the sale. Assets held for sale at July 31, 2007 consisted primarily of goodwill and purchased intangible assets. Because IDMS operating cash flows were not material for any period presented, we have not segregated them from continuing operations on our statements of cash flows. We have presented the effect of the gain on disposal of IDMS on our statement of cash flows for the six months ended January 31, 2008.
Revenue and net loss from IDMS discontinued operations were $\$ 1.9$ million and $\$ 0.7$ million for the six months ended January 31, 2008. Revenue and net loss from IDMS discontinued operations were $\$ 12.7$ million and $\$ 0.2$ million for the three months ended January 31, 2007 and $\$ 24.2$ million and $\$ 1.9$ million for the six months then ended.
Sale of Outsourced Payroll Assets
In March 2007 we sold certain assets related to our Complete Payroll and Premier Payroll Service businesses to Automatic Data Processing, Inc. (ADP) for a price of up to approximately $\$ 135$ million in cash. The final purchase price is contingent upon the number of customers that transition to ADP. Due to customer attrition during the fourth quarter of fiscal 2007 and the first two quarters of fiscal 2008, we currently estimate the maximum sales price to be approximately $\$ 111$ million and the maximum pre-tax net gain to be approximately $\$ 102$ million. The assets were part of our Payroll and Payments segment.
In accordance with the provisions of SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, we have not accounted for this transaction as a discontinued operation because the operations and cash flows of the assets could not be clearly distinguished, operationally or for financial reporting purposes, from the rest of our outsourced payroll business. We will recognize the net gain on the sale of the assets as customers are transitioned pursuant to the agreement over a period not to exceed one year from the date of the sale. In the three and six months ended January 31, 2008 we recorded pre-tax net gains of $\$ 14.0$ million and $\$ 38.0$ million in our statement of operations for customers who transitioned to ADP during those periods. The total pre-tax net gain recognized from the inception of this transaction through January 31, 2008 was $\$ 69.6$ million. We held deposits received from ADP of $\$ 11.8$ million and $\$ 30.3$ million in other current liabilities on our balance sheet at January 31, 2008 and July 31, 2007. Assets held for sale at January 31, 2008 and July 31, 2007 consisted of $\$ 2.3$ million and $\$ 5.1$ million in customer lists and were included in purchased intangible assets on our balance sheets.

## Table of Contents

## 6. Industry Segment and Geographic Information

SFAS 131, Disclosures about Segments of an Enterprise and Related Information, establishes standards for the way in which public companies disclose certain information about operating segments in their financial reports. Consistent with SFAS 131, we have defined six reportable segments, described below, based on factors such as how we manage our operations and how our chief operating decision maker views results. We define the chief operating decision maker as our chief executive officer and our chief financial officer. We have aggregated two operating segments to form our Payroll and Payments reportable segment.
QuickBooks product revenue is derived primarily from QuickBooks desktop software products and financial supplies such as paper checks, envelopes and invoices. QuickBooks service and other revenue is derived primarily from QuickBooks Online Edition, QuickBooks support plans and royalties from small business online services.
Payroll and Payments product revenue is derived primarily from QuickBooks Payroll, a family of products sold on a subscription basis offering payroll tax tables, forms and electronic tax payment and filing to small businesses that prepare their own payrolls. Payroll and Payments service and other revenue is derived from small business payroll services as well as from merchant services such as credit and debit card processing provided by our Innovative Merchant Solutions business. Service and other revenue for this segment also includes interest earned on funds held for payroll customers.
Consumer Tax product revenue is derived primarily from TurboTax federal and state consumer and small business desktop tax return preparation software. Consumer Tax service and other revenue is derived primarily from TurboTax Online tax return preparation services and electronic filing services.
Professional Tax product revenue is derived primarily from Lacerte and ProSeries professional tax preparation software products. Professional Tax service and other revenue is derived primarily from electronic filing services, bank product transmission services and training services.
Financial Institutions service and other revenue is derived primarily from online banking software that is hosted in our data centers and delivered as on-demand service offerings to banks and credit unions by our Digital Insight business. Other Businesses consist primarily of Quicken, Intuit Real Estate Solutions (IRES), and our business in Canada. Quicken product revenue is derived primarily from Quicken desktop software products. Quicken service and other revenue consists primarily of fees from consumer online transactions and from Quicken-branded credit card and bill payment offerings that we provide through our partners. Service and other revenue in our IRES business consists primarily of revenue from property management software solutions. In Canada, product revenue is derived primarily from localized versions of QuickBooks and Quicken as well as consumer desktop tax return preparation software and professional tax preparation products. Service and other revenue in Canada consists primarily of revenue from payroll services and QuickBooks support plans.
Our QuickBooks, Payroll and Payments, Consumer Tax, Professional Tax and Financial Institutions segments operate primarily in the United States. All of our segments sell primarily to customers located in the United States. International total net revenue was $5 \%$ or less of consolidated total net revenue for all periods presented. We include costs such as corporate selling and marketing, product development, and general and administrative expenses and share-based compensation expenses that are not allocated to specific segments in a category we call Corporate. The Corporate category also includes amortization of purchased intangible assets, acquisition-related charges, impairment of goodwill and purchased intangible assets, interest expense, interest and other income, and realized net gains or losses on marketable equity securities and other investments.
The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies in Note 1 to the financial statements in our Annual Report on Form 10-K for the fiscal year ended July 31, 2007. Except for goodwill and purchased intangible assets, we do not generally track assets by reportable segment and, consequently, we do not disclose total assets by reportable segment.

## Table of Contents

## 7. Current Liabilities

## Unsecured Revolving Credit Facility

On March 22, 2007 we entered into an agreement with certain institutional lenders for a $\$ 500$ million unsecured revolving credit facility that will expire on March 22, 2012. Advances under the credit facility will accrue interest at rates that are equal to, at our election, either Citibank s base rate or the London InterBank Offered Rate (LIBOR) plus a margin that ranges from $0.18 \%$ to $0.575 \%$ based on our senior debt credit ratings. The applicable interest rate will be increased by $0.05 \%$ for any period in which the total principal amount of advances and letters of credit under the credit facility exceeds $\$ 250$ million. The agreement includes covenants that require us to maintain a ratio of total debt to annual earnings before interest, taxes, depreciation and amortization (EBITDA) of not greater than 3.25 to 1.00 and a ratio of annual EBITDA to interest payable of not less than 3.00 to 1.00 . We were in compliance with these covenants at January 31, 2008. We may use amounts borrowed under this credit facility for general corporate purposes or for future acquisitions or expansion of our business. To date we have not borrowed under this credit facility.

## Edgar Filing: INTUIT INC - Form 10-Q

## Table of Contents

## Other Current Liabilities

Other current liabilities were as follows at the dates indicated:

| (In thousands) | January 31, <br> $\mathbf{2 0 0 8}$ | July 31, <br> $\mathbf{2 0 0 7}$ |  |
| :--- | ---: | ---: | ---: |

| Reserve for rebates | 41,203 | 18,918 |  |
| Interest payable | 20,597 | 21,061 |  |
| Deposit received from acquirer of outsourced payroll assets | 11,836 | 30,257 |  |
| Executive deferred compensation plan | 44,249 | 35,898 |  |
| Other | 53,796 | 39,683 |  |
|  | $\$$ | 245,261 | $\$ 171,650$ |

The balances of several of our other current liabilities, particularly our reserves for product returns and rebates, are affected by the seasonality of our business. See Note 1.

## 8. Long-Term Obligations

## Senior Unsecured Notes

In connection with our acquisition of Digital Insight Corporation, on March 12, 2007 we issued $\$ 500$ million of $5.40 \%$ senior unsecured notes due on March 15, 2012 and $\$ 500$ million of $5.75 \%$ senior unsecured notes due on March 15 , 2017 (together, the Notes), for a total principal amount of $\$ 1$ billion. The Notes are redeemable by Intuit at any time, subject to a make-whole premium. We paid $\$ 28.4$ million in cash for interest on the Notes during the six months ended January 31, 2008. Based on the trading prices of the Notes at January 31, 2008 and July 31, 2007 and the interest rates we could obtain for other borrowings with similar terms at those dates, the estimated fair value of the Notes at those dates was approximately $\$ 1.0$ billion and $\$ 963.0$ million.

The following table summarizes our senior unsecured notes at the dates indicated:

|  | January 31, <br> $\mathbf{2 0 0 8}$ | July 31, <br> 2007 |  |

| Long-term obligations due after one year | \$ | 100,527 |  | 57,756 |

We reclassified certain income tax liabilities to long-term obligations as a result of our adoption of FIN 48 on August 1, 2007. See Note 9.
Innovative Merchant Solutions Loan and Buyout Commitments
In April 2005 our wholly owned subsidiary, Innovative Merchant Solutions (IMS), became a member of Superior
Bankcard Services, LLC (SBS), a newly formed entity that acquires merchant accounts for IMS. Our consolidated financial statements include the financial position, results of operations and cash flows of SBS, after elimination of all significant intercompany balances and transactions, including amounts outstanding under the credit agreement described below. See Note 1. In connection with the formation of this entity IMS agreed to provide to SBS revolving loans in an amount of up to $\$ 40.0$ million under the terms of a credit agreement. The credit agreement expires in July 2013, although certain events, such as a sale of SBS, can trigger earlier termination. Amounts outstanding under this agreement at January 31, 2008 totaled $\$ 10.0$ million at interest rates of $8.5 \%$ to $9.25 \%$. Amounts outstanding under this agreement at July 31, 2007 totaled $\$ 11.2$ million at an interest rate of $9.25 \%$. There are no scheduled repayments on the outstanding loan balance. All unpaid principal amounts and the related accrued interest are due and payable in full at the loan expiration date.
The operating agreement of SBS requires that, no later than July 2009, either IMS agree to purchase the minority members interests in SBS at a price to be set by negotiation or arbitration, or IMS and the minority members pursue a sale of their interests in SBS to a third party.

