TENNANT COMPANY
2011
ANNUAL REPORT

Form 10-K

(Pursuant to Securities Exchange Act of 1934)

PART I

ITEM 1 – Business

General Development of Business

Tennant Company, a Minnesota corporation that was incorporated in 1909, is a world leader in designing, manufacturing and marketing solutions that help create a cleaner, safer, healthier world. The Company's floor maintenance and outdoor cleaning equipment, chemical-free and other sustainable cleaning technologies, coatings and related products are used to clean and coat surfaces in factories, office buildings, parking lots and streets, airports, hospitals, schools, warehouses, shopping centers and other retail environments, and more. Customers include building service contract cleaners to whom organizations outsource facilities maintenance, as well as end-user businesses, healthcare facilities, schools and local, state and federal governments who handle facilities maintenance themselves. The Company reaches these customers through the industry's largest direct sales and service organization and through a strong and well-supported network of authorized distributors worldwide.

Segment and Geographic Area Financial Information

The Company has one reportable business segment. Sales to customers geographically located in the United States were \$392.5 million, \$354.5 million and \$313.8 million for the years ended December 31, 2011, 2010 and 2009, respectively. Additional financial information on the Company's segment and geographic areas is provided in Note 18 of the Consolidated Financial Statements.

Principal Products, Markets and Distribution

The Company offers products and solutions mainly consisting of mechanized cleaning equipment targeted at commercial and industrial markets; parts, consumables and service maintenance and repair; business solutions such as pay-for-use offerings, rental and leasing programs; and water-based cleaning technologies that reduce the need for chemicals in the cleaning process. Adjacent products include coatings and floor preservation products. Tennant Company's suite of offerings are marketed and sold under a variety of brands, including Tennant®, Nobles®, Green Machines®, Alfa and Orbio®. The Orbio brand of products and solutions is developed and managed by Orbio Technologies, a group created by Tennant to focus on expanding the opportunities for water-based sustainable technologies such as ec-H2O™ technology and Orbio 5000-Sc. Tennant Company's products are sold through direct and distribution channels in various regions around the world. In North America, Brazil, Australia, China, Japan and most of Western Europe products are sold through a direct sales organization and independent distributors. In more than 80 other countries, Tennant relies on a broad network of independent distributors.

Raw Materials

The Company has not experienced any significant or unusual problems in the availability of raw materials or other product components. The Company has sole-source vendors for certain components. A disruption in supply from such vendors may disrupt the Company's operations. However, the Company believes that it can find alternate sources in

the event there is a disruption in supply from such vendors.

Intellectual Property

Although the Company considers that its patents, proprietary technologies, customer relationships, licenses, trademarks, trade names and brand names in the aggregate constitute a valuable asset, it does not regard its business as being materially dependent upon any single intellectual property.

Seasonality

Although the Company's business is not seasonal in the traditional sense, historically revenues and earnings have been more concentrated in the fourth quarter of each year reflecting the tendency of customers to increase capital spending during such quarter and the Company's efforts to close those orders which then reduces order backlogs. In addition, the Company offers annual distributor rebates and sales commissions which tend to drive sales in the fourth quarter. In 2011, the highest sales quarter was the second quarter due primarily to very strong sales of scrubbers, most equipped with ec-H2O technology.

Working Capital

The Company funds operations through a combination of cash and cash equivalents and cash flows from operations. Wherever possible, cash management is centralized and intercompany financing is used to provide working capital to subsidiaries as needed. In addition, credit facilities are available for additional working capital needs or investment opportunities.

Major Customers

The Company sells its products to a wide variety of customers, none of which is of material importance in relation to the business as a whole. The customer base includes several governmental entities which generally have terms similar to other customers.

Competition

While there is no publicly available industry data concerning market share, the Company believes, through its own market research, that it is a world-leading manufacturer of floor maintenance and cleaning equipment. Significant competitors exist in all key geographic regions. However, the key competitors vary by region. The Company competes primarily on the basis of offering a broad line of high-quality, innovative products supported by an extensive sales and service network in major markets.

The Company's competition has initiated legal and/or regulatory challenges in multiple jurisdictions challenging Tennant's advertising claims pertaining to its ec-H2O water-based technology. The Company does not currently view these proceedings as material and does not expect the outcome to have a material adverse effect on operating results or financial condition.

Table of Contents

Research and Development

The Company strives to be an industry leader in innovation and is committed to investing in research and development. The Company's Global Innovation Center in Minnesota and engineers throughout the global locations are dedicated to various activities including researching new technologies to create meaningful product differentiation, development of new products, improvements of existing product design or manufacturing processes and exploring new product applications with customers. In 2011, 2010 and 2009, the Company spent \$27.9 million, \$26.0 million and \$23.0 million on research and development, respectively.

Environmental Compliance

Compliance with Federal, State and local provisions which have been enacted or adopted regulating the discharge of materials into the environment, or otherwise relating to the protection of the environment, has not had, and the Company does not expect it to have, a material effect upon the Company's capital expenditures, earnings or competitive position.

Employees

The Company employed 2,865 people in worldwide operations as of December 31, 2011.

Available Information

The Company makes available free of charge, through the Company's website at www.tennantco.com, its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable when such material is filed electronically with, or furnished to, the Securities and Exchange Commission ("SEC").

ITEM 1A – Risk Factors

The following are significant factors known to us that could materially adversely affect our business, financial condition or operating results.

We may encounter additional financial difficulties if the United States or other global economies continue to experience a significant long-term economic downturn, decreasing the demand for our products.

To the extent that the U.S. and other global economies experience a continued significant long-term economic downturn, our revenues could decline to the point that we may have to take additional cost-saving measures to reduce our fixed costs to a level that is in line with a lower level of sales in order to stay in business long-term in a depressed economic environment. Our product sales are sensitive to declines in capital spending by our customers. Decreased demand for our products could result in decreased revenues, profitability and cash flows and may impair our ability to maintain our operations and fund our obligations to others.

We are subject to competitive risks associated with developing innovative products and technologies, including but not limited to, the risk that customers do not continue to pay for innovation and the risk of competitive challenges to our products and technology and the underlying intellectual property.

Our products are sold in competitive markets throughout the world. Competition is based on product features and design, brand recognition, reliability, durability, technology, breadth of product offerings, price, customer relationships and after-sale service. Although we believe that the performance and price characteristics of our products

will produce competitive solutions for our customers' needs, because of our dedication to innovation and continued investments in research and development, our products generally cost more than our competitors' products. We believe that customers will pay for the innovations and quality in our products; however, in the current economic environment, it may be difficult for us to compete with lower cost products offered by our competitors and there can be no assurance that our customers will continue to choose our products over products offered by our competitors. If our products, markets and services are not competitive, we may experience a decline in sales, pricing and market share, which adversely impacts revenues, margin and the success of our operations.

In addition, we may be vulnerable to competitors who attempt to challenge our technology and our products or diminish the reputation of our brand, all of which could adversely affect our business. Our competition has recently initiated legal and regulatory proceedings and launched a negative media campaign in multiple jurisdictions challenging certain advertising claims made pertaining to our ec-H2O™ technology. While we do not view these challenges to be material, defense of such claims may require substantial commitment of time and money and divert resources from other ongoing projects and the claims may influence new customers from readily accepting products with our ec-H2O technology, which could adversely affect our business.

Competitors may also initiate litigation to challenge the validity of our patents or claims, allege that we infringe upon their patents, or they may use their resources to design comparable products that do not infringe upon our patents. Regardless of whether such litigation is successful, the litigation could significantly increase our costs and divert management's attention from the operation of our business, which could adversely affect our results of operations and financial condition.

We may not be able to effectively manage organizational changes which could negatively impact our operating results or financial condition.

We are continuing to implement global standardized processes in our business and asking our workforce to perform at a high level despite reduced staffing levels as a result of our prior workforce reduction and restructuring actions. This consolidation and reallocation of resources is part of our ongoing efforts to optimize our cost structure in the current economy. Our operating results may be negatively impacted if we are unable to manage these organizational changes by failing to assimilate the work of the positions that are eliminated or redeployed as part of our actions to reduce headcount and restructure positions. In addition, if we do not effectively manage the transition of these positions, we may not fully realize the anticipated savings of these actions or they may negatively impact our ability to serve our customers or meet our strategic objectives.

We are subject to many laws and regulations and any non-compliance could negatively impact our financial condition or business operations.

Our policies and procedures are designed to comply with applicable laws and regulations in all countries in which we operate and conduct business. U.S. as well as foreign government regulations continue to become increasingly stringent and are impacting more areas of our business operations each year. Failure to comply with present or future laws, rules and regulations of any kind that govern our business could result in suspension of all or a portion of our operations or the imposition of significant regulatory, administrative, civil or criminal penalties or sanctions.

We may encounter difficulties as we invest in changes to our processes and computer systems that are foundational to our ability to maintain and manage the data in our systems.

We rely on our computer systems to effectively manage our business, serve our customers and report financial data. Our current systems are adequate for our current business operations; however, we are in the process of standardizing our processes and the way we utilize our computer systems with the objective that we will improve our ability to effectively maintain and manage our systems data so that as our business grows, our processes will be able to more efficiently handle this growth. There are inherent risks in changing processes and systems data and if we are not

successful in our attempts to improve our data and system processes, we may experience higher costs or an interruption in our business which could adversely impact our ability to serve our customers and our operating results.

Table of Contents

We are subject to product liability claims and product quality issues that could adversely affect our operating results or financial condition.

Our business exposes us to potential product liability risks that are inherent in the design, manufacturing and distribution of our products. If products are used incorrectly by our customers, injury may result leading to product liability claims against us. Some of our products or product improvements may have defects or risks that we have not yet identified that may give rise to product quality issues, liability and warranty claims. If product liability claims are brought against us for damages that are in excess of our insurance coverage or for uninsured liabilities and it is determined we are liable, our business could be adversely impacted. Any losses we suffer from any liability claims, and the effect that any product liability litigation may have upon the reputation and marketability of our products, may have a negative impact on our business and operating results. We could experience a material design or manufacturing failure in our products, a quality system failure, other safety issues, or heightened regulatory scrutiny that could warrant a recall of some of our products. Any unforeseen product quality problems could result in loss of market share, reduced sales, and higher warranty expense.

Inadequate funding of new technologies may result in an inability to develop new innovative products and services.

We strive to develop new and innovative products and services to differentiate ourselves in the marketplace. New product development relies heavily on our financial and resource investments in both the short term and long term. If we fail to adequately fund product development projects we risk not meeting our customer expectations, which could result in decreased revenues, declines in margin and loss of market share.

Our ability to effectively operate our Company could be adversely affected if we are unable to attract and retain key personnel and other highly skilled employees.

Our continued success will depend on, among other things, the skills and services of our executive officers and other key personnel. Our ability to attract and retain other highly qualified managerial, technical, manufacturing, research, sales and marketing personnel also impacts our ability to effectively operate our business. As the economy recovers and companies grow and increase their hiring activities, there is an inherent risk of increased employee turnover and the loss of valuable employees in key positions, especially in emerging markets throughout the world. We believe the increased loss of key personnel within a concentrated region could adversely affect our sales growth.

We may encounter difficulties as we upgrade and evolve the capabilities of our computer systems, which could adversely impact our abilities to accomplish anticipated future cost savings and better serve our customers.

We have many information technology systems that are important to the operation of our business. Significantly upgrading and evolving the capabilities of our existing systems could lead to inefficient or ineffective use of our technology due to lack of training or expertise in these evolving technology systems. These factors could lead to significant expenses, adversely impacting our results of operations and hinder our ability to offer better technology solutions to our customers.

We may be unable to conduct business if we experience a significant business interruption in our computer systems, manufacturing plants or distribution facilities for a significant period of time.

We rely on our computer systems, manufacturing plants and distribution facilities to efficiently operate our business. If we experience an interruption in the functionality in any of these items for a significant period of time, we may not have adequate business continuity planning contingencies in place to allow us to continue our normal business operations on a long-term basis. Significant long-term interruption in our business could cause a decline in sales, an increase in expenses and could adversely impact our operating results.

ITEM 1B – Unresolved Staff Comments

None.

ITEM 2 – Properties

The Company's corporate offices are owned by the Company and are located in the Minneapolis, Minnesota, metropolitan area. Manufacturing facilities are located in Minneapolis, Minnesota; Holland, Michigan; Louisville, Kentucky; Uden, The Netherlands; Falkirk, United Kingdom; São Paulo, Brazil; and Shanghai, China. Sales offices, warehouse and storage facilities are leased in various locations in North America, Europe, Japan, China, Asia, Australia, New Zealand and Latin America. The Company's facilities are in good operating condition, suitable for their respective uses and adequate for current needs. Further information regarding the Company's property and lease commitments is included in the Contractual Obligations section of Item 7 and in Note 13 of the Consolidated Financial Statements.

ITEM 3 – Legal Proceedings

There are no material pending legal proceedings other than ordinary routine litigation incidental to the Company's business.

ITEM 4 – Mine Safety Disclosures

Not applicable.

Table of Contents

PART II

ITEM 5 – Market for Registrant’s Common Equity, Related Shareholder Matters and Issuer Purchases of Equity Securities

MARKET INFORMATION – Tennant common stock is traded on the New York Stock Exchange, under the ticker symbol TNC. As of January 31, 2012, there were 488 shareholders of record. The common stock price was \$38.48 per share on January 31, 2012.

The accompanying chart shows the high and low sales prices for the Company’s shares for each full quarterly period over the past two years as reported by the New York Stock Exchange:

	2011		2010	
	High	Low	High	Low
First	\$43.24	\$35.66	\$28.38	\$21.84
Second	42.82	33.51	37.42	27.17
Third	44.25	34.36	38.13	28.82
Fourth	41.98	32.92	38.82	30.30

DIVIDEND INFORMATION – Cash dividends on Tennant’s common stock have been paid for 67 consecutive years. Tennant’s annual cash dividend payout increased for the 40th consecutive year to \$0.68 per share in 2011, an increase of \$0.09 per share over 2010. Dividends are generally declared each quarter. On February 15, 2012, the Company announced a quarterly cash dividend of \$0.17 per share payable March 15, 2012, to shareholders of record on February 29, 2012.

DIVIDEND REINVESTMENT OR DIRECT DEPOSIT OPTIONS – Shareholders have the option of reinvesting quarterly dividends in additional shares of Company stock or having dividends deposited directly to a bank account. The Transfer Agent should be contacted for additional information.

TRANSFER AGENT AND REGISTRAR – Shareholders with a change of address or questions about their account may contact:

Wells Fargo Bank, N.A.
Shareowner Services
P.O. Box 64854
South St. Paul, MN 55164-0854
(800) 468-9716

EQUITY COMPENSATION PLAN INFORMATION – Information regarding equity compensation plans required by Regulation S-K Item 201(d) is incorporated by reference in Item 12 of this annual report on Form 10-K from the 2012 Proxy Statement.

Table of Contents

SHARE REPURCHASES – On February 21, 2011, the Board of Directors authorized the repurchase of an additional 1,000,000 shares of our common stock. This was in addition to the 188,874 shares remaining under our previous repurchase program at that time. Share repurchases are made from time to time in the open market or through privately negotiated transactions, primarily to offset the dilutive effect of shares issued through our stock-based compensation programs. Our Credit Agreement limits the payment of dividends and repurchases of stock to an amount ranging from \$50.0 million to \$75.0 million per fiscal year based on our leverage ratio after giving effect to such payments.

For the Quarter Ended December 31, 2011	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
October 1–31, 2011	283	\$ 35.37	-	731,235
November 1–30, 2011	11,665	37.50	11,665	719,570
December 1–31, 2011	-	-	-	719,570
Total	11,948	\$ 37.45	11,665	719,570

(1) Includes 283 shares delivered or attested to in satisfaction of the exercise price and/or tax withholding obligations by employees who exercised stock options or restricted stock under employee stock compensation plans.

STOCK PERFORMANCE GRAPH – The following graph compares the cumulative total shareholder return on Tennant’s common stock to three indices: Morningstar U.S. Market, S&P SmallCap 600 and Morningstar Industrials Sector. The graph below compares the performance for the last five fiscal years, assuming an investment of \$100 on December 31, 2006, including the reinvestment of all dividends.

