Item 2.02. Results of Operations and Financial Condition

The information in this item (including Exhibit 99.1) is being furnished pursuant to Item 2.02 and 9.01 and shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed to be incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act. On January 25, 2006, BankAtlantic Bancorp, Inc. (the Company) issued a press release announcing its financial results for the quarter and year ended December 31, 2005. The press release, and accompanying financial tables are attached hereto as Exhibit 99.1 and are incorporated herein by reference. In addition to financial results determined in accordance with generally accepted accounting principles (GAAP), the press release also contains financial information determined by methods other than in accordance with GAAP. The Company s management uses these non-GAAP measures, which it defines as operating measures, in their analysis of the Company s performance. These operating measures adjust GAAP net income to exclude the reserve for fines and penalties related to a compliance matter, impairment charge related to the Company s former headquarters, costs associated with debt redemptions and a litigation settlement gain. The Company believes that these non-GAAP operating measures supplement our GAAP financial information and provide useful measures of evaluating the Company s operating results and any related trends that may be affecting the Company s business. These disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies.

**BankAtlantic Bancorp Reports Earnings
For The Fourth Quarter and Full Year 2005;**

Fourth Quarter Includes \$10 million Charge for Compliance Matter

FORT LAUDERDALE, Florida January 25, 2006 BankAtlantic Bancorp, Inc. (NYSE: BBX), the parent company of BankAtlantic and Ryan Beck & Co., today reported net income was \$59.1 million, or \$0.92 per diluted share, for the year ended December 31, 2005, compared to \$70.8 million, or \$1.11 per diluted share, reported in 2004. For the fourth quarter 2005, a net loss of (\$1.6) million was recorded, equivalent to (\$0.03) per diluted share, compared to earnings of \$17.3 million, or \$0.27 per diluted share, for the fourth quarter, 2004.

Operating income, which excludes a \$10 million charge relating to the compliance matter discussed below and a \$2.4 million facilities charge earlier in 2005 was \$71.5 million (or \$1.12 per diluted share) for the full year, up 12% from operating income in 2004, which excluded items relating to the early redemption of debt and a litigation settlement. Operating income for the fourth quarter, 2005 was down 52% from the corresponding quarter in 2004. A reconciliation of net income and operating income is contained in the attached financial data, and is also available on the Company's website.

Chairman and Chief Executive Officer Alan B. Levan commented "As we previously have disclosed, deficiencies in our Anti Money-Laundering and Bank Secrecy Act (AML- BSA) compliance were identified in mid-2004. With the assistance of our Audit Committee, we embarked on a complete review of our AML-BSA compliance policies and procedures. We engaged a nationally recognized consulting firm with specific expertise in this area which reviewed the identified deficiencies in our operating systems and procedures and our employee training programs. In connection with their review, which was completed in late 2004, we incurred expenses of approximately \$4 million. Following their review and recommendations, we internally created a separate AML-BSA Department which resulted in a staff increase of approximately 30 employees and made significant improvements to our systems, processes, and training programs. The on-going financial impact of those changes and additions was to increase recurring expenses by approximately \$3.5 million annually.

We believe that the Bank is currently in full compliance with all AML-BSA laws and regulations. Notwithstanding our current compliance status, as we have previously reported, many financial institutions have been the subject of proceedings which have resulted in substantial fines and penalties and have been required to enter into cease and desist orders with their primary regulators based on AML-BSA deficiencies. Under these circumstances, we determined that it was appropriate at this time to establish a \$10 million reserve with respect to these matters, and we anticipate that we will be required to enter into a cease and desist order under which we agree to maintain satisfactory compliance status.

Accomplishments and highlights include:

BankAtlantic

BankAtlantic's *Florida's Most Convenient Bank* initiative combined with the fourth quarter introduction of our aggressive new marketing and advertising campaigns brought unprecedented growth in new customer accounts. As the result of these initiatives, we opened 67,000 low cost deposit accounts in the fourth quarter, representing an increase of 69% over the same period in 2004, and an all-time high for BankAtlantic. Driving this growth were the results for November and December 2005, when new accounts rose 107% and 90%, respectively, from the same 2004 periods. We believe this strong growth in new account openings is directly attributable to the new advertising and marketing program, which we launched in November. **Ending** low cost deposit balances increased to an all time high of \$2.1 billion, up 15% over 2004, and **average** low cost deposit balances for 2005 increased 23% over 2004.