## 9. Income Taxes

## Effective Tax Rate

We compute our provision for or benefit from income taxes by applying the estimated annual effective tax rate to income or loss from recurring operations and other taxable items. Our effective tax rate for the three months ended January 31, 2008 was approximately $35 \%$ and did not differ significantly from the federal statutory rate. State income taxes were offset primarily by the benefit we received from tax exempt interest income, the domestic production activities deduction, and federal and state research and experimental credits. Our effective tax rate for the three months ended January 31, 2007 was approximately $35 \%$ and did not differ from the federal statutory rate. State income taxes were offset primarily by the benefit we received from federal and state research and experimental credits and tax exempt interest income. In addition, we benefited from the retroactive extension of the federal research and experimental credit in the fiscal 2007 period.
Our effective tax rate for the six months ended January 31, 2008 was approximately $33 \%$. This differed from the federal statutory rate of $35 \%$ primarily due to the benefit we received from tax exempt interest income, the domestic production activities deduction, federal and state research and experimental credits, and a one-time benefit related to
executive stock compensation, partially offset by state income taxes. Our effective tax rate for the six months ended 19

## Table of Contents

January 31,2007 was approximately $36 \%$. This differed from the federal statutory rate of $35 \%$ primarily due to state income taxes, which were partially offset by the benefit we received from federal and state research and experimental credits and tax exempt interest income. In addition, we benefited from the retroactive extension of the federal research and experimental credit in the fiscal 2007 period.
Adoption of FASB Interpretation No. 48
On August 1, 2007 we adopted the provisions of FASB Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109. FIN 48 prescribes a threshold for the financial statement recognition and measurement of a tax position taken or expected to be taken in an income tax return. FIN 48 requires that we determine whether the benefits of tax positions are more likely than not of being sustained upon audit based on the technical merits of the tax position. For tax positions that are more likely than not of being sustained upon audit, we recognize the largest amount of the benefit that is more likely than not of being sustained in the financial statements. For tax positions that are not more likely than not of being sustained upon audit, we do not recognize any portion of the benefit in the financial statements.
As a result of the adoption of FIN 48, there was no cumulative effect of the change on our retained earnings. We increased deferred tax assets and income taxes payable by $\$ 8.4$ million and reclassified $\$ 30.2$ million of income taxes payable from current liabilities to long-term liabilities as a result of the adoption of FIN 48.
The total amount of our unrecognized tax benefits at August 1, 2007 was $\$ 33.3$ million. Net of related deferred tax assets, unrecognized tax benefits were $\$ 25.1$ million at that date. If we were to recognize these net benefits, our income tax expense would reflect a favorable net impact of $\$ 11.2$ million. The recognition of the balance of these net benefits would result in an increase to stockholders equity of $\$ 6.8$ million and a decrease to goodwill of $\$ 7.1$ million. There were no material changes to these amounts during the three and six months ended January 31, 2008. We do not believe that it is reasonably possible that there will be a significant increase or decrease in unrecognized tax benefits over the next 12 months.
We file U.S. federal, U.S. state, and foreign tax returns. Our major tax jurisdictions are U.S. federal and the state of California. For U.S. federal tax returns we are generally no longer subject to tax examinations for years prior to fiscal 2005. For California tax returns we are generally no longer subject to tax examinations for years prior to fiscal 2003. We recognize interest and penalties related to unrecognized tax benefits within the provision for income taxes. As of the date of our adoption of FIN 48, we had accrued $\$ 3.6$ million for the payment of interest and had no accruals for the payment of penalties. The amount of interest and penalties recognized during the three and six months ended January 31, 2008 was not material.

## 10. Stockholders Equity

## Stock Repurchase Programs

Intuit s Board of Directors has authorized a series of common stock repurchase programs. Shares of common stock repurchased under these programs become treasury shares. We repurchased 8.2 million and 16.3 million shares for $\$ 250$ million and $\$ 500$ million under these programs during the three and six months ended January 31, 2008. We repurchased 6.7 million shares for $\$ 205.4$ million under these programs during the three and six months ended January 31, 2007. At January 31, 2008, we had authorization from our Board to expend $\$ 300$ million for future stock repurchases.
Repurchased shares of our common stock are held as treasury shares until they are reissued or retired. When we reissue treasury stock, if the proceeds from the sale are more than the average price we paid to acquire the shares we record an increase in additional paid-in capital. Conversely, if the proceeds from the sale are less than the average price we paid to acquire the shares, we record a decrease in additional paid-in capital to the extent of increases previously recorded for similar transactions and a decrease in retained earnings for any remaining amount.

## Edgar Filing: INTUIT INC - Form 10-Q

## Table of Contents

## Share-Based Compensation Expense

The following table summarizes the total share-based compensation expense that we recorded for continuing operations for the periods shown. The share-based compensation expense that we recorded for discontinued operations for these periods was nominal.

At January 31, 2008, there was $\$ 211.3$ million of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under all equity compensation plans which we expect to recognize as expense in the future. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures. We expect to recognize that cost over a weighted average vesting period of 2.0 years.

## Table of Contents

## Stock Option Activity

A summary of activity under all share-based compensation plans for the six months ended January 31, 2008 was as follows:

|  |  | Options Outstanding |  |
| :---: | :---: | :---: | :---: |
|  |  | Weighted Average |  |
|  |  |  |  |
|  | Shares Available | Number | Exercise Price |
|  | for Grant | of Shares | Per Share |
| Balance at July 31, 2007 | 6,410,464 | 54,489,650 | \$ 24.05 |
| Additional shares authorized | 10,000,000 |  |  |
| Options assumed and converted related to acquisitions |  | 647,992 | 2.00 |
| Options granted | $(917,840)$ | 917,840 | 29.44 |

| Balance at January 31, 2008 | 14,304,734 | 49,382,105 | \$ 24.22 |

At January 31, 2008, 35,321,942 options were exercisable at a weighted average exercise price of $\$ 22.42$ per share. Restricted Stock Unit Activity
A summary of restricted stock unit activity for the six months ended January 31, 2008 was as follows:
$\left.\begin{array}{lcc} & & \begin{array}{c}\text { Weighted } \\ \text { Average } \\ \text { Fair }\end{array} \\ \text { Value }\end{array}\right\}$

## Table of Contents

## 11. Litigation

Intuit is subject to certain routine legal proceedings, as well as demands, claims and threatened litigation, that arise in the normal course of our business, including assertions that we may be infringing patents or other intellectual property rights of others. We currently believe that the ultimate amount of liability, if any, for any pending claims of any type (either alone or combined) will not materially affect our financial position, results of operations or cash flows. The ultimate outcome of any litigation is uncertain and, regardless of outcome, litigation can have an adverse impact on Intuit because of defense costs, negative publicity, diversion of management resources and other factors. Our failure to obtain necessary license or other rights, or litigation arising out of intellectual property claims, could adversely affect our business.

## Table of Contents

## ITEM 2

## MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our Management s Discussion and Analysis of Financial Condition and Results of Operations (MD\&A) includes the following sections:

Executive Overview that discusses at a high level our operating results and some of the trends that affect our business.

Significant changes since our most recent Annual Report on Form 10-K in the Critical Accounting Policies and Estimates that we believe are important to understanding the assumptions and judgments underlying our financial statements.

Results of Operations that includes a more detailed discussion of our revenue and expenses.
Liquidity and Capital Resources which discusses key aspects of our statements of cash flows, changes in our balance sheets and our financial commitments.
You should note that this MD\&A discussion contains forward-looking statements that involve risks and uncertainties. Please see Item 1A in Part II of this Quarterly Report on Form 10-Q for important information to consider when evaluating such statements.
You should read this MD\&A in conjunction with the financial statements and related notes in Item 1 and our Annual Report on Form 10-K for the fiscal year ended July 31, 2007. In February 2007 we completed the acquisition of Digital Insight Corporation for a total purchase price of approximately $\$ 1.34$ billion. Accordingly, we have included Digital Insight s results of operations in our consolidated results of operations from the date of acquisition. We also sold our Intuit Distribution Management Solutions business in August 2007 for approximately $\$ 100$ million in cash and recorded a net gain on disposal of $\$ 27.5$ million. We accounted for this business as discontinued operations and have accordingly reclassified our statements of operations and balance sheets for all periods prior to the sale. Unless noted otherwise, the following discussion pertains only to our continuing operations.

## Executive Overview

This overview provides a high level discussion of our operating results and some of the trends that affect our business. We believe that an understanding of these trends is important in order to understand our financial results for the second quarter and first six months of fiscal 2008 as well as our future prospects. This summary is not intended to be exhaustive, nor is it intended to be a substitute for the detailed discussion and analysis provided elsewhere in this Quarterly Report on Form 10-Q.
About Intuit
Intuit is a leading provider of business and financial management solutions for small and medium sized businesses; financial institutions; consumers; and accounting professionals. We organize our business into the following six segments:

QuickBooks includes QuickBooks accounting and business management software and technical support, as well as financial supplies for small businesses.

Payroll and Payments includes small business payroll products and services. It also encompasses merchant services, such as credit and debit card processing, provided by our Innovative Merchant Solutions business.

Consumer Tax includes our TurboTax consumer and small business tax return preparation products and services.

Professional Tax includes our Lacerte and ProSeries professional tax products and services.

## Edgar Filing: INTUIT INC - Form 10-Q

Financial Institutions consists primarily of outsourced online banking applications and services for banks and credit unions provided by our Digital Insight business.