5-YEAR CUMULATIVE TOTAL RETURN COMPARISON

	2006	2007	2008	2009	2010	2011
Tennant Company	\$ 100	\$ 155	\$ 55	\$ 96	\$ 143	\$ 147
Morningstar U.S. Market*	\$ 100	\$ 106	\$ 67	\$ 86	\$ 100	\$ 102
S&P SmallCap 600*	\$ 100	\$ 100	\$ 69	\$ 86	\$ 109	\$ 110
Morningstar Industrials Sector**	\$ 100	\$ 112	\$ 68	\$ 84	\$ 104	\$ 104

* The Morningstar U.S. Market Index is being retired in favor of the S&P SmallCap 600 Index, as a result of Tennant’s inclusion within the S&P SmallCap 600 Index during 2011. We feel that the S&P SmallCap 600 Index includes companies that are more comparable than the Morningstar U.S. Market Index. For 2011 we will show both of these indices for consistency. Going forward, we will include only the S&P SmallCap 600 Index.

** In prior years, we used the Morningstar Manufacturing Sector Index as our industry index; however, that index has been reconstituted and historical information is no longer available. Accordingly, this year we used the Morningstar Industrials Sector Index, in which Tennant is included, to replace the Morningstar Manufacturing Sector Index as our industry market index. Because historical information for the Morningstar Manufacturing Sector Index is no longer available, we cannot provide a concurrent comparison to that index.

The results of operations from our 2011, 2009 and 2008 acquisitions have been included in the Consolidated Financial Statements, as well as the Selected Financial Data presented above, since each of their respective dates of acquisition.

(1) 2011 includes a Product Line Obsolescence charge of \$4,300 pretax (\$3,811 aftertax or \$0.20 per diluted share) and an international executive severance charge of \$1,217 (or \$0.06 per diluted share).

(2) 2010 includes a tax benefit from the international entity restructuring of \$10,913 (or \$0.56 per diluted share), a workforce redeployment charge of \$1,671 pretax (\$1,196 aftertax or \$0.06 per diluted share), inventory revaluation from change in functional currency designation due to international entity restructuring of \$647 pretax (\$453 aftertax or \$0.02 per diluted share) and a revision of our 2008 workforce reduction reserve of \$277 pretax (\$173 aftertax or \$0.01 per diluted share).

(3) 2009 includes a goodwill impairment charge of \$43,363 pretax (\$42,289 aftertax or \$2.29 per diluted share), a benefit from a revision during the first quarter of 2009 to the 2008 workforce reduction charge of \$1,328 pretax (\$1,249 aftertax or \$0.07 per diluted share) and a net tax benefit, primarily from a United Kingdom business reorganization, of \$1,864 aftertax (or \$0.10 per diluted share).

(4) 2008 includes a workforce reduction charge and associated expenses of \$14,551 pretax (\$12,003 aftertax or \$0.65 per diluted share), increase in Allowance for Doubtful Accounts of \$3,361 pretax (\$3,038 aftertax or \$0.16 per diluted share), write-off of technology investments of \$1,842 pretax (\$1,246 aftertax or \$0.07 per diluted share) and a gain on sale of Centurion assets of \$229 pretax (\$143 aftertax or \$0.01 per diluted share).

(5) 2007 includes a restructuring charge and associated expenses of \$2,507 pretax (\$1,656 aftertax or \$0.09 per diluted share), a one-time tax benefit relating to a reduction in valuation reserves, net of the impact of tax rate changes in foreign jurisdictions on deferred taxes of \$3,644 aftertax (or \$0.19 per diluted share) and a gain on the sale of the Maple Grove, Minnesota facility of \$5,972 pretax (\$3,720 aftertax or \$0.19 per diluted share).

ITEM 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Overview

Tennant Company is a world leader in designing, manufacturing and marketing solutions that help create a cleaner, safer, healthier world. Our products include equipment for maintaining surfaces in industrial, commercial and outdoor environments; chemical-free and other sustainable cleaning technologies; and coatings for protecting, repairing and upgrading floors and other surfaces. We sell our products through our direct sales and service organization and a network of authorized distributors worldwide. Geographically, our customers are located in North America, Latin America, Europe, the Middle East, Africa and Asia Pacific. We strive to be an innovator in our industry through our commitment to understanding our customers’ needs and using our expertise to create innovative products and solutions.

Net Earnings for 2011 were \$32.7 million, or \$1.69 per diluted share, compared to Net Earnings of \$34.8 million, or \$1.80 per diluted share, for 2010. Net Earnings for 2011 were \$2.1 million lower than 2010 due primarily to the large favorable tax benefit of \$10.9 million in 2010 from an international entity restructuring which was nearly offset by increased Net Sales and improved profitability in 2011. Net Sales totaled \$754.0 million, up 12.9% from 2010 due primarily to sales unit volume increases with continued growth of scrubbers equipped with our ec-H2O technology. Gross Profit margins decreased 30 basis points to 42.3% as a result of cost increases. Selling and Administrative Expense (“S&A Expense”) decreased 110 basis points as a percentage of Net Sales to 32.0% as compared to 33.1% due to continued tight cost controls and improved operating efficiencies.

Tennant continues to invest in innovative product development with 3.7% of 2011 Net Sales spent on Research and Development. During 2011 there were increased investments in electrically-activated water technology platforms to further expand our chemical-free and other sustainable cleaning technologies offerings as well as investments in our core business including the work to redesign our large equipment portfolio. Sales of new products introduced in the past three years generated approximately 35% of our equipment sales during 2011, exceeding our long-stated goal of 30%.

We ended 2011 with a Debt-to-Capital ratio of 14.2%, \$52.3 million in Cash and Cash Equivalents compared to \$39.5 million at the end of 2010, and Shareholders’ Equity of \$220.9 million. During 2011, we generated operating cash flows of \$56.9 million. Total debt was \$36.5 million as of December 31, 2011 compared to \$30.8 million at the end of 2010.

Historical Results

The following table compares the historical results of operations for the years ended December 31, 2011, 2010 and 2009 in dollars and as a percentage of Net Sales (in thousands, except per share amounts and percentages):

	2011	%	2010	%	2009	%
Net Sales	\$ 753,998	100.0	\$ 667,667	100.0	\$ 595,875	100.0
Cost of Sales	434,817	57.7	383,341	57.4	349,767	58.7
Gross Profit	319,181	42.3	284,326	42.6	246,108	41.3
Operating Expense:

Net Earnings (Loss)	\$ 32,713	4.3	\$ 34,803	5.2	\$ (26,241)	(4.4)
Net Earnings (Loss) per Diluted Share	\$ 1.69		\$ 1.80		\$ (1.42)	

Consolidated Financial Results

Net Earnings for 2011 were \$32.7 million, or \$1.69 per diluted share, compared to \$34.8 million, or \$1.80 per diluted share for 2010. Net Earnings were impacted by:

- An increase in Net Sales of 12.9%, primarily driven by equipment unit volume increases.
- A decrease in S&A Expense as a percentage of Net Sales of 110 basis points due to continued tight cost controls and improved operating efficiencies.

Net Earnings for 2010 were \$34.8 million, or \$1.80 per diluted share, compared to a Net Loss of \$26.2 million, or \$1.42 loss per diluted share for 2009. Net Earnings were impacted by:

- An increase in Net Sales of 12.0%, primarily driven by equipment unit volume increases.
- A 130 basis point increase in Gross Profit margin to 42.6% due to higher sales volume, continued tight spending controls and flexible production management.
- A decrease in S&A Expense as a percentage of Net Sales of 80 basis points due to continued tight spending controls and leveraging our existing resources.
- A tax benefit from an international entity restructuring contributed \$0.56 per diluted share.

Table of Contents

Net Sales

In 2011, consolidated Net Sales were \$754.0 million, an increase of 12.9% as compared to 2010. Consolidated Net Sales were \$667.7 million in 2010, an increase of 12.0% as compared to 2009.

The components of the consolidated Net Sales change for 2011 as compared to 2010, and 2010 as compared to 2009, were as follows:

Growth Elements	2011 v. 2010	2010 v. 2009
Organic Growth:		
Volume	8.9%	12.0%
Price	1.5%	-
Organic Growth	10.4%	12.0%
Foreign Currency	2.5%	-
Acquisitions	-	-
Total	12.9%	12.0%

The 12.9% increase in consolidated Net Sales for 2011 as compared to 2010 was primarily driven by an increase in equipment unit sales volume.

The 12.0% increase in consolidated Net Sales for 2010 as compared to 2009 was primarily driven by an increase in equipment unit sales volume.

The following table sets forth annual Net Sales by operating segment and the related percent change from the prior year (in thousands, except percentages):

	2011	%	2010	%	2009	%
Americas	\$ 481,426	13.4	\$ 424,462	16.0	\$ 366,034	(15.2)
Europe, Middle East and Africa	188,338	9.1	172,619	(2.9)	177,829	(18.3)
Asia Pacific	84,234	19.3	70,586	35.7	52,012	(0.5)
Total	\$ 753,998	12.9	\$ 667,667	12.0	\$ 595,875	(15.0)

Americas – In 2011, Americas Net Sales increased 13.4% to \$481.4 million as compared with \$424.5 million in 2010. The primary driver of the increase in Net Sales was attributable to sales unit volume increases with continued growth of scrubbers equipped with our ec-H2O technology in North America and growth of industrial equipment in Latin America. Favorable direct foreign currency translation exchange effects increased Net Sales by approximately 0.5%.

In 2010, Americas Net Sales increased 16.0% to \$424.5 million as compared with \$366.0 million in 2009. The primary driver of the increase in Net Sales is attributable to sales unit volume increases, primarily from industrial equipment and scrubbers equipped with our ec-H2O technology. Favorable direct foreign currency translation exchange effects increased Net Sales by approximately 1%.

Europe, Middle East and Africa – Europe, Middle East and Africa (“EMEA”) Net Sales in 2011 increased 9.1% to \$188.3 million as compared to 2010 Net Sales of \$172.6 million. Favorable direct foreign currency exchange effects increased EMEA Net Sales by approximately 4.5% in 2011. An organic sales increase of approximately 4.6% was primarily due to growth of indoor equipment, in particular increased sales of scrubbers equipped with our ec-H2O technology, which was somewhat offset by lower sales of outdoor equipment.

EMEA Net Sales in 2010 decreased 2.9% to \$172.6 million as compared to 2009 Net Sales of \$177.8 million. Unfavorable direct foreign currency exchange effects decreased EMEA Net Sales by approximately 4.5% in 2010. An organic sales increase of approximately 1.6% was primarily due to increased unit volume in our service, parts and consumables business, partially offset by lower equipment unit volume.

Asia Pacific – Asia Pacific Net Sales in 2011 increased 19.3% to \$84.2 million over 2010 Net Sales of \$70.6 million. An organic sales increase of approximately 10.3% was primarily due to strong growth of industrial scrubbers, especially in China, which was somewhat offset by selling price decreases in some mature markets related to movements in foreign exchange rates. Favorable direct foreign currency exchange effects increased Net Sales by approximately 9.0% in 2011.

Asia Pacific Net Sales in 2010 increased 35.7% to \$70.6 million over 2009 Net Sales of \$52.0 million. An organic sales increase of approximately 25.2% was primarily due to equipment unit volume increases in both Australia and China. Favorable direct foreign currency exchange effects increased Net Sales by approximately 10.5% in 2010.

Gross Profit

Gross Profit margin was 42.3% in 2011, a decrease of 30 basis points as compared to 2010. Gross Profit margin in 2011 was adversely impacted by 30 basis points due to an unfavorable net adjustment to LIFO inventory resulting from an increase in inventories and higher cost indices. Raw material cost inflation in 2011 was mitigated by selling price increases, productivity improvements, tight cost controls and leverage from higher production levels.

Gross Profit margin was 42.6% in 2010, an increase of 130 basis points as compared to 2009. Gross Profit margin was favorably impacted by manufacturing efficiencies from increased sales volume, somewhat offset by higher commodity costs.

Operating Expenses

Research and Development Expense – Research and Development Expense (“R&D Expense”) increased \$2.0 million, or 7.5%, in 2011 as compared to 2010. As a percentage of Net Sales, 2011 R&D Expense decreased 20 basis points to 3.7% in 2011 from 3.9% in the prior year. R&D Expense increased in 2011 as we made additional investments in our chemical-free and other sustainable cleaning technologies as well as our core business.

R&D Expense increased \$3.0 million, or 13.0%, in 2010 as compared to 2009 and remained consistent with the prior year at 3.9% as a percentage of Net Sales. Higher sales and improved profitability in 2010 allowed increased investment levels in key research and development projects, primarily for our chemical-free technologies.

Selling and Administrative Expense – Selling and Administrative Expense (“S&A Expense”) increased by \$20.4 million, or 9.2%, in 2011 compared to 2010 due to higher variable costs related to the increased sales volume, \$4.0 million related to the Hofmans product obsolescence and international executive severance, and investments in our sustainable cleaning business. As a percentage of Net Sales, 2011 S&A Expense decreased 110 basis points to 32.0% due to continued tight cost controls and improved operating efficiencies.

S&A Expense increased by \$19.0 million, or 9.4%, in 2010 as compared to 2009 due primarily to higher variable selling expenses and incentives. As a percentage of Net Sales, 2010 S&A Expense decreased 80 basis points to 33.1%. S&A Expense benefited from tight spending controls and leveraging our existing resources as we have kept our employee headcount consistent with 2009 year end levels.

Goodwill Impairment Charge – During the first quarter of 2009, we recorded a non-cash pretax goodwill impairment charge of \$43.4 million related to our EMEA reporting unit. Only \$3.8 million of this charge was tax deductible.

Total Other Income (Expense), Net

Interest Income – Interest Income was \$0.8 million in 2011, an increase of \$0.6 million from 2010. The increase between 2011 and 2010 is due to higher interest rates on higher cash investments.

Interest Income was \$0.1 million in 2010, a decrease of \$0.3 million from 2009. The decrease between 2010 and 2009 mainly reflects the impact of no ESOP interest income in 2010 as the ESOP loan matured on December 31, 2009.

Table of Contents

Interest Expense – Interest Expense was \$2.2 million in 2011 as compared to \$1.6 million in 2010. This increase is primarily due to a higher level of debt with a higher interest rate related to long-term fixed rate borrowings initiated in 2011.

Interest Expense was \$1.6 million in 2010 as compared to \$2.8 million in 2009. This decline is primarily due to a lower level of borrowings against our revolving credit facility in 2010 as compared to 2009.

Net Foreign Currency Transaction Gains (Losses) – Net Foreign Currency Transaction Gains were \$0.6 million in 2011 as compared to Losses of \$0.9 million in 2010. The favorable increase from the prior year was due to fluctuations in foreign currency rates in the normal course of business.

Net Foreign Currency Transaction Losses were \$0.9 million in 2010 as compared to \$0.4 million in 2009. The decrease from the prior year was due to fluctuations in foreign currency rates in the normal course of business.

ESOP Income – There was no ESOP Income during 2011 and 2010. On December 31, 2009, the term for this ESOP program expired.

Other (Expense) Income, Net – There was no significant change in Other (Expense) Income, Net in 2011 as compared to 2010 or in 2010 as compared to 2009.

Income Taxes

The overall effective income tax rate was 32.9%, (0.2%) and 7.9% in 2011, 2010 and 2009 respectively. The tax expense for 2011 includes only a \$0.5 million tax benefit in the second quarter associated with the \$5.5 million pre-tax charges related to Hofmans product obsolescence and international executive severance which contributed to an increased overall effective rate. Excluding these charges, the overall effective tax rate would have been 30.4%. The decrease in the 2011 overall effective tax rate as compared to the prior year, excluding the effect of these one-time charges, was primarily related to changes in our full year taxable earnings by country, and a decrease in the statutory tax rates in various foreign jurisdictions.

The 2010 net tax benefit included a \$10.9 million tax benefit associated with a restructuring and realignment of international operations recorded in the fourth quarter, materially impacting the overall effective rate. Excluding the tax benefit associated with the fourth quarter restructuring and realignment of international operations, the 2010 overall rate would have been 31.3%.

Liquidity and Capital Resources

Liquidity – Cash and Cash Equivalents totaled \$52.3 million at December 31, 2011, as compared to \$39.5 million of Cash and Cash Equivalents as of December 31, 2010. Cash and Cash Equivalents held by our foreign subsidiaries totaled \$11.3 million as of December 31, 2011 as compared to \$10.6 million of Cash and Cash Equivalents held by our foreign subsidiaries as of December 31, 2010. Wherever possible, cash management is centralized and intercompany financing is used to provide working capital to subsidiaries as needed. Our current ratio was 2.2 and 2.1 as of December 31, 2011 and 2010, respectively, based on working capital of \$148.1 million and \$132.1 million, respectively.

Our Debt-to-Capital ratio was 14.2% as of December 31, 2011, compared with 12.5% as of December 31, 2010. Our capital structure was comprised of \$36.5 million of Long-Term Debt and \$220.9 million of Shareholders' Equity as of December 31, 2011.