As we discussed in our third quarter, 2005 release, we continue to believe the creation of long-term value lies in sustaining high growth rates in core deposits. Additional marketing outlays of approximately \$5 million per quarter were spent in the fourth quarter, 2005, and will continue throughout 2006, which will have an impact on earnings in the short run. We believe this short-term negative impact on earnings will be compensated by above average top line (low cost deposit) growth that over the long run is vitally important to our franchise value and achieving superior profitability.

Earnings within the bank declined in the fourth quarter, principally as the result of the increase in marketing expenses, and an increase in personnel expense (up \$3.3 million, or 12%, from the third quarter, 2005). These personnel costs were directly related to longer store hours, the opening of new stores, and personnel necessary to maintain the service levels from increased account volume.

The tax equivalent net interest margin improved to 4.05% during the fourth quarter, compared with 3.91% in the same period in 2004, and 3.96% in the third quarter of 2005. Year-over-year, the net interest margin improved to 3.95%, up from 3.79% in 2004.

Total loans were \$4.5 billion at year-end. Loans are down \$300 million and total earning assets are down approximately \$450 million from their midyear peaks in 2005, consistent with our strategy of limiting earning asset growth due to the relative flatness of the current yield curve. The decline in loans is concentrated in residential real estate, the direct result of our decision to delay purchases of mortgages in light of the current yield curve; and in commercial real estate, because of runoff in our high rise condominium portfolio. We remain comfortable with the commercial real estate market in our trade area, and expect the decline in our commercial real estate loan balances to prove temporary. Small business and consumer loans continued to grow, with linked quarter increases of 18% and 15%, respectively.

Borrowings, principally advances from the Federal Home Loan Bank, are approximately \$400 million lower than at year-end 2004, as we utilized the funds associated with the increased levels of low cost deposits to reduce borrowings rather than to fund earning asset growth. We anticipate following this strategy over the course of 2006, reflecting our belief that reduction of leverage, particularly given the yields available in the market today, is the most appropriate use of these funds.

Credit quality remained strong in the fourth quarter, with total non-performing loans declining to \$6.8 million at December 31, 2005 compared to \$7.9 million at December 31, 2004 and relatively flat compared to the \$6.9 million level at September 30, 2005. The ratio of non-performing loans to total loans declined to 0.15% at December 31, 2005 from 0.17% at December 31, 2004. In 2005, the Bank continued to experience net recoveries which totaled \$606,000 for the fourth quarter and \$1.8 million for the year. As a result, negative provisions of \$109,000 and \$6.6 million were recorded for the quarter and year, respectively. Most

significantly, our coverage of non-performing loans remained extremely high, with the ratio of the allowance for loan losses to non-performing loans at 606% at December 31, 2005.

During 2005 we experienced continued growth throughout the organization. BankAtlantic expanded its branch network with the opening of five new stores during the year, including two that were opened during the fourth quarter. One of the new stores is a midnight location, open from 7:30 AM to midnight, seven days a week, bringing the total number of our stores with this unprecedented level of convenience to seven. Additionally, in December BankAtlantic reached the 100,000 online customers milestone for our award-winning Internet banking service. We anticipate surpassing 1,000,000 monthly logins in 2006.

Ryan Beck & Co.

During the quarter, Ryan Beck's Private Client Group opened two new Central Pennsylvania offices in Camp Hill and Lebanon, and also relocated its Scarsdale office to White Plains, New York. Over the course of 2005, Ryan Beck added 63 experienced financial consultants to its Private Client Group, with assets under management totaling \$2.3 billion and production of \$18 million, bringing the total number of financial consultants to 450. Total assets of Ryan Beck's customers reached a new record of \$18.3 billion.

Ryan Beck & Co. was ranked as the number one mutual to stock conversion advisor (based upon proceeds) by SNL Securities for the fourth consecutive year, and second in SNL Securities' Bank and Thrift 2005 Capital Offerings rankings.

Additionally, Ryan Beck continued expansion of its Capital Markets Division with the hiring of 18 new associates during the fourth quarter, covering several industry sectors. Included in this move is the addition of a wholesale mortgage-backed securities desk to deal in origination and trading of mortgage backed securities. Ryan Beck also expanded its Investment Banking Division through the hiring of three senior bankers in its Middle Markets Group. The new associates included David P. Lazar, Managing Director covering a broad range of industries, Robert von Furth, Managing Director covering companies in the consumer sector with a primary focus on retailing and restaurants, and Jay Gaydosh, Managing Director responsible for REIT transactions. This year's expansion brought Ryan Beck to a year-end level of approximately 1,100 employees, in 42 offices across the nation, Levan concluded.