Other Businesses includes our Quicken personal finance products and services, Intuit Real Estate Solutions, and our businesses in Canada and the United Kingdom.
Seasonality and Trends
Our QuickBooks, Consumer Tax and Professional Tax businesses are highly seasonal. Some of our other offerings are also seasonal, but to a lesser extent. Revenue from many of our small business software products, including

## Table of Contents

QuickBooks, tends to be at its peak around calendar year end, although the timing of new product releases or changes in our offerings can materially shift revenue between quarters. Sales of income tax preparation products and services are heavily concentrated in the period from November through April. In our Consumer Tax business, a greater proportion of our revenue has been occurring later in this seasonal period due in part to the growth in sales of TurboTax Online, for which revenue is recognized upon filing. The seasonality of our Consumer Tax and Professional Tax revenue is also affected by the timing of the availability of tax forms from taxing agencies and the ability of those agencies to receive electronic tax return submissions. Delays in the availability of tax forms or the ability of taxing agencies to receive submissions can cause revenue to shift from our second fiscal quarter to our third fiscal quarter. These seasonal patterns mean that our total net revenue is usually highest during our second quarter ending January 31 and third quarter ending April 30. We typically report losses in our first quarter ending October 31 and fourth quarter ending July 31, when revenue from our tax businesses is minimal while operating expenses continue at relatively consistent levels. We believe the seasonality of our revenue is likely to continue in the future. In MD\&A we often focus on year-to-date results for our seasonal businesses as they are generally more meaningful than quarterly results. Overview of Financial Results
Total net revenue for the first six months of fiscal 2008 was $\$ 1.28$ billion, up $16 \%$ compared with the first six months of fiscal 2007. The fiscal 2008 revenue increase was due to our acquisition of Digital Insight and, to a lesser extent, to revenue growth in our Consumer Tax segment. We estimate that, compared with the second quarter of fiscal 2007, changes in our Professional Tax offerings and delay of delivery of certain product and service elements for the 2007 tax year caused an additional $\$ 23$ million in Professional Tax revenue to be deferred from the second quarter of fiscal 2008 to the third quarter of fiscal 2008. Excluding the impact of our acquisition of Digital Insight, the transition of certain outsourced payroll customers in connection with a sale of assets to Automatic Data Processing, Inc. (ADP), and the deferral of Professional Tax revenue described above, we estimate that total net revenue for the first six months of fiscal 2008 would have increased $10 \%$ compared with the same period of fiscal 2007.
Operating income from continuing operations of $\$ 70.4$ million for the first six months of fiscal 2008 decreased $39 \%$ compared with $\$ 116.2$ million for the first six months of fiscal 2007. Fiscal 2008 revenue growth was more than offset by higher costs of revenue and higher operating expenses. Higher costs and expenses in the first six months of fiscal 2008 reflect our acquisition of Digital Insight, which has a higher cost structure than our other businesses. Higher costs and expenses in that period also reflect higher costs of revenue associated with revenue growth in our other segments, increased investment in research and development for new and existing offerings, and increases in advertising and other marketing expenses to support the launch of our Consumer Tax offerings. The effects of these factors are described in more detail below.
Net income from continuing operations of $\$ 68.4$ million for the first six months of fiscal 2008 decreased $23 \%$ compared with $\$ 88.4$ million for the first six months of fiscal 2007. In the fiscal 2008 period we incurred interest expense of $\$ 27.6$ million on the debt we issued in connection with our February 2007 acquisition of Digital Insight. We also recorded a pre-tax gain of $\$ 38.0$ million on the sale of certain outsourced payroll assets in the first six months of fiscal 2008. Our effective tax rates for the first six months of fiscal 2008 and 2007 were approximately $33 \%$ and $36 \%$. Diluted net income per share from continuing operations of $\$ 0.20$ for the first six months of fiscal 2008 decreased $20 \%$ compared with $\$ 0.25$ for the same period of fiscal 2007 due to these factors.
On December 18, 2007 we acquired all of the outstanding shares of Homestead Technologies Inc. for total consideration of approximately $\$ 170$ million on a fully diluted basis. Homestead is a provider of Web site services to small businesses and became part of our QuickBooks segment.
On December 19, 2007 we entered into a definitive agreement to acquire Electronic Clearing House, Inc. (ECHO). Under the terms of the agreement, Intuit will pay $\$ 17.00$ per share in cash for each share of ECHO common stock, including shares issuable upon exercise of options, for total consideration of approximately $\$ 131$ million on a fully diluted basis. ECHO is a provider of electronic payment processing services and will become part of our Payroll and Payments segment. The transaction is subject to ECHO shareholder approval and other customary closing conditions and is expected to close during the third quarter of fiscal 2008.
We ended the second quarter of fiscal 2008 with cash and investments totaling $\$ 837.2$ million, a decrease of $\$ 466.5$ million from July 31, 2007. In the first six months of fiscal 2008 we generated cash from continuing

## Edgar Filing: INTUIT INC - Form 10-Q

operations, the sale of investments, the sale of our Intuit Distribution Management Solutions business and the issuance of common stock under employee stock plans. During the same period we used cash for the repurchase of 16.3 million shares of

## Table of Contents

our common stock for $\$ 500$ million under our stock repurchase programs, for the purchase of Homestead
Technologies, for purchases of property and equipment and for seasonal working capital needs. At January 31, 2008, we had authorization from our Board to expend $\$ 300$ million for future stock repurchases. See Liquidity and Capital Resources later in this Item 2 for more information.

## Critical Accounting Policies and Estimates

In preparing our financial statements, we make estimates, assumptions and judgments that can have a significant impact on our net revenue, operating income or loss and net income or loss, as well as on the value of certain assets and liabilities on our balance sheet. We believe that the estimates, assumptions and judgments involved in the accounting policies described in Management s Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of our Annual Report on Form 10-K for the fiscal year ended July 31, 2007 have the greatest potential impact on our financial statements, so we consider them to be our critical accounting policies and estimates. Except for the change to our income tax policy that is discussed in Income Taxes Adoption of FASB Interpretation No. 48 below, we believe that during the first six months of fiscal 2008 there were no significant changes in those critical accounting policies and estimates. Senior management has reviewed the development and selection of our critical accounting policies and estimates and their disclosure in this Quarterly Report on Form 10-Q with the Audit Committee of our Board of Directors.
Income Taxes Adoption of FASB Interpretation No. 48
We adopted Financial Accounting Standards Board (FASB) Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109 on August 1, 2007. See Note 9 to the financial statements in Item 1. As a result of our adoption of FIN 48 we recognize and measure benefits for uncertain tax positions accounted for in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes, using a two-step approach. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the weight of available evidence indicates that it is more likely than not that the tax position will be sustained upon audit, including resolution of any related appeals or litigation processes. For tax positions that are more likely than not of being sustained upon audit, the second step is to measure the tax benefit as the largest amount that is more than $50 \%$ likely of being realized upon settlement. Significant judgment is required to evaluate uncertain tax positions. We evaluate our uncertain tax positions on a quarterly basis. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change.

## Results of Operations

Financial Overview

## Edgar Filing: INTUIT INC - Form 10-Q

## Table of Contents

Total net revenue increased $\$ 84.3$ million or $11 \%$ in the second quarter of fiscal 2008 compared with the second quarter of fiscal 2007. Total net revenue was higher in the second quarter of fiscal 2008 due to our acquisition of Digital Insight, which accounted for about $\$ 65$ million of the increase, and, to a lesser extent, to revenue growth in our Consumer Tax segment. Excluding the impact of our acquisition of Digital Insight, the transition of certain outsourced payroll customers in connection with a sale of assets to ADP, and the deferral of Professional Tax revenue described below, we estimate that total net revenue for the second quarter of fiscal 2008 would have increased $9 \%$ compared with the same period of fiscal 2007. Consumer Tax segment revenue increased $\$ 24.9$ million or $11 \%$ in the second quarter of fiscal 2008 due to growth in TurboTax Online units. Professional Tax segment revenue decreased $\$ 25.3$ million or $19 \%$ in the second quarter of fiscal 2008. We estimate that, compared with the second quarter of fiscal 2007, changes in our Professional Tax offerings and delay of delivery of certain product and service elements for the 2007 tax year caused an additional $\$ 23$ million in Professional Tax revenue to be deferred from the second quarter of fiscal 2008 to the third quarter of fiscal 2008. Revenue in our QuickBooks segment was up $5 \%$ and Payroll and Payments segment revenue was flat. Payroll and Payments segment revenue for the second quarter of fiscal 2008 increased $16 \%$ when adjusted for the ongoing transition of certain outsourced payroll customers in connection with a sale of assets to ADP. See Total Net Revenue by Business Segment later in this Item 2 for more information. Total net revenue increased $\$ 178.7$ million or $16 \%$ in the first six months of fiscal 2008 compared with the first six months of fiscal 2007. Total net revenue was higher in the fiscal 2008 period due to our acquisition of Digital Insight, which accounted for about $\$ 131$ million of the increase and, to a lesser extent, to revenue growth in our Consumer Tax segment. Excluding the impact of our acquisition of Digital Insight, the transition of certain outsourced payroll customers in connection with a sale of assets to ADP, and the deferral of Professional Tax revenue described above, we estimate that total net revenue for the first six months of fiscal 2008 would have increased $10 \%$ compared with the same period of fiscal 2007. Consumer Tax segment revenue increased $\$ 27.0$ million or $11 \%$ in the first six months of fiscal 2008 due to growth in TurboTax Online units. Professional Tax segment revenue decreased $\$ 24.0$ million or $17 \%$ in the first six months of fiscal 2008 due to the deferral of revenue described above. Revenue in our QuickBooks segment was up 7\% and Payroll and Payments segment revenue increased 2\%. Payroll and Payments segment revenue for the first six months of fiscal 2008 increased $17 \%$ when adjusted for the ongoing transition of certain outsourced payroll customers in connection with a sale of assets to ADP. See Total Net Revenue by Business Segment later in this Item 2 for more information.
Higher revenue in the second quarter and first six months of fiscal 2008 was more than offset by higher costs and expenses, including costs and expenses associated with Digital Insight. The costs and expenses for our Financial Institutions segment, which includes Digital Insight, are relatively higher as a percentage of revenue than the costs and expenses for our other businesses. Including Digital Insight, increases for the first six months of fiscal 2008 were approximately $\$ 60$ million for cost of product, service and other revenue, almost $\$ 70$ million for product development, approximately $\$ 60$ million for selling and marketing expenses and approximately $\$ 38$ million for the amortization of Digital Insight intangible assets. See Cost of Revenue and Operating Expenses later in this Item 2 for more information.
Net income from continuing operations decreased $\$ 29.6$ million or $20 \%$ in the second quarter of fiscal 2008 and $\$ 20.0$ million or $23 \%$ in the first six months of fiscal 2008 compared with the same periods of fiscal 2007. In the first six months of fiscal 2008 we incurred interest expense of $\$ 27.6$ million on the debt we issued in connection with our February 2007 acquisition of Digital Insight. We also recorded a pre-tax gain of $\$ 38.0$ million on the sale of certain outsourced payroll assets in the first six months of fiscal 2008. Our effective tax rates for the second quarters of fiscal 2008 and 2007 were approximately $35 \%$. Our effective tax rates for the first six months of fiscal 2008 and 2007 were approximately $33 \%$ and $36 \%$. See Income Taxes later in this Item 2 for more information. Due to these factors, diluted net income per share from continuing operations decreased $15 \%$ to $\$ 0.34$ in the second quarter of fiscal 2008 and decreased $20 \%$ to $\$ 0.20$ in the first six months of fiscal 2008 compared with the same periods of fiscal 2007.