Edgar Filing: TENNANT CO - Form 10-K

Cash Flow Summary – Cash provided by (used in) our operating, investing and financing activities is summarized as follows (in thousands):

	2011	2010	2009
Operating Activities	\$ 56,909	\$ 42,530	\$ 75,185
Investing Activities:			
Purchases of Property, Plant and Equipment, Net of Disposals	(13,301)	(9,934)	(11,172)
Acquisitions of Businesses, Net of Cash Acquired	(2,917)	(86)	(2,162)
Restricted Cash	(3,279)	-	-
Financing Activities	(24,247)	(10,342)	(74,068)
Effect of Exchange Reate Changes on Cash and Cash Equivalents	(355)	(701)	994
Net Increase (Decrease) in Cash and Cash Equivalents	\$ 12,810	\$ 21,467	\$ (11,223)

Operating Activities – Cash provided by operating activities was \$56.9 million in 2011, \$42.5 million in 2010 and \$75.2 million in 2009. In 2011, cash provided by operating activities was driven by \$32.7 million of Net Earnings and increased Accounts Payable, somewhat offset by increases in Inventories and Receivables. The increase in Inventories is due to sales and service initiatives. The increases in Accounts Payable and Receivables is due to higher levels of sales. Cash provided by operating activities was \$14.4 million higher in 2011 as compared to 2010 primarily due to the smaller increase in Deferred Income Taxes in 2011 as compared to 2010 which was impacted by the international entity restructuring that occurred in the 2010 fourth quarter.

In 2010, cash provided by operating activities was driven by \$34.8 million of Net Earnings as well as increased Accrued Expenses, primarily from sales and management incentives, somewhat offset by increases in Receivables and Inventories, both increasing at year end due to strong fourth quarter Net Sales. Cash provided by operating activities was \$32.7 million lower in 2010 as compared to 2009. This decrease was primarily driven by higher working capital related to higher sales levels as of year end 2010 as compared to year end 2009.

For 2011, we used operating profit and working capital as key indicators of financial performance and the primary metrics for performance-based incentives.

Two metrics used by management to evaluate how effectively we utilize our net assets are “Accounts Receivable Days Sales Outstanding” (“DSO”) and “Days Inventory on Hand” (“DIOH”), on a FIFO basis. The metrics are calculated on a rolling three month basis in order to more readily reflect changing trends in the business. These metrics for the quarters ended December 31 were as follows (in days):

	2011	2010	2009
DSO	58	59	67
DIOH	88	83	87

DSO decreased 1 day in 2011 as compared to 2010 primarily due to increased Net Sales as well as our continued focus on proactively managing Accounts Receivable by enforcing tighter credit limits and collecting past due balances.

DIOH increased 5 days in 2011 as compared to 2010 primarily due to higher levels of inventories to support fourth quarter 2011 sales and service initiatives.

Table of Contents

Investing Activities – Net cash used for investing activities was \$19.5 million in 2011, \$10.0 million in 2010 and \$13.3 million in 2009. Net capital expenditures were \$13.3 million during 2011 as compared to \$9.9 million in 2010. Net capital expenditures were \$11.2 million in 2009. Our 2011 capital expenditures included tooling related to new product development, investments in our facilities including the new plant in China, technology upgrades, and manufacturing and lab equipment.

Capital expenditures in 2010 included technology upgrades and tooling related to new product development and manufacturing equipment. Capital expenditures in 2009 included technology upgrades, tooling related to new product development and investments in our Minnesota facilities to complete the Global Innovation Center to support new product innovation efforts.

Financing Activities – Net cash used for financing activities was \$24.2 million in 2011 and \$10.3 million in 2010. Net cash used for financing activities was \$74.1 million in 2009. In 2011, payments of floating rate Long-Term Debt used \$19.3 million, which was more than offset by \$20.0 million issuance of fixed rate Long-Term Debt, and payments of dividends used \$12.9 million. In 2010, payments of dividends used \$11.2 million and payments of Long-Term Debt used \$4.2 million. In 2009, payments of Long-Term Debt used \$67.2 million and dividend payments used \$9.9 million. Our annual cash dividend payout increased for the 40th consecutive year to \$0.68 per share in 2011, an increase of \$0.09 per share over 2010.

Proceeds from the issuance of Common Stock generated \$4.2 million in 2011, \$6.5 million in 2010 and \$0.9 million in 2009.

On May 3, 2007, the Board of Directors authorized the repurchase of 1,000,000 shares of our Common Stock. On February 21, 2011, the Board of Directors authorized the repurchase of an additional 1,000,000 shares of our common stock. At December 31, 2011, there were 719,570 remaining shares authorized for repurchase.

There were 469,304 shares repurchased in 2011, 100,000 shares repurchased during 2010 and no shares repurchased in 2009, at average repurchase prices of \$37.51 during 2011 and \$31.53 during 2010. Our Credit Agreement with JPMorgan Chase Bank limits the payment of dividends and repurchases of stock to amounts ranging from \$50.0 million to \$75.0 million per fiscal year based on our leverage ratio after giving effect to such payments for the life of the agreement.

Indebtedness – As of December 31, 2011, we had committed lines of credit totaling approximately \$125.0 million and uncommitted lines of credit totaling \$82.6 million. There was \$10.0 million in outstanding borrowings under our JPMorgan facility and \$20.0 million in outstanding borrowings under our Prudential facility as of December 31, 2011. In addition, we had stand alone letters of credit of approximately \$1.8 million outstanding and bank guarantees in the amount of approximately \$1.0 million. Commitment fees on unused lines of credit for the year ended December 31, 2011 were \$0.3 million.

Our most restrictive covenants are part of our Credit Agreement with JPMorgan, which are the same covenants in the Shelf Agreement with Prudential, and require us to maintain an indebtedness to EBITDA ratio of not greater than 3.00 to 1 and to maintain an EBITDA to interest expense ratio of no less than 3.50 to 1 as of the end of each quarter. As of December 31, 2011, our indebtedness to EBITDA ratio was 0.54 to 1 and our EBITDA to interest expense ratio was 32.82 to 1.

JPMorgan Chase Bank, National Association

On May 5, 2011, we entered into a Credit Agreement (the “2011 Credit Agreement”) with JPMorgan Chase Bank, N. A. (“JPMorgan”), as administrative agent and collateral agent, U.S. Bank National Association, as syndication agent, Wells

Fargo Bank, National Association, and RBS Citizens, N.A., as co-documentation agents, and the Lenders (including JPMorgan) from time to time party thereto. Upon entry into the 2011 Credit Agreement, we repaid and terminated our June 19, 2007 Credit Agreement. The 2011 Credit Agreement provides us and certain of our foreign subsidiaries access to a senior unsecured credit facility until May 5, 2016, in the amount of \$125.0 million, with an option to expand by up to \$62.5 million to a total of \$187.5 million. Borrowings may be denominated in U.S. Dollars or certain other currencies. The 2011 Credit Agreement contains a \$100.0 million sublimit on borrowings by foreign subsidiaries.

The fee for committed funds under the 2011 Credit Agreement ranges from an annual rate of 0.25% to 0.40%, depending on our leverage ratio. Borrowings under the 2011 Credit Agreement bear interest at a rate per annum equal to the greatest of (a) the prime rate, (b) the federal funds rate plus 0.50% and (c) the adjusted LIBOR rate for a one month period plus 1.0%, plus, in any such case, an additional spread of 0.50% to 1.10%, depending on our leverage ratio.

The 2011 Credit Agreement gives the lenders a pledge of 65% of the stock of certain first tier foreign subsidiaries. The obligations under the 2011 Credit Agreement are also guaranteed by our first tier domestic subsidiaries.

The 2011 Credit Agreement contains customary representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and merge or consolidate with another entity. Further, the 2011 Credit Agreement contains the following covenants:

- a covenant requiring us to maintain an indebtedness to EBITDA ratio as of the end of each quarter of not greater than 3.00 to 1;
- a covenant requiring us to maintain an EBITDA to interest expense ratio as of the end of each quarter of no less than 3.50 to 1;
- a covenant restricting us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50.0 million to \$75.0 million during any fiscal year based on our leverage ratio after giving effect to such payments; and
- a covenant restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25.0 million.

As of December 31, 2011 we were in compliance with all covenants under the Credit Agreement. There was \$10.0 million in outstanding borrowings under this facility at December 31, 2011, with a weighted average interest rate of 1.75%.

Prudential Investment Management, Inc.

On May 5, 2011, we entered into Amendment No. 1 to our Private Shelf Agreement (the "Amendment"), which amends the Private Shelf Agreement, dated as of July 29, 2009, with Prudential Investment Management, Inc. ("Prudential") and Prudential affiliates from time to time party thereto (the "Shelf Agreement").

The Amendment principally provides the following changes to the Shelf Agreement:

- elimination of the security interest in our personal property and subsidiaries;
- an amendment to the maximum leverage ratio to not greater than 3.00 to 1 for any period ending on or after March 31, 2011;

- an amendment to our restriction regarding the payment of dividends or repurchase of stock to restrict us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50.0 million to \$75.0 million during any fiscal year based on our leverage ratio after giving effect to such payments; and
- an amendment to Permitted Acquisitions restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25.0 million.

Table of Contents

As of December 31, 2011, there was \$20.0 million in outstanding borrowings under this facility; the \$10.0 million Series A notes issued in March 2011 with a fixed interest rate of 4.00% and a 7 year term serially maturing from 2014 to 2018 and the \$10.0 million Series B notes issued in June 2011 with a fixed interest rate of 4.10% and a 10 year term serially maturing from 2015 to 2021. We were in compliance with all covenants of the Shelf Agreement as of December 31, 2011.

The Royal Bank of Scotland Citizens, N.A.

On September 14, 2010, we entered into an overdraft facility with The Royal Bank of Scotland N.V. in the amount of 2.0 million Euros or approximately \$2.6 million. There was no balance outstanding on this facility as of December 31, 2011.

Notes Payable

On May 31, 2011, we incurred \$1.5 million in debt related to installment payments due to the former owners of Water Star in connection with our acquisition of Water Star, which remains outstanding as of December 31, 2011.

Contractual Obligations – Our contractual obligations as of December 31, 2011, are summarized by period due in the following table (in thousands):

	Total	Less Than 1 Year	1 - 3 Years	3 - 5 Years	More Than 5 Years
Long-term debt (1)	\$ 31,549	\$ 775	\$ 2,774	\$ 16,857	\$ 11,143
Interest payments on long-term debt (1)	5,162	995	1,927	1,388	852
Capital leases	4,779	3,321	1,458	-	-
Interest payments on capital leases	285	194	91	-	-
Retirement benefit plans(2)	1,008	1,008	-	-	-
Deferred compensation arrangements(3)	6,713	537	944	450	4,782
Operating leases (4)	18,629	7,937	7,439	2,396	857
Purchase obligations (5)	46,867	46,867	-	-	-
Other (6)	1,021	731	290	-	-
Total contractual obligations	\$ 116,013	\$ 62,365	\$ 14,923	\$ 21,091	\$ 17,634

(1) Long-term debt represents bank borrowings and borrowings through our Credit Agreement with JPMorgan and our Private Shelf Agreement with Prudential. Our Credit Agreement with JPMorgan does not have specified repayment terms; therefore, repayment is due upon expiration of the agreement on May 5, 2016. Interest payments on our Credit Agreement were calculated using the December 31, 2011 LIBOR rate based on the assumption that the principal would be repaid in full upon the expiration of the agreement. Our borrowings under our Private Shelf Agreement with Prudential have 7 and 10 year terms, serially maturing from 2014 to 2021 with fixed interest rates of 4.00% and 4.10%, respectively.

(2) Our retirement benefit plans, as described in Note 11 of the Consolidated Financial Statements, require us to make contributions to the plans from time to time. Our plan obligations totaled \$30.8 million as of December 31, 2011. Contributions to the various plans are dependent upon a number of factors including the market performance of plan assets, if any, and future changes in interest rates, which impact the actuarial measurement of plan obligations. As a result, we have only included our 2012 expected contribution in the contractual obligations table.

(3) The unfunded deferred compensation arrangements covering certain current and retired management employees totaled \$6.7 million as of December 31, 2011. Our estimated distributions in the contractual obligations table are based upon a number of assumptions including termination dates and participant distribution elections.

(4) Operating lease commitments consist primarily of office and warehouse facilities, vehicles and office equipment as discussed in Note 13 of the Consolidated Financial Statements.

(5) Purchase obligations include all known open purchase orders, contractual purchase commitments and contractual obligations as of December 31, 2011.

(6) Other obligations include collateralized borrowings as discussed in Note 8 of the Consolidated Financial Statements and residual value guarantees as discussed in Note 13 of the Consolidated Financial Statements.

Total contractual obligations exclude our gross unrecognized tax benefits of \$3.4 million and accrued interest and penalties of \$0.4 million as of December 31, 2011. We expect to make cash outlays in the future related to uncertain tax positions. However, due to the uncertainty of the timing of future cash flows, we are unable to make reasonably reliable estimates of the period of cash settlement, if any, with the respective taxing authorities. For further information related to unrecognized tax benefits, see Note 14 of the Consolidated Financial Statements.

Newly Issued Accounting Guidance

Fair Value Measurements and Disclosures

In May 2011, the Financial Accounting Standards Board ("FASB") issued new accounting guidance for fair value measurements providing common fair value measurement and disclosure requirements in U.S. GAAP and IFRS. While the guidance is largely consistent with existing fair value measurement principles in U.S. GAAP, it expands existing disclosure requirements for fair value measurements and makes other amendments. Key additional disclosures include quantitative disclosures about unobservable inputs in Level 3 measures, qualitative information about sensitivity of Level 3 measures and valuation process, and classification within the fair value hierarchy for instruments where fair value is only disclosed in the footnotes but carrying amount is on some other basis. This guidance is effective for interim and annual periods beginning after December 15, 2011. We do not expect this guidance to have a material impact on our results of operations or financial position.

Comprehensive Income

In June 2011, the FASB issued guidance on the presentation of comprehensive income that will require us to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This guidance eliminates the option to present the components of other comprehensive income as part of the statement of equity. In December 2011, the FASB issued an amendment to this standard which defers the requirement that companies present reclassification adjustments for each component of accumulated other comprehensive income in both net income and other comprehensive income on the face of the financial statements. This guidance requires retrospective application and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. This amended guidance will not impact our results of operations or financial position.

Table of Contents

Testing Goodwill for Impairment

In September 2011, the FASB issued updated accounting guidance on the periodic testing of goodwill for impairment. This updated accounting guidance permits companies to make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If a company determines through this qualitative analysis that it is not more likely than not that the fair value of the reporting unit is less than its carrying value, it is not necessary to perform the two-step impairment test. This guidance is effective for annual and interim periods beginning after December 15, 2011, however early adoption is permitted. We elected to early adopt this guidance for the annual fiscal year ended December 31, 2011. The adoption of this guidance did not have an impact on our results of operations or financial position.

Offsetting Assets and Liabilities Disclosures

In December 2011, the FASB issued updated accounting guidance on disclosures about offsetting assets and liabilities. This update adds certain additional disclosure requirements about financial instruments and derivative instruments that are subject to netting arrangements. The new disclosures are required for interim and annual reporting periods beginning on or after January 1, 2013. We do not expect this guidance to have a material impact on our results of operations or financial position.

Critical Accounting Estimates

Our Consolidated Financial Statements are based on the selection and application of accounting principals generally accepted in the United States of America, which require us to make estimates and assumptions about future events that affect the amounts reported in our Consolidated Financial Statements and the accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results could differ from those estimates, and any such differences may be material to the Consolidated Financial Statements. We believe that the following policies may involve a higher degree of judgment and complexity in their application and represent the critical accounting policies used in the preparation of our Consolidated Financial Statements. If different assumptions or conditions were to prevail, the results could be materially different from our reported results.

Allowance for Doubtful Accounts – We record a reserve for accounts receivable that are potentially uncollectible. A considerable amount of judgment is required in assessing the realization of these receivables including the current creditworthiness of each customer and related aging of the past-due balances. In order to assess the collectibility of these receivables, we perform ongoing credit evaluations of our customers' financial condition. Through these evaluations, we may become aware of a situation where a customer may not be able to meet its financial obligations due to deterioration of its financial viability, credit ratings or bankruptcy. The reserve requirements are based on the best facts available to us and are reevaluated and adjusted as additional information becomes available. Our reserves are also based on amounts determined by using percentages applied to trade receivables. These percentages are determined by a variety of factors including, but not limited to, current economic trends, historical payment and bad debt write-off experience. We are not able to predict changes in the financial condition of our customers and if circumstances related to these customers deteriorate, our estimates of the recoverability of accounts receivable could be materially affected and we may be required to record additional allowances. Alternatively, if more allowances are provided than are ultimately required, we may reverse a portion of such provisions in future periods based on the actual collection experience. Bad debt write-offs as a percentage of Net Sales were approximately 0.2% in 2011, 0.3% in 2010 and 0.7% in 2009. As of December 31, 2011, we had \$3.7 million reserved against Accounts Receivable for doubtful accounts.