QuickBooks
QuickBooks segment net revenue increased $\$ 8.9$ million or $5 \%$ in the second quarter of fiscal 2008 and $\$ 20.6$ million or $7 \%$ in the first six months of fiscal 2008 compared with the same periods of fiscal 2007. Total QuickBooks software unit sales, including activations of our free Simple Start offering, increased $4 \%$ in the first six months of fiscal 2008 compared with the same period of fiscal 2007. Revenue growth in that period was also driven by a $33 \%$ increase in QuickBooks Online Edition subscribers and growth in revenue from secondary products and services sold in conjunction with QuickBooks software units.

## Table of Contents

## Payroll and Payments

Payroll and Payments net revenue was flat in the second quarter of fiscal 2008 compared with the second quarter of fiscal 2007. In our Payments business, merchant services revenue increased $27 \%$ in the second quarter of fiscal 2008 due to $20 \%$ growth in the customer base, $4 \%$ higher transaction volume per customer and price increases. Small business payroll revenue decreased $12 \%$ in the second quarter of fiscal 2008 compared with the second quarter of fiscal 2007 as we continued to transition portions of our Complete Payroll and Premier Payroll Services customer base in connection with a sale of assets to ADP. We estimate that revenue growth in our Payroll and Payments segment in the second quarter of fiscal 2008 would have been approximately $16 \%$ when adjusted for the impact of the sale of those customers.
Payroll and Payments net revenue increased $\$ 5.6$ million or $2 \%$ in the first six months of fiscal 2008 compared with the same period of fiscal 2007. In our Payments business, merchant services revenue increased $31 \%$ in the first six months of fiscal 2008 due to $20 \%$ growth in the customer base, $4 \%$ higher transaction volume per customer and price increases. Small business payroll revenue decreased $10 \%$ in the first six months of fiscal 2008 compared with the same period of fiscal 2007 as we continued to transition portions of our Complete Payroll and Premier Payroll Services customer base in connection with a sale of assets to ADP. We estimate that revenue growth in our Payroll and Payments segment in the first six months of fiscal 2008 would have been approximately $17 \%$ when adjusted for the impact of the sale of those customers.
Consumer Tax
Consumer Tax total net revenue increased $\$ 24.9$ million or $11 \%$ in the second quarter of fiscal 2008 and $\$ 27.0$ million or $11 \%$ in the first six months of fiscal 2008 compared with the same periods of fiscal 2007. The fiscal 2008 increases were due to $13 \%$ growth in total federal TurboTax units, driven by growth in TurboTax Online units. Due to the seasonal nature of our Consumer Tax business, we will not have substantially complete results for the 2007 tax season until the third quarter of fiscal 2008.

## Professional Tax

Professional Tax total net revenue decreased $\$ 25.3$ million or $19 \%$ in the second quarter of fiscal 2008 and $\$ 24.0$ million or $17 \%$ in the first six months of fiscal 2008 compared with the same periods of fiscal 2007. We estimate that, compared with the second quarter of fiscal 2007, changes in our Professional Tax offerings and delay of delivery of certain product and service elements for the 2007 tax year caused an additional $\$ 23$ million in Professional Tax revenue to be deferred from the second quarter of fiscal 2008 to the third quarter of fiscal 2008. If this deferral of revenue had not occurred, we estimate that Professional Tax revenue would have been flat in the first six months of fiscal 2008 compared with the same period of fiscal 2007. Due to the seasonal nature of our Professional Tax business, we will not have substantially complete results for the 2007 tax season until the third quarter of fiscal 2008. Financial Institutions
Financial Institutions net revenue increased $\$ 66.0$ million to $\$ 72.3$ million in the second quarter of fiscal 2008 and increased $\$ 132.6$ million to $\$ 144.5$ million compared with the same periods of fiscal 2007. The fiscal 2008 increases were due almost entirely to our February 2007 acquisition of Digital Insight.

## Other Businesses

Other Businesses net revenue increased $\$ 10.0$ million or $12 \%$ in the second quarter of fiscal 2008 and $\$ 16.9$ million or $11 \%$ in the first six months of fiscal 2008 compared with the same periods of fiscal 2007. In the first six months of fiscal 2008, revenue from our Intuit Real Estate Solutions business grew $27 \%$, revenue from our businesses in Canada and the United Kingdom increased $8 \%$ and Quicken revenue grew 4\%.

| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Cost of product revenue | \$ 56.9 | 11\% | \$ 66.1 | 12\% | \$ 90.6 | 12\% | \$ 101.5 | 13\% |
| Cost of service and other revenue | 102.8 | 35\% | 65.4 | 32\% | 200.3 | 38\% | 128.2 | 37\% |
| Amortization of purchased intangible assets | 13.3 | n/a | 2.3 | n/a | 26.1 | n/a | 4.3 | n/a |
| Total cost of revenue | \$ 173.0 | 21\% | \$ 133.8 | 18\% | \$ 317.0 | 25\% | \$ 234.0 | 21\% |

Cost of service and other revenue as a percentage of service and other revenue increased to $35 \%$ in the second quarter of fiscal 2008 from $32 \%$ in the second quarter of fiscal 2007 and increased to $38 \%$ in the first six months of fiscal 2008 from $37 \%$ in the first six months of fiscal 2007. The fiscal 2008 increases were due to the impact of our acquisition of Digital Insight, which has relatively higher costs of service and other revenue, partially offset by the impact of growth in merchant services revenue and Consumer Tax services revenue, which have relatively lower costs of revenue.
Amortization of purchased intangible assets increased in the second quarter and first six months of fiscal 2008 compared with the same periods of fiscal 2007 due to the amortization of Digital Insight purchased intangible assets, which we acquired in February 2007.
Operating Expenses

| (Dollars in millions) | $\begin{gathered} \text { Q2 } \\ \text { FY08 } \end{gathered}$ | \% of <br> Total <br> Net <br> Revenue | $\begin{gathered} \text { Q2 } \\ \text { FY07 } \end{gathered}$ | $\%$ of <br> Total <br> Net <br> Revenue | $\begin{gathered} \text { YTD } \\ \text { Q2 } \\ \text { FY08 } \end{gathered}$ | $\%$ of <br> Total <br> Net <br> Revenue | $\begin{gathered} \text { YTD } \\ \text { Q2 } \\ \text { FY07 } \end{gathered}$ | $\%$ of <br> Total <br> Net <br> Revenue |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Selling and marketing | \$ 263.7 | 31\% | \$ 219.5 | 29\% | \$ 433.4 | 34\% | \$ 373.0 | $34 \%$ |
| Research and development | 149.8 | 18\% | 113.0 | 15\% | 299.1 | 24\% | 230.4 | 21\% |
| General and administrative | 66.7 | 8\% | 68.2 | 9\% | 143.8 | 11\% | 144.2 | 13\% |
| Acquisition-related charges | 8.1 | 1\% | 1.4 | 0\% | 16.1 | 1\% | 3.2 | 0\% |
| Total operating expenses | \$ 488.3 | 58\% | \$ 402.1 | 53\% | \$ 892.4 | 70\% | \$ 750.8 | 68\% |

Total operating expenses as a percentage of total net revenue increased to $58 \%$ in the second quarter of fiscal 2008 compared with $53 \%$ in the second quarter of fiscal 2007 and increased to $70 \%$ in the first six months of fiscal 2008 compared with $68 \%$ in the first six months of fiscal 2007. Total operating expenses in dollars increased about $\$ 142$ million in the first six months of fiscal 2008, approximately $\$ 73$ million of which was due to our February 2007 acquisition of Digital Insight. Fiscal 2008 operating expenses were affected by the higher cost structure of Digital Insight and by the amortization of Digital Insight intangible assets.