Inventory Reserves – We value our inventory at the lower of the cost of inventory or fair market value through the establishment of a reserve for excess, slow moving and obsolete inventory. In assessing the ultimate realization of inventories, we are required to make judgments as to future demand requirements compared with inventory levels. Reserve requirements are developed by comparing our inventory levels to our projected demand requirements based on historical demand, market conditions and technological and product life cycle changes. It is possible that an increase in our reserve may be required in the future if there are significant declines in demand for certain products. This reserve creates a new cost basis for these products and is considered permanent. As of December 31, 2011, we had \$4.2 million reserved against Inventories.

Goodwill – Goodwill represents the excess of cost over the fair value of net assets of businesses acquired and is allocated to our reporting units at the time of the acquisition. We analyze Goodwill on an annual basis and when an event occurs or circumstances change that may reduce the fair value of one of our reporting units below its carrying amount. A goodwill impairment loss occurs if the carrying amount of a reporting unit's goodwill exceeds its fair value.

Beginning in 2011, we performed an analysis of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. Prior to 2011, the analysis of qualitative factors was not an option and the two-step impairment testing was performed. The first step is used as an indicator to identify if there is potential goodwill impairment. If the first step indicates there may be an impairment, the second step is performed which measures the amount of the goodwill impairment, if any. We perform our goodwill impairment analysis as of year end and use our judgment to develop assumptions for the discounted cash flow model that we use. Management assumptions include forecasting revenues and margins, estimating capital expenditures, depreciation, amortization and discount rates.

If our goodwill impairment testing resulted in one or more of our reporting units' carrying amount exceeding its fair value, we would write down our reporting units' carrying amount to its fair value and would record an impairment charge in our results of operations in the period such determination is made. Subsequent reversal of goodwill impairment charges is not permitted. During the first quarter of 2009, we recorded a goodwill impairment loss of \$43.4 million. Each of our reporting units were analyzed for impairment as of December 31, 2011 and based upon our analysis, the estimated fair values of our reporting units substantially exceeded their carrying amounts. We had Goodwill of \$20.3 million as of December 31, 2011.

Warranty Reserves – We record a liability for warranty claims at the time of sale. The amount of the liability is based on the trend in the historical ratio of claims to net sales, the historical length of time between the sale and resulting warranty claim, new product introductions and other factors. Future claims experience could be materially different from prior results because of the introduction of new, more complex products, a change in our warranty policy in response to industry trends, competition or other external forces, or manufacturing changes that could impact product quality. In the event we determine that our current or future product repair and replacement costs exceed our estimates, an adjustment to these reserves would be charged to earnings in the period such determination is made. Warranty expense as a percentage of Net Sales was 1.7% in 2011, 1.6% in 2010 and 1.4% in 2009. As of December 31, 2011, we had \$8.8 million reserved for future estimated warranty costs.

Table of Contents

Income Taxes – We are required to estimate our income taxes in each of the jurisdictions in which we operate. This process involves estimating our actual current tax obligations based on expected income, statutory tax rates and tax planning opportunities in the various jurisdictions. We also establish reserves for uncertain tax matters that are complex in nature and uncertain as to the ultimate outcome. Although we believe that our tax return positions are fully supportable, we consider our ability to ultimately prevail in defending these matters when establishing these reserves. We adjust our reserves in light of changing facts and circumstances, such as the closing of a tax audit. We believe that our current reserves are adequate. However, the ultimate outcome may differ from our estimates and assumptions and could impact the income tax expense reflected in our Consolidated Statements of Operations.

Tax law requires certain items to be included in our tax return at different times than the items are reflected in our results of operations. Some of these differences are permanent, such as expenses that are not deductible in our tax returns, and some differences will reverse over time, such as depreciation expense on property, plant and equipment. These temporary differences result in deferred tax assets and liabilities, which are included within our Consolidated Balance Sheets. Deferred tax assets generally represent items that can be used as a tax deduction or credit in our tax returns in future years but have already been recorded as an expense in our Consolidated Statements of Operations. We assess the likelihood that our deferred tax assets will be recovered from future taxable income, and, based on management’s judgment, to the extent we believe that recovery is not more likely than not, we establish a valuation reserve against those deferred tax assets. The deferred tax asset valuation allowance could be materially different from actual results because of changes in the mix of future taxable income, the relationship between book and taxable income and our tax planning strategies. As of December 31, 2011, a valuation allowance of \$3.2 million was recorded against foreign tax loss carryforwards and state credit carryforwards.

Cautionary Factors Relevant to Forward-Looking Information

This annual report on Form 10-K, including “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Item 2, contain certain statements that are considered “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements generally can be identified by the use of forward-looking terminology such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “believe,” “project,” or “continue” or similar words or the negative thereof. These statements do not relate to strictly historical or current facts and provide current expectations or forecasts of future events. Any such expectations or forecasts of future events are subject to a variety of factors. Particular risks and uncertainties presently facing us include:

- Geopolitical and economic uncertainty throughout the world.
- Competition in our business.
- Ability to effectively manage organizational changes.
- Ability to comply with laws and regulations.
- Ability to effectively maintain and manage the data in our computer systems.
- Unforeseen product liability claims or product quality issues.
- Ability to develop and fund new innovative products and services.
- Ability to attract and retain key personnel.
- Ability to successfully upgrade and evolve the capabilities of our computer systems.

- Occurrence of a significant business interruption.
- Fluctuations in the cost or availability of raw materials and purchased components.
- Ability to acquire, retain and protect proprietary intellectual property rights.
- Relative strength of the U.S. dollar, which affects the cost of our materials and products purchased and sold internationally.

We caution that forward-looking statements must be considered carefully and that actual results may differ in material ways due to risks and uncertainties both known and unknown. Information about factors that could materially affect our results can be found in Part I, Item 1A - Risk Factors. Shareholders, potential investors and other readers are urged to consider these factors in evaluating forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements.

We undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. Investors are advised to consult any further disclosures by us in our filings with the Securities and Exchange Commission and in other written statements on related subjects. It is not possible to anticipate or foresee all risk factors, and investors should not consider any list of such factors to be an exhaustive or complete list of all risks or uncertainties.

Table of Contents

ITEM 7A – Quantitative and Qualitative Disclosures About Market Risk

Commodity Risk – We are subject to exposures resulting from potential cost increases related to our purchase of raw materials or other product components. We do not use derivative commodity instruments to manage our exposures to changes in commodity prices such as steel, oil, gas, lead and other commodities.

Various factors beyond our control affect the price of oil and gas, including but not limited to worldwide and domestic supplies of oil and gas, political instability or armed conflict in oil-producing regions, the price and level of foreign imports, the level of consumer demand, the price and availability of alternative fuels, domestic and foreign governmental regulation, weather-related factors and the overall economic environment. We purchase petroleum-related component parts for use in our manufacturing operations. In addition, our freight costs associated with shipping and receiving product and sales and service vehicle fuel costs are impacted by fluctuations in the cost of oil and gas.

Increases in worldwide demand and other factors affect the price for lead, steel and related products. We do not maintain an inventory of raw or fabricated steel or batteries in excess of near-term production requirements. As a result, increases in the price of lead or steel can significantly increase the cost of our lead- and steel-based raw materials and component parts.

During 2011, our raw materials and other purchased component costs were unfavorably impacted by commodity prices although we are able to somewhat mitigate these higher costs with pricing actions and cost reduction activities. We continue to focus on mitigating the risk of continued future raw material or other product component cost increases through product pricing, negotiations with our vendors and cost reduction actions. The success of these efforts will depend upon our ability to increase our selling prices in a competitive market and our ability to achieve cost savings. If the commodity prices increase significantly and we are not able to offset the increases with higher selling prices, our results may be unfavorably impacted in 2012.

Foreign Currency Exchange Risk – Due to the global nature of our operations, we are subject to exposures resulting from foreign currency exchange fluctuations in the normal course of business. Our primary exchange rate exposures are with the Euro, Australian and Canadian dollars, British pound, Japanese yen, Chinese yuan and Brazilian real against the U.S. dollar. The direct financial impact of foreign currency exchange includes the effect of translating profits from local currencies to U.S. dollars, the impact of currency fluctuations on the transfer of goods between Tennant operations in the United States and abroad and transaction gains and losses. In addition to the direct financial impact, foreign currency exchange has an indirect financial impact on our results, including the effect on sales volume within local economies and the impact of pricing actions taken as a result of foreign exchange rate fluctuations.

Because a substantial portion of our products are manufactured or sourced primarily from the United States, a stronger U.S. dollar generally has a negative impact on results from operations outside the United States while a weaker dollar generally has a positive effect. Our objective in managing the exposure to foreign currency fluctuations is to minimize the earnings effects associated with foreign exchange rate changes on certain of our foreign currency-denominated assets and liabilities. We periodically enter into various contracts, principally forward exchange contracts, to protect the value of certain of our foreign currency-denominated assets and liabilities. The gains and losses on these contracts generally approximate changes in the value of the related assets and liabilities. We had forward exchange contracts outstanding in the notional amounts of \$45.5 million and \$40.3 million at the end of 2011 and 2010, respectively. The potential for material loss in fair value of foreign currency contracts outstanding and the related underlying exposures as of December 31, 2011, from a 10% adverse change is unlikely due to the short-term nature of our forward contracts. Our policy prohibits us from entering into transactions for speculative purposes.

Other Matters – Management regularly reviews our business operations with the objective of improving financial performance and maximizing our return on investment. As a result of this ongoing process to improve financial performance, we may incur additional restructuring charges in the future which, if taken, could be material to our financial results.

Table of Contents

ITEM 8 – Financial Statements and Supplementary Data

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Tennant Company:

We have audited the accompanying consolidated balance sheets of Tennant Company and subsidiaries (the Company) as of December 31, 2011 and 2010, and the related consolidated statements of operations, shareholders' equity and comprehensive (loss) income, and cash flows for each of the years in the three-year period ended December 31, 2011. In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule as included in Item 15.A.2. We also have audited the Company's internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these consolidated financial statements and financial statement schedule, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Tennant Company and subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the accompanying financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein. Furthermore, in our opinion, Tennant Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control-Integrated Framework issued by the committee of Sponsoring Organizations of the Treadway Commission.

The Company had 60,000,000 authorized shares of Common Stock as of December 31, 2011, 2010 and 2009.

See accompanying Notes to Consolidated Financial Statements.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

1. Summary of Significant Accounting Policies

Nature of Operations – Our primary business is designing, manufacturing and marketing solutions that help create a cleaner, safer, healthier world. Our products include equipment for maintaining surfaces in industrial, commercial and outdoor environments; chemical-free and other sustainable cleaning technologies; and coatings for protecting, repairing and upgrading floors and other surfaces. We sell our products through our direct sales and service organization and a network of authorized distributors worldwide. Geographically, our customers are located in North America, Latin America, Europe, the Middle East, Africa and Asia Pacific.

Consolidation – The Consolidated Financial Statements include the accounts of Tennant Company and its subsidiaries. All intercompany transactions and balances have been eliminated. In these Notes to the Consolidated Financial Statements, Tennant Company is referred to as “Tennant,” “we,” “us,” or “our.”

Translation of Non-U.S. Currency – Foreign currency-denominated assets and liabilities have been translated to U.S. dollars at year-end exchange rates, while income and expense items are translated at average exchange rates prevailing during the year. Gains or losses resulting from translation are included as a separate component of Shareholders’ Equity. The balance of cumulative foreign currency translation adjustments recorded within Accumulated Other Comprehensive Gain (Loss) as of December 31, 2011, 2010, 2009 and 2008 was a net loss of \$20,286, \$17,145, \$17,907 and \$23,011, respectively. Translation adjustments are not adjusted for income taxes as substantially all translation adjustments relate to permanent investments in non-U.S. subsidiaries. Net Foreign Currency Transaction Gains (Losses) are included in Other (Expense) Income.

Use of Estimates – In preparing the consolidated financial statements in conformity with U.S. generally accepted accounting principles, management must make decisions that impact the reported amounts of assets, liabilities, revenues, expenses and the related disclosures, including disclosures of contingent assets and liabilities. Such decisions include the selection of the appropriate accounting principles to be applied and the assumptions on which to base accounting estimates. Estimates are used in determining, among other items, sales promotions and incentives accruals, inventory valuation, warranty reserves, allowance for doubtful accounts, pension and postretirement accruals, useful lives for intangible assets, and future cash flows associated with impairment testing for goodwill and other long-lived assets. These estimates and assumptions are based on management’s best estimates and judgments. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors that management believes to be reasonable under the circumstances. We adjust such estimates and assumptions when facts and circumstances dictate. A number of these factors include, among others, economic conditions, credit markets, foreign currency, commodity cost volatility and consumer spending and confidence, all of which have combined to increase the uncertainty inherent in such estimates and assumptions. As future events and their effects cannot be determined with precision, actual amounts could differ significantly from those estimated at the time the consolidated financial statements are prepared. Changes in those estimates resulting from continuing changes in the economic environment will be reflected in the financial statements in future periods.

Cash and Cash Equivalents – We consider all highly liquid investments with maturities of three months or less from the date of purchase to be cash equivalents.

Restricted Cash – We have a total of \$3,279 that serves as collateral backing certain bank guarantees and is therefore restricted. This money is invested in time deposits.

Receivables – Credit is granted to our customers in the normal course of business. Receivables are recorded at original carrying value less reserves for estimated uncollectible accounts and sales returns. To assess the collectability of these receivables, we perform ongoing credit evaluations of our customers' financial condition. Through these evaluations, we may become aware of a situation where a customer may not be able to meet its financial obligations due to deterioration of its financial viability, credit ratings or bankruptcy. The reserve requirements are based on the best facts available to us and are reevaluated and adjusted as additional information becomes available. Our reserves are also based on amounts determined by using percentages applied to trade receivables. These percentages are determined by a variety of factors including, but not limited to, current economic trends, historical payment and bad debt write-off experience. An account is considered past-due or delinquent when it has not been paid within the contractual terms. Uncollectible accounts are written off against the reserves when it is deemed that a customer account is uncollectible.

Inventories – Inventories are valued at the lower of cost or market. Cost is determined on a first in, first-out ("FIFO") basis except for Inventories in North America which are determined on a last-in, first-out ("LIFO") basis.

Property, Plant and Equipment – Property, plant and equipment is carried at cost. Additions and improvements that extend the lives of the assets are capitalized while expenditures for repairs and maintenance are expensed as incurred. We generally depreciate buildings and improvements by the straight-line method over a life of 30 years. Other property, plant and equipment are generally depreciated using the straight-line method based on lives of 3 years to 15 years.

Goodwill – Goodwill represents the excess of cost over the fair value of net assets of businesses acquired. We analyze Goodwill on an annual basis as of year end and when an event occurs or circumstances change that may reduce the fair value of one of our reporting units below its carrying amount. A Goodwill impairment occurs if the carrying amount of a reporting unit's Goodwill exceeds its fair value. In assessing the recoverability of Goodwill, in 2011 we began using an analysis of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. Prior to 2011, in assessing the recoverability of Goodwill, we used a discounted cash flow model to estimate the reporting unit's fair value to compare to its carrying amount. Management used judgment to develop assumptions for the discounted cash flow model including forecasting revenues and margins, estimating capital expenditures, depreciation, amortization and discount rates.

Intangible Assets – Intangible Assets consist of definite lived customer lists, service contracts, an acquired trade name and technology. Intangible Assets with a definite life are amortized on a straight-line basis.

Impairment of Long-lived Assets – We periodically review our intangible and long-lived assets for impairment and assess whether events or circumstances indicate that the carrying amount of the assets may not be recoverable. We generally deem an asset group to be impaired if an estimate of undiscounted future operating cash flows is less than its carrying amount. If impaired, an impairment loss is recognized based on the excess of the carrying amount of the individual asset group over its fair value.

Purchases of Common Stock – We repurchase our Common Stock under a 2011 repurchase program authorized by our Board of Directors. This program allows us to repurchase up to 1,000,000 shares of our Common Stock. Upon repurchase, the par value is charged to Common Stock and the remaining purchase

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

price is charged to Additional Paid-in Capital. If the amount of the remaining purchase price causes the Additional Paid-in Capital account to be in a debit position, this amount is then reclassified to Retained Earnings. Common Stock repurchased is included in shares authorized but is not included in shares outstanding.

Warranty – We record a liability for estimated warranty claims at the time of sale. The amount of the liability is based on the trend in the historical ratio of claims to sales, the historical length of time between the sale and resulting warranty claim, new product introductions and other factors. In the event we determine that our current or future product repair and replacement costs exceed our estimates, an adjustment to these reserves would be charged to earnings in the period such determination is made. Warranty terms on machines range from one to four years.

Environmental – We record a liability for environmental clean-up on an undiscounted basis when a loss is probable and can be reasonably estimated.

Pension and Profit Sharing Plans – We have pension and/or profit sharing plans covering substantially all of our employees. Pension plan costs are accrued based on actuarial estimates with the required pension cost funded annually, as needed.

Postretirement Benefits – We accrue and recognize the cost of retiree health benefits over the employees' period of service based on actuarial estimates.

Derivative Financial Instruments – We use derivative instruments to manage exposures to foreign currency only in an attempt to limit underlying exposures from currency fluctuations and not for trading purposes. We periodically enter into various contracts, principally forward exchange contracts, to protect the value of certain of our foreign currency-denominated assets and liabilities (principally the Euro, Australian and Canadian dollars, British pound, Japanese yen, Chinese yuan and Brazilian real). We have elected not to apply hedge accounting treatment to these contracts as our contracts are for a short duration. These contracts are marked-to-market with the related asset or liability recorded in Other Current Assets or Other Current Liabilities, as applicable. The gains and losses on these contracts generally approximate changes in the value of the related assets and liabilities. Gains or losses on forward foreign exchange contracts to economically hedge foreign currency-denominated net assets and liabilities are recognized in Other (Expense) Income under Net Foreign Currency Transaction Gains (Losses) within the Consolidated Statements of Operations.

Revenue Recognition – We recognize revenue when persuasive evidence of an arrangement exists, title and risk of ownership have passed, the sales price is fixed or determinable and collectibility is probable. Generally, these criteria are met at the time the product is shipped. Provisions for estimated returns, rebates and discounts are provided for at the time the related revenue is recognized. Freight revenue billed to customers is included in Net Sales and the related shipping expense is included in Cost of Sales. Service revenue is recognized in the period the service is performed or ratably over the period of the related service contract.

Customers may obtain financing through third-party leasing companies to assist in their acquisition of our equipment products. Certain lease transactions classified as operating leases contain retained ownership provisions or guarantees, which results in recognition of revenue over the lease term. As a result, we defer the sale of these transactions and record the sales proceeds as collateralized borrowings or deferred revenue. The underlying equipment relating to operating leases is depreciated on a straight-line basis, not to exceed the equipment's estimated useful life.

Revenues from contracts with multiple element arrangements are recognized as each element is earned. We offer service contracts in conjunction with equipment sales in addition to selling equipment and service contracts separately. Sales proceeds related to service contracts are deferred if the proceeds are received in advance of the service and recognized ratably over the contract period.

Stock-based Compensation – We account for employee stock-based compensation using the fair value based method. Our stock-based compensation plans are more fully described in Note 15 of the Consolidated Financial Statements.

Research and Development – Research and development costs are expensed as incurred.

Advertising Costs – We advertise products, technologies and solutions to customers and prospective customers through a variety of marketing campaign and promotional efforts. These efforts include tradeshow, online advertising, e-mail marketing, mailings, sponsorships and telemarketing. Advertising costs are expensed as incurred. In 2011, 2010 and 2009 such activities amounted to \$6,728, \$5,516 and \$4,380, respectively.

Income Taxes – Deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the book and tax bases of existing assets and liabilities. A valuation allowance is provided when, in management's judgment, it is more likely than not that some portion or all of the deferred tax asset will not be realized. We have established contingent tax liabilities using management's best judgment. As of January 1, 2007, we follow guidance provided by ASC 740, Income Taxes, regarding uncertainty in income taxes, to record these contingent tax liabilities (refer to Note 14 of the Consolidated Financial Statements for additional information). We adjust these liabilities as facts and circumstances change. Interest Expense is recognized in the first period the interest would begin accruing. Penalties are recognized in the period we claim or expect to claim the position in our tax return. Interest and penalties expenses are classified as an income tax expense.

Sales Tax – Sales taxes collected from customers and remitted to governmental authorities are presented on a net basis.

Earnings (Loss) per Share – Basic earnings (loss) per share is computed by dividing Net Earnings (Loss) by the Weighted Average Shares Outstanding during the period. Diluted earnings (loss) per share assume conversion of potentially dilutive stock options and restricted share awards. Performance-based shares are included in the calculation of diluted earnings (loss) per share in the quarter in which the performance targets have been achieved.

Subsequent Events - Events that have occurred subsequent to December 31, 2011 have been evaluated.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

2. Newly Adopted Accounting Pronouncements

Intangibles – Goodwill and Other

In December 2010, the Financial Accounting Standards Board (“FASB”) issued amended guidance to modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. We adopted the modified guidance on January 1, 2011. The adoption of the modified guidance did not have an impact on our financial position or results of operations.

Multiple-Deliverable Revenue Arrangements

In October 2009, the FASB issued new guidance that sets forth the requirements that must be met for an entity to recognize revenue for the sale of a delivered item that is part of a multiple-element arrangement when other elements have not yet been delivered. We adopted the new guidance on January 1, 2011. The adoption of the new guidance did not have a material impact on our financial position or results of operations.

Business Combinations

In December 2010, the FASB updated guidance to clarify the acquisition date that should be used for reporting the pro forma financial information disclosure when comparative financial statements are presented. We adopted the updated guidance on January 1, 2011. The adoption of the updated guidance did not have an impact on our financial statement disclosures.

Fair Value Measurements and Disclosures

In January 2010, the FASB updated the disclosure requirements for fair value measurements. The updated guidance requires companies to disclose separately the investments that transfer in and out of Levels 1 and 2 and the reasons for those transfers. Additionally, in the reconciliation for fair value measurements using significant unobservable inputs (Level 3), companies should present separately information about purchases, sales, issuances and settlements. We adopted the updated guidance on January 1, 2010, except for the disclosures about purchases, sales, issuances and settlements in the Level 3 reconciliation, which we adopted the remaining guidance on January 1, 2011. The adoption of the remaining guidance did not have an impact on our financial position or results of operations.

Testing Goodwill for Impairment

In September 2011, the FASB issued updated accounting guidance on the periodic testing of goodwill for impairment. This updated accounting guidance permits companies to make a qualitative assessment of whether it is more likely than not that a reporting unit’s fair value is less than its carrying amount before applying the two-step goodwill impairment test. If a company determines through this qualitative analysis that it is not more likely than not that the fair value of the reporting unit is less than its carrying amount, it is not necessary to perform the two-step impairment test. This guidance is effective for annual and interim periods beginning after December 15, 2011, however early adoption is permitted. We elected to early adopt this guidance for the annual fiscal year ended December 31, 2011. The adoption of this guidance did not have an impact on our results of operations or financial position.

3. Management Actions

2010 Action - During the fourth quarter of 2010, we implemented a restructuring action. A pretax charge of \$1,671 was recognized in the fourth quarter of 2010 as a result of that action. The pretax charge consisted of severance and outplacement services and was included within Selling and Administrative Expense in the 2010 Consolidated Statement of Earnings.

A reconciliation of the beginning and ending liability balances is as follows:

	Severance, Early Retirement and Related Costs
2010 restructuring action	\$ 1,671
Cash payments	(87)
December 31, 2010 balance	\$ 1,584
2011 utilization:	
Cash payments	(1,534)
Foreign currency adjustments	(54)
Change in estimate	110
December 31, 2011 balance	\$ 106

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

4. Acquisitions and Divestitures

Acquisitions

On May 31, 2011, we acquired Water Star, Inc. (“Water Star”), a Newbury, Ohio firm specializing in electrochemistry for \$4,456. The total purchase price of \$4,456 is comprised of \$2,956 paid at closing and two \$750 installment payments which will be paid in cash on the first and second anniversary dates of the acquisition. These installment payments are not contingent on any future services or other financial targets. This acquisition is consistent with our strategy to expand our intellectual property in support of our long-term vision to deliver sustainable, breakthrough innovations. The purchase price allocation is preliminary and will be adjusted based upon the final determination of fair value of assets acquired and liabilities assumed.

The components of the purchase price of the business combination described above have been allocated as follows:

Current Assets	\$426
Property, Plant and Equipment, net	167
Identified Intangible Assets	3,800
Goodwill	472
Total Assets Acquired	4,865
Current Liabilities	409
Total Liabilities Assumed	409
Net Assets Acquired	\$4,456

5. Inventories

Inventories as of December 31, consisted of the following:

	2011	2010
Inventories carried at LIFO:		
Finished goods	\$32,648	\$31,355
Raw materials, production parts and work-in-process	16,611	15,414
LIFO reserve	(27,926)	(26,462)
Total LIFO inventories	21,333	20,307
Inventories carried at FIFO:		
Finished goods	31,912	23,770
Raw materials, production parts and work-in-process	12,667	17,669
Total FIFO inventories	44,579	41,439
Total Inventories	\$65,912	\$61,746

The LIFO reserve approximates the difference between LIFO carrying cost and FIFO. LIFO reserve increased in 2011 due to increase in North America inventories and higher cost indices.

6. Property, Plant and Equipment

Edgar Filing: TENNANT CO - Form 10-K

Property, Plant and Equipment and related Accumulated Depreciation, including equipment under capital leases, as of December 31, consisted of the following:

	2011	2010
Land	\$ 4,383	\$ 4,397
Buildings and improvements	49,931	49,578
Machinery and manufacturing equipment	135,794	137,246
Office equipment	86,740	90,844
Work in progress	10,101	5,686
Total Property, Plant and Equipment	286,949	287,751
Less: Accumulated Depreciation	(199,795)	(200,123)
Net Property, Plant and Equipment	\$ 87,154	\$ 87,628

Depreciation expense was \$18,088 in 2011, \$18,026 in 2010 and \$19,632 in 2009.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

7. Goodwill and Intangible Assets

For purposes of performing our goodwill impairment analysis, we have identified our reporting units as North America; Latin America; Europe, Middle East, Africa (“EMEA”) and Asia Pacific. As of December 31, 2011, the Company performed an analysis of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. Based on the Company’s analysis of qualitative factors, the Company determined that it was not necessary to perform the two-step goodwill impairment test for any of its reporting units. Each of our reporting units were tested for impairment as of December 31, 2010 and based upon our analysis, the estimated fair values of our reporting units substantially exceeded their carrying amounts.

During the first quarter of 2009, the price of our stock decreased to the point that our carrying amount exceeded our market capitalization for a period of time leading up to and including March 31, 2009. Accordingly, we performed interim impairment tests as of March 31, 2009 on our goodwill and other intangible assets. As quoted market prices are not available for our reporting units, estimated fair value was determined using an average weighting of both projected discounted future cash flows and the use of comparative market multiples. The use of comparative market multiples (the market approach) compares us to other comparable companies based on valuation multiples to arrive at a fair value. The use of projected discounted future cash flows (discounted cash flow approach) is based on management’s assumptions including forecasted revenues and margins, estimated capital expenditures, depreciation, amortization and discount rates. Changes in economic and operating conditions that occur after the annual impairment analysis or an interim impairment analysis, and that impact these assumptions, may result in a future goodwill impairment charge.

Upon performing the first step test for the interim impairment analysis in 2009, the estimated fair values of the North America, Latin America, and Asia Pacific reporting units exceeded their carrying amounts. However, we determined that the fair value of the EMEA reporting unit was below its carrying amount, indicating a potential goodwill impairment existed. Having determined that the goodwill of the EMEA reporting unit was potentially impaired, we performed Step 2 of the goodwill impairment analysis which involved calculating the implied fair value of its goodwill by allocating the fair value of the reporting unit to all of its assets and liabilities other than goodwill (including both recognized and unrecognized intangible assets) and comparing the residual value to the carrying amount of goodwill. As of March 31, 2009, as a result of our interim impairment tests, we recorded an impairment loss related to our EMEA reporting unit, which totaled \$43,363, representing 100% of the goodwill for this reporting unit. There was no impairment of our other intangible assets.

The income tax benefit associated with the 2009 first quarter goodwill impairment was \$1,074 which relates to the tax deductible portion of the goodwill impairment.

The changes in the carrying amount of Goodwill are as follows:

	Goodwill	Accumulated Impairment Losses	Total
Balance as of December 31, 2010	\$ 67,008	\$ (46,585)	\$ 20,423
Additions	688	-	688
Foreign currency fluctuations	(1,173)	365	(808)
Balance as of December 31, 2011	\$ 66,523	\$ (46,220)	\$ 20,303

Balance as of December 31, 2009	\$ 68,706	\$ (48,525)	\$ 20,181
Adjustments	(117)	-	(117)
Foreign currency fluctuations	(1,581)	1,940	359
Balance as of December 31, 2010	\$ 67,008	\$ (46,585)	\$ 20,423

The balances of acquired Intangible Assets, excluding Goodwill, as of December 31, are as follows:

	Customer Lists and Service Contracts	Trade Name	Technology	Total
Balance as of December 31, 2011				
Original cost	\$ 25,987	\$ 4,583	\$ 7,136	\$ 37,706
Accumulated amortization	(10,387)	(1,209)	(2,352)	(13,948)
Carrying amount	\$ 15,600	\$ 3,374	\$ 4,784	\$ 23,758
Weighted-average original life (in years)	14	14	13	
Balance as of December 31, 2010				
Original cost	\$ 26,662	\$ 4,709	\$ 3,441	\$ 34,812
Accumulated amortization	(7,344)	(901)	(1,228)	(9,473)
Carrying amount	\$ 19,318	\$ 3,808	\$ 2,213	\$ 25,339
Weighted-average original life (in years)	14	14	11	

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The additions to Goodwill during 2011 were a result of our Water Star acquisition as well as recording a portion of the Shanghai ShenTan Mechanical and Electrical Equipment Co. Ltd. ("Shanghai ShenTan") earn-out.

The net reduction of Goodwill during 2010 was a result of recording a portion of the Shanghai ShenTan earn-out, offset by the finalization of the valuation of the customer list acquired with the Applied Cleansing acquisition. The Applied Cleansing customer list has a useful life of 8 years.

During the second quarter of 2011, we impaired customer lists and technology Intangible Assets totaling \$1,805 related to the obsolescence of the two Hofmans outdoor city cleaning products in Europe. This impairment charge is included within Selling and Administrative Expense in the 2011 Consolidated Statement of Earnings.

Amortization expense on Intangible Assets was \$3,330, \$3,166 and \$3,120 for the years ended December 31, 2011, 2010 and 2009, respectively.

Estimated aggregate amortization expense based on the current carrying amount of amortizable Intangible Assets for each of the five succeeding years is as follows:

2012	\$2,459
2013	2,343
2014	2,281
2015	2,269
2016	2,229
Thereafter	12,177
Total	\$23,758

8. Debt

Short-term borrowings and Long-Term Debt as of December 31 consisted of the following:

	2011	2010
Short-term borrowings:		
Bank borrowings	\$ -	\$ -
Long-Term Debt:		
Bank borrowings	49	128
Credit facility borrowings	30,000	25,000
Notes Payable	1,500	-
Collateralized borrowings	127	471
Capital lease obligations	4,779	5,229
Total Long-Term Debt	36,455	30,828
Less: current portion	4,166	3,154
Long-term portion	\$ 32,289	\$ 27,674

As of December 31, 2011, we had committed lines of credit totaling approximately \$125,000 and uncommitted lines of credit totaling approximately \$82,592. There was \$10,000 in outstanding borrowings under our JPMorgan facility and \$20,000 borrowings under our Prudential facility as of December 31, 2011. In addition, we had stand alone letters of credit of approximately \$1,759 outstanding and bank guarantees in the amount of approximately \$1,015.

Commitment fees on unused lines of credit for the year ended December 31, 2011 were \$338.

Our most restrictive covenants are part of our Credit Agreement with JPMorgan, which are the same covenants in our Shelf Agreement with Prudential described below, and require us to maintain an indebtedness to EBITDA ratio of not greater than 3.00 to 1 and to maintain an EBITDA to interest expense ratio of no less than 3.50 to 1 as of the end of each quarter. As of December 31, 2011, our indebtedness to EBITDA ratio was 0.54 to 1 and our EBITDA to interest expense ratio was 32.82 to 1.