## Edgar Filing: INTUIT INC - Form 10-Q

Including Digital Insight, almost $50 \%$ of the increase in total operating expenses in dollars for the first six months of fiscal 2008 was due to higher research and development expenses. During this period, we continued to invest in research and development for existing offerings as well as for new offerings. About $40 \%$ of the increase in total operating expenses for this period was due to higher selling and marketing expenses. Slightly more than half of the fiscal 2008 increase in selling and marketing expenses was due to our acquisition of Digital Insight, whose selling costs are relatively higher compared with our other businesses because they sell their services to financial institutions through a direct sales force. We also increased advertising and other marketing expenses to support the launch of our Consumer Tax offerings.

## Table of Contents

Acquisition-related charges increased in the second quarter and first six months of fiscal 2008 compared with the same periods of fiscal 2007 due to the amortization of Digital Insight purchased intangible assets, which we acquired in February 2007.

## Segment Operating Income (Loss)

Segment operating income or loss is segment net revenue less segment cost of revenue and operating expenses. Segment expenses do not include certain costs, such as corporate selling and marketing, product development, and general and administrative expenses and share-based compensation expenses, which are not allocated to specific segments. These unallocated costs totaled $\$ 139.5$ million and $\$ 121.2$ million in the second quarters of fiscal 2008 and 2007 and $\$ 284.2$ million and $\$ 249.3$ million in the first six months of fiscal 2008 and 2007. Unallocated costs increased in the fiscal 2008 periods due to higher share-based compensation expenses and to higher expenses for shared product development and marketing functions. Segment expenses also do not include amortization of purchased intangible assets, acquisition-related charges, and impairment of goodwill and purchased intangible assets. In addition, segment expenses do not include interest expense, interest and other income, and realized net gains or losses on marketable equity securities and other investments. See Note 6 to the financial statements in Item 1 for reconciliations of total segment operating income or loss to income or loss from continuing operations before income taxes for each fiscal period presented.

| Consumer Tax | 116.5 | $47 \%$ | 112.7 | $50 \%$ | 82.8 | $32 \%$ | 78.8 | $34 \%$ |  |
| Professional Tax | 61.4 | $58 \%$ | 80.5 | $62 \%$ | 40.3 | $35 \%$ | 58.5 | $42 \%$ |  |
| Financial Institutions | 12.6 | $17 \%$ | 2.0 | $32 \%$ | 25.0 | $17 \%$ | 3.4 | $29 \%$ |  |
| Other Businesses | 31.5 | $33 \%$ | 31.4 | $37 \%$ | 42.4 | $26 \%$ | 43.4 | $29 \%$ |  |
|  |  |  |  |  |  |  |  |  |  |
| Total segment |  |  |  |  |  |  |  |  |  |
| operating income | $\$ 334.5$ | $40 \%$ | $\$ 339.6$ | $45 \%$ | $\$ 396.8$ | $31 \%$ | $\$ 373.1$ | $34 \%$ |  |

## QuickBooks

QuickBooks segment operating income as a percentage of related revenue was $32 \%$ in the second quarters of fiscal 2008 and 2007. QuickBooks segment revenue increased $\$ 8.9$ million in the second quarter of fiscal 2008 compared with the second quarter of fiscal 2007. Cost of revenue remained relatively flat as cost efficiencies achieved for our QuickBooks 2008 product line offset higher costs associated with QuickBooks services. Expenses for product development increased approximately $\$ 4$ million in the second quarter of fiscal 2008.
QuickBooks segment operating income as a percentage of related revenue increased to $29 \%$ in the first six months of fiscal 2008 from $27 \%$ in the first six months of fiscal 2007. QuickBooks segment revenue grew $\$ 20.6$ million in the first six months of fiscal 2008 compared with the same period of fiscal 2007. Cost of revenue increased about $\$ 3$ million as cost efficiencies achieved for our QuickBooks 2008 product line partially offset higher costs associated with QuickBooks services. Expenses for product development increased approximately $\$ 6$ million and general and administrative expenses increased approximately $\$ 2$ million, including higher legal expenses, in the fiscal 2008 period.

## Payroll and Payments

Payroll and Payments segment operating income as a percentage of related revenue decreased to $41 \%$ in the second quarter of fiscal 2008 from $44 \%$ in the second quarter of fiscal 2007. Total Payroll and Payments revenue was flat in the second quarter of fiscal 2008 compared with the second quarter of fiscal 2007, with higher merchant services revenue offsetting lower total payroll revenue. Although merchant services revenue has relatively higher costs of

## Edgar Filing: INTUIT INC - Form 10-Q

revenue than our combined payroll business, lower overall cost of revenue in the segment was achieved through our ongoing transition of certain full service payroll customers, which have relatively higher costs of revenue, to ADP. Higher gross margins in the second quarter of fiscal 2008 were more than offset by higher product development and infrastructure costs.

## Table of Contents

Payroll and Payments segment operating income as a percentage of related revenue increased slightly to $42 \%$ in the first six months of fiscal 2008 compared with $41 \%$ in the same period of fiscal 2008. Total Payroll and Payments revenue increased $\$ 5.6$ million in the first six months of fiscal 2008 compared with the same period of fiscal 2007, with higher merchant services revenue more than offsetting lower total payroll revenue. Although merchant services revenue has relatively higher costs of revenue than our combined payroll business, lower overall cost of revenue in the segment was achieved through our ongoing transition of certain full service payroll customers, which have relatively higher costs of revenue, to ADP. Higher gross margins in the first half of fiscal 2008 were offset by higher product development and infrastructure costs.

## Consumer Tax

Consumer Tax segment operating income as a percentage of related revenue decreased to $47 \%$ in the second quarter of fiscal 2008 from $50 \%$ in the second quarter of fiscal 2007 and decreased to $32 \%$ in the first six months of fiscal 2008 from $34 \%$ in the first six months of fiscal 2007. The $\$ 27.0$ million growth in Consumer Tax revenue in the first six months of fiscal 2008 was nearly offset by higher expenses, including increases of approximately $\$ 25$ million for selling and marketing expenses (including higher radio, television and online advertising expenses as well as higher direct marketing expenses) and approximately $\$ 5$ million for product development expenses. Lower cost of revenue and general and administrative expenses partially offset the increases in selling and marketing expenses and product development expenses.
Professional Tax
Professional Tax segment operating income as a percentage of related revenue decreased to $58 \%$ in the second quarter of fiscal 2008 from $62 \%$ in the second quarter of fiscal 2007 and decreased to $35 \%$ in the first six months of fiscal 2008 from $42 \%$ in the first six months of fiscal 2007. Professional Tax operating margins for the second quarter and first six months of fiscal 2008 were affected by the deferral of approximately $\$ 23$ million in revenue associated with changes in our offerings and a delay in the delivery of certain product and service elements from the second quarter of fiscal 2008 to the third quarter of fiscal 2008. If this deferral had not occurred, Professional Tax segment operating income as a percentage of related revenue would have been $45 \%$ for the first six months of fiscal 2008.

## Financial Institutions

Financial Institutions segment operating income as a percentage of related revenue decreased to $17 \%$ in the second quarter of fiscal 2008 from $32 \%$ in the second quarter of fiscal 2007 and decreased to $17 \%$ in the first six months of fiscal 2008 from $29 \%$ in the first six months of fiscal 2007. The decreases in segment operating income were due to our February 2007 acquisition of Digital Insight, which we combined with our existing financial institutions business to create a new Financial Institutions segment. This new segment is significantly larger and has higher costs, including relatively higher cost of service and other revenue and higher selling expenses, than the Intuit financial institutions business that preceded it.

## Other Businesses

Other Businesses segment operating income as a percentage of related revenue decreased to $33 \%$ in the second quarter of fiscal 2008 from $37 \%$ in the second quarter of fiscal 2007 and decreased to $26 \%$ in the first six months of fiscal 2008 from $29 \%$ in the same period of fiscal 2007. Much of the revenue growth in this segment came from our Intuit Real Estate Solutions business, which has a higher cost structure than the other businesses in this segment. In addition, selling and marketing expenses in our business in Canada increased in both fiscal 2008 periods in support of the launch of our latest QuickBooks and consumer tax offerings.

## Non-Operating Income and Expenses

## Interest Expense

In order to finance a portion of our February 2007 acquisition of Digital Insight, we issued $\$ 1$ billion in senior notes. Interest expense of $\$ 13.5$ million for the second quarter of fiscal 2008 and $\$ 27.6$ million for the first six months of fiscal 2008 consisted primarily of interest on $\$ 500$ million in principal amount of the senior notes at $5.40 \%$ and

## Table of Contents

interest on $\$ 500$ million in principal amount of the senior notes at $5.75 \%$. The senior notes are due in March 2012 and March 2017 and are redeemable by Intuit at any time, subject to a make-whole premium.

| 31, |  |$\right)$

Interest and other income consists primarily of interest income. Lower interest rates and lower average invested balances resulted in lower interest income in the second quarter of fiscal 2008 compared with the second quarter of fiscal 2007. Higher average invested balances and lower interest rates resulted in interest income that was flat in the first six months of fiscal 2008 compared with the same period of fiscal 2007.
Income Taxes

## Effective Tax Rate

Our effective tax rate for the second quarter of fiscal 2008 was approximately $35 \%$ and did not differ significantly from the federal statutory rate. State income taxes were offset primarily by the benefit we received from tax exempt interest income, the domestic production activities deduction, and federal and state research and experimental credits. Our effective tax rate for the second quarter of fiscal 2007 was approximately $35 \%$ and did not differ significantly from the federal statutory rate. State income taxes were offset primarily by the benefit we received from federal and state research and experimental credits and tax exempt interest income. In addition, we benefited from the retroactive extension of the federal research and experimental credit in the fiscal 2007 period.
Our effective tax rate for the first six months of fiscal 2008 was approximately $33 \%$. This differed from the federal statutory rate of $35 \%$ primarily due to the benefit we received from tax exempt interest income, the domestic production activities deduction, federal and state research and experimental credits, and a one-time benefit related to executive stock compensation, partially offset by state income taxes. Our effective tax rate for the first six months of fiscal 2007 was approximately $36 \%$. This differed from the federal statutory rate of $35 \%$ primarily due to state income taxes, which were partially offset by the benefit we received from federal and state research and experimental credits and tax exempt interest income. In addition, we benefited from the retroactive extension of the federal research and experimental credit in the fiscal 2007 period.
Net Deferred Tax Assets
At January 31, 2008, we had total net deferred tax assets of $\$ 184.6$ million, which included a valuation allowance of $\$ 2.5$ million for certain state net operating loss carryforwards. The allowance reflects management s assessment that we may not receive the benefit of loss carryforwards in certain state jurisdictions. While we believe our current valuation allowance is sufficient, it may be necessary to increase this amount if it becomes more likely that we will not realize a greater portion of the net deferred tax assets. We assess the need for an adjustment to the valuation allowance on a quarterly basis. See Note 9 to the financial statements in Item 1.
Adoption of FASB Interpretation No. 48
On August 1, 2007 we adopted the provisions of FIN 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109. FIN 48 prescribes a threshold for the financial statement recognition and measurement of a tax position taken or expected to be taken in an income tax return. FIN 48 requires that we determine whether the benefits of tax positions are more likely than not of being sustained upon audit based on the

## Edgar Filing: INTUIT INC - Form 10-Q

technical merits of the tax position. For tax positions that are more likely than not of being sustained upon audit, we recognize the largest amount of the benefit that is more likely than not of being sustained in the financial statements.

## Table of Contents

For tax positions that are not more likely than not of being sustained upon audit, we do not recognize any portion of the benefit in the financial statements. See Note 9 to the financial statements in Item 1 for more information about the impact of our adoption of FIN 48.

## Dispositions and Discontinued Operations

During fiscal 2008 and 2007 we sold the assets and businesses described below. See Note 5 to the financial statements in Item 1 for a more complete description of these dispositions and discontinued operations.

## Intuit Distribution Management Solutions Discontinued Operations

In August 2007 we sold our Intuit Distribution Management Solutions (IDMS) business for approximately $\$ 100$ million in cash and recorded a net gain on disposal of $\$ 27.5$ million. IDMS was part of our Other Businesses segment. In accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 144,
Accounting for the Impairment or Disposal of Long-Lived Assets, we have accounted for IDMS as a discontinued operation and segregated its operating results from continuing operations in our statements of operations for all periods prior to the sale. Revenue and net loss from IDMS discontinued operations were $\$ 1.9$ million and $\$ 0.7$ million for the first six months of fiscal 2008. Revenue and net loss from IDMS discontinued operations were $\$ 12.7$ million and $\$ 0.2$ million for the second quarter of fiscal 2007 and $\$ 24.2$ million and $\$ 1.9$ million for the first six months of fiscal 2007.
Sale of Outsourced Payroll Assets
In March 2007 we sold certain assets related to our Complete Payroll and Premier Payroll Service business to Automated Data Processing, Inc. (ADP) for a purchase price of up to approximately $\$ 135$ million in cash. The final purchase price is contingent upon the number of customers that transition to ADP. Due to customer attrition during the fourth quarter of fiscal 2007 and the first two quarters of fiscal 2008, we currently estimate the maximum sales price to be approximately $\$ 111$ million and the maximum pre-tax net gain to be approximately $\$ 102$ million. The assets were part of our Payroll and Payments segment. In accordance with the provisions of SFAS 144, we have not accounted for this transaction as a discontinued operation. We will recognize the net gain on the sale of the assets as customers are transitioned pursuant to the agreement over a period not to exceed one year from the date of the sale. In the second quarter and first six months of fiscal 2008 we recorded pre-tax net gains of $\$ 14.0$ million and $\$ 38.0$ million in our statement of operations for customers who transitioned to ADP during those periods. The total pre-tax net gain recognized from the inception of this transaction through January 31, 2008 was $\$ 69.6$ million.

## Liquidity and Capital Resources

## Overview

At January 31, 2008, our cash, cash equivalents and investments totaled $\$ 837.2$ million, a decrease of $\$ 466.5$ million from July 31, 2007. Our primary source of liquidity has been cash from operations, which entails the collection of accounts receivable for products and services. Our primary uses of cash have been for research and development programs, selling and marketing activities, capital projects, debt service costs, repurchases of common stock and acquisitions of businesses.
At January 31, 2008, we held approximately $\$ 328$ million in AAA rated municipal auction rate securities that were valued at reported market prices and classified as current assets. Auction rate securities are collateralized long-term debt instruments that provide liquidity through a Dutch auction process that resets the applicable interest rate at pre-determined intervals, typically every 35 days. Beginning in February 2008, auctions failed for approximately $\$ 140$ million in par value of municipal auction rate securities we held because sell orders exceeded buy orders. When these auctions failed to clear, higher interest rates for those securities went into effect. However, the funds associated with these failed auctions will not be accessible until the issuer calls the security, a successful auction occurs, a buyer is found outside of the auction process, or the security matures. The underlying assets of the municipal auction rate securities we hold, including the securities for which auctions have failed, are generally student loans which are guaranteed by the U.S. government. We do not believe the carrying values of these municipal auction rate securities are impaired. In addition, we believe that we will be able to liquidate these investments without significant loss within the next 12 months. We are continuing to monitor the credit markets and may reclassify some or all of these securities from current assets to long-term assets in the future. Based on our

## Table of Contents

expected operating cash flows and our other sources of cash, we do not believe that any reduction in liquidity of our municipal auction rate securities will have a material impact on our overall ability to meet our liquidity needs.
In connection with our acquisition of Digital Insight Corporation, in March 2007 we issued five-year and ten-year senior unsecured notes totaling $\$ 1$ billion and used approximately $\$ 300$ million of our cash balances. We also have a $\$ 500$ million unsecured revolving line of credit facility that is described later in this Item 2 . To date we have not borrowed under the facility.
The following table summarizes selected measures of our liquidity and capital resources at the dates indicated:

## Operating Activities

During the first six months of fiscal 2008 we generated $\$ 37.5$ million in cash from our continuing operations. This included net income of $\$ 94.4$ million, adjustments for depreciation and amortization of $\$ 100.2$ million, an adjustment for share-based compensation of $\$ 56.2$ million, and seasonal working capital needs.
Investing Activities
Investing activities provided $\$ 305.3$ million during the first six months of fiscal 2008, including the receipt of $\$ 443.3$ million in cash from sales of investments and $\$ 124.4$ million in cash from the sale of our Intuit Distribution Management Solutions business and certain outsourced payroll assets, partially offset by our use of $\$ 134.1$ million in cash for acquisitions of businesses (primarily Homestead Technologies Inc.) and $\$ 121.9$ million in cash for purchases of property and equipment.
Our expenditures for property and equipment and capitalized internal use software increased from a total of $\$ 52.9$ million in the first six months of fiscal 2007 to a total of $\$ 121.9$ million in the first six months of fiscal 2008. We expect our expenditures for property and equipment and capitalized internal use software to increase from a total of about $\$ 153$ million in fiscal 2007 to approximately $\$ 300$ million in fiscal 2008. This planned increase in capital expenditures is related to investments in a new data center and expansion of office capacity to support the expected growth in our business.
On December 18, 2007 we acquired all of the outstanding shares of Homestead Technologies Inc. for total consideration of approximately $\$ 170$ million on a fully diluted basis. Homestead is a provider of Web site services to small businesses and became part of our QuickBooks segment.
On December 19, 2007 we entered into a definitive agreement to acquire Electronic Clearing House, Inc. (ECHO). Under the terms of the agreement, Intuit will pay $\$ 17.00$ per share in cash for each share of ECHO common stock, including shares issuable upon exercise of options, for total consideration of approximately $\$ 131$ million on a fully
diluted basis. ECHO is a provider of electronic payment processing services and will become part of our Payroll and 35

## Table of Contents

Payments segment. The transaction is subject to ECHO shareholder approval and other customary closing conditions and is expected to close during the third quarter of fiscal 2008.

## Financing Activities

We used $\$ 370.2$ million in cash for financing activities during the first six months of fiscal 2008, including $\$ 500$ million for the repurchase of common stock under our stock repurchase programs partially offset by $\$ 115.3$ million from the issuance of common stock under employee stock plans.

## Stock Repurchase Programs

Our Board of Directors has authorized a series of common stock repurchase programs. Shares of common stock repurchased under these programs become treasury shares. During the second quarter and first six months of fiscal 2008 we repurchased 8.2 million and 16.3 million shares of our common stock for $\$ 250$ million and $\$ 500$ million under our stock repurchase programs. We repurchased 6.7 million shares for $\$ 205.4$ million under these programs during the same periods of fiscal 2007. At January 31, 2008, we had authorization from our Board to expend $\$ 300$ million for future stock repurchases.