Credit Facilities

JPMorgan Chase Bank, National Association

On May 5, 2011, we entered into a Credit Agreement (the “2011 Credit Agreement”) with JPMorgan Chase Bank, N. A. (“JPMorgan”), as administrative agent and collateral agent, U.S. Bank National Association, as syndication agent, Wells Fargo Bank, National Association, and RBS Citizens, N.A., as co-documentation agents, and the Lenders (including JPMorgan) from time to time party thereto. Upon entry into the 2011 Credit Agreement, we repaid and terminated our June 19, 2007 Credit Agreement. The 2011 Credit Agreement provides us and certain of our foreign subsidiaries access to a senior unsecured credit facility until May 5, 2016, in the amount of \$125,000, with an option to expand by up to \$62,500 to a total of \$187,500. Borrowings may be denominated in U.S. Dollars or certain other currencies. The 2011 Credit Agreement contains a \$100,000 sublimit on borrowings by foreign subsidiaries.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The fee for committed funds under the 2011 Credit Agreement ranges from an annual rate of 0.25% to 0.40%, depending on our leverage ratio. Borrowings under the 2011 Credit Agreement bear interest at a rate per annum equal to the greatest of (a) the prime rate, (b) the federal funds rate plus 0.50% and (c) the adjusted LIBOR rate for a one month period plus 1.0%, plus, in any such case, an additional spread of 0.50% to 1.10%, depending on our leverage ratio.

The 2011 Credit Agreement gives the lenders a pledge of 65% of the stock of certain first tier foreign subsidiaries. The obligations under the 2011 Credit Agreement are also guaranteed by our first tier domestic subsidiaries.

The 2011 Credit Agreement contains customary representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and merge or consolidate with another entity. Further, the 2011 Credit Agreement contains the following covenants:

- a covenant requiring us to maintain an indebtedness to EBITDA ratio as of the end of each quarter of not greater than 3.00 to 1;
- a covenant requiring us to maintain an EBITDA to interest expense ratio as of the end of each quarter of no less than 3.50 to 1;
- a covenant restricting us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50,000 to \$75,000 during any fiscal year based on our leverage ratio after giving effect to such payments; and
- a covenant restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25,000.

As of December 31, 2011 we were in compliance with all covenants under the Credit Agreement. There was \$10,000 in outstanding borrowings under this facility at December 31, 2011, with a weighted average interest rate of 1.75%.

Prudential Investment Management, Inc.

On May 5, 2011, we entered into Amendment No. 1 to our Private Shelf Agreement (the "Amendment"), which amends the Private Shelf Agreement, dated as of July 29, 2009, with Prudential Investment Management, Inc. ("Prudential") and Prudential affiliates from time to time party thereto (the "Shelf Agreement").

The Amendment principally provides the following changes to the Shelf Agreement:

- elimination of the security interest in our personal property and subsidiaries;
- an amendment to the maximum leverage ratio to not greater than 3.00 to 1 for any period ending on or after March 31, 2011;
- an amendment to our restriction regarding the payment of dividends or repurchase of stock to restrict us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50,000 to \$75,000 during any fiscal year based on our leverage ratio after giving effect to such payments; and

- an amendment to Permitted Acquisitions restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25,000.

As of December 31, 2011, there was \$20,000 in outstanding borrowings under this facility; the \$10,000 Series A notes issued in March 2011 with a fixed interest rate of 4.00% and a 7 year term serially maturing from 2014 to 2018; and the \$10,000 Series B notes issued in June 2011 with a fixed interest rate of 4.10% and a 10 year term serially maturing from 2015 to 2021. We were in compliance with all covenants of the Shelf Agreement as of December 31, 2011.

The Royal Bank of Scotland Citizens, N.A.

On September 14, 2010, we entered into an overdraft facility with The Royal Bank of Scotland Citizens, N.A. in the amount of 2,000 Euros or approximately \$2,592. There was no balance outstanding on this facility as of December 31, 2011.

Notes Payable

On May 31, 2011, we incurred \$1,500 in debt related to installment payments due to the former owners of Water Star in connection with our acquisition of Water Star, which remains outstanding as of December 31, 2011.

Collateralized Borrowings

Collateralized borrowings represent deferred sales proceeds on certain leasing transactions with third-party leasing companies. These transactions are accounted for as borrowings, with the related assets capitalized as property, plant and equipment and depreciated straight-line over the lease term.

Capital Lease Obligations

Capital lease obligations outstanding are primarily related to sale-leaseback transactions with third-party leasing companies whereby we sell our manufactured equipment to the leasing company and lease it back. The equipment covered by these leases is rented to our customers over the lease term.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The aggregate maturities of our outstanding debt including capital lease obligations as of December 31, 2011, are as follows:

2012	\$5,354
2013	3,096
2014	3,211
2015	4,252
2016	13,994
Thereafter	11,995
Total minimum obligations	\$41,902
Less: amount representing interest	(5,447)
Total	\$36,455

9. Other Current Liabilities

Other Current Liabilities as of December 31, consisted of the following:

	2011	2010
Taxes, other than income taxes	\$5,629	\$5,654
Warranty	8,759	7,043
Deferred revenue	3,159	2,740
Rebates	5,185	4,927
Freight	3,945	4,257
Restructuring	835	1,798
Miscellaneous accrued expenses	8,974	11,401
Other	2,918	2,882
Total	\$39,404	\$40,702

The changes in warranty reserves for the three years ended December 31 were as follows:

	2011	2010	2009
Beginning balance	\$ 7,043	\$ 5,985	\$ 6,018
Product warranty provision	12,815	10,506	8,092
Acquired reserves	10	-	17
Foreign currency	(63)	(88)	133
Claims paid	(11,046)	(9,360)	(8,275)
Ending balance	\$ 8,759	\$ 7,043	\$ 5,985

10. Fair Value Measurements

Estimates of fair value for financial assets and financial liabilities are based on the framework established in the accounting guidance for fair value measurements. The framework defines fair value, provides guidance for measuring fair value and requires certain disclosures. The framework discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). The framework utilizes a fair value

hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
 - Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

Our population of assets and liabilities subject to fair value measurements at December 31, 2011 is as follows:

	Fair value	Level 1	Level 2	Level 3	Valuation Technique
Assets:					
Water Star technology	\$ 3,800	\$ -	\$ -	\$ 3,800	(a)
Foreign currency forward exchange contracts	1,015	-	1,015	-	(b)
Total Assets	\$ 4,815	\$ -	\$ 1,015	\$ 3,800	
Liabilities:					
Foreign currency forward exchange contracts	\$ 102	\$ -	\$ 102	\$ -	(b)
Total Liabilities	\$ 102	\$ -	\$ 102	\$ -	

Assets and liabilities measured at fair value are based on one or more valuation techniques. The valuation techniques are identified in the table above and are as follows:

(a) We used a loss of income method to value Water Star technology. Inputs for this valuation model were based on estimated costs to replace and hypothetical lost profits.

(b) Our foreign currency forward exchange contracts are valued based on quoted forward foreign exchange prices at the reporting date.

We use derivative instruments to manage exposures to foreign currency only in an attempt to limit underlying exposures from currency fluctuations and not for trading purposes. Gains or losses on forward foreign exchange contracts to economically hedge foreign currency-denominated assets and liabilities are recognized in Other Current Assets and Other Current Liabilities within the Consolidated Balance Sheets and are recognized in Other Income (Expense) under Net Foreign Currency Transaction Gains (Losses) within the Consolidated Statements of Operations. As of December 31, 2011 the fair value of such contracts outstanding was an asset of \$1,015 and a liability of \$102. As of December 31, 2010 the fair value of such contracts outstanding was a liability of \$420. We recognized a net loss of \$1,444 during 2011, a net gain of \$1,216 during 2010 and a net loss of \$2,932 during 2009. At December 31, 2011 and 2010, the notional amounts of foreign currency forward exchange contracts outstanding were \$45,524 and \$40,325, respectively.

The carrying amounts reported in the Consolidated Balance Sheets for Cash and Cash Equivalents, Restricted Cash, Accounts Receivable, Other Current Assets, Accounts Payable and Other Current Liabilities approximate fair value.

The fair market value of our Long-Term Debt approximates cost, based on the borrowing rates currently available to us for bank loans with similar terms and remaining maturities.

11. Retirement Benefit Plans

Substantially all U.S. employees are covered by various retirement benefit plans, including defined benefit pension plans, post-retirement medical plans and defined contribution savings plans. Retirement benefits for eligible employees in foreign locations are funded principally through defined benefit plans, annuity or government programs. The total cost of benefits for our plans was \$11,131, \$11,231 and \$10,101 in 2011, 2010 and 2009, respectively.

We have a qualified, funded defined benefit retirement plan (the “U.S. Pension Plan”) in the U.S. covering certain current and retired employees. Plan benefits are based on the years of service and compensation during the highest five consecutive years of service in the final ten years of employment. No new participants have entered the plan since 2000. The plan has approximately 450 participants including 114 active employees as of December 31, 2011.

We have a U.S. postretirement medical benefit plan (the “U.S. Retiree Plan”) to provide certain healthcare benefits for U.S. employees hired before January 1, 1999. Eligibility for those benefits is based upon a combination of years of service with Tennant and age upon retirement.

Our defined contribution savings plan (“401(k)”) covers substantially all U.S. employees. Under this plan, we match up to 3% of the employee’s compensation in stock or cash to be invested per their election. Historically, matching contributions have been primarily funded by our ESOP Plan. However, as of December 31, 2009, all shares have been allocated. Additional disclosures about the ESOP Plan can be found in Note 16 of the Consolidated Financial Statements. Starting in 2010, the matching contributions to the 401(k) are funded primarily with cash. We also make a profit sharing contribution to the 401(k) plan for employees with more than one year of service in accordance with our Profit Sharing Plan. This contribution is based upon our financial performance and can be funded in the form of Tennant stock, cash or a combination of both. Expenses for the 401(k) plan were \$6,864, \$7,073 and \$6,676 during 2011, 2010 and 2009, respectively.

We have a U.S. nonqualified supplemental benefit plan (the “U.S. Nonqualified Plan”) to provide additional retirement benefits for certain employees whose benefits under our 401(k) plan or U.S. Pension Plan are limited by either the Employee Retirement Income Security Act or the Internal Revenue Code.

We also have defined pension benefit plans in the United Kingdom and Germany (the “U.K. Pension Plan” and the “German Pension Plan”). The U.K. Pension Plan and German Pension Plan cover certain current and retired employees and both plans are closed to new participants.

On March 23, 2010, the Patient Protection and Affordable Care Act (the “PPACA”) was signed into law, and, on March 30, 2010, the Health Care and Education Reconciliation Act of 2010 (the “HCERA” and, together with PPACA, the “Acts”), which makes various amendments to certain aspects of the PPACA, was signed into law. The Acts effectively change the tax treatment of federal subsidies paid to sponsors of retiree health benefit plans that provide prescription drug benefits that are at least actuarially equivalent to the corresponding benefits provided under Medicare Part D. Under the Acts, an employer’s income tax deduction for the costs of providing Medicare Part D-equivalent prescription drug benefits to retirees will be reduced by the amount of the federal subsidy beginning in 2013. Under U.S. GAAP, any impact from a change in tax law must be recognized in earnings in the period enacted regardless of the effective date. The Acts did not have a material impact on our financial position or results of operations.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

We expect to contribute approximately \$1,742 to our U.S. Pension Plan, \$129 to our U.S. Nonqualified Plan, \$841 to our U.S. Retiree Plan, \$214 to our U.K. Pension Plan and \$38 to our German Pension Plan in 2012.

Weighted-average asset allocations by asset category of the U.S. and U.K. Pension Plans as of December 31, 2011 are as follows:

Asset Category	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash and Cash Equivalents	\$ 533	\$ 533	\$ -	\$ -
Equity Securities:				
U.S. Small-Cap (1)	445	445	-	-
U.S. Mid-Cap (1)	2,761	2,761	-	-
U.S. Large-Cap (1)	179	179	-	-
International Small-Cap (2)	116	116	-	-
Mutual Funds:				
Corporate Bonds	11,557	11,557	-	-
U.S. Large-Cap (3)	12,646	12,646	-	-
Investment Account held by Pension Plan (4)	7,738	-	7,738	-
Total	\$ 35,975	\$ 28,237	\$ 7,738	\$ -

(1) This category is comprised of actively managed domestic common stocks.

(2) This category is comprised of actively managed international common stocks.

(3) This category is comprised of funds not actively managed that track the S&P 500.

(4) This category is comprised of foreign and domestic equities and foreign and domestic fixed interest assets.

The primary objective of our U.S. and U.K. Pension Plans is to meet retirement income commitments to plan participants at a reasonable cost to Tennant and to maintain a sound actuarially funded status. This objective is accomplished through growth of capital and safety of funds invested. The pension plan assets are invested in securities to achieve growth of capital over inflation through appreciation and accumulation and reinvestment of dividend and interest income. Investments are diversified to control risk. The overall return objective is to achieve an annualized return equal to or greater than the return expectations in the actuarial valuation. The target allocation for the U.S. Pension Plan is 60% equity and 40% debt securities. Equity securities within the U.S. Pension Plan do not include any investments in Tennant Company Common Stock. The U.K. Pension Plan is invested in an insurance contract with underlying investments primarily in equity and fixed income securities. Our German Pension Plan is unfunded, which is customary in that country.

Weighted-average assumptions used to determine benefit obligations as of December 31 are as follows:

U.S. Pension Benefits	Non-U.S. Pension Benefits	Postretirement Medical Benefits
-----------------------	------------------------------	------------------------------------

Edgar Filing: TENNANT CO - Form 10-K

	2011		2010		2011		2010		2011		2010	
Discount rate	4.39	%	5.39	%	4.94	%	5.39	%	4.20	%	5.00	%
Rate of compensation increase	3.00	%	3.00	%	4.60	%	5.10	%	-		-	

Weighted-average assumptions used to determine net periodic benefit costs as of December 31 are as follows:

	U.S. Pension Benefits			Non-U.S. Pension Benefits			Postretirement Medical Benefits		
	2011	2010	2009	2011	2010	2009	2011	2010	2009
Discount rate	5.39%	5.88%	6.90%	5.39%	5.69%	6.16%	5.00%	5.60%	6.90%
Expected long-term rate of return on plan assets	7.70%	7.70%	8.75%	5.20%	5.50%	4.90%	-	-	-
Rate of compensation increase	3.00%	3.00%	4.00%	5.10%	5.10%	4.50%	-	-	-

The discount rate is used to discount future benefit obligations back to today's dollars. Our discount rates were determined based on high-quality fixed income investments. The resulting discount rates are consistent with the duration of plan liabilities. The Citigroup Above Median Yield Curve is used in determining the discount rate for the U.S. Plans.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The accumulated benefit obligations as of December 31, for all defined benefit plans are as follows:

	2011	2010
U.S. Pension Plans	\$42,909	\$37,472
U.K. Pension Plan	7,858	7,498
German Pension Plan	652	676

Information for our plans with an accumulated benefit obligation in excess of plan assets as of December 31, is as follows:

	U.S. Pension Plans		Non-U.S. Plans	
	2011	2010	2011	2010
Projected benefit obligation	\$44,280	\$38,885	\$8,775	\$8,394
Accumulated benefit obligation	42,909	37,472	8,510	8,174
Fair value of plan assets	28,237	29,483	7,738	6,917

As of December 31, 2011 and 2010, the U.S. Pension Plan, the U.S. Nonqualified, U.K. Pension and German Pension Plans had an accumulated benefit obligation in excess of plan assets.

Assumed healthcare cost trend rates as of December 31, are as follows:

	2011		2010	
Healthcare cost trend rate assumption for the next year	10.14	%	11.25	%
Rate to which the cost trend rate is assumed to decline (the ultimate trend rate)	5.00	%	5.00	%
Year that the rate reaches the ultimate trend rate	2031		2031	

Assumed healthcare cost trend rates have a significant effect on the amounts reported for healthcare plans. To illustrate, a one-percentage-point change in assumed healthcare cost trends would have the following effects:

	1-Percentage-Point Decrease		1-Percentage-Point Increase	
Effect on total of service and interest cost components	\$	(65)) \$	75
Effect on postretirement benefit obligation	\$	(1,121)) \$	1,288

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

12. Shareholders' Equity

Authorized Shares

We are authorized to issue an aggregate of 61,000,000 shares; 60,000,000 are designated as Common Stock, having a par value of \$0.375 per share, and 1,000,000 are designated as Preferred Stock, having a par value of \$0.02 per share. The Board of Directors is authorized to establish one or more series of preferred stock, setting forth the designation of each such series, and fixing the relative rights and preferences of each such series.