## Unsecured Revolving Credit Facility

On March 22, 2007 we entered into an agreement with certain institutional lenders for a $\$ 500$ million unsecured revolving credit facility that will expire on March 22, 2012. Advances under the credit facility will accrue interest at rates that are equal to, at our election, either Citibank s base rate or the London InterBank Offered Rate (LIBOR) plus a margin that ranges from $0.18 \%$ to $0.575 \%$ based on our senior debt credit ratings. The applicable interest rate will be increased by $0.05 \%$ for any period in which the total principal amount of advances and letters of credit under the credit facility exceeds $\$ 250$ million. The agreement includes covenants that require us to maintain a ratio of total debt to annual earnings before interest, taxes, depreciation and amortization (EBITDA) of not greater than 3.25 to 1.00 and a ratio of annual EBITDA to interest payable of not less than 3.00 to 1.00 . We were in compliance with these covenants at January 31, 2008. We may use amounts borrowed under this credit facility for general corporate purposes or for future acquisitions or expansion of our business. To date we have not borrowed under the credit facility, but we may borrow under the credit facility from time to time as opportunities and needs arise.

## Liquidity and Capital Resource Requirements

We evaluate, on an ongoing basis, the merits of acquiring technology or businesses, or establishing strategic relationships with and investing in other companies. We may decide to use cash and cash equivalents, investments, and our revolving line of credit facility to fund such activities in the future.
Based on past performance and current expectations, we believe that our cash and cash equivalents, investments, and cash generated from operations will be sufficient to meet anticipated seasonal working capital needs, capital expenditure requirements, contractual obligations, commitments and other liquidity requirements associated with our operations for at least the next 12 months.

## Reserves for Returns and Rebates

Activity in our reserves for product returns and for rebates during the first six months of fiscal 2008 and comparative balances at January 31, 2007 were as shown in the following table. Due to the seasonality of our business, we compare our returns and rebate reserve balances at January 31, 2008 to the reserve balances at January 31, 2007.

|  | Balance | Additions <br> Charged |  | Balance <br> January | Balance <br> January |
| :--- | :---: | :---: | :---: | :---: | :---: |
| (In thousands) | July 31, | Against <br> Revenue | Returns/ <br> Redemptions | 31, <br> 2008 | $\mathbf{2 0 0 7}$ |
| Reserve for product returns | $\mathbf{2 0 0 7}$ | $\$ 25,833$ | $\$ 87,894$ | $\$(40,147)$ | $\$ 73,580$ |
| Reserve for rebates | 18,918 | 41,533 | $(19,248)$ | 41,203 | $\$ 68,028$ |
|  |  | 36 |  |  | 33,925 |

## Table of Contents

The fiscal 2008 increase in our reserve for product returns was primarily driven by an increase in expected product returns associated with our French products in the Canadian retail channel. The fiscal 2008 increase in our reserve for rebates was due to increases in consumer tax and other retail promotions and to a new rebate offer in Canada.

## Off-Balance Sheet Arrangements

At January 31, 2008, we did not have any significant off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K.

## Contractual Obligations

We presented our contractual obligations in our Annual Report on Form 10-K for the fiscal year ended July 31, 2007. Except as discussed below, there have been no significant changes in those obligations during the six months ended January 31, 2008.

## Commitment for Interest Payments on Senior Notes

In connection with our acquisition of Digital Insight, on March 12, 2007 we issued $\$ 500$ million of $5.40 \%$ senior unsecured notes due on March 15, 2012 and $\$ 500$ million of $5.75 \%$ senior unsecured notes due on March 15, 2017 (together, the Notes). The Notes are redeemable by Intuit at any time, subject to a make-whole premium. Interest is payable semiannually on March 15 and September 15 beginning on September 15, 2007. At January 31, 2008, our maximum commitment for interest payments under the Notes was $\$ 394.2$ million.

## Commitments for Construction of Data Center

Due to our evolving business needs, we have begun executing a plan to build a new data center in the state of Washington to support our longer term hosting requirements. In January 2007 we purchased the land on which to build the data center and construction is underway. We expect to begin to occupy this facility in October 2008. At January 31, 2008, we had non-cancellable commitments totaling approximately $\$ 100$ million for the construction of this data center.

## Recent Accounting Pronouncements

SFAS 157. Fair Value Measurements
In September 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS 157 provides enhanced guidance for using fair value to measure assets and liabilities. The standard also responds to investors requests for expanded information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value and the effect of fair value measurements on earnings. SFAS 157 applies whenever other standards require or permit assets or liabilities to be measured at fair value. This standard does not expand the use of fair value in any new circumstances. SFAS 157 is effective for fiscal years beginning after November 15, 2007, which means that it will be effective for our fiscal year beginning August 1, 2008. In February 2008 the FASB issued a Staff Position that partially defers the effective date of SFAS 157 for one year for non-financial assets and liabilities, except for items that are recognized or disclosed at fair value in an entity $s$ financial statements on a recurring basis (at least annually). We are in the process of evaluating this standard and therefore have not yet determined the impact that the adoption of SFAS 157 will have on our financial position, results of operations or cash flows.
SFAS 159, The Fair Value Option for Financial Assets and Financial Liabilities
In February 2007 the FASB issued SFAS 159, The Fair Value Option for Financial Assets and Financial Liabilities. SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. The standard s objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. The standard requires companies to provide additional information that will help investors and other users of financial statements to more easily understand the effect of the company s choice to use fair value on its earnings. It also requires companies to display the fair value of those assets and liabilities for which the company has chosen to use fair value on the face of the

## Table of Contents

balance sheet. The new standard does not eliminate disclosure requirements included in other accounting standards, including requirements for disclosures about fair value measurements included in SFAS 157, Fair Value Measurements, and SFAS 107, Disclosures about Fair Value of Financial Instruments. SFAS 159 is effective for fiscal years beginning after November 15, 2007, which means that it will be effective for our fiscal year beginning August 1,2008 . We are in the process of evaluating this standard and therefore have not yet determined the impact that the adoption of SFAS 159 will have on our financial position, results of operations or cash flows. SFAS 141 (revised 2007), Business Combinations
In December 2007 the FASB issued SFAS 141 (revised 2007), Business Combinations. SFAS 141R will significantly change the accounting for business combinations in a number of areas, including the measurement of assets and liabilities acquired and the treatment of contingent consideration, contingencies, acquisition costs, in-process research and development and restructuring costs. In addition, under SFAS 141R, changes in deferred tax asset valuation allowances and acquired income tax uncertainties in a business combination after the measurement period will impact the income tax provision. SFAS 141R is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning after December 15, 2008, which means that it will be effective for our fiscal year beginning August 1, 2009. Early adoption is prohibited. We are in the process of evaluating this standard and therefore have not yet determined the impact that the adoption of SFAS 141R will have on our financial position, results of operations or cash flows.
SFAS 160. Noncontrolling Interests in Consolidated Financial Statements
In December 2007 the FASB issued SFAS 160, Noncontrolling Interests in Consolidated Financial Statements, which establishes accounting and reporting standards for the noncontrolling (minority) interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 is effective for business arrangements entered into in fiscal years beginning on or after December 15, 2008, which means that it will be effective for our fiscal year beginning August 1, 2009. Early adoption is prohibited. We are in the process of evaluating this standard and therefore have not yet determined the impact that the adoption of SFAS 160 will have on our financial position, results of operations or cash flows.

## Table of Contents

## ITEM 3

## QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

## Investments

We do not hold derivative financial instruments in our portfolio of investments. Our investments consist of instruments that meet quality standards consistent with our investment policy. This policy specifies that, except for direct obligations of the United States government, securities issued by agencies of the United States government, and money market or cash management funds, we diversify our holdings by limiting our investments and funds held for payroll customers with any individual issuer.
See Note 2 to the financial statements in Part I, Item 1; Management s Discussion and Analysis of Financial Condition and Results of Operations, Liquidity and Capital Resources, in Part I, Item 2; and Risk Factors in Part II, Item 1A of this Quarterly Report on Form 10-Q for a description of recent market events that may affect the liquidity of certain municipal auction rate securities that we held at January 31, 2008.

## Interest Rate Risk

Our cash equivalents and our portfolio of investments and funds held for payroll customers are subject to market risk due to changes in interest rates. Interest rate movements affect the interest income we earn on cash equivalents, investments and funds held for payroll customers and the value of those investments. Should the Federal Reserve Target Rate increase by $10 \%$ or about 32 basis points from the levels of January 31, 2008, the value of our investments and funds held for payroll customers would decline by approximately $\$ 0.8$ million. Should interest rates increase by 100 basis points from the levels of January 31, 2008, the value of our investments and funds held for payroll customers would decline by approximately $\$ 2.5$ million.
We are also exposed to the impact of changes in interest rates as they affect our $\$ 500$ million revolving credit facility. Advances under the credit facility accrue interest at rates that are equal to Citibank s base rate or the London InterBank Offered Rate (LIBOR) plus a margin that ranges from $0.18 \%$ to $0.575 \%$ based on our senior debt credit ratings. Consequently, our interest expense would fluctuate with changes in the general level of these interest rates if we were to borrow any amounts under the credit facility. At January 31, 2008, no amounts were outstanding under the credit facility.
In connection with our acquisition of Digital Insight, on March 12, 2007 we issued $\$ 500$ million of $5.40 \%$ senior unsecured notes due on March 15, 2012 and $\$ 500$ million of $5.75 \%$ senior unsecured notes due on March 15, 2017. Since these senior notes bear interest at fixed rates, they are not subject to market risk due to changes in interest rates.

## Impact of Foreign Currency Rate Changes

The functional currency of our international operating subsidiaries is the local currency. Assets and liabilities of our foreign subsidiaries are translated at the exchange rate in effect on the balance sheet date. Revenue, costs and expenses are translated at average rates of exchange in effect during the period. We report translation gains and losses as a separate component of stockholders equity. We include net gains and losses resulting from foreign exchange transactions in our statements of operations.
Since we translate foreign currencies (primarily Canadian dollars, British pounds and Indian rupees) into U.S. dollars for financial reporting purposes, currency fluctuations can have an impact on our financial results. The historical impact of currency fluctuations on our financial results has generally been immaterial. We believe that our exposure to currency exchange fluctuation risk is not significant because our international subsidiaries invoice customers and satisfy their financial obligations almost exclusively in their local currencies. Although the impact of currency fluctuations on our financial results has generally been immaterial in the past and we believe that for the reasons cited above currency fluctuations will not be significant in the future, there can be no guarantee that the impact of currency fluctuations will not be material in the future. As of January 31, 2008, we did not engage in foreign currency hedging activities.

## ITEM 4

## CONTROLS AND PROCEDURES

## Evaluation of Disclosure Controls and Procedures

Based upon an evaluation of the effectiveness of disclosure controls and procedures, Intuit s Chief Executive Officer (CEO) and Chief Financial Officer (CFO) have concluded that as of the end of the period covered by this Quarterly Report on Form 10-Q our disclosure controls and procedures as defined under Exchange Act Rule 13a-15(e) and 15d-15(e) were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission and is accumulated and communicated to management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

## Changes in Internal Control over Financial Reporting

During our most recent fiscal quarter, there has not occurred any change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## ITEM 1A

## RISK FACTORS

This Quarterly Report on Form 10-Q contains forward-looking statements. All statements in this report, other than statements that are purely historical, are forward-looking statements. Words such as expects, anticipates, intends, plans, believes, forecasts, estimates, seeks, and similar expressions also identify forward-looking statements. In report, forward-looking statements include, without limitation, the following:
our expectations and beliefs regarding future conduct and growth of the business;
the assumptions underlying our Critical Accounting Policies and Estimates, including our estimates regarding product rebate and return reserves; stock volatility and other assumptions used to estimate the fair value of share-based compensation; and expected future amortization of purchased intangible assets;
our belief that we will be able to liquidate our investments in municipal auction rate securities without significant loss within the next 12 months;
our belief that any reduction in liquidity of our municipal auction rate securities will not have a material impact on our overall ability to meet our liquidity needs;
our belief that our exposure to currency exchange fluctuation risk will not be significant in the future;
our assessments and estimates that determine our effective tax rate;
our belief that our cash, cash equivalents and investments will be sufficient to meet our working capital needs, capital expenditure requirements and similar commitments for at least the next 12 months;
the expected increase in expenditures for property and equipment and capitalized internal use software related to investments in infrastructure, offices and data centers;
our beliefs regarding seasonality and other trends for our businesses;
our assessments and beliefs regarding the future outcome of pending legal proceedings and the liability, if any, that Intuit may incur as a result of those proceedings;
our expectations regarding the costs and other effects of acquisition and disposition transactions;
our expectation regarding the closing of the ECHO acquisition; and
the expected effects of the adoption of new accounting standards.
We caution investors that forward-looking statements are only predictions based on our current expectations about future events and are not guarantees of future performance. We encourage you to read carefully all information provided in this Quarterly Report and in our other filings with the SEC before deciding to invest in our stock or to maintain or change your investment. These forward-looking statements are based on information as of the filing date of this Quarterly Report, and we undertake no obligation to publicly revise or update any forward-looking statement for any reason.
Because forward-looking statements involve risks and uncertainties, there are important factors that may cause actual results to differ materially from those contained in the forward-looking statements. These factors include the following:

We face intense competitive pressures in all of our businesses that may harm our operating results.

## Edgar Filing: INTUIT INC - Form 10-Q

Future revenue growth for our core products depends upon our successful introduction of new and enhanced products and services.

If we fail to maintain reliable and responsive service levels for our electronic tax offerings, or if the IRS or other governmental agencies experience difficulties in receiving customer submissions, we could lose customers and our revenue and earnings could decrease.

The nature of our products necessitates timely product launches and if we experience significant product quality problems or delays, it will harm our revenue, earnings and reputation.

Our businesses collect, use and retain personal customer information and enable customer transactions, which presents security risks, requires us to incur expenses and could harm our business.

Our revenue and earnings are highly seasonal and our quarterly results fluctuate significantly.
The growth of our business depends on our ability to adapt to rapid technological change.
Interruption or failure of our information technology and communications systems could compromise the availability and security of our online products and services, which could damage our reputation and harm our operating results.

Our reliance on a limited number of manufacturing and distribution suppliers could harm our business.

## Edgar Filing: INTUIT INC - Form 10-Q

## Table of Contents

As our product and service offerings become more complex our revenue streams may become less predictable.
We face a number of risks in our merchant card processing business that could result in a reduction in our revenue and earnings.

Risks associated with our financial institutions business may harm our results of operations and financial condition.

Our dependence on a small number of larger retailers and distributors could harm our results of operations.
Increased government regulation of our businesses could harm our operating results.
If we do not respond promptly and effectively to customer service and technical support inquiries we will lose customers and our revenue and earnings will decline.

If we encounter problems with our third-party customer service and technical support providers our business will be harmed.

We are exposed to risks associated with credit card and payment fraud and with credit card processing.
If we fail to adequately protect our intellectual property rights, competitors may exploit our innovations, which could weaken our competitive position and reduce our revenue and earnings.

Third parties claiming that we infringe their proprietary rights could cause us to incur significant legal expenses and prevent us from selling our products.

We expect copying and misuse of our intellectual property to be a persistent problem causing lost revenue and increased expenses.

We do not own all of the software, other technologies and content used in our products and services.
Our acquisition and divestiture activity could disrupt our ongoing business, may involve increased expenses and may present risks not contemplated at the time of the transactions.

We have issued $\$ 1$ billion in a debt offering and may incur other debt in the future, which could adversely affect our financial condition and results of operations.

If actual product returns exceed returns reserves our financial results would be harmed.
Acquisition-related costs and impairment charges can cause significant fluctuation in our net income.
If we fail to operate our payroll business effectively our revenue and earnings will be harmed.
Interest income attributable to payroll customer deposits may fluctuate or be eliminated, causing our revenue and earnings to decline.

We may be unable to attract and retain key personnel.
We are frequently a party to litigation that is costly to defend and consumes the time of our management.

Unanticipated changes in our tax rates could affect our future financial results.
If we fail to maintain an effective system of internal controls, we may not be able to detect fraud or report our financial results accurately, which could harm our business and the trading price of our common stock.

Business interruptions could adversely affect our future operating results.
This list does not include all risks that could affect our business, and if these or any other risks or uncertainties materialize, or if our underlying assumptions prove to be inaccurate, actual results could differ materially from past results and from our expected future results.
Our Annual Report on Form 10-K for the fiscal year ended July 31, 2007 lists in more detail various important risk factors facing our business in Part I, Item 1A under the heading Risk Factors. Except as set forth below, there have been no material changes from the risk factors disclosed in that section of our Form 10-K. We incorporate that section of the Form $10-\mathrm{K}$ into this filing and encourage you to review that information. We also encourage you to review our other reports filed periodically with the Securities and Exchange Commission for any further information regarding risks facing our business.
Our investments in auction rate securities are subject to risks that may cause losses and affect the liquidity of these investments.
At January 31, 2008, we held approximately $\$ 328$ million in AAA-rated municipal auction rate securities that were valued at reported market prices and classified as current assets. Beginning in February 2008, auctions failed for approximately $\$ 140$ million in par value of municipal auction rate securities we held because sell orders exceeded buy orders. We may not be able to liquidate these investments and realize their full carrying value unless the issuer calls the security, a successful auction occurs, a buyer is found outside of the auction process, or the security matures. We do not believe the carrying values of these municipal auction rate securities are impaired, and we

## Table of Contents

believe that we will be able to liquidate these investments without significant loss within the next 12 months. However, if the issuers of these securities are unable to successfully close future auctions and their credit ratings are lowered, we may be required to record future impairment charges related to these investments, which would harm our results of operations. If we are unable to find alternate means to liquidate these investments, we may have to reclassify all or a portion of these investments from current assets to long-term assets in future periods, and we may not realize the value of the investments until the final maturity of the underlying securities (up to 36 years).

## SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

At Intuit s Annual Meeting of Stockholders held on December 14, 2007, our stockholders voted as follows on the proposals below:

1. Proposal to elect directors:

| Stephen M. Bennett | $\begin{gathered} \text { For } \\ 293,469,080 \end{gathered}$ | Withheld $6,747,536$ |
| :---: | :---: | :---: |
| Christopher W. Brody | 291,360,392 | 8,856,224 |
| William V. Campbell | 293,237,294 | 6,979,322 |
| Scott D. Cook | 293,454,435 | 6,762,181 |
| Diane B. Greene | 296,651,339 | 3,565,277 |
| Michael R. Hallman | 292,033,439 | 8,183,177 |
| Edward A. Kangas | 295,411,665 | 4,804,951 |
| Suzanne Nora Johnson | 296,633,271 | 3,583,345 |
| Dennis D. Powell | 296,739,054 | 3,477,562 |
| Stratton D. Sclavos | 280,919,618 | 19,296,998 |

All 10 nominees were elected to the board of directors.
2. Proposal to ratify the selection of Ernst \& Young LLP as Intuit s independent registered public accounting firm for fiscal 2008:

For
297,808,897
Against
332,977
Abstain 2,074,741
Broker Non-Votes
3. Proposal to approve amendment of Intuit s 2005 Equity Incentive Plan:

| For | $204,782,607$ |
| :--- | ---: |
| Against | $66,532,369$ |
| Abstain | $2,296,427$ |
| Broker Non-Votes | $26,605,213$ |
| 4. Proposal to approve adoption of Intuit s Senior Executive Incentive Plan: |  |
|  |  |
| For | $262,527,913$ |
| Against | $8,791,931$ |
| Abstain | $2,291,560$ |
| Broker Non-Votes | $26,605,212$ |