Purchase Rights

On November 10, 2006, the Board of Directors approved a Rights Agreement and declared a dividend of one preferred share purchase right for each outstanding share of Common Stock. Each right entitles the registered holder to purchase from us one one-hundredth of a Series A Junior Participating Preferred Share of the par value of \$0.02 per share at a price of \$100 per one one-hundredth of a Preferred Share, subject to adjustment. The rights are not exercisable or transferable apart from the Common Stock until the earlier of: (i) the close of business on the fifteenth day following a public announcement that a person or group of affiliated or associated persons has become an "Acquiring Person" (i.e., has become, subject to certain exceptions, including for stock ownership by employee benefit plans, the beneficial owner of 20% or more of the outstanding Common Stock), or (ii) the close of business on the fifteenth day following the first public announcement of a tender offer or exchange offer the consummation of which would result in a person or group of affiliated or associated persons becoming, subject to certain exceptions, the beneficial owner of 20% or more of the outstanding Common Stock (or such later date as may be determined by our Board of Directors prior to a person or group of affiliated or associated persons becoming an Acquiring Person). After a person or group becomes an Acquiring Person, each holder of a Right (other than an Acquiring Person) will be able to exercise the right at the current exercise price of the Right and receive the number of shares of Common Stock having a market value of two times the exercise price of the right, or, depending upon the circumstances in which the rights became exercisable, the number of common shares of the acquiring company having a market value of two times the exercise price of the right. At no time do the rights have any voting power. We may redeem the rights for \$0.001 per right at any time prior to a person or group acquiring 20% or more of the Common Stock. Under certain circumstances, the Board of Directors may exchange the rights for our Common Stock or reduce the 20% thresholds to not less than 10%. The rights will expire on December 26, 2016, unless extended or earlier redeemed or exchanged by us.

13. Commitments and Contingencies

We lease office and warehouse facilities, vehicles and office equipment under operating lease agreements, which include both monthly and longer-term arrangements. Leases with initial terms of one year or more expire at various dates through 2020 and generally provide for extension options. Rent expense under the leasing agreements (exclusive of real estate taxes, insurance and other expenses payable under the leases) amounted to \$17,375, \$16,215 and \$14,809 in 2011, 2010 and 2009, respectively.

The minimum rentals for aggregate lease commitments as of December 31, 2011, were as follows:

2012	\$7,937
2013	4,628
2014	2,811

2015	1,622
2016	774
Thereafter	857
Total	\$18,629

Certain operating leases for vehicles contain residual value guarantee provisions, which would become due at the expiration of the operating lease agreement if the fair value of the leased vehicles is less than the guaranteed residual value. The aggregate residual value at lease expiration of those leases is \$8,000, of which we have guaranteed \$6,208. As of December 31, 2011, we have recorded a liability for the estimated end-of-term loss related to this residual value guarantee of \$895 for certain vehicles within our fleet. Our fleet also contains vehicles we estimate will settle at a gain. Gains on these vehicles will be recognized at the end of the lease term.

On November 9, 2009 we entered into a purchase agreement with a third-party manufacturer. Under this agreement we have a minimum purchase obligation of \$1,580 through 2012. There is no remaining commitment under this agreement as of December 31, 2011.

In the ordinary course of business, we may become liable with respect to pending and threatened litigation, tax, environmental and other matters. While the ultimate results of current claims, investigations and lawsuits involving us are unknown at this time, we do not expect that these matters will have a material adverse effect on our consolidated financial position or results of operations. Legal costs associated with such matters are expensed as incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

14. Income Taxes

Income from continuing operations for the three years ended December 31, was as follows:

	2011	2010	2009
U.S. operations	\$ 40,282	\$ 26,297	\$ 12,103
Foreign operations	8,448	8,430	(36,423)
Total	\$ 48,730	\$ 34,727	\$ (24,320)

Income tax expense (benefit) for the three years ended December 31, was as follows:

	2011	2010	2009
Current:			
Federal	\$ 10,321	\$ 6,756	\$(337)
Foreign	2,277	3,005	1,284
State	1,450	1,214	236
	\$ 14,048	\$ 10,975	\$ 1,183
Deferred:			
Federal	\$ 2,330	\$(10,541)	\$ 1,897
Foreign	(203)	(248)	(1,444)
State	(158)	(262)	285
	\$ 1,969	\$(11,051)	\$ 738
Total:			
Federal	\$ 12,651	\$(3,785)	\$ 1,560
Foreign	2,074	2,757	(160)
State	1,292	952	521
	\$ 16,017	\$(76)	\$ 1,921

U.S. income taxes have not been provided on approximately \$22,282 of undistributed earnings of non-U.S. subsidiaries. We do not have any plans to repatriate the undistributed earnings. Any repatriation from foreign subsidiaries that would result in incremental U.S. taxation is not being considered. It is management's belief that reinvesting these earnings outside the U.S. is the most efficient use of capital.

We have Dutch and German tax loss carryforwards of approximately \$6,460 and \$15,271, respectively. If unutilized, the Dutch tax loss carryforward will expire after 9 years. The German tax loss carryforward has no expiration date. Because of the uncertainty regarding realization of the Dutch tax loss carryforward, a valuation allowance was established. This valuation allowance decreased in 2011 due to results of operations and an intercompany transaction that had no impact on 2011 Net Earnings.

We have foreign tax credit carryforwards of approximately \$8,554. If unutilized, foreign tax credit carryforwards will expire in 2020. Based upon evaluation, as of December 31, 2011, no valuation allowance has been recorded.

A valuation allowance for the remaining deferred tax assets is not required since it is more likely than not that they will be realized through carryback to taxable income in prior years, future reversals of existing taxable temporary differences and future taxable income.

Edgar Filing: TENNANT CO - Form 10-K

Our effective income tax rate varied from the U.S. federal statutory tax rate for the three years ended December 31, was as follows:

	2011		2010		2009	
Tax at statutory rate	35.0	%	35.0	%	(35.0	%)
Increases (decreases) in the tax rate from:						
State and local taxes, net of federal benefit	2.0		0.7		1.1	
Effect of foreign operations	0.5		0.5		(7.0)
International restructuring	-		(31.4)	(9.4)
Goodwill impairment - non-deductible	-		-		56.9	
Effect of changes in valuation allowances	-		0.1		(0.7)
Domestic production activities deduction	(1.6)	(3.0)	0.8	
Other, net	(3.0)	(2.1)	1.2	
Effective income tax rate	32.9	%	(0.2	%)	7.9	%

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

Deferred tax assets and liabilities were comprised of the following as of December 31:

	2011	2010	2009
Deferred tax assets:			
Inventories, principally due to additional costs inventoried for tax purposes and changes in inventory reserves	\$ 426	\$ 1,081	\$ 867
Employee wages and benefits, principally due to accruals for financial reporting purposes	20,910	17,948	16,050
Warranty reserves accrued for financial reporting purposes	2,625	2,175	1,803
Accounts receivable, principally due to allowance for doubtful accounts and tax accounting method for equipment rentals	1,464	1,252	1,396
Tax loss carryforwards	5,915	12,725	12,987
Valuation allowance	(3,229)	(9,170)	(9,131)
Tax credit carryforwards	8,554	10,119	2,385
Other	1,777	1,937	1,177
Total deferred tax assets	\$ 38,442	\$ 38,067	\$ 27,534
Deferred tax liabilities:			
Property, Plant and Equipment, principally due to differences in depreciation and related gains	\$ 9,167	\$ 8,562	\$ 8,592
Goodwill and Intangible Assets	7,093	8,390	9,086
Total deferred tax liabilities	\$ 16,260	\$ 16,952	\$ 17,678
Net deferred tax assets	\$ 22,182	\$ 21,115	\$ 9,856

The valuation allowance at December 31, 2011, principally applies to Dutch tax loss carryforwards that, in the opinion of management, are more likely than not to expire unutilized. However, to the extent that tax benefits related to these carryforwards are realized in the future, the reduction in the valuation allowance will reduce income tax expense.

In 2011 and 2010 we recorded tax benefits directly to Shareholders' Equity of \$1,266 and \$1,724, respectively, relating to our stock plans. In 2009, we recorded tax benefits directly to Shareholders' Equity of \$120 relating to our ESOP and stock plans.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

Balance at January 1, 2011	\$5,272
Decreases as a result of tax positions taken during a prior period	(765)
Increases as a result of tax positions taken during the current year	828
Decreases for tax positions related to acquired entities during a prior period	-
Decreases relating to settlements with taxing authorities	(193)
Reductions as a result of a lapse of the applicable statute of limitations	(1,551)
Decreases as a result of foreign currency fluctuations	(167)
Balance at December 31, 2011	\$3,424

Included in the balance of unrecognized tax benefits at December 31, 2011 are potential benefits of \$3,209 that, if recognized, would affect the effective tax rate from continuing operations.

We recognize potential accrued interest and penalties related to unrecognized tax benefits as a component of income tax expense. In addition to the liability of \$3,424 for unrecognized tax benefits as of December 31, 2011 was approximately \$427 for accrued interest and penalties. To the extent interest and penalties are not assessed with respect to uncertain tax positions, the amounts accrued will be revised and reflected as an adjustment to income tax expense.

We are subject to U.S. federal income tax as well as income tax of numerous state and foreign jurisdictions. We are generally no longer subject to U.S. federal tax examinations for taxable years before 2008 and with limited exceptions, state and foreign income tax examinations for taxable years before 2004.

The Internal Revenue Service has just begun an examination of our income tax return for the 2009 tax year. It is possible that the examination phase of the audit may conclude in the next 12 months, and that the related unrecognized tax benefits for tax positions taken may change from those recorded as liabilities for uncertain tax positions in our financial statements at December 31, 2011. Although the outcome of this matter cannot currently be determined, we believe adequate provision has been made for any potential unfavorable financial statement impact. We are currently undergoing income examinations in various state and foreign jurisdictions covering 2004 to 2010. Although the final outcome of these examinations cannot be currently determined, we believe that we have adequate reserves with respect to these examinations.

We do not anticipate that total unrecognized tax benefits will change significantly within the next 12 months.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

15. Stock-Based Compensation

We have five plans under which we have awarded share-based compensation grants: The 1995 Stock Incentive Plan (“1995 Plan”) and 1999 Amended and Restated Stock Incentive Plan (“1999 Plan”), which provided for stock-based compensation grants to our executives and key employees, the 1997 Non-Employee Directors Option Plan (“1997 Plan”), which provided for stock option grants to our non-employee Directors, the 2007 Stock Incentive Plan (“2007 Plan”) and the 2010 Stock Incentive Plan (“2010 Plan”), which were adopted as a continuing step toward aggregating our equity compensation programs to reduce the complexity of our equity compensation programs.

The 1995 and 1997 Plans were terminated in 2006 and all remaining shares were transferred to the Amended and Restated 1999 Stock Incentive Plan as approved by the shareholders in 2006. Awards granted under the 1995 and 1997 Plans prior to 2006 that remain outstanding continue to be governed by the respective plan under which the grant was made. Upon approval of the Amended and Restated Stock Incentive Plan in 2006, we ceased making grants of future awards under these plans and subsequent grants of future awards were made from the 1999 Plan and governed by its terms.

The 2007 Plan terminated our rights to grant awards under the 1999 Plan except that the 1999 Plan will remain available for grants of reload options upon exercise of previously granted options with one-time reload features. We have not granted options with reload features since March 1, 2004. Awards previously granted under the 1999 Plan remain outstanding and continue to be governed by the terms of that plan.

The 2010 Plan terminated our rights to grant awards under the 2007 Plan; however, any awards granted under the 2007 or 2010 Plans that do not result in the issuance of shares of Common Stock may again be used for an award under the 2010 Plan. A total of 1,000,000 shares were authorized for future awards under the 2010 Plan.

As of December 31, 2011, there were 768,024 shares reserved for issuance under the 1995 Plan, the 1997 Plan, the 1999 Plan and the 2007 Plan for outstanding compensation awards and 554,998 shares were available for issuance under the 2010 Plan for current and future equity awards. The Compensation Committee of the Board of Directors determines the number of shares awarded and the grant date, subject to the terms of our equity award policy.

We recognized total Stock-Based Compensation Expense of \$5,407, \$4,639 and \$2,291, respectively, during the years ended 2011, 2010 and 2009. The total income tax benefit recognized in the income statement for share-based compensation arrangements during the years ended 2011, 2010 and 2009 was \$1,266, \$1,724 and \$114, respectively.

Stock Option and Stock Appreciation Right Awards

We determined the fair value of our stock option awards using the Black-Scholes valuation model that uses the assumptions noted in the table below. The expected life selected for stock options granted during the year represents the period of time that the stock options are expected to be outstanding based on historical data of stock option holder exercise and termination behavior of similar grants. The risk-free interest rate for periods within the contractual life of the stock option is based on the U.S. Treasury rate over the expected life at the time of grant. Expected volatilities are based upon historical volatility of our stock over a period equal to the expected life of each stock option grant. Dividend yield is estimated over the expected life based on our dividend policy and historical dividends paid. We use historical data to estimate pre-vesting forfeiture rates and revise those estimates in subsequent periods if actual forfeitures differ from those estimates.

The following table illustrates the valuation assumptions used for the 2011, 2010 and 2009 grants:

	2011		2010		2009	
Expected volatility	49 - 50	%	46 - 68	%	38 - 66	%
Weighted-average expected volatility	49	%	46	%	39	%
Expected dividend yield	1.7 - 1.8	%	1.9 - 2.5	%	2.0 - 4.7	%
Weighted-average expected dividend yield	1.8	%	2.4	%	4.7	%
Expected term, in years	6		1 - 6		2 - 6	
Risk-free interest rate	1.3 - 2.5	%	0.4 - 2.9	%	1.1 - 2.8	%

Employee stock option awards prior to 2005 include a reload feature for options granted to key employees. This feature allows employees to exercise options through a stock-for-stock exercise using mature shares, and employees are granted a new stock option (reload option) equal to the number of shares of Common Stock used to satisfy both the exercise price of the option and the minimum tax withholding requirements. The reload options granted have an exercise price equal to the fair market value of the Common Stock on the grant date. Stock options granted in conjunction with reloads vest immediately and have a term equal to the remaining life of the initial grant.

Beginning in 2004, new stock option awards granted vest one-third each year over a three-year period and have a ten-year contractual term. These grants do not contain a reload feature. Compensation expense equal to the grant date fair value is recognized for these awards over the vesting period. Compensation expense is fully recognized for reload stock options as of the reload date.

In addition to stock options, we also occasionally grant cash-settled stock appreciation rights ("SARs") to employees in certain foreign locations. There were no outstanding SARs as of December 31, 2011 and no SARs were granted during 2011, 2010 or 2009.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The following table summarizes the activity during the year ended December 31, 2011 for stock option and SARs awards:

	Shares	Weighted-Average Exercise Price
Outstanding at beginning of year	1,402,452	\$ 17.74
Granted	153,936	40.28
Exercised	(242,597)	17.51
Forfeited	(44,871)	20.87
Outstanding at end of year	1,268,920	\$ 20.40
Exercisable at end of year	694,872	\$ 17.51

The weighted-average grant date fair value of stock options granted during the years ended December 31, 2011, 2010 and 2009 was \$16.67, \$9.62 and \$2.59, respectively. The total intrinsic value of stock options exercised during the years ended December 31, 2011, 2010 and 2009 was \$5,600, \$5,235 and \$631, respectively. The aggregate intrinsic value of options outstanding and exercisable at December 31, 2011 was \$23,646 and \$14,850, respectively. The weighted-average remaining contractual life for options outstanding and exercisable as of December 31, 2011, was 7 years and 5 years, respectively. As of December 31, 2011, there was unrecognized compensation cost for nonvested options and rights of \$3,143 which is expected to be recognized over a weighted-average period of 0.9 years.

Restricted Share Awards

Restricted share awards for employees generally have a three year vesting period from the effective date of the grant. Restricted share awards to non-employee directors vest upon a change of control or upon termination of service as a director occurring at least six months after grant date of the award so long as termination is for one of the following reasons: death; disability; retirement in accordance with Company policy (e.g., age, term limits, etc.); resignation at request of Board (other than for gross misconduct); resignation following at least six months' advance notice; failure to be renominated (unless due to unwillingness to serve) or reelected by shareholders; or removal by shareholders.

The following table summarizes the activity during the year ended December 31, 2011, for nonvested restricted share awards:

	Shares	Weighted-Average Grant Date Fair Value
Nonvested at beginning of year	145,641	\$ 24.50
Granted	29,365	40.43
Vested	(18,152)	35.83
Forfeited	(6,773)	21.19
Nonvested at end of year	150,081	\$ 26.39

The total fair value of shares vested during the year ended December 31, 2011, 2010 and 2009 was \$650, \$284 and \$629, respectively. As of December 31, 2011, there was \$1,327 of total unrecognized compensation cost related to nonvested shares which is expected to be recognized over a weighted-average period of 1.8 years.

Performance Share Awards

We grant performance share awards to key employees as a part of our long-term management compensation program. These awards are earned based upon achievement of certain financial performance targets. We determine the fair value of these awards as of the date of grant and recognize the expense over a three year performance period.

The 2011 performance share award covers the three year performance period from the beginning of fiscal year 2011 to the end of fiscal year 2013. Performance shares are granted in restricted stock units. They are payable in stock and vest solely upon achievement of certain financial performance targets during this three year period.

The 2010 performance share award covers the three year performance period from the beginning of fiscal year 2010 to the end of fiscal year 2012. Performance shares are granted in restricted stock units. They are payable in cash and vest solely upon achievement of certain financial performance targets during this three year period.

In 2009, we granted a combination of stock options, restricted stock awards and restricted stock units payable in cash to key employees as part of our management compensation program and did not grant performance share awards. These stock options and restricted share awards vest over a three year period and do not contain a performance requirement.

For the years ended 2010 and 2009, we did not recognize any expense for the 2008 performance share awards as we do not deem the achievement of the predetermined financial performance targets to be probable.

Share-Based Liabilities

As of December 31, 2011 and 2010, we had \$2,530 and \$664 in total share-based liabilities recorded on our Consolidated Balance Sheet, respectively. During the years ended December 31, 2011, 2010 and 2009 we paid out \$506, \$81 and \$22 related to 2009, 2008 and 2007 share-based liability awards, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

16. Employee Stock Ownership Plan

We established a leveraged Employee Stock Ownership Plan ("ESOP") in 1990. The ESOP covered substantially all domestic employees. The shares required for our 401(k) matching contribution program were provided principally by our ESOP, supplemented as needed by newly issued shares. We made annual contributions to the ESOP equal to the ESOP's debt service less dividends and Company match contributions received by the ESOP. All dividends received by the ESOP were used to pay debt service. The ESOP shares initially were pledged as collateral for its debt. As the debt was repaid, shares were released from collateral and allocated to employees who made 401(k) contributions that year, in the form of a matching contribution, based on the proportion of debt service paid in the year. Shares pledged as collateral were reported as unearned ESOP shares in the Consolidated Balance Sheets. As shares were released from collateral, we reported compensation expense equal to the cost of the shares to the ESOP. All ESOP shares were considered outstanding in earnings-per-share computations, and dividends on allocated and unallocated shares were recorded as a reduction of Retained Earnings.

The benefit provided through the ESOP was net of expenses and was recorded in Other Income. On December 31, 2009, the ESOP's twenty year loan matured and was repaid to us, completing the term for this ESOP.

The following table summarizes ESOP activity during the year ended December 31:

	2009
Cash contributions	\$1,717
Net benefit provided by ESOP	989
Interest earned and received on loan	190
Dividends	359

The ESOP shares as of December 31, 2009 were as follows:

	2009
Allocated shares	1,938,132
Unreleased shares	-
Total ESOP shares	1,938,132

17. Earnings (Loss) Per Share

The computations of Basic and Diluted Earnings (Loss) per Share for the years ended December 31, were as follows:

	2011	2010	2009
Numerator:			
Net Earnings (Loss)	\$ 32,713	\$ 34,803	\$ (26,241)
Denominator:			
Basic - Weighted Average Shares Outstanding	18,832,693	18,805,494	18,507,772
Effect of dilutive securities:			
Employee stock options	527,735	526,609	-
Diluted - Weighted Average Shares Outstanding	19,360,428	19,332,103	18,507,772
Basic Earnings (Loss) per Share	\$ 1.74	\$ 1.85	\$ (1.42)
Diluted Earnings (Loss) per Share	\$ 1.69	\$ 1.80	\$ (1.42)

Options to purchase 123,292, 264,447 and 502,103 shares of Common Stock were outstanding during 2011, 2010 and 2009, respectively, but were not included in the computation of diluted earnings per share. These exclusions are made if the exercise prices of these options are greater than the average market price of our Common Stock for the period, if the number of shares we can repurchase exceeds the weighted shares outstanding in the options, or if we have a net loss, as the effects are anti-dilutive.

18. Segment Reporting

We are organized into four operating segments: North America; Latin America; Europe, Middle East, Africa; and Asia Pacific. We combine our North America and Latin America operating segments into the “Americas” for reporting Net Sales by geographic area. In accordance with the objective and basic principles of the applicable accounting guidance, we aggregate our operating segments into one reportable segment that consists of the design, manufacture and sale of products used primarily in the maintenance of nonresidential surfaces.

The following table presents the Net Sales by operating segment for the years ended December 31:

	2011	2010	2009
Net Sales:			
Americas	\$ 481,426	\$ 424,462	\$ 366,034
Europe, Middle East, Africa	188,338	172,619	177,829
Asia Pacific	84,234	70,586	52,012
Total	\$ 753,998	\$ 667,667	\$ 595,875

The following table presents long lived assets by operating segment as of December 31:

	2011	2010	2009
Long-lived assets:			
Americas	\$98,855	\$98,258	\$106,080
Europe, Middle East, Africa	29,390	34,497	41,016
Asia Pacific	5,183	4,312	4,706
Total	\$133,428	\$137,067	\$151,802

Accounting policies of the operations in the various operating segments are the same as those described in Note 1 of the Consolidated Financial Statements. Net Sales are attributed to each operating segment based on the country from which the product is shipped and are net of intercompany sales. Information regarding sales to customers geographically located in the United States is provided in Item 1, Segment and Geographic Area Financial Information. No single customer represents more than 10% of our consolidated Net Sales. Long-lived assets consist of Property, Plant and Equipment, Goodwill, Intangible Assets and certain other assets.

The following table presents revenues for groups of similar products and services for the years ended December 31:

	2011	2010	2009
Net Sales:			
Equipment	\$452,398	\$389,137	\$329,871
Parts and consumables	177,999	160,994	151,932
Service and other	100,650	96,828	95,046
Specialty surface coatings	22,951	20,708	19,026
Total	\$753,998	\$667,667	\$595,875

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

19. Consolidated Quarterly Data (Unaudited)

	2011			
	Q1	Q2	Q3	Q4
Net Sales	\$172,591	\$201,259	\$186,990	\$193,158
Gross Profit	\$71,931	\$83,468	\$80,253	\$83,529
Net Earnings	\$5,866	\$5,855	\$9,728	\$11,264
Basic Earnings per Share	\$0.31	\$0.31	\$0.52	\$0.60
Diluted Earnings per Share	\$0.30	\$0.30	\$0.50	\$0.59

	2010			
	Q1	Q2	Q3	Q4
Net Sales	\$ 150,106	\$ 166,137	\$ 168,637	\$ 182,789
Gross Profit	\$ 63,760	\$ 71,543	\$ 71,862	\$ 77,162
Net Earnings	\$ 4,091	\$ 6,175	\$ 7,526	\$ 17,012
Basic Earnings per Share	\$ 0.22	\$ 0.33	\$ 0.40	\$ 0.91
Diluted Earnings per Share	\$ 0.21	\$ 0.32	\$ 0.39	\$ 0.89

The summation of quarterly data may not equate to the calculation for the full fiscal year as quarterly calculations are performed on a discrete basis.

Regular quarterly dividends aggregated \$0.68 per share in 2011, or \$0.17 each quarter, and \$0.59 per share in 2010, or \$0.14 per share for the first three quarters of 2010 and \$0.17 for the fourth quarter of 2010.

20. Related Party Transactions

Our May 31, 2011 acquisition of Water Star includes installment payments totaling \$1,500 to the former owners of Water Star, as further discussed in Note 4. As of the acquisition date, the former owners of Water Star are current employees of Tennant.

On September 15, 2010, we entered into an agreement with a then current employee for the right to manufacture and sell a product developed by the employee prior to becoming employed by Tennant. As of December 31, 2010, this individual was no longer an employee of Tennant. Product fee payments made under this agreement are not material to our financial position or results of operations.

On May 18, 2009, we announced an exclusive technology license agreement with Global Opportunities Investment Group, LLC. A current employee of Tennant owns a minority interest in Activeion Cleaning Solutions, LLC ("Activeion"), a wholly-owned subsidiary of Global Opportunities Investment Group, LLC. Royalties under this license agreement are not material to our financial position or results of operations.

During the first quarter of 2008, we acquired Sociedade Alfa Ltda. and entered into lease agreements for certain properties owned by or partially owned by the former owners of this entity. Some of these individuals are current employees of Tennant. Lease payments made under these lease agreements are not material to our financial position or results of operations.

ITEM 9 – Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

ITEM 9A – Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Principal Financial and Accounting Officer, have evaluated the effectiveness of our disclosure controls and procedures for the period ended December 31, 2011 (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”). Based on that evaluation, our Chief Executive Officer and our Principal Financial and Accounting Officer have concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our principal executive and our principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control

There were no significant changes in our internal control over financial reporting during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management’s Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our principal executive officer and principal accounting and financial officer, we conducted an assessment of the effectiveness of our internal control over financial reporting based on the framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our assessment under the framework in Internal Control – Integrated Framework (COSO), our management concluded that our internal control over financial reporting was effective as of December 31, 2011.

KPMG LLP, an independent registered public accounting firm, has audited the consolidated financial statements included in this annual report on Form 10-K and, as a part of this audit, has issued their report, included in Item 8, on the effectiveness of our internal control over financial reporting.

ITEM 9B – Other Information

None.

PART III

ITEM 10 – Directors, Executive Officers and Corporate Governance

The sections entitled “Board of Directors Information” and “Section 16(a) Beneficial Ownership Reporting Compliance” in our 2012 Proxy Statement are incorporated herein by reference.

The list below identifies those persons designated as executive officers of the Company, including their age, position with the Company and positions held by them during the past five or more years.

Thomas J. Dybsky, Vice President, Administration

Thomas J. Dybsky (62) joined the Company in September 1998 as Vice President of Human Resources and was named Vice President of Administration in 2004. From June 1995 to September 1998, he was Vice President/Senior Consultant for MDA Consulting.

Andrew J. Eckert, Vice President, The Americas

Andrew J. Eckert (48) joined the Company in 2002 as General Manager, North America. He was promoted to Vice President, North America Sales in 2005, assumed responsibility for North America Sales and Service in 2007 and now serves as Vice President, The Americas. From 2000 to 2002, he was the Senior Vice President of Operations at Storecast Merchandising Company, a national retail merchandising service contractor for the grocery industry. Prior to that, he was Director of Strategic Planning at General Mills and led the automation and cost-reduction efforts for U.S. trade promotional spending. He began his sales career in 1985 at General Mills in Houston, TX, and held a variety of increasing responsibilities including Customer Sales Manager for Fleming Companies and American Stores.

H. Chris Killingstad, President and Chief Executive Officer

H. Chris Killingstad (56) joined the Company in April 2002 as Vice President, North America and was named President and CEO in 2005. From 1990 to 2002, he was employed by The Pillsbury Company, a consumer foods manufacturer. From 1999 to 2002 he served as Senior Vice President and General Manager of Frozen Products for Pillsbury North America; from 1996 to 1999 he served as Regional Vice President and Managing Director of Pillsbury Europe, and from 1990 to 1996 was Regional Vice President of Haagen-Dazs Asia Pacific. He held the position of International Business Development Manager at PepsiCo Inc., from 1982-1990 and Financial Manager for General Electric, from 1978-1980.

Thomas Paulson, Vice President and Chief Financial Officer

Thomas Paulson (55) joined the Company in March 2006. Prior to joining Tennant, Paulson was Chief Financial Officer and Senior Vice President of Innovex from 2001 to 2006. Prior to joining Innovex, a manufacturer of electronic interconnect solutions, Paulson worked for The Pillsbury Company for over 19 years. Paulson became a

Vice President at Pillsbury in 1995 and was the Vice President of Finance for the \$4 billion North American Foods Division for over two years before joining Innovex.

Table of Contents

Michael W. Schaefer, Vice President, Chief Technical Officer

Mike Schaefer (51) joined the Company in January 2008 as Vice President, Chief Technical Officer. From 2000 to January 2008, he was Vice President of Dispensing Systems, Lean Six Sigma and Quality at Ecolab, Inc., a provider of cleaning, sanitizing, food safety and infection prevention products and services, where he led R&D efforts for their equipment business, continuous improvement and standardization of R&D processes. Prior to that he held various management positions at Alticor Corporation and Kraft General Foods.

Don B. Westman, Vice President, Global Operations

Don B. Westman (58) joined the Company in November 2006 as Vice President, Global Operations. Prior to joining Tennant, he was Vice President of Operations – Pump Division for Pentair, Inc., a provider of products and services for the movement, treatment and storage of water, from 2005 to November 2006. From 2003 to 2005, he was Vice President of Operations – Pentair Water. From 1997 to 2003, Westman was Vice President of Operations for Hoffmans Enclosures, where he began in 1982 as a manufacturing engineering manager.

Heidi M. Wilson, Vice President, General Counsel and Secretary

Heidi M. Wilson (61) joined the Company in 2003 as Assistant General Counsel and Assistant Secretary and was named General Counsel in 2005. She was a partner with General Counsel Ltd. during 2003. From 1995 to 2001, she was Vice President, General Counsel and Secretary at Musicland Group, Inc. From 1993 to 1995, she was Senior Legal Counsel at Medtronic, Inc. Prior to that, she was a partner at Faegre & Benson L.L.P., a Minneapolis law firm, which she joined in 1976.

Richard H. Zay, Vice President, Global Marketing

Richard H. Zay (41) joined the Company in June 2010 as Vice President, Global Marketing. From 2006 to June 2010, he held various positions with Whirlpool Corporation, a manufacturer of major home appliances, most recently as General Manager, KitchenAid Brand. From 1993 to 2006, he held various positions with Maytag Corporation, including Vice President, Jenn-Air Brand, Director of Marketing, Maytag Brand, and Director of Cooking Category Management.

Business Ethics Guide

We have adopted the Tennant Company Business Ethics Guide, which applies to all of our employees, directors, consultants, agents and anyone else acting on our behalf. The Business Ethics Guide includes particular provisions applicable to our senior financial management, which includes our Chief Executive Officer, Chief Financial Officer, Controller and other employees performing similar functions. A copy of our Business Ethics Guide is available on the Investor Relations page of our website, www.tennantco.com, and a copy will be mailed upon request to Investor Relations, Tennant Company, P.O. Box 1452, Minneapolis, MN 55440-1452. We intend to post on our website any amendment to, or waiver from, a provision of our Business Ethics Guide that applies to our Principal Executive Officer, Principal Financial Officer, Principal Accounting Officer, Controller and other persons performing similar functions promptly following the date of such amendment or waiver. In addition, we have also posted copies of our Corporate Governance Principles and the Charters for our Audit, Compensation, Governance and Executive Committees on our website.

ITEM 11 – Executive Compensation

1. Financial Statements

Consolidated Financial Statements filed as part of this report are contained in Item 8 of this annual report on Form 10-K.

2. Financial Statement Schedule

Schedule II – Valuation and Qualifying Accounts

(In thousands)	2011	2010	2009
Allowance for Doubtful Accounts and Returns:			
Balance at beginning of year	\$ 4,311	\$ 5,077	\$ 7,319
Charged to costs and expenses	1,888	1,403	996
Charged to other accounts (1)	(91)	(200)	257
Deductions (2)	(1,279)	(1,969)	(3,495)
Balance at end of year	\$ 4,829	\$ 4,311	\$ 5,077
Inventory Reserves:			
Balance at beginning of year	\$ 3,693	\$ 3,997	\$ 5,127
Charged to costs and expenses	4,212	3,462	2,674
Charged to other accounts (1)	(102)	(263)	173
Deductions (3)	(3,630)	(3,503)	(3,977)
Balance at end of year	\$ 4,173	\$ 3,693	\$ 3,997
Valuation Allowance for Deferred Tax Assets:			
Balance at beginning of year	\$ 9,170	\$ 9,131	\$ 9,303
Charged to other accounts (4)	(5,941)	39	(172)
Balance at end of year	\$ 3,229	\$ 9,170	\$ 9,131

(1) Primarily includes impact from foreign currency fluctuations.

(2) Includes accounts determined to be uncollectible and charged against reserves, net of collections on accounts previously charged against reserves.

(3) Includes inventory identified as excess, slow moving or obsolete and charged against reserves.

(4) Includes a valuation allowance decreased in 2011 due to results of operations and an intercompany transaction that had no impact on 2011 Net Earnings. Prior years were primarily the impact from foreign currency fluctuations.

All other schedules are omitted because they are not applicable or the required information is shown in the Consolidated Financial Statements or notes thereto.
